Homecoming Assembly 2019

Students announce the event and introduce some of Benson's sports teams.

One of the many fun games, the bumper bubbles game gets the students and crowd laughing.

Mr. Smith surveys the playing field.

Having trouble Mr. Smith!?

Our mascot leads the march of the athletes.

Skill and practice make this part of the event a true art form and emulates Benson School spirit.

Some of our teachers appear to be enjoying the event.

Seniors are having a good time! We wish you all the very best and hope y'all come back for Tech shows and visits in the future.

Seniors rule!!!! Are you ready for what is to come next?!

Looks like Jacqueline and Marelyn have got it figured out already.

Oh what a year!

2019-2020 made quite a mark on history. Divisive politics, virus outbreaks, protests, and technology advancements. New shows, new books, new music, new everything as we welcome a new decade. Certain musical artists gain popularity on video-sharing app TikTok. The app also became a humorous outlet for many users. As we enter the 2020s, many recall the "roaring 20s" or the 1920s in American history. With themed parties hosted around New Years Day. Change is coming, for better or for worse. Here at Benson we look forward to the 100th Tech Show and our sports and scholastic teams representing Benson on the State and National level.

2019 and 2020

On September 23rd Climate activist and Swedish student Greta Thunberg (pictured right) spoke to the United Nations on our current crisis. Saying, "This is all wrong. I shouldn't be up here. I should be back in school on the other side of the ocean. ...You have stolen my dreams and my childhood with your empty words and yet I'm one of the lucky ones. ... We are in the beginning of a mass extinction and all you can talk about is money and fairytales of eternal economic growth. How dare you!"

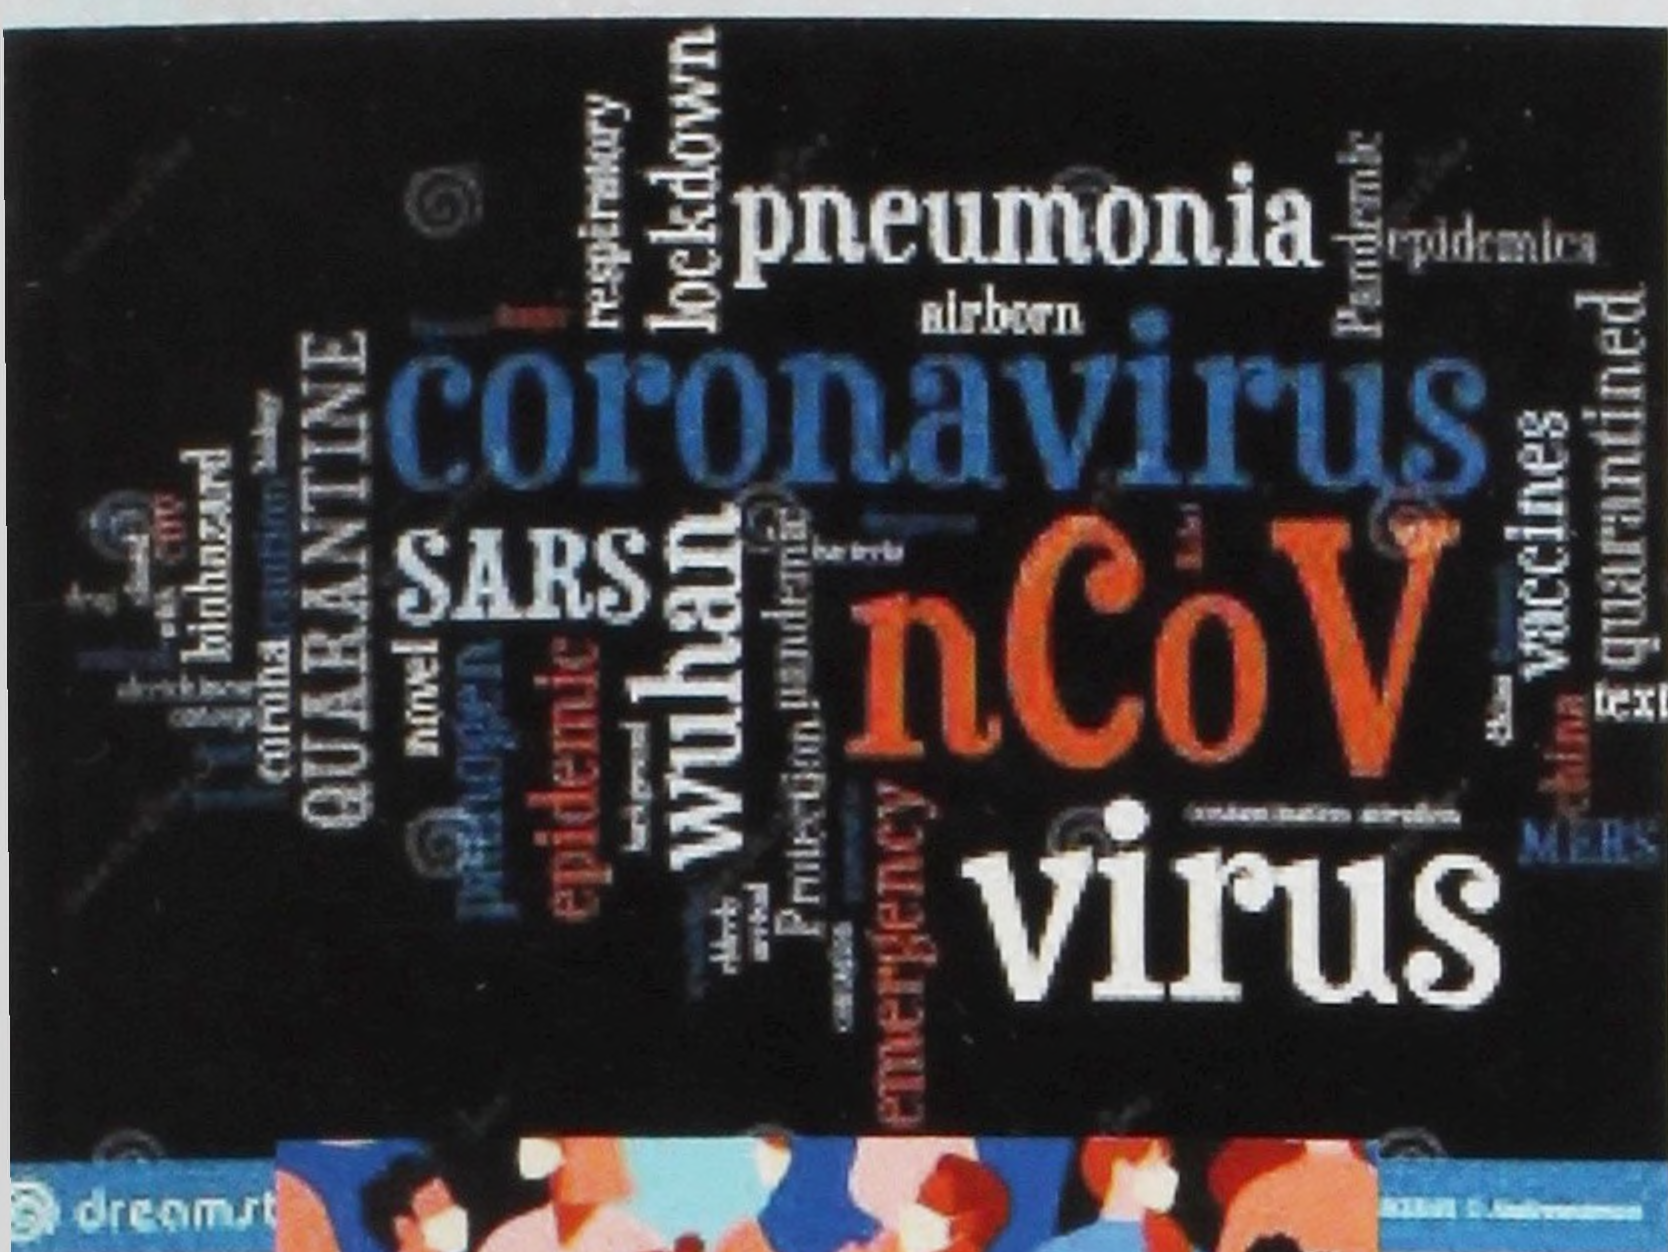

Prince Henry and his wife Meghan Markle announced early 2020 that they are stepping back from their senior royal family member roles due to "personal splits". Both plan to repay taxpayers for cost associated with their house refurbishment and will lose their royal titles.

On October 18th Astronauts Christina Koch and Jessica Meir became the first to complete an all-female spacewalk. Meir said to president Donald Trump while on a call that "we hope that we can provide an inspiration to everybody, not only women, but to everybody that has a dream ... and who is willing to work hard ... this is my first flight and my very first spacewalk, so it is a pretty incredible feeling ... and it's one I will never forget."

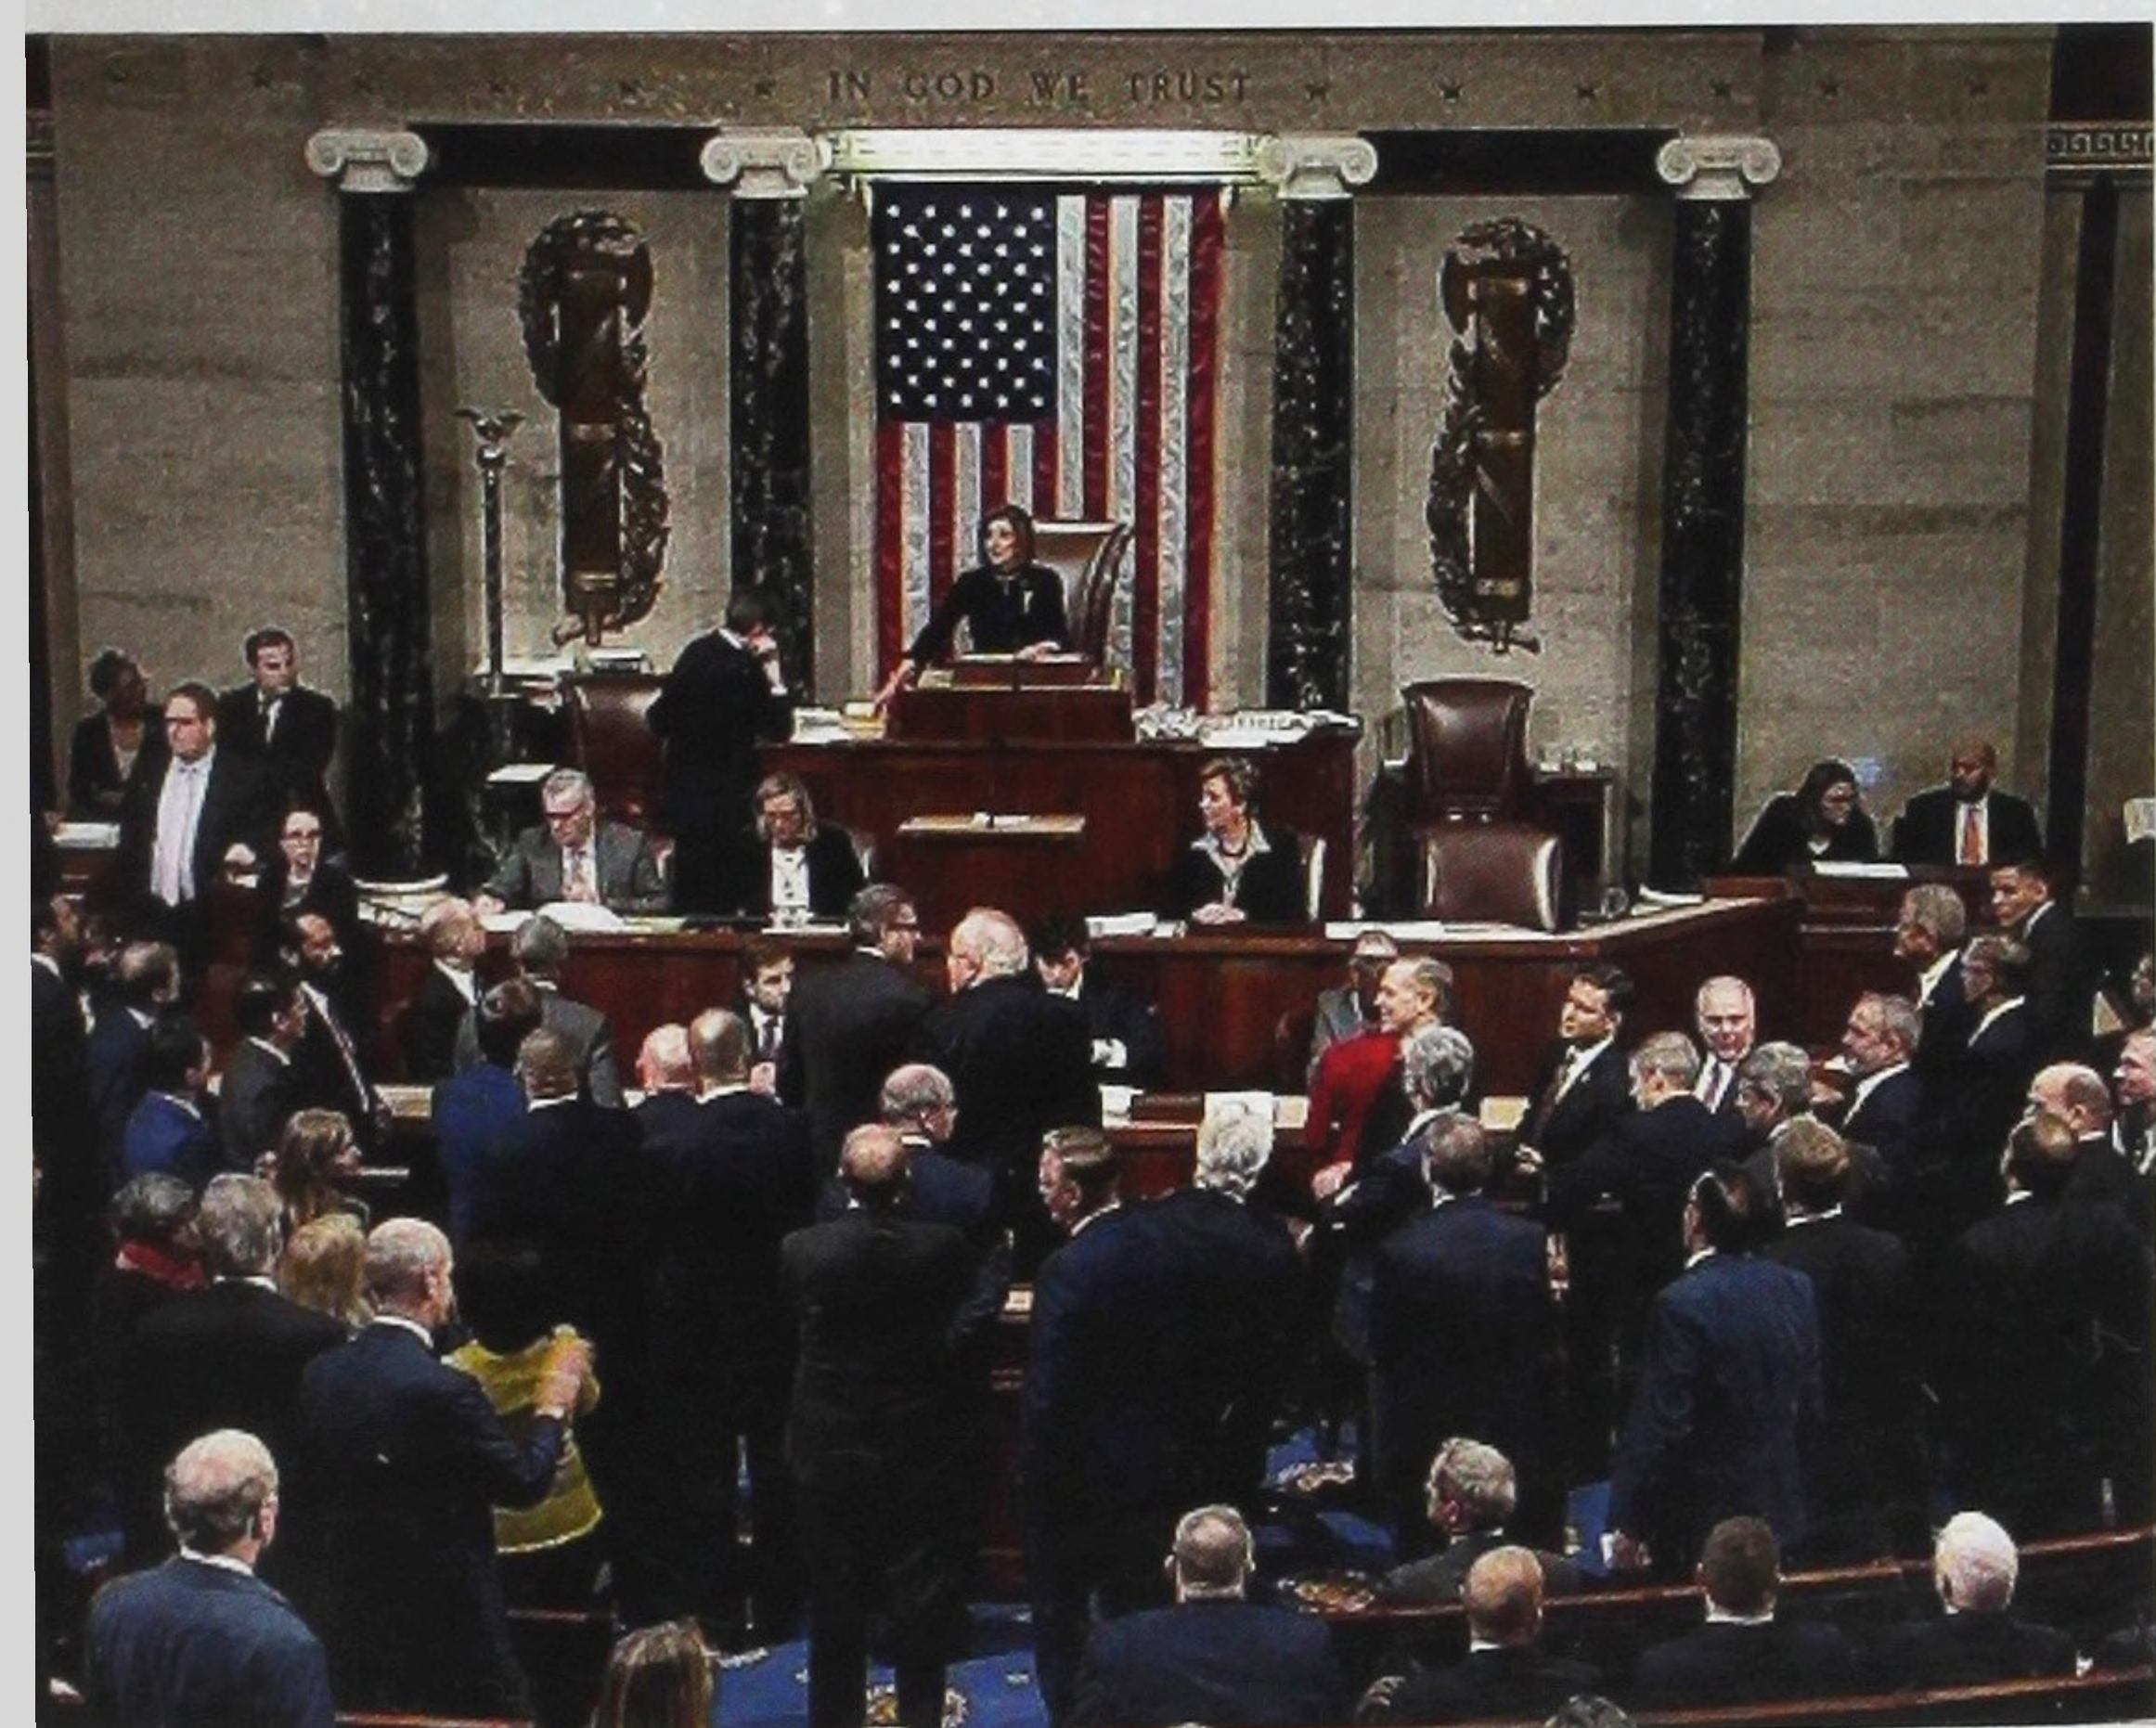

The Time Of Our Lives

Sanna Marin (pictured left) became the prime minister of Finland on 10 December 2019. At the time she was the youngest serving state leader at 34 years old. However that title was lost in January to Chancellor of Austria, Sebastian Kurz (pictured right). Kurz is now the youngest head of state at 33 years old.

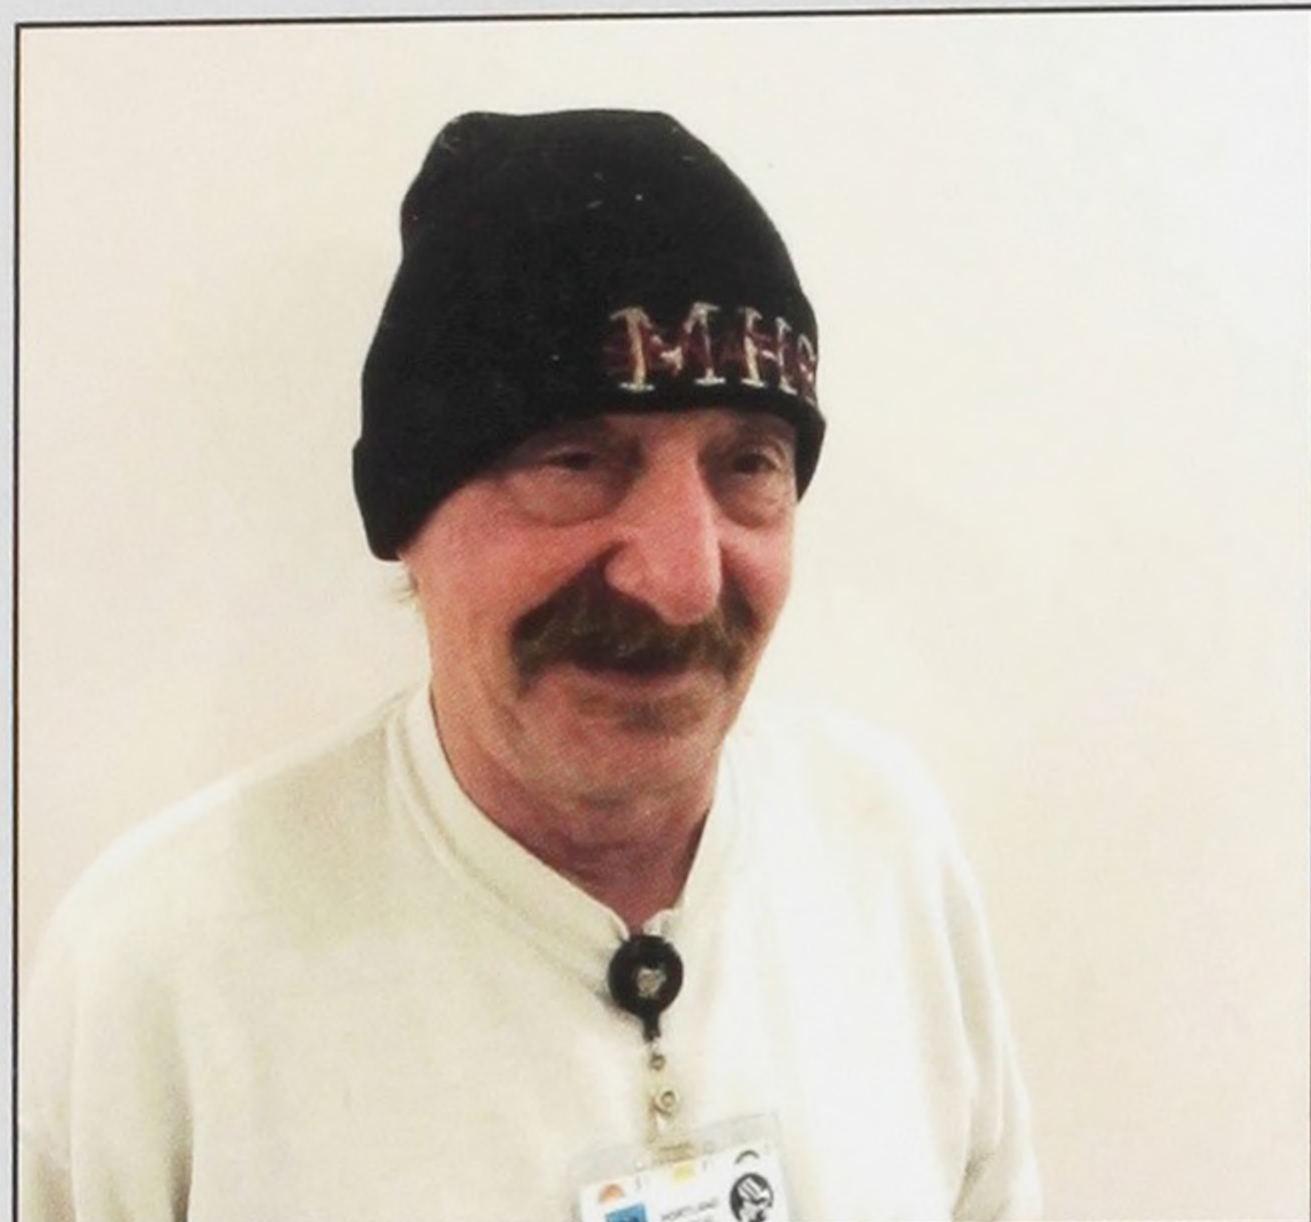

On June 26th 2019 Matty Roberts created a Facebook event that would soon become a meme. Titled "Storm Area 51: They Can't Stop All of Us." the page quickly reached over 2 million RSVP's. In the description he included "if we 'Naruto run,' we can run faster than their bullets". The raid was held on September 20th 2019 and about 150 people showed up.

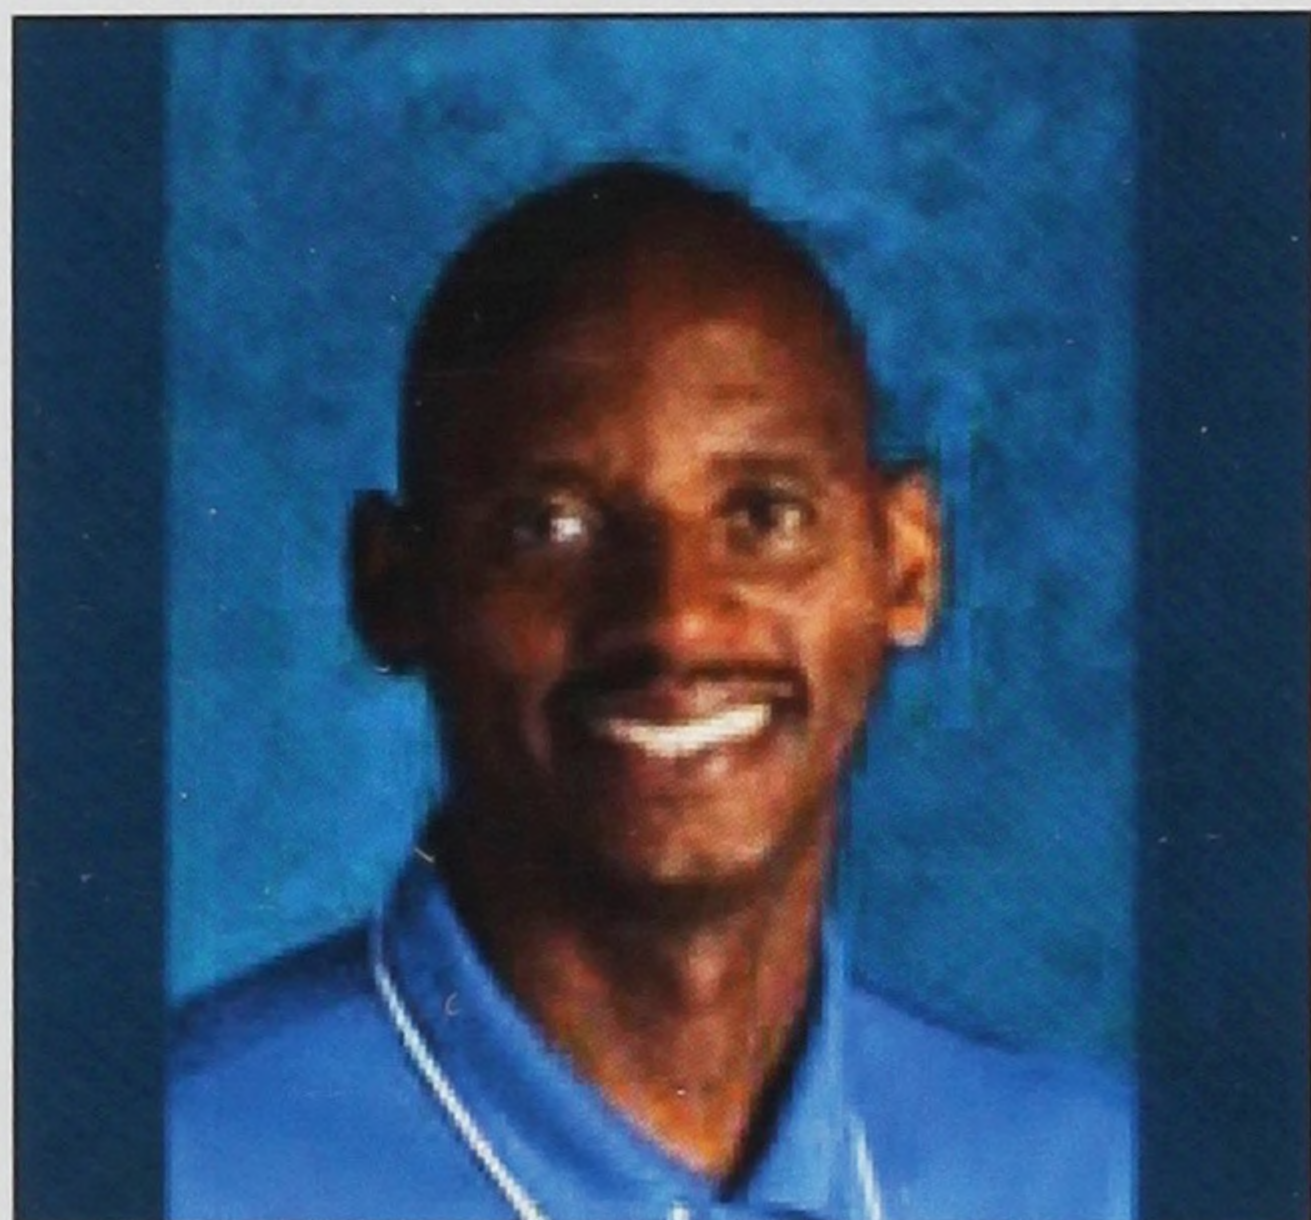

The impeachment of 45th President Donald Trump began with the approval of two articles of impeachment by the Democrat-controlled House of Representatives on December 18th, 2019. The charges were of abuse of power and obstruction of Congress. However, Trump was acquitted by the Republican-controlled Senate. Oh yeah...there was a major pandemic too! It has potential to kill 100,000-250,000 U.S. citizens.

NEWS

Mr. Smith takes a tumble!!
OUCH!!!

Squad Goals, just like in congress.

Hands said "zoom".

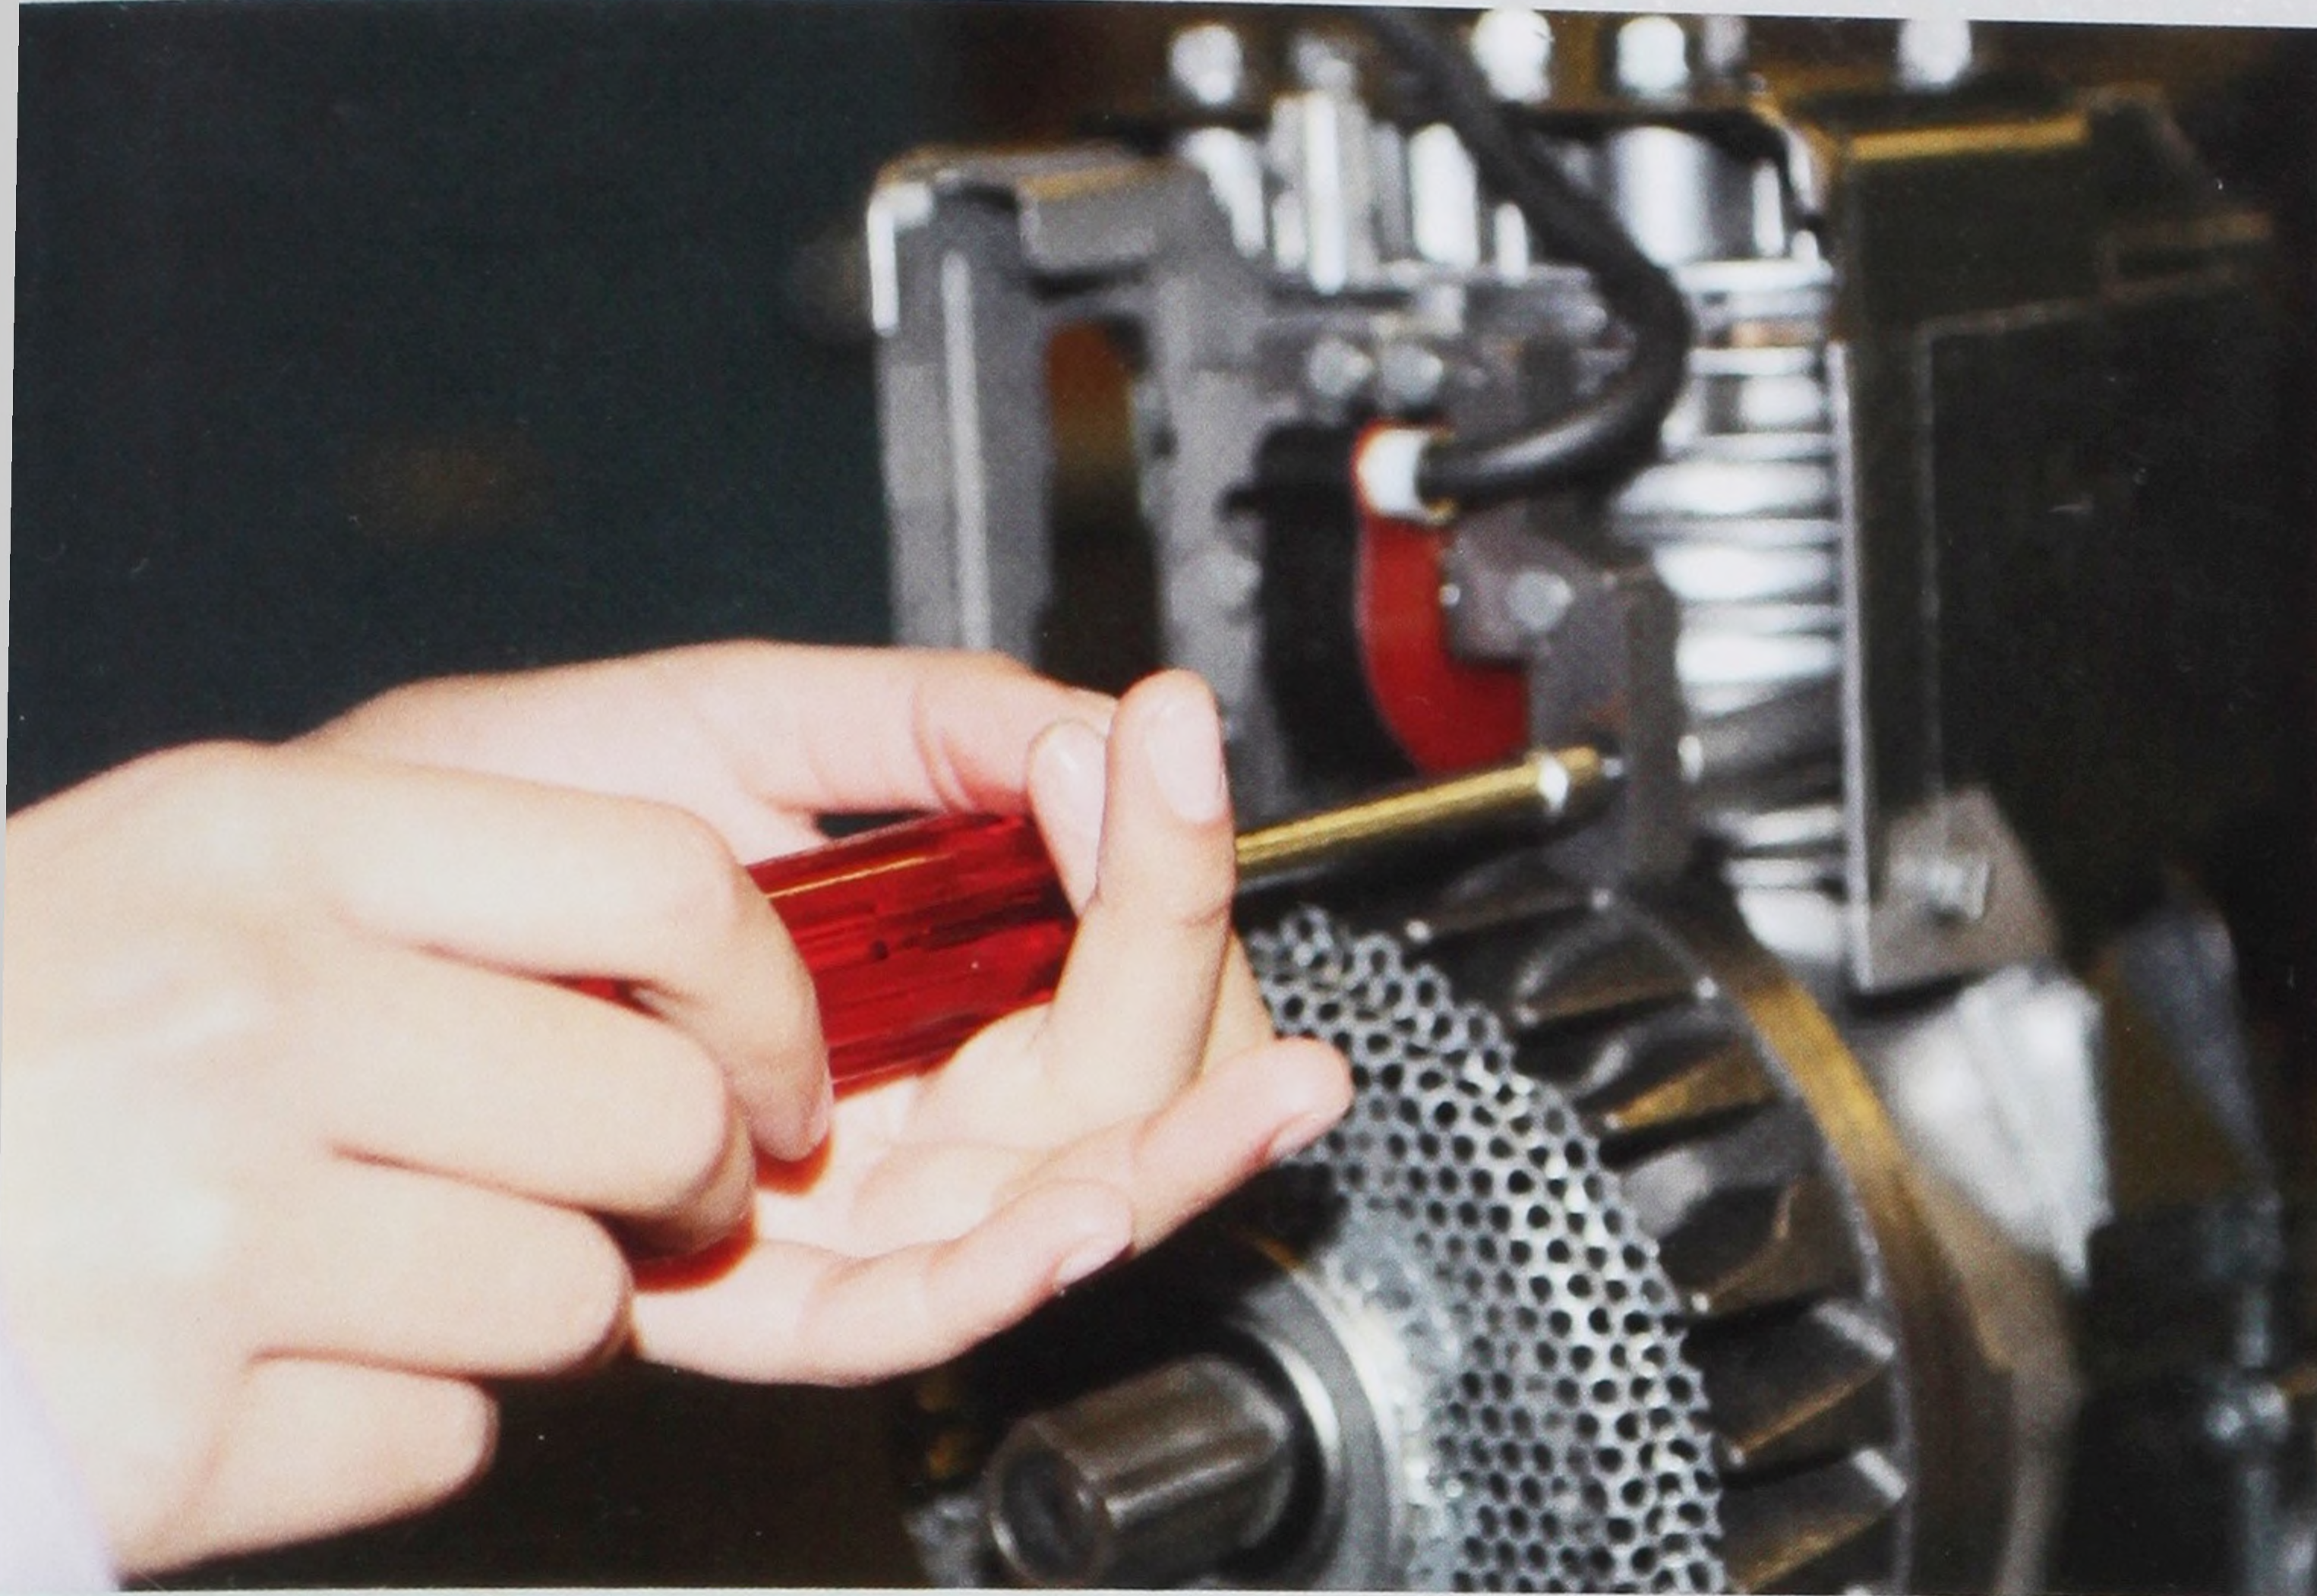

Drawing by Fancis Wirth

Benson's legend of the Astronaut being the mascot comes from the 1960's space race. As a tech school, Benson saw itself on the cutting edge of technology and machining. It is rumoured that the school was used to make high end bomber and airplane parts during WWII. The foundry and metal shops ran 24/7 making technical parts for the war effort. This practice lead into the machining and designing of rocket parts and flight parts for industry. Right after WWII the space race took off during the cold war and Benson was triing to keep up with the latest and greatest tools and skills needed for that space race. Lo and behold, the Astronaut image was adopted at Benson as a sign of the times. The importance placed on a strong CTE program, with technical trade skills, innovation and high technology training at its core. This focus made Benson a "Flagship" Polytechnic school admired by many other states and countries.

Benson's Majors

Benson's unique CTE programs offer students a variety of special trade experiences found nowhere else. Vocational training at Benson includes workshops, apprenticeships and networking at many jobs and careers. "Shop class" is not a dirty word here, we encourage all forms of product-based and processed based learning.

Mr. Anderson helps some students with engine parts.

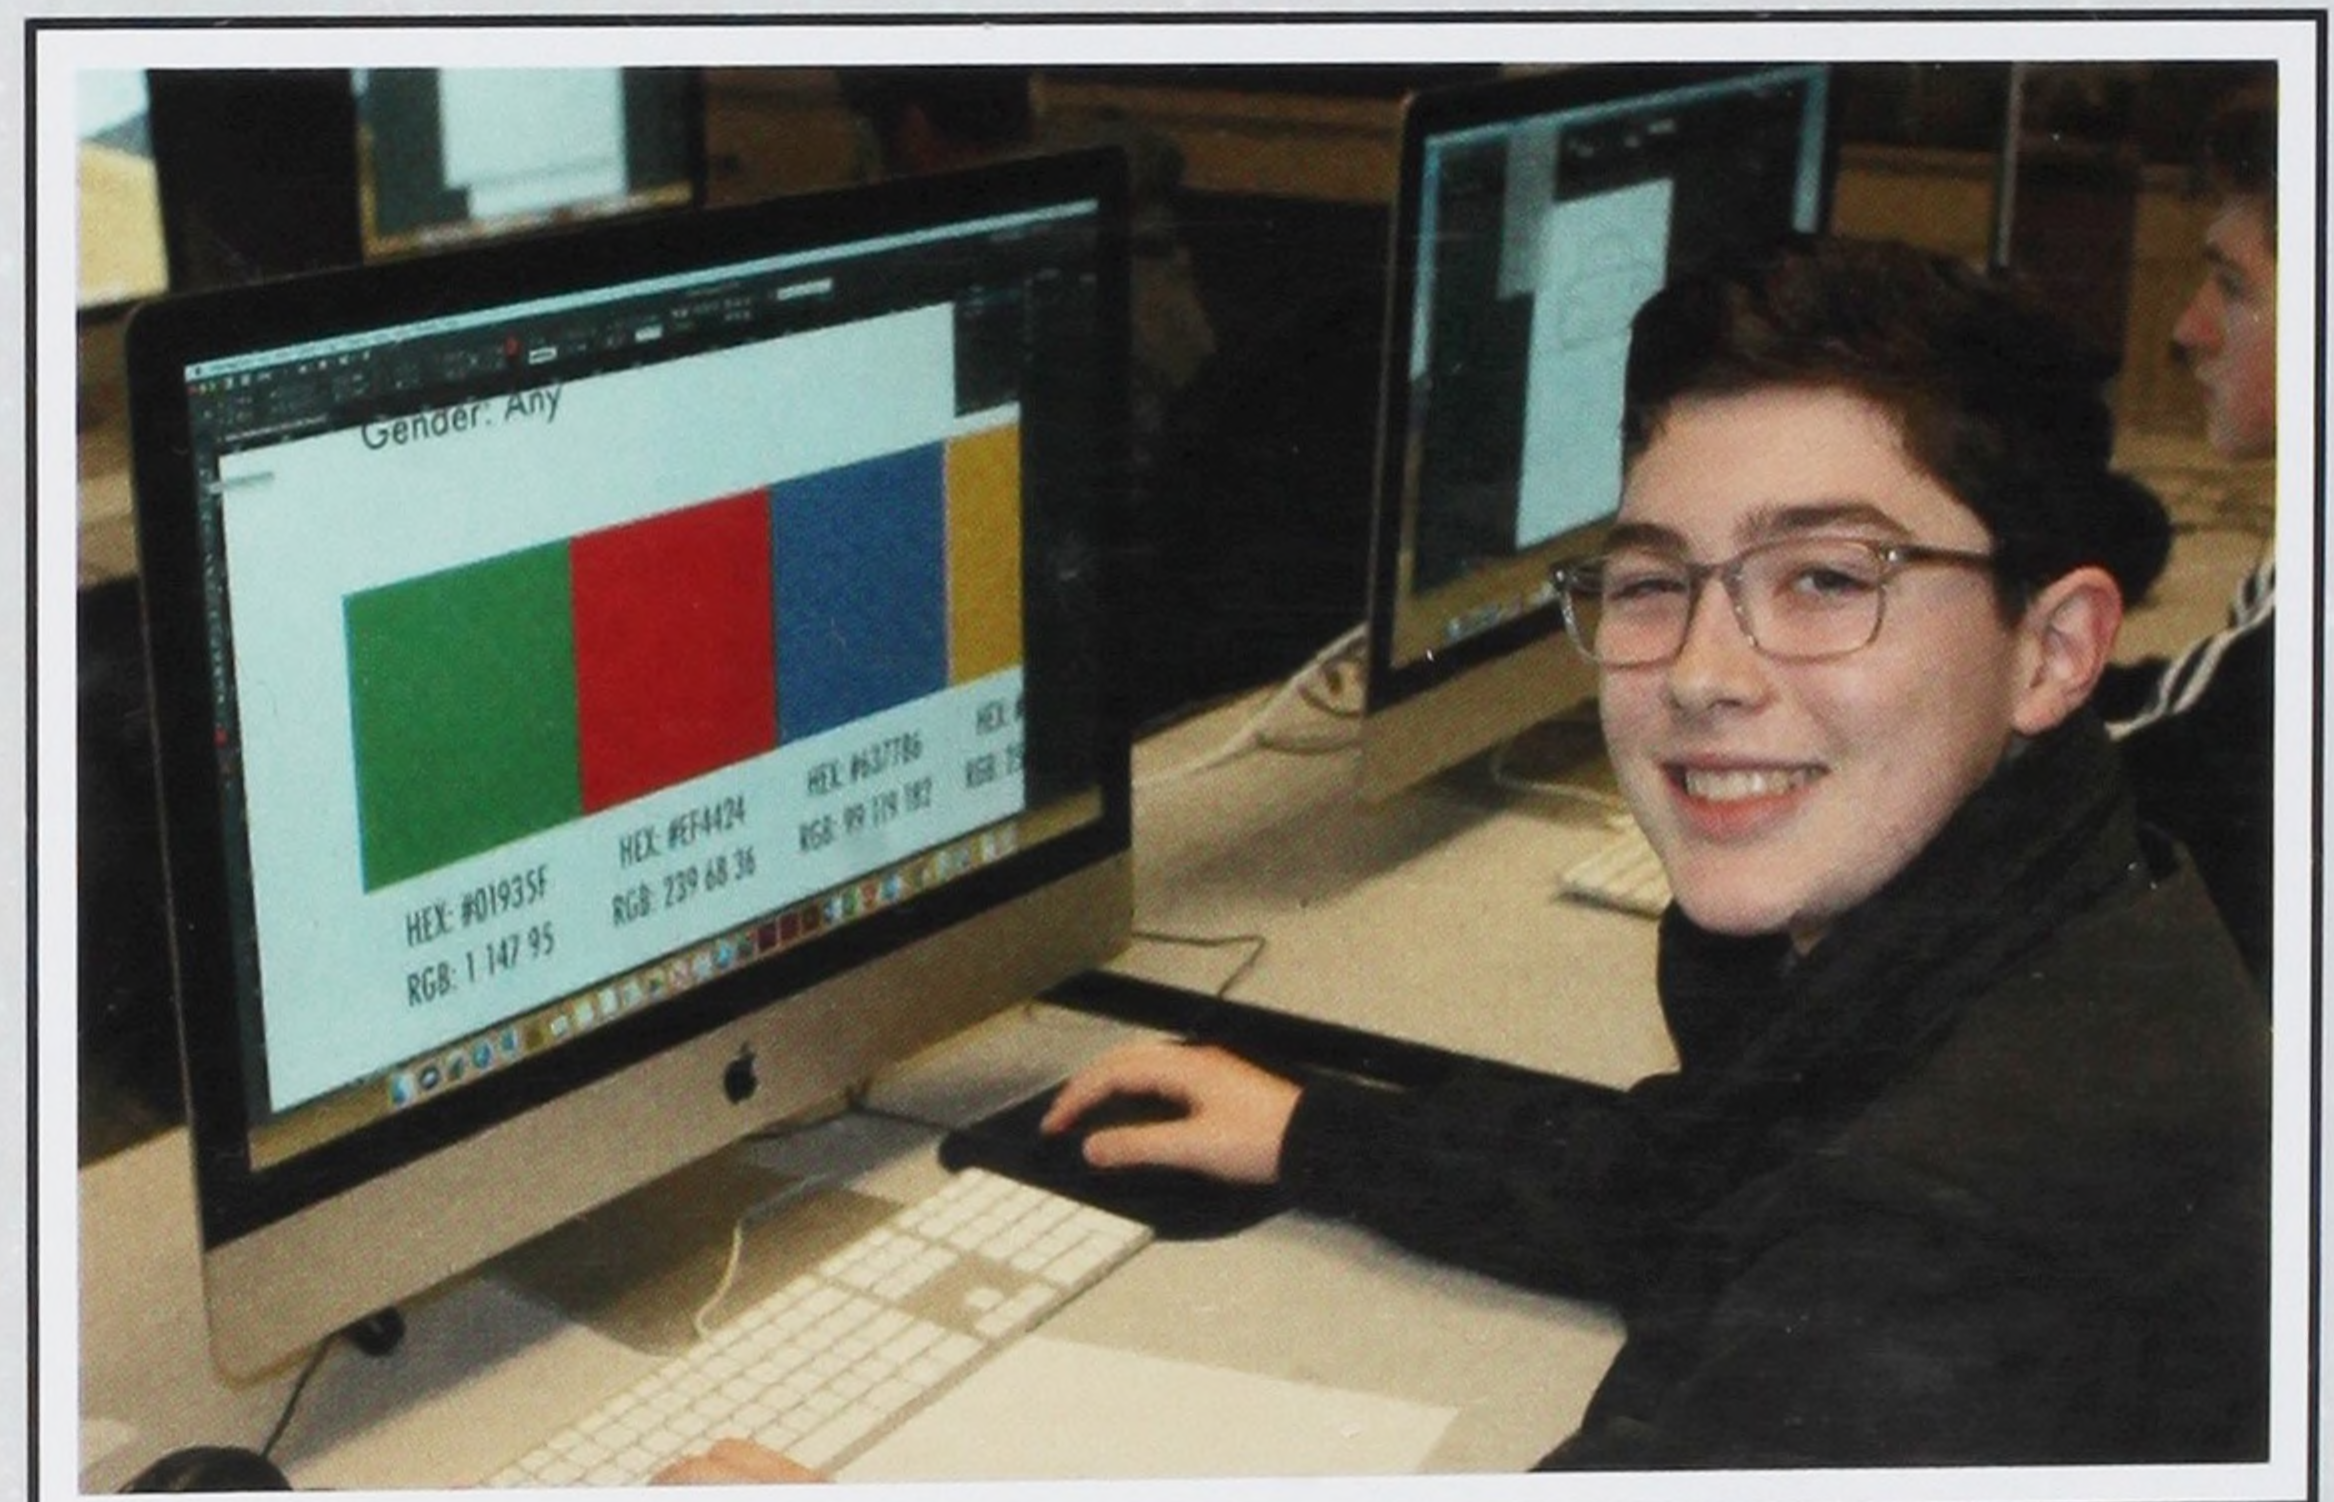

Pouring hot molten aluminum is one of the coolest things we do here!

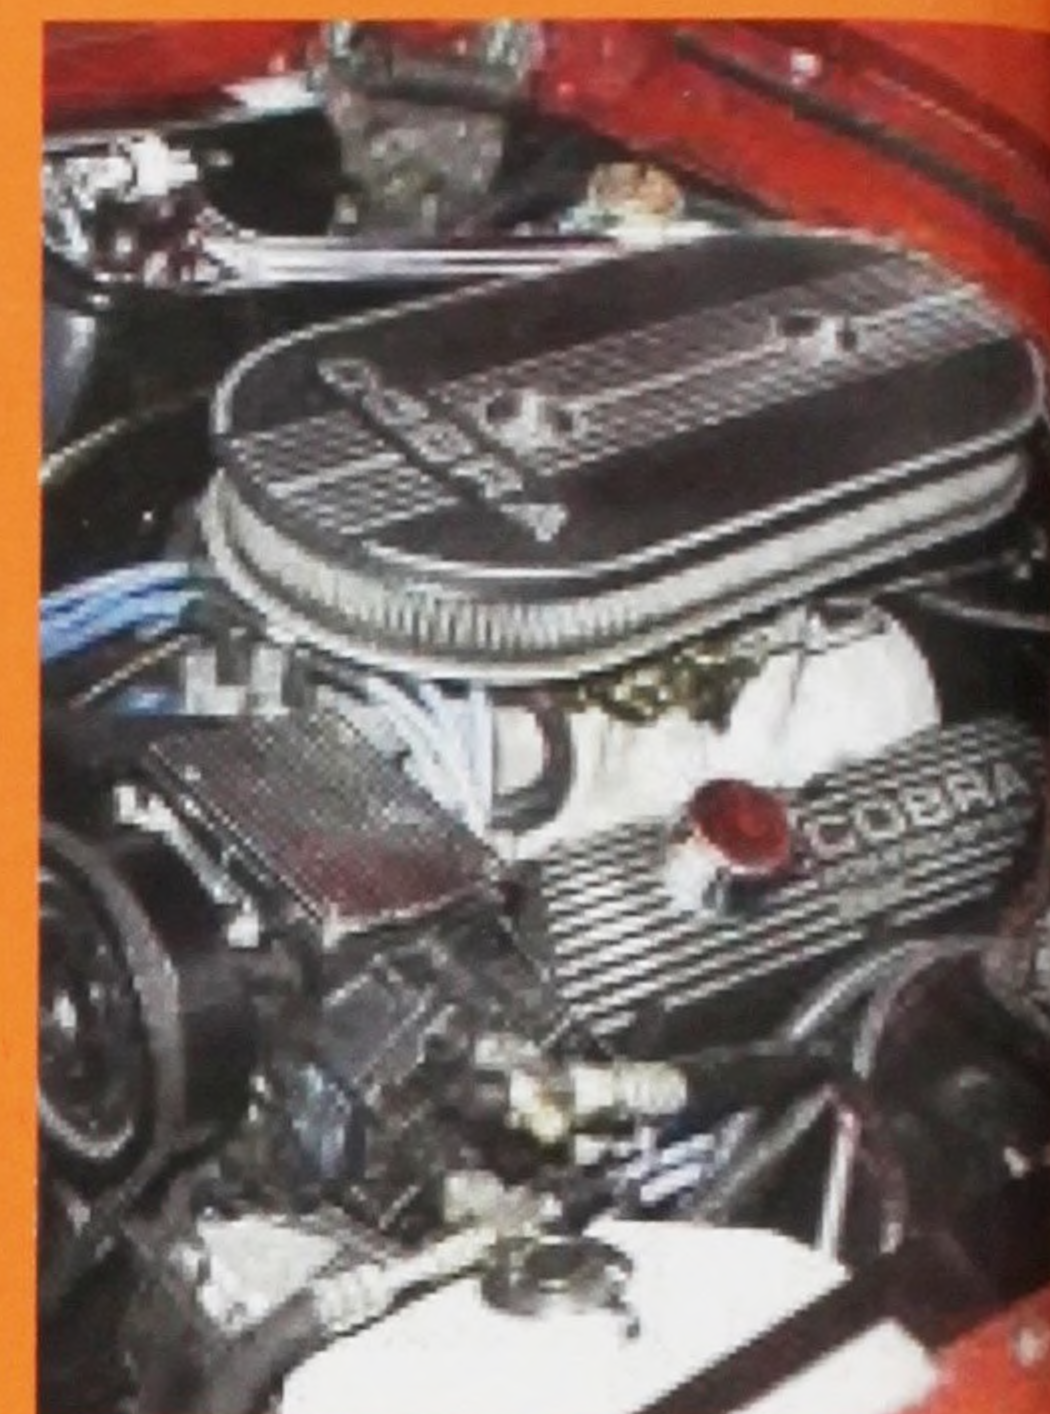

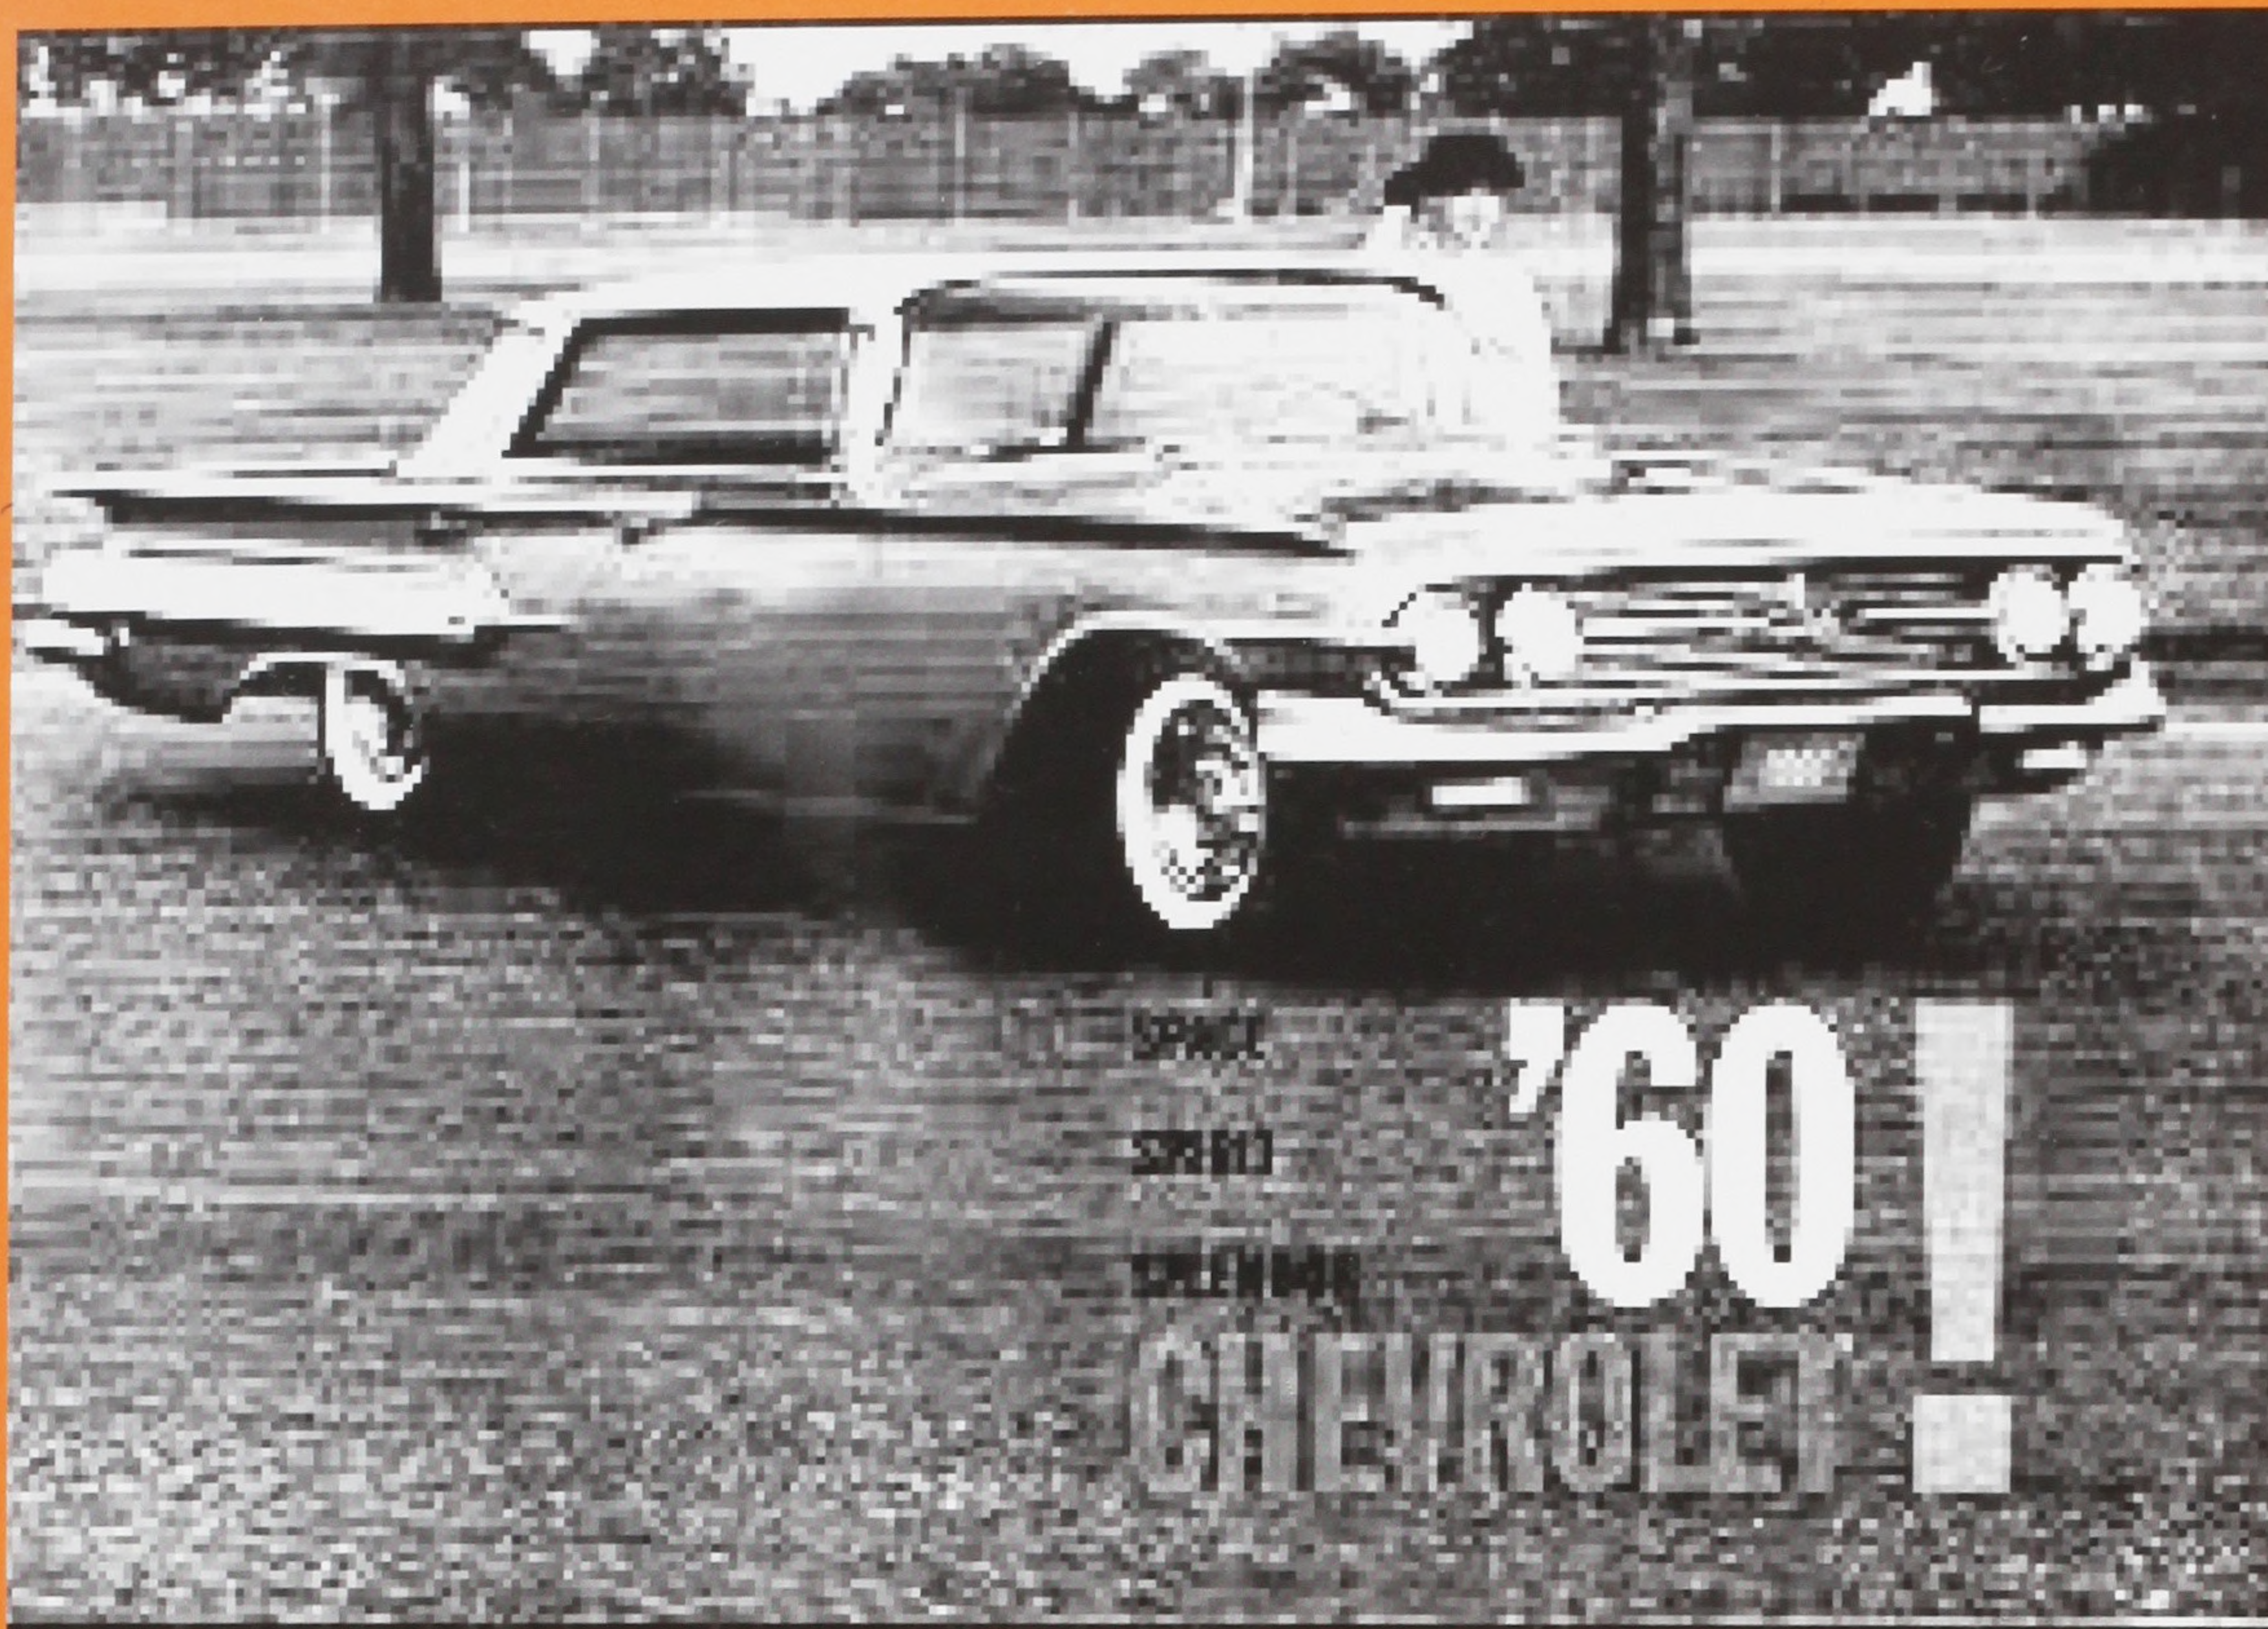

Gotta get that shot just right for the video.

Just checking to see if we got that flat enough, it took only \$400 worth of sand paper to get that right.

What exactly is a "Hex" color swatch anyway.....

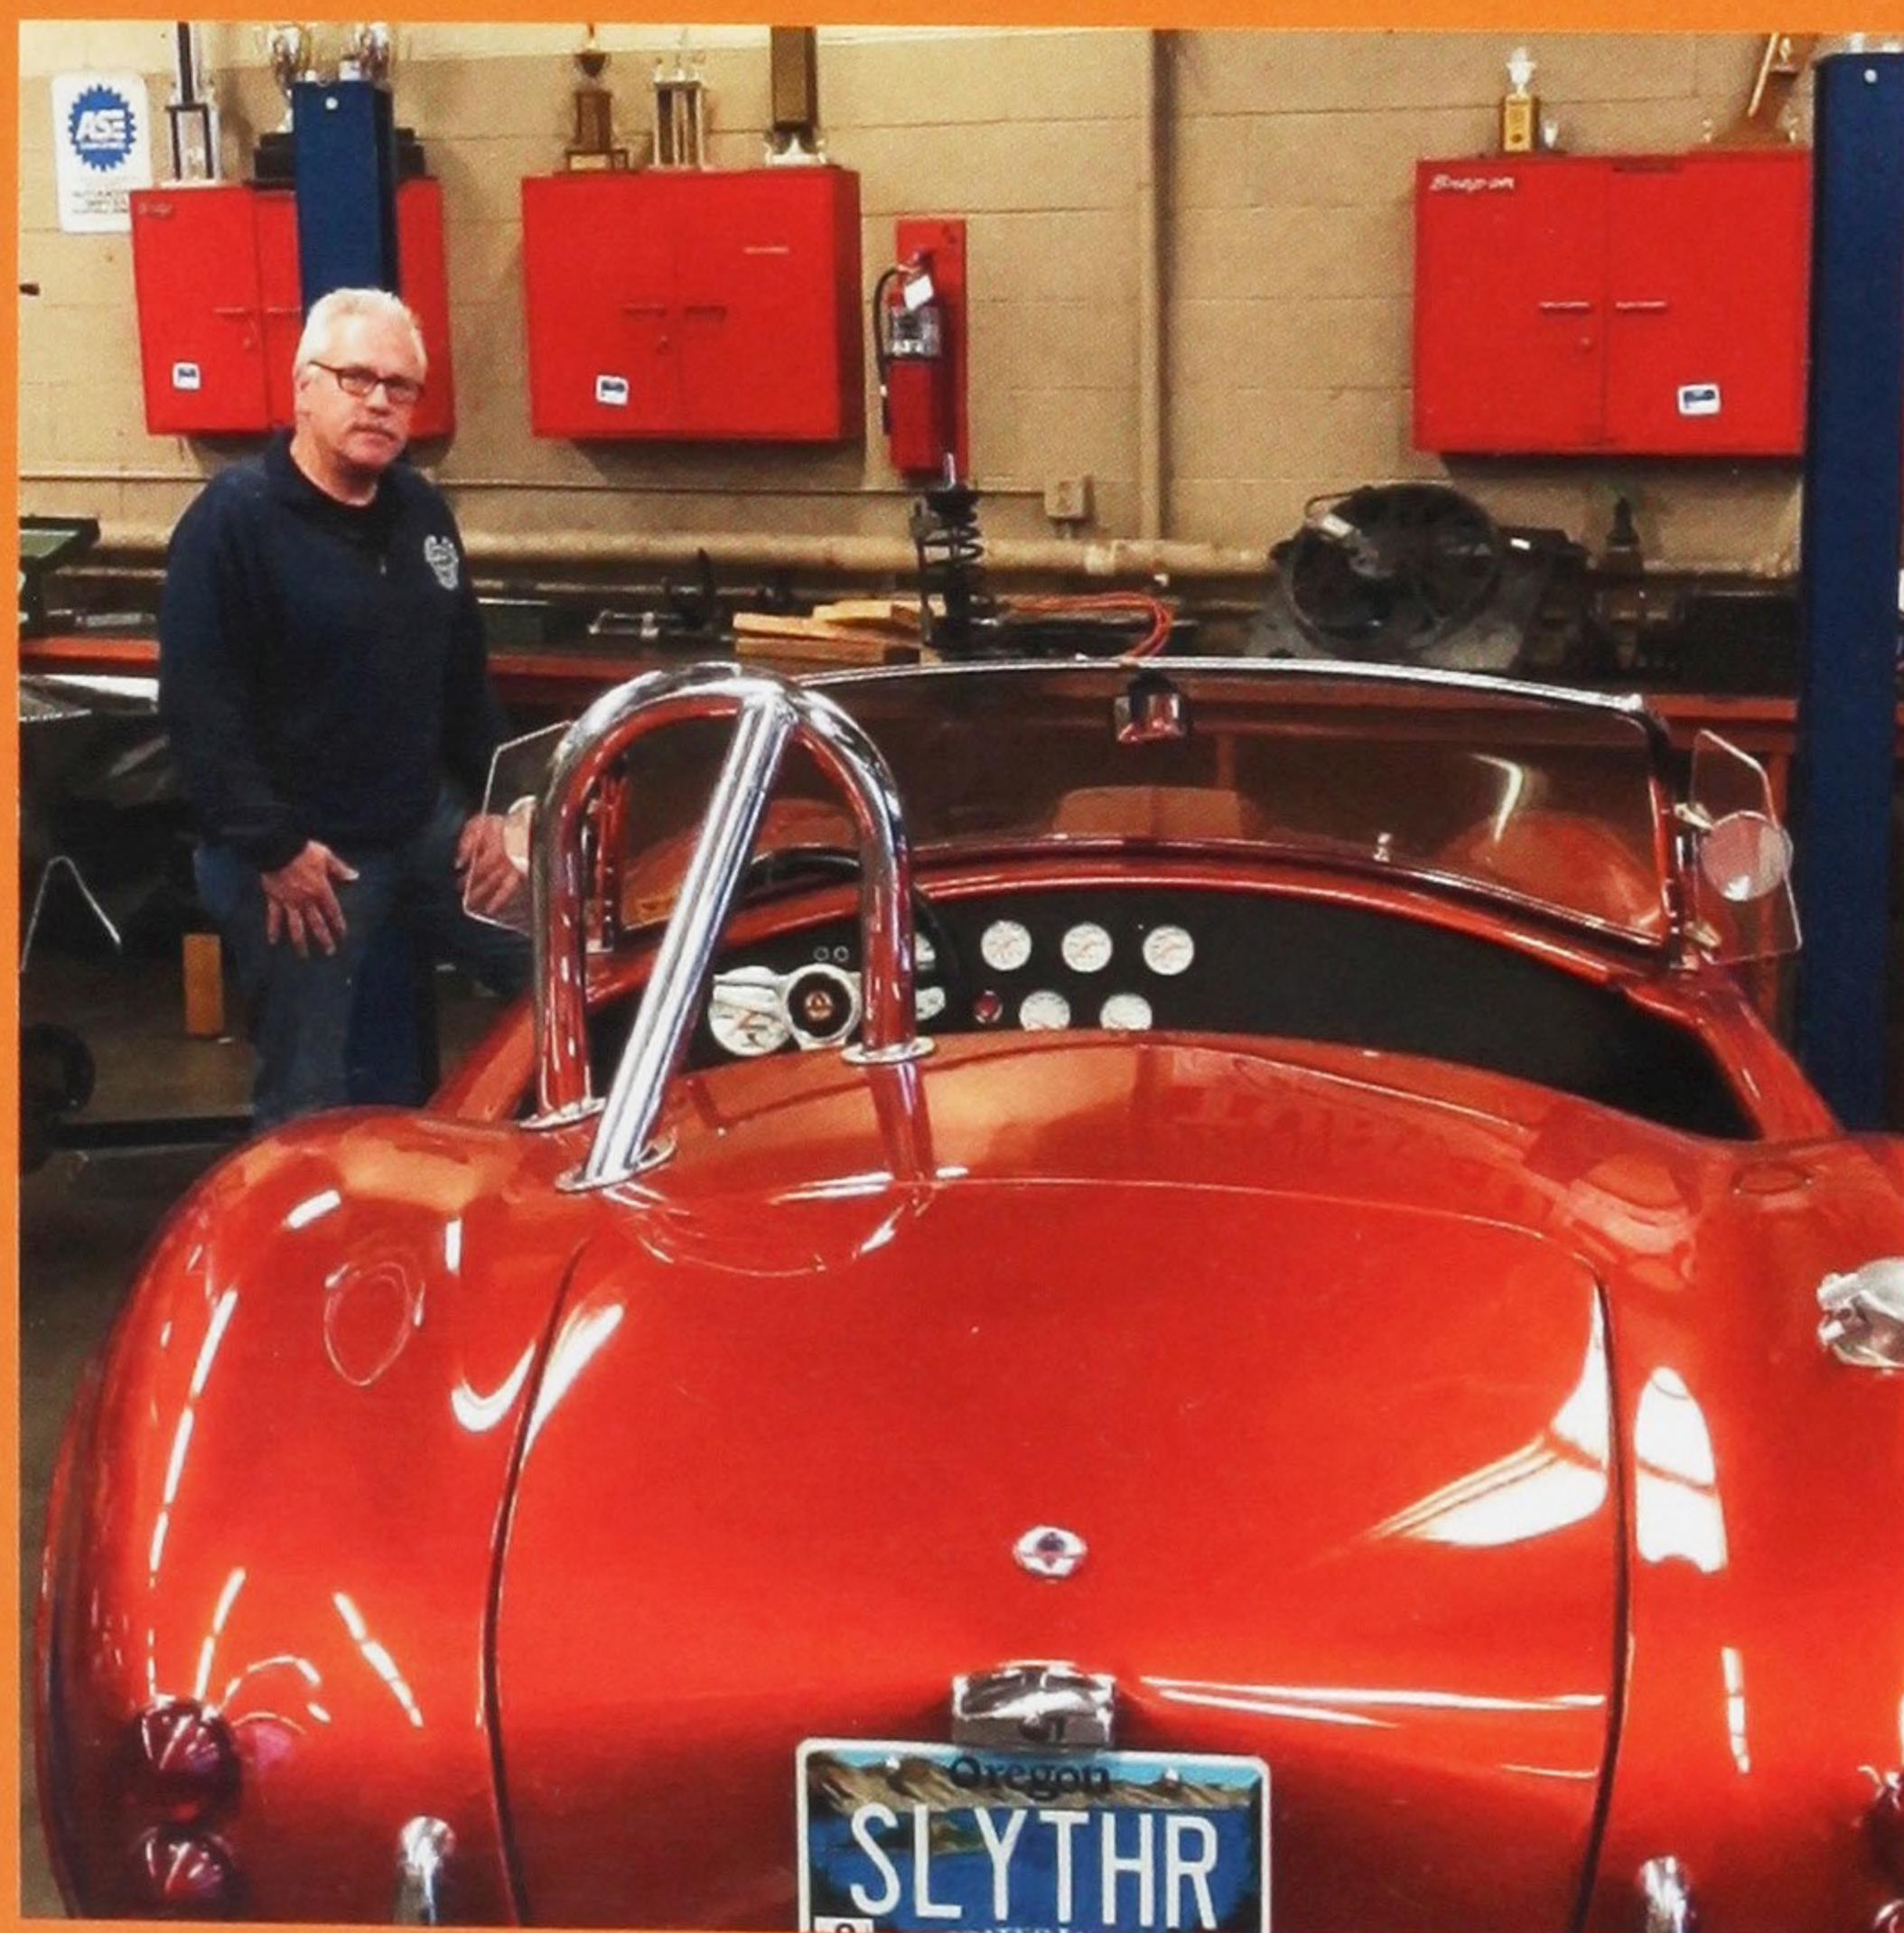

1965 Mustang "Cobra" engine, a classic.

Automotive

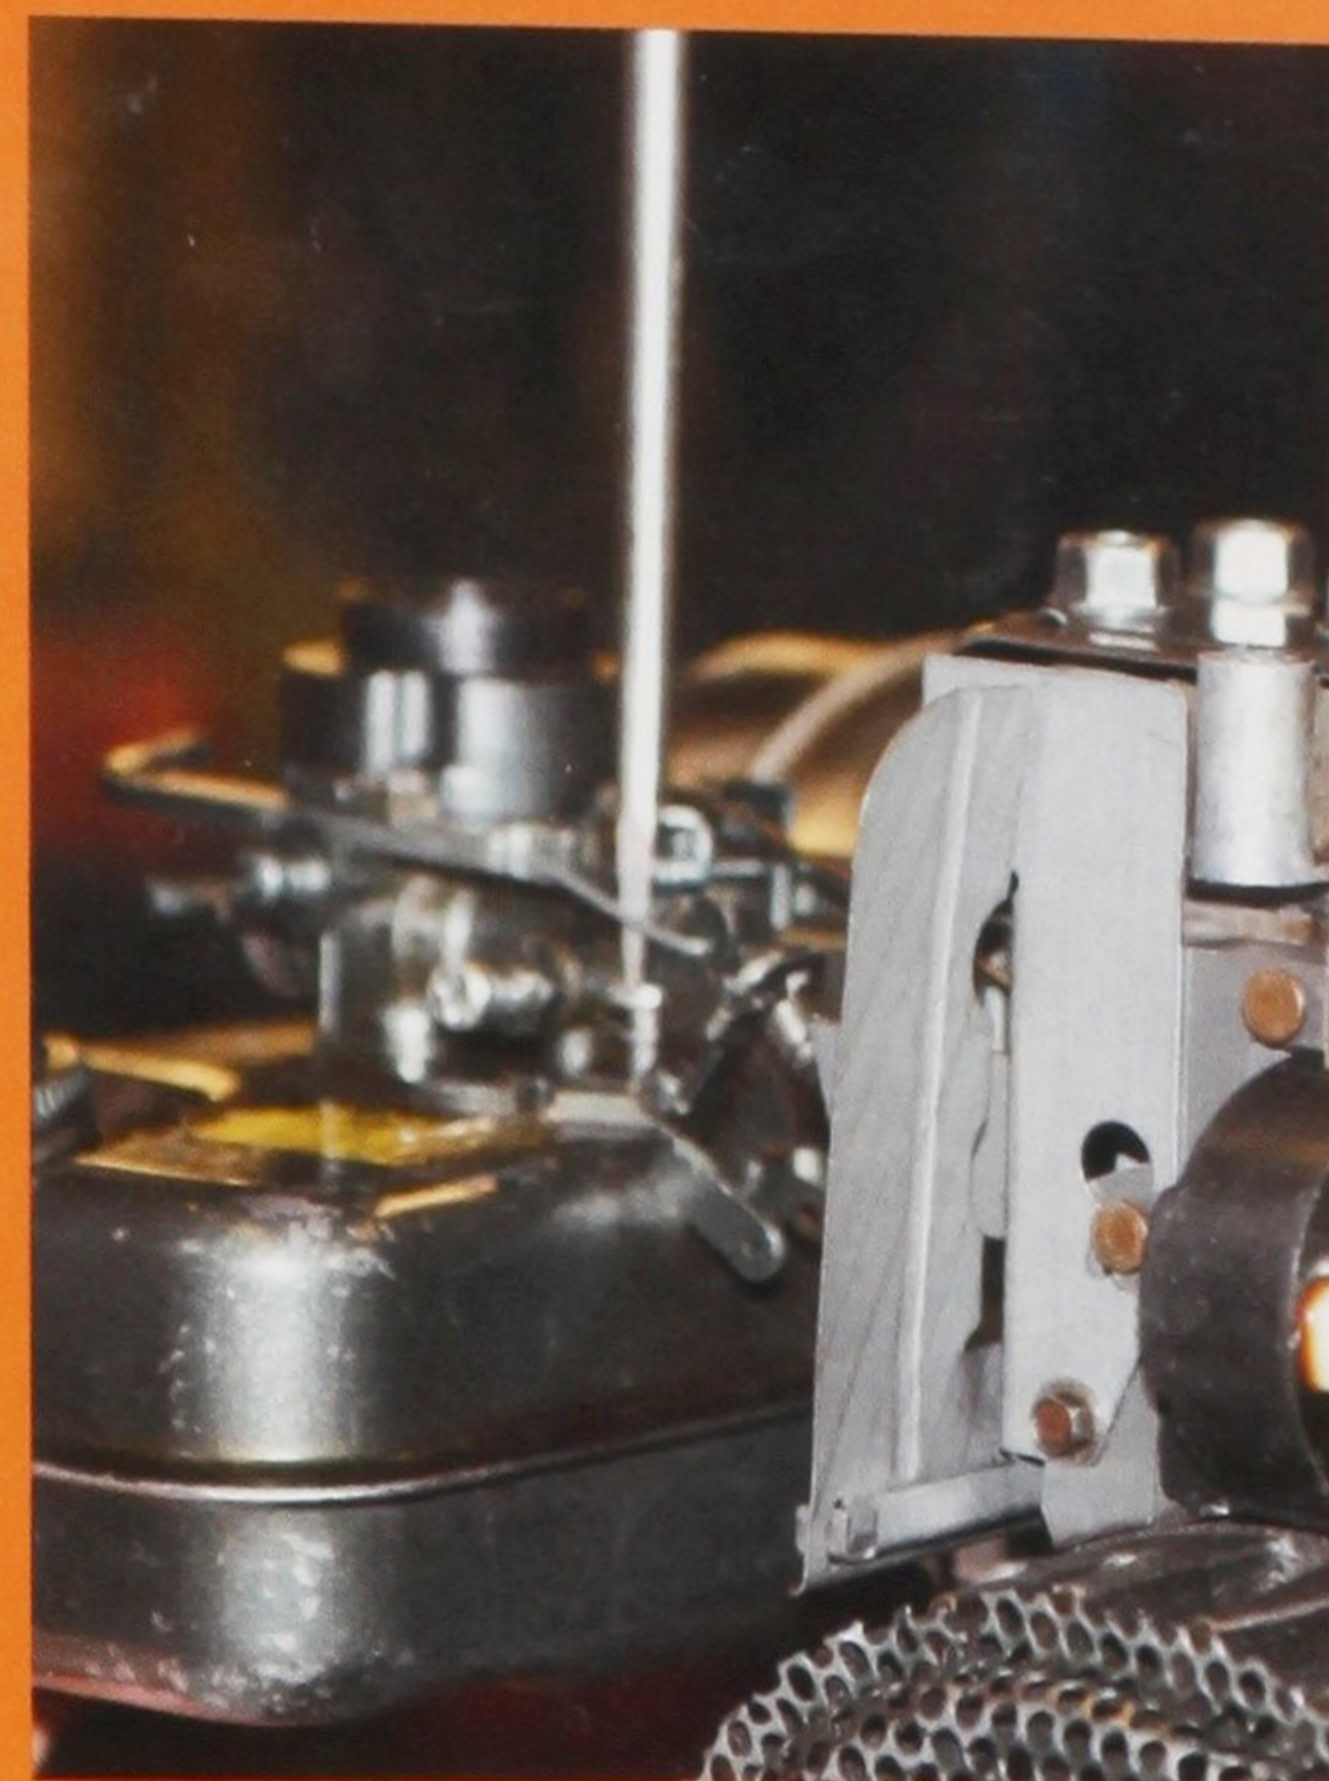

Covering everything from basic tools to parts and modern day technology, students are engaged and are getting hands-on education. They get the opportunity to bring in a car, bike, or truck of their own and work on it as their project.

The Auto shops at Benson are first rate. We have all the tools, space and equipment that a real Auto shop would have which makes the CTE program here exceptional. Mr. Railey, on the left, seen here with the car he built from a kit, a master craftsmen's touch.

Mr. Anderson carefully inspects engine parts. He often will have students bring in their own cars and motorcycles for repair and improvements.

Sophomore Automotive students watch a demonstration given by Mr. Thompson. He reminds them of the difference between Volts and Amps!

Building Construction

Ari Becker finishing up his end grain cutting board.

Carson Ogren ponders his work on the Tiny House. Looks good!

Angel Carmona-Murillo checks today's work on the Tiny House. Definitely measures up to his standards!

The students are making dog houses and other "mini" houses for sale. Students learn how to operate many tools such as: Table saws, reciprocating saws, sanders, bandsaws, planers, hand saws and many more, oh what fun!!!

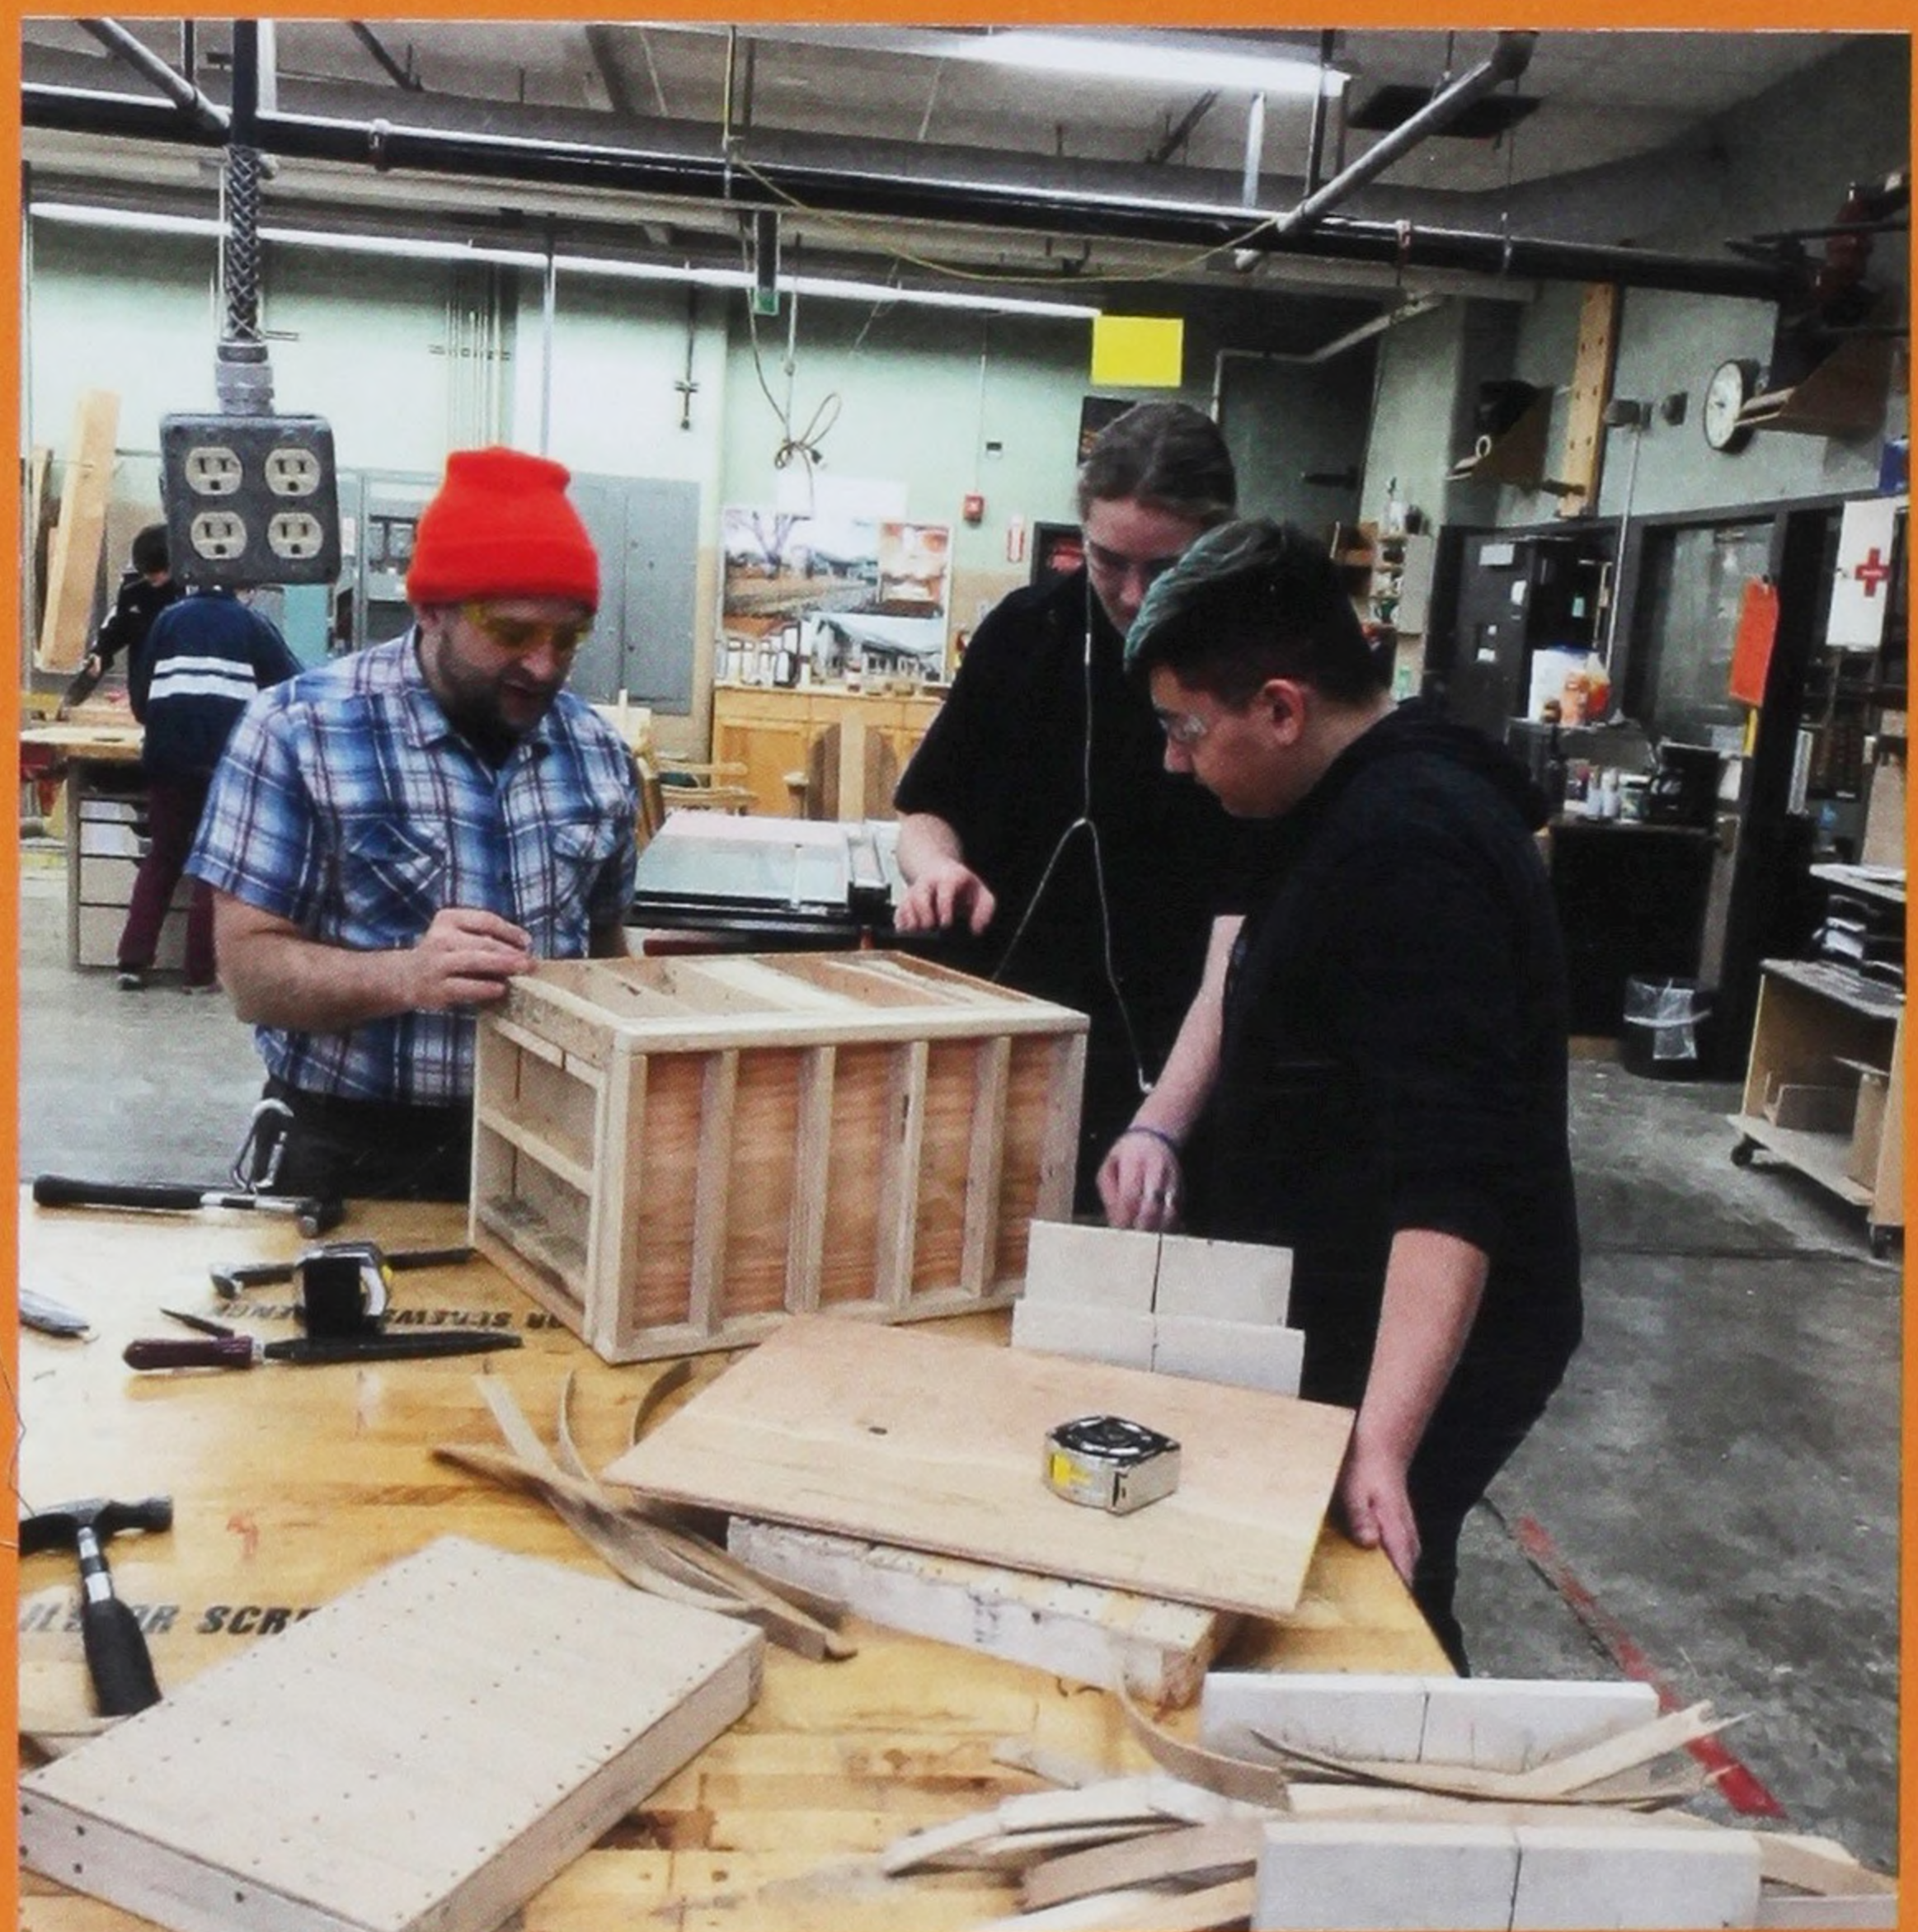

Juniors are not afraid of doing the heavy lifting! Two students move a large beam and wonder if Mr.Hotchkiss plans to give them extra credit.

Students are introduced to the world of construction. They are exposed to every part of the industry; carpentry, print reading, woodworking, cabinetmaking, engineering, and site prep. While also getting exposed to sustainability (LEED) and Energy Efficiency (Energy Star) standards that are used in the construction industry.

Nyah Swanson and Carson Ogren practice their balancing act.

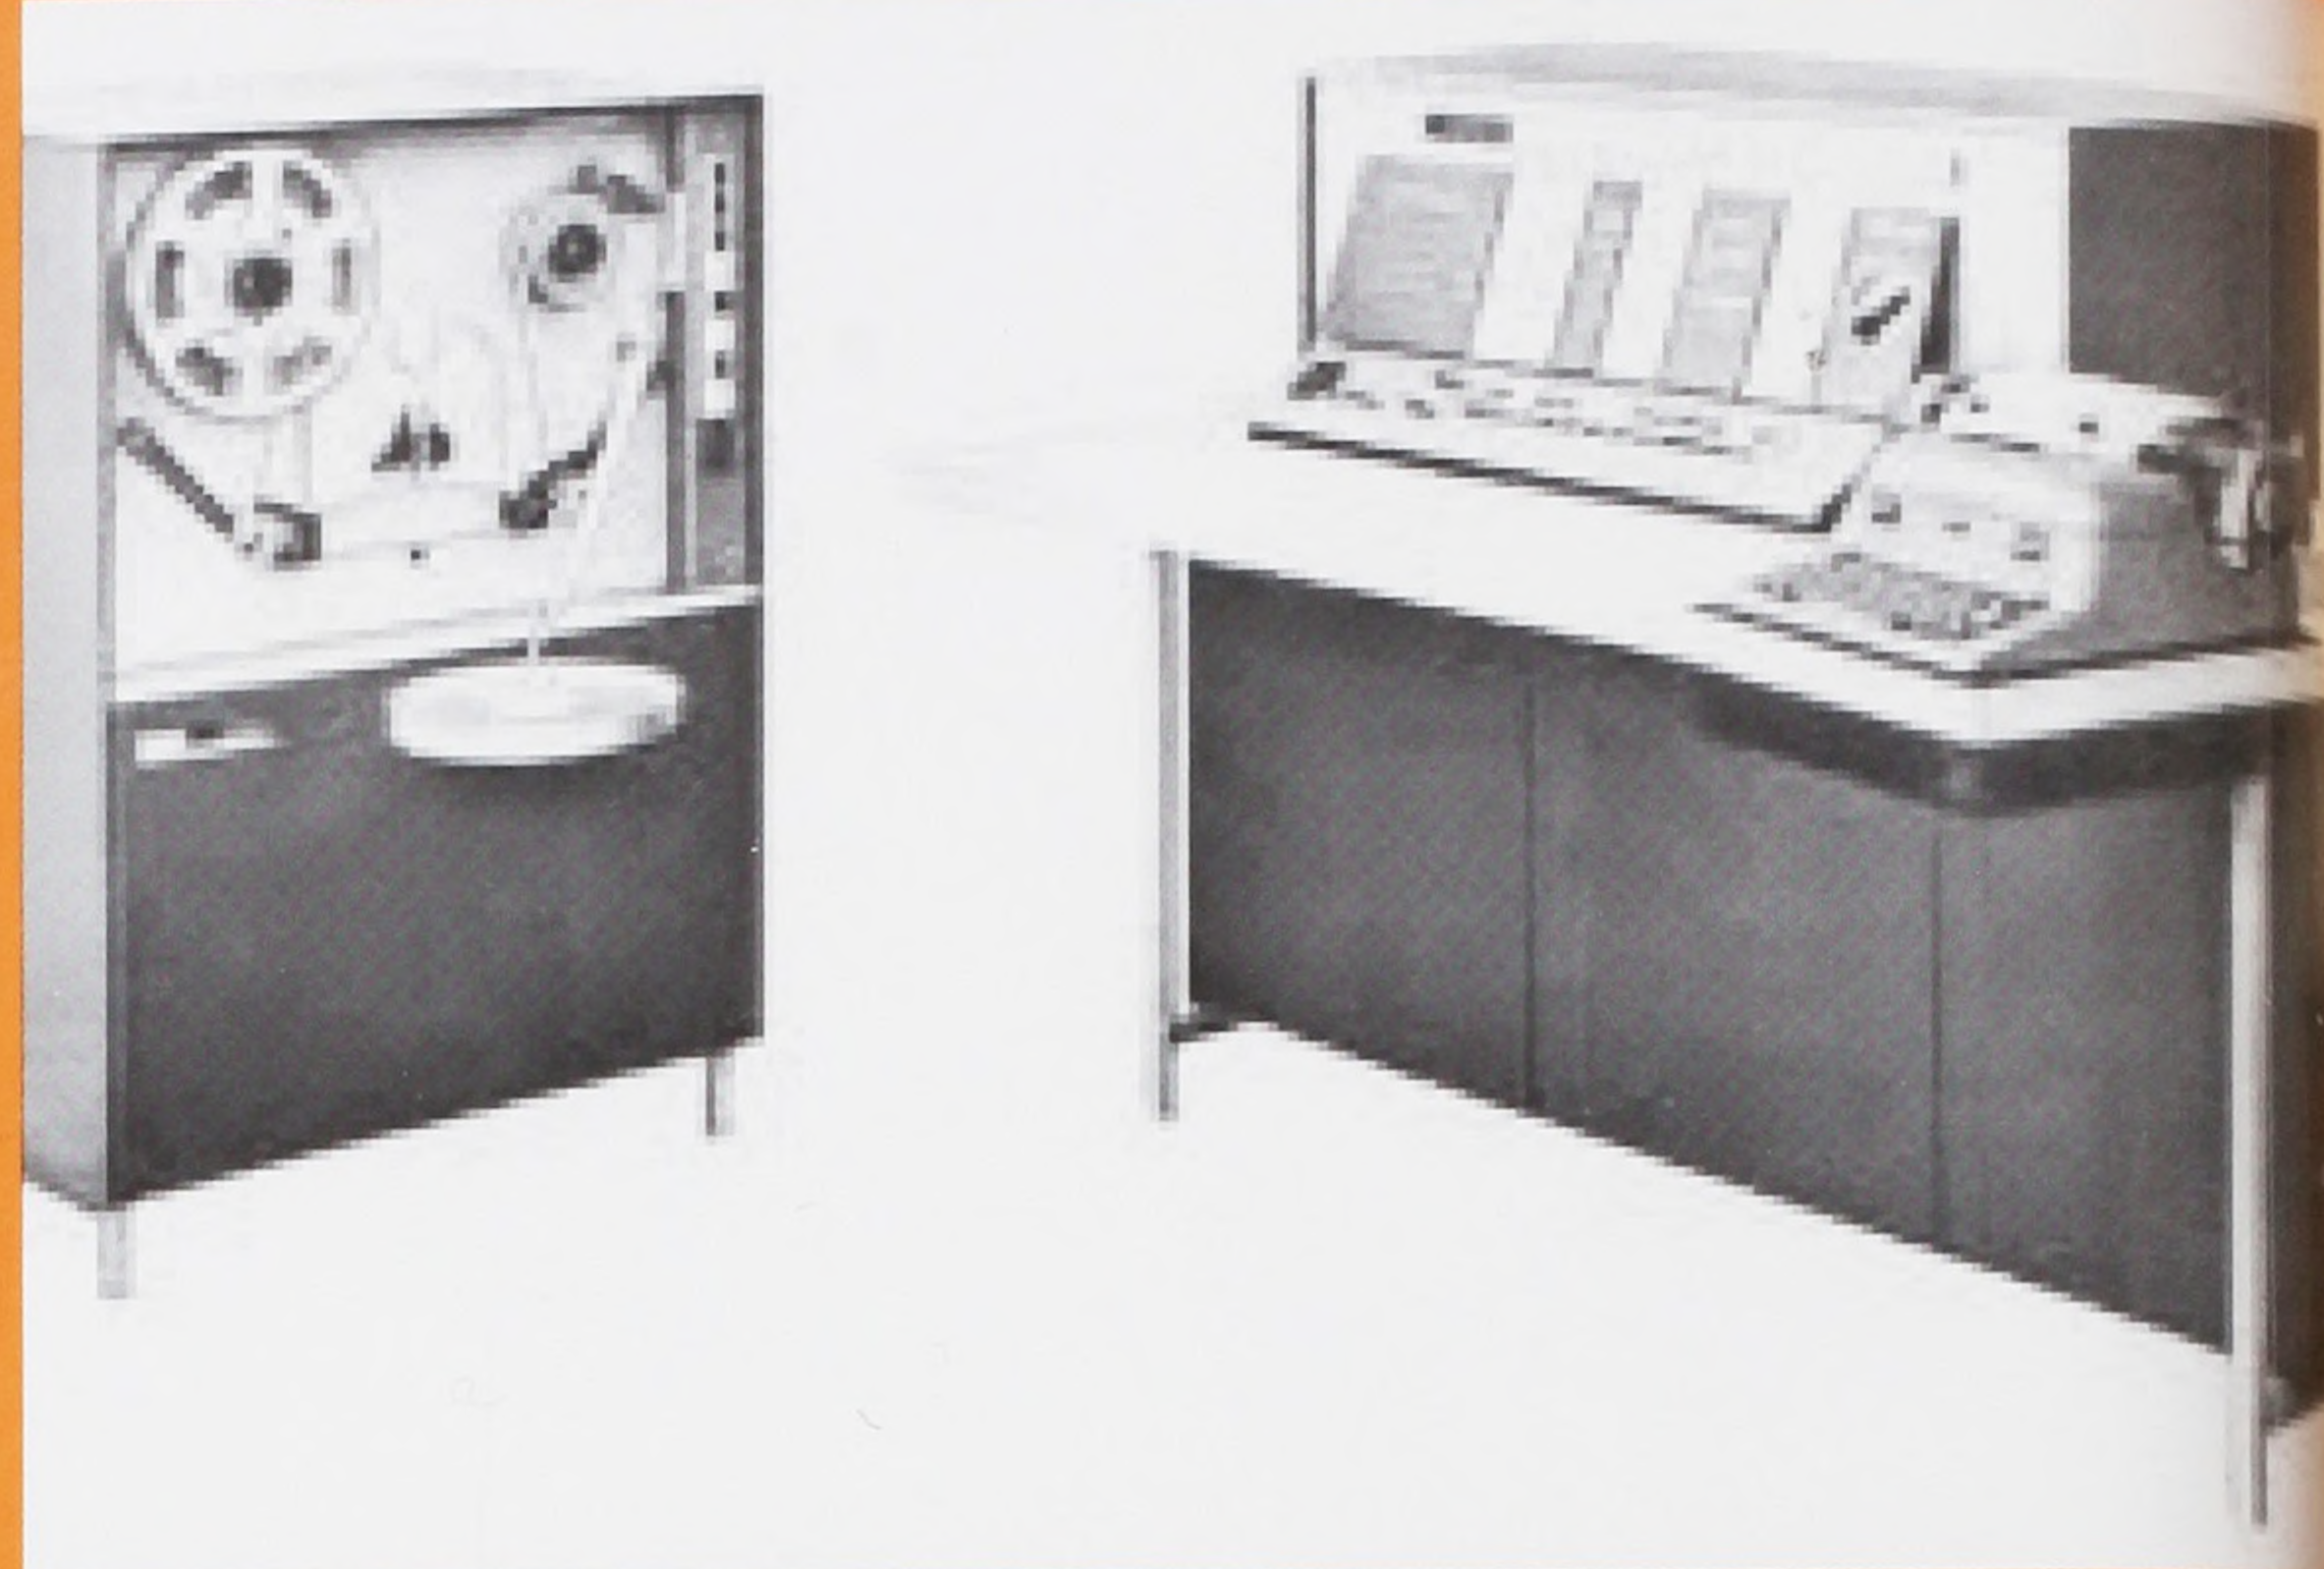

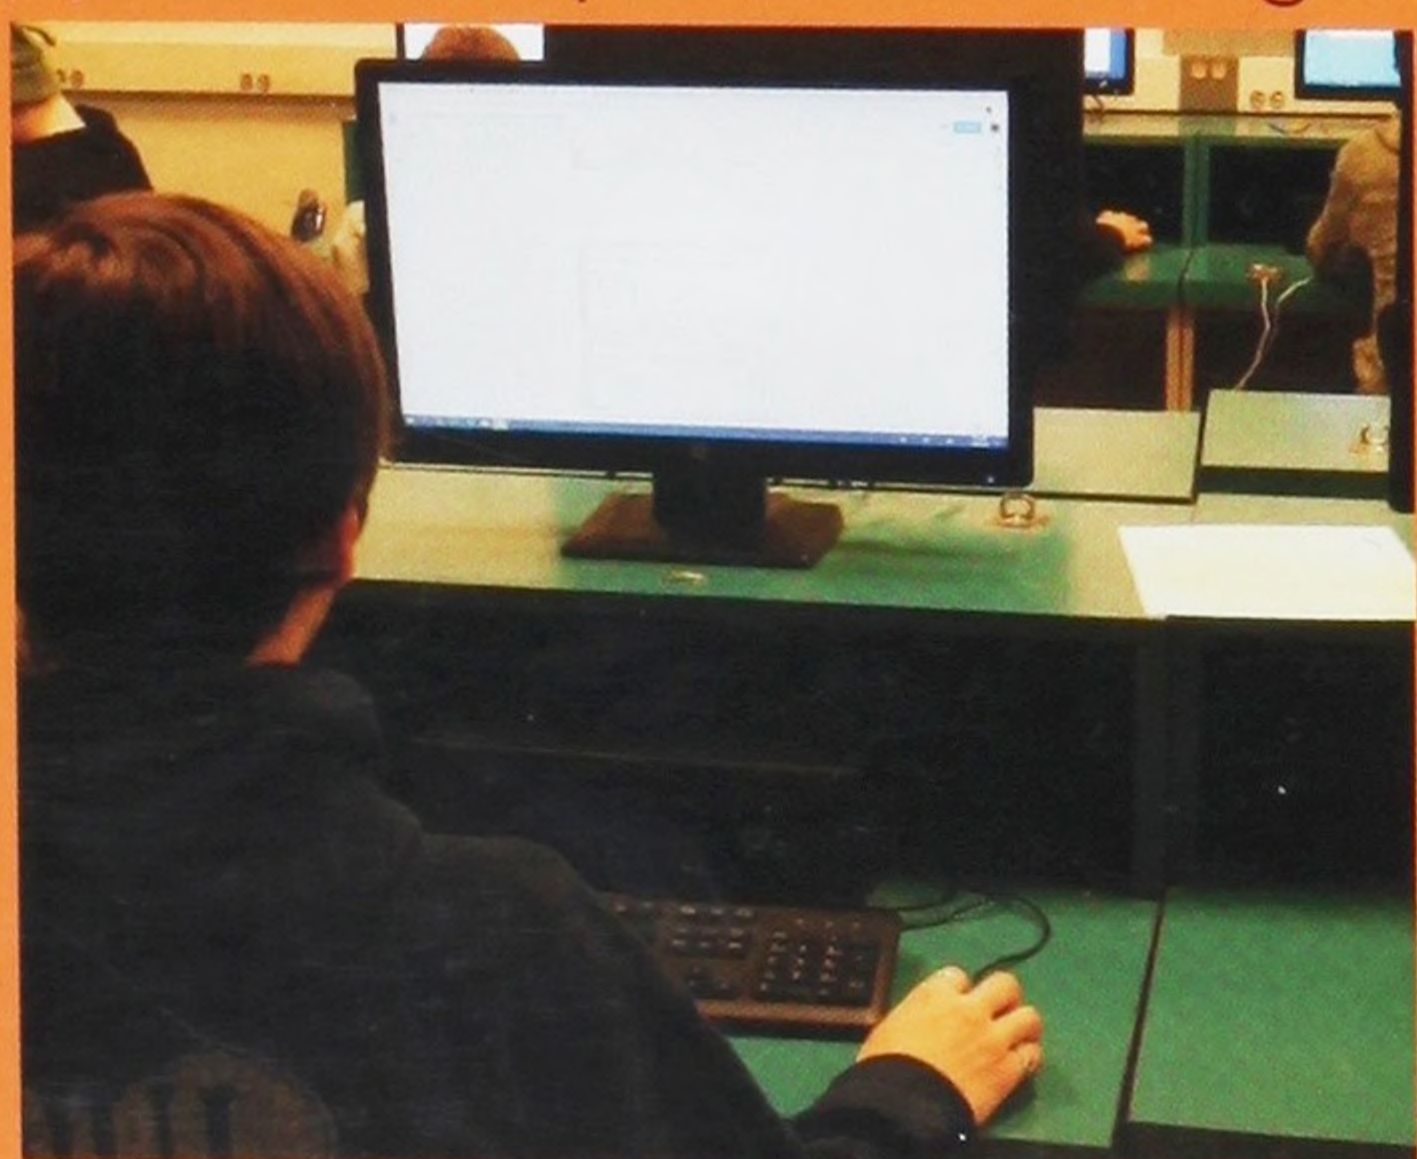

Hard at work, these students are learning that construction takes skill and physical strength. Benson has built thirteen large houses so far, all at rock bottom prices. Talk about community service and sacrifice.

Computers now; High end gaming computers like this have more RAM and memory than the super computers had in the 1960s.

Computer Science

Taught by Mr. Beckler, students dive into the world of computers. They get an understanding of software engineering, how to use computers, and how they program. Students are introduced to computer science, programming using python, and problem solving .

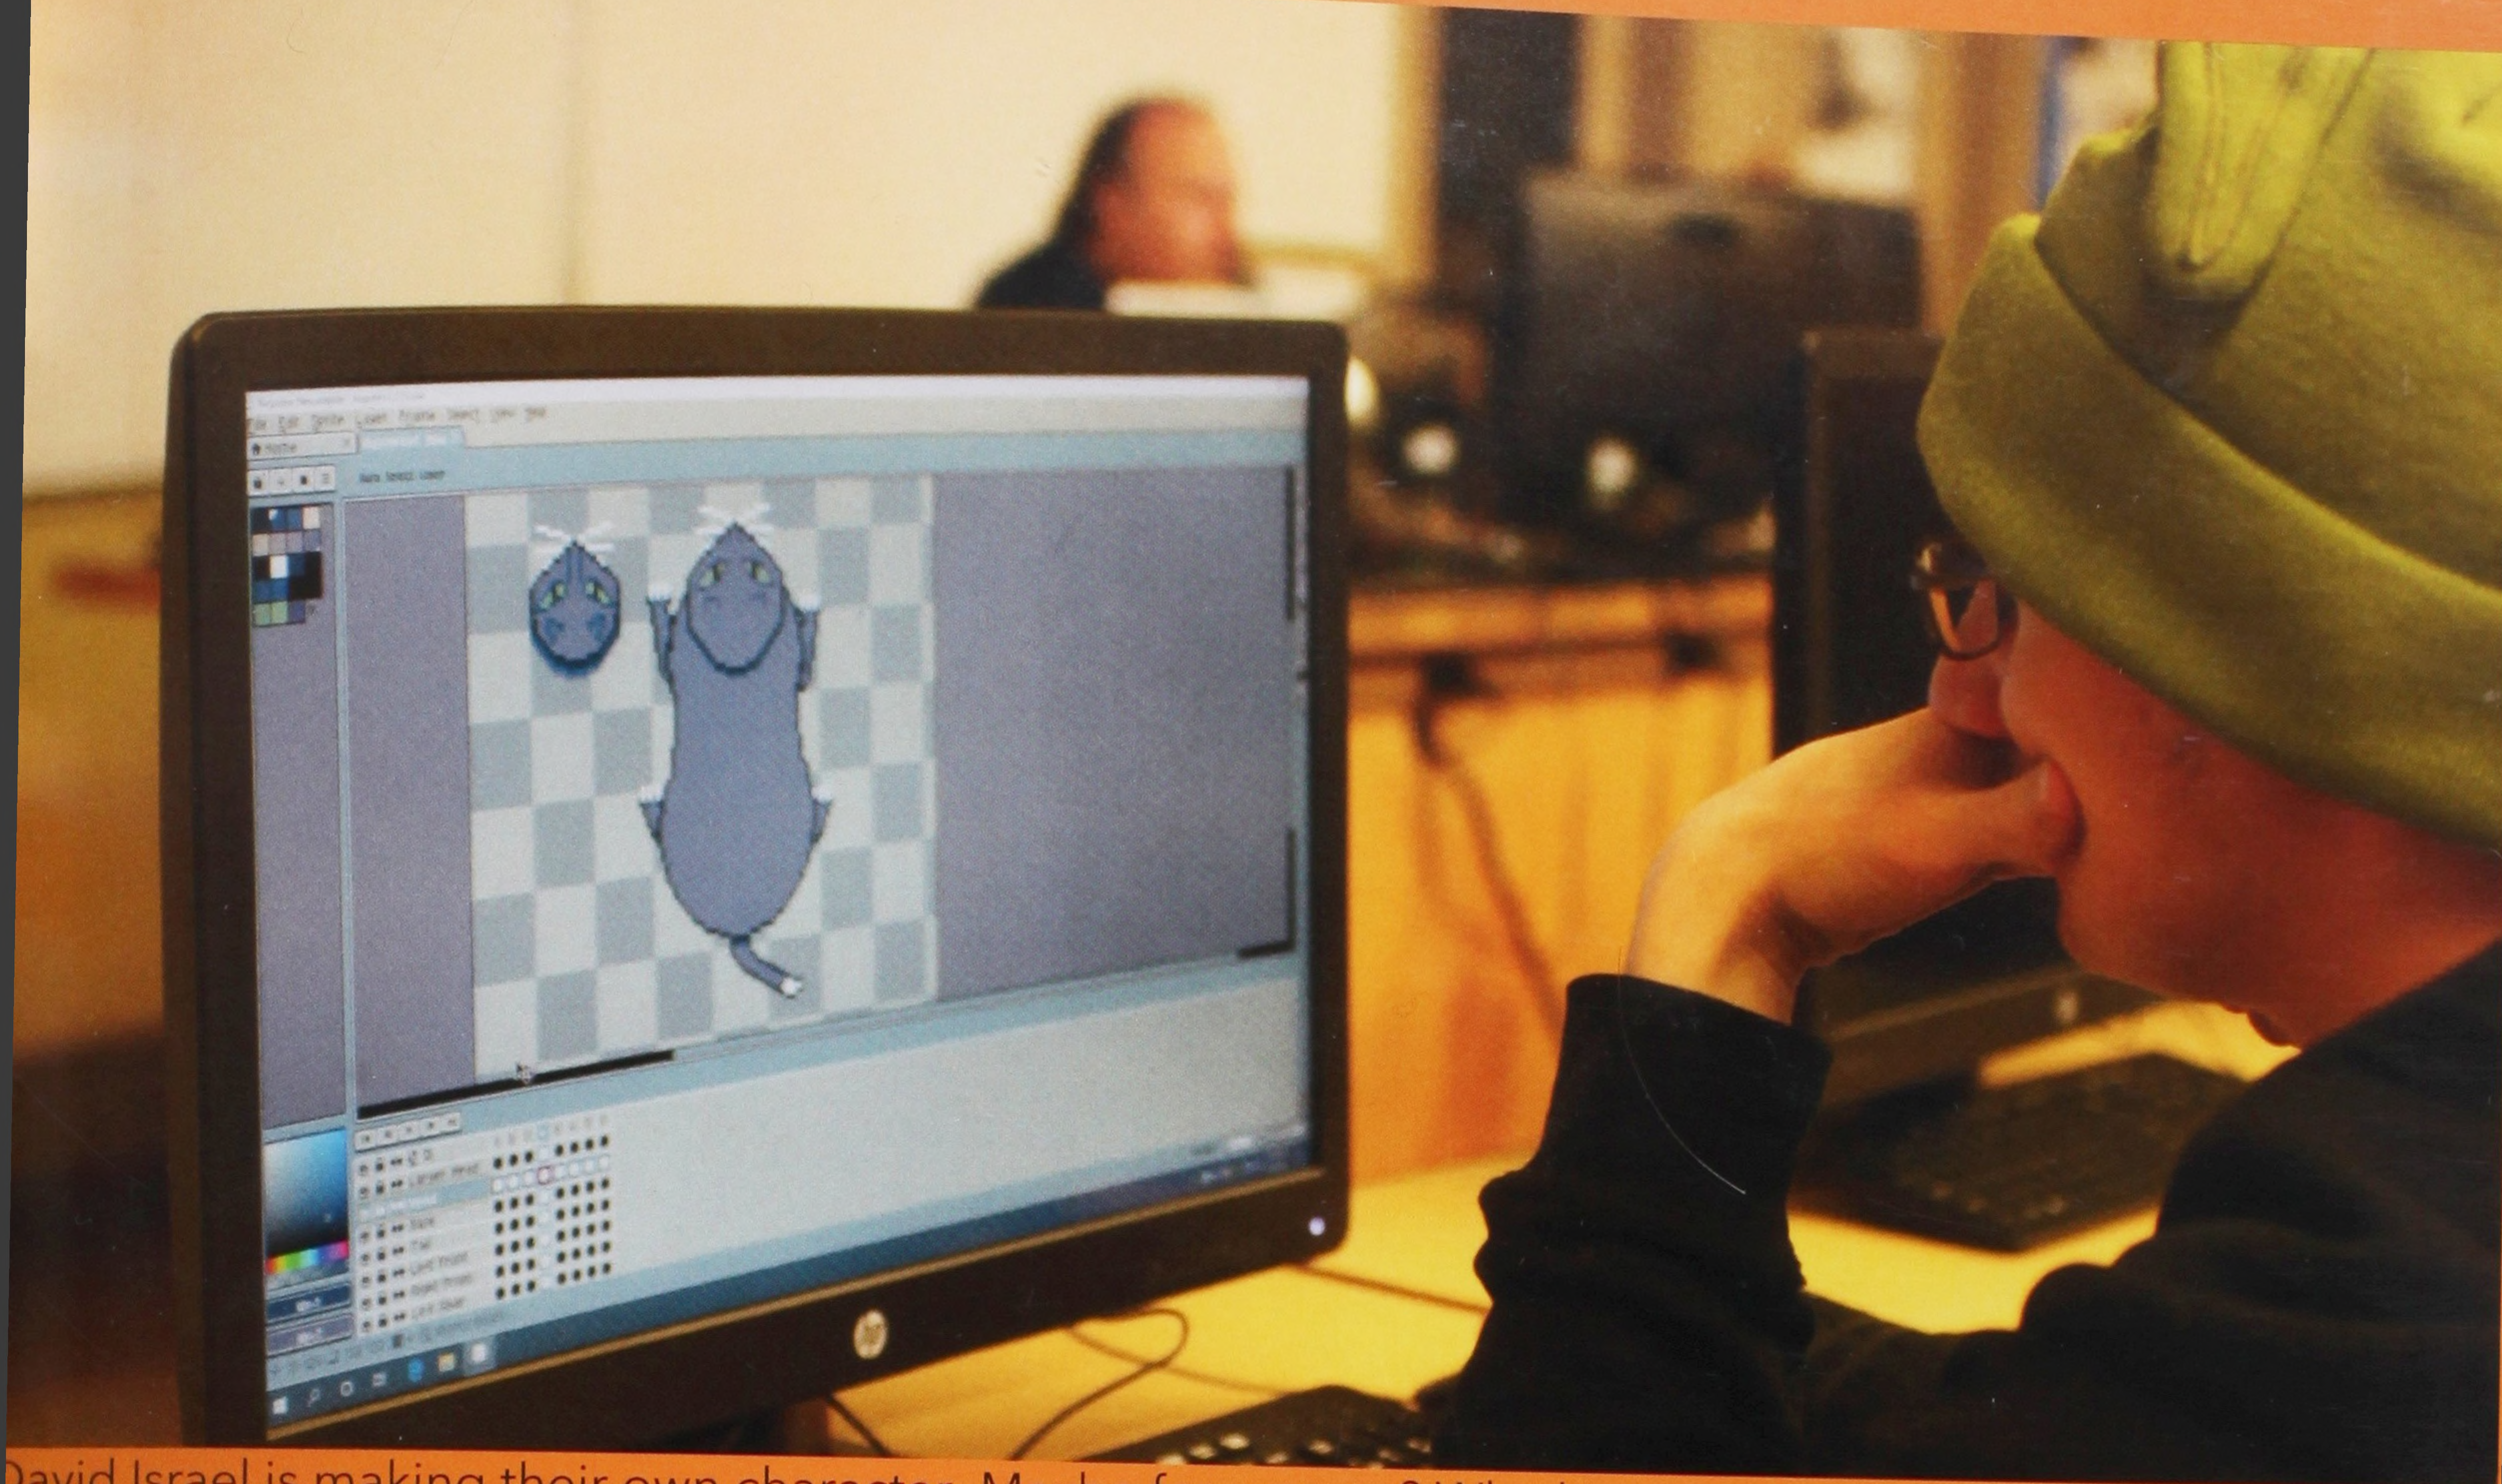

Computers in the 1960s were very different back in the day. Notice the typewriter and reel to reel celluloid tape used for memory.

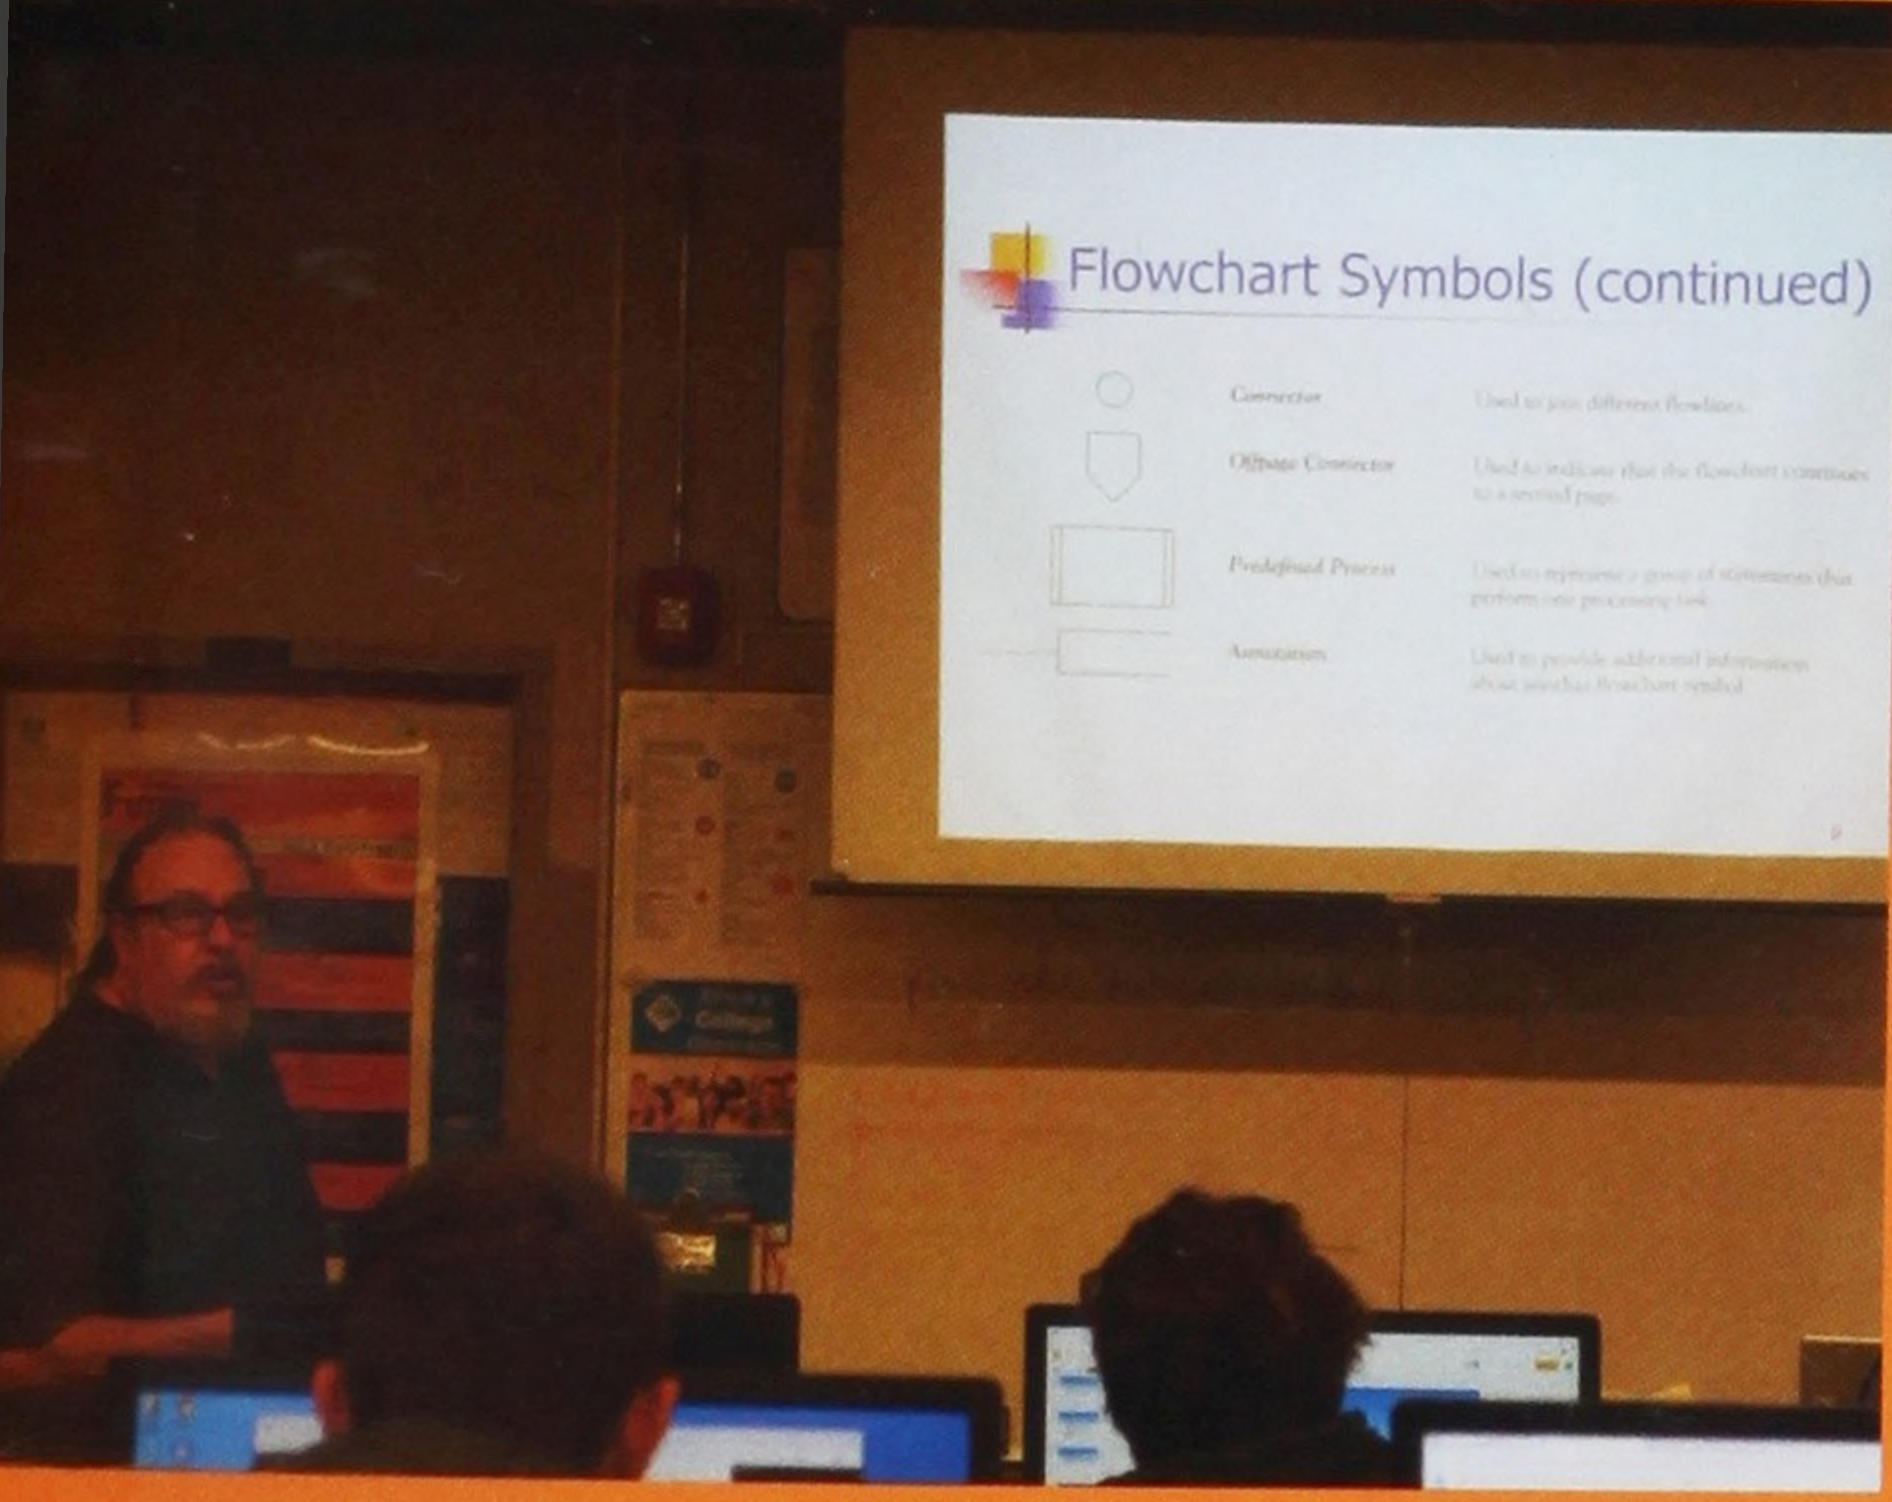

Students working hard.

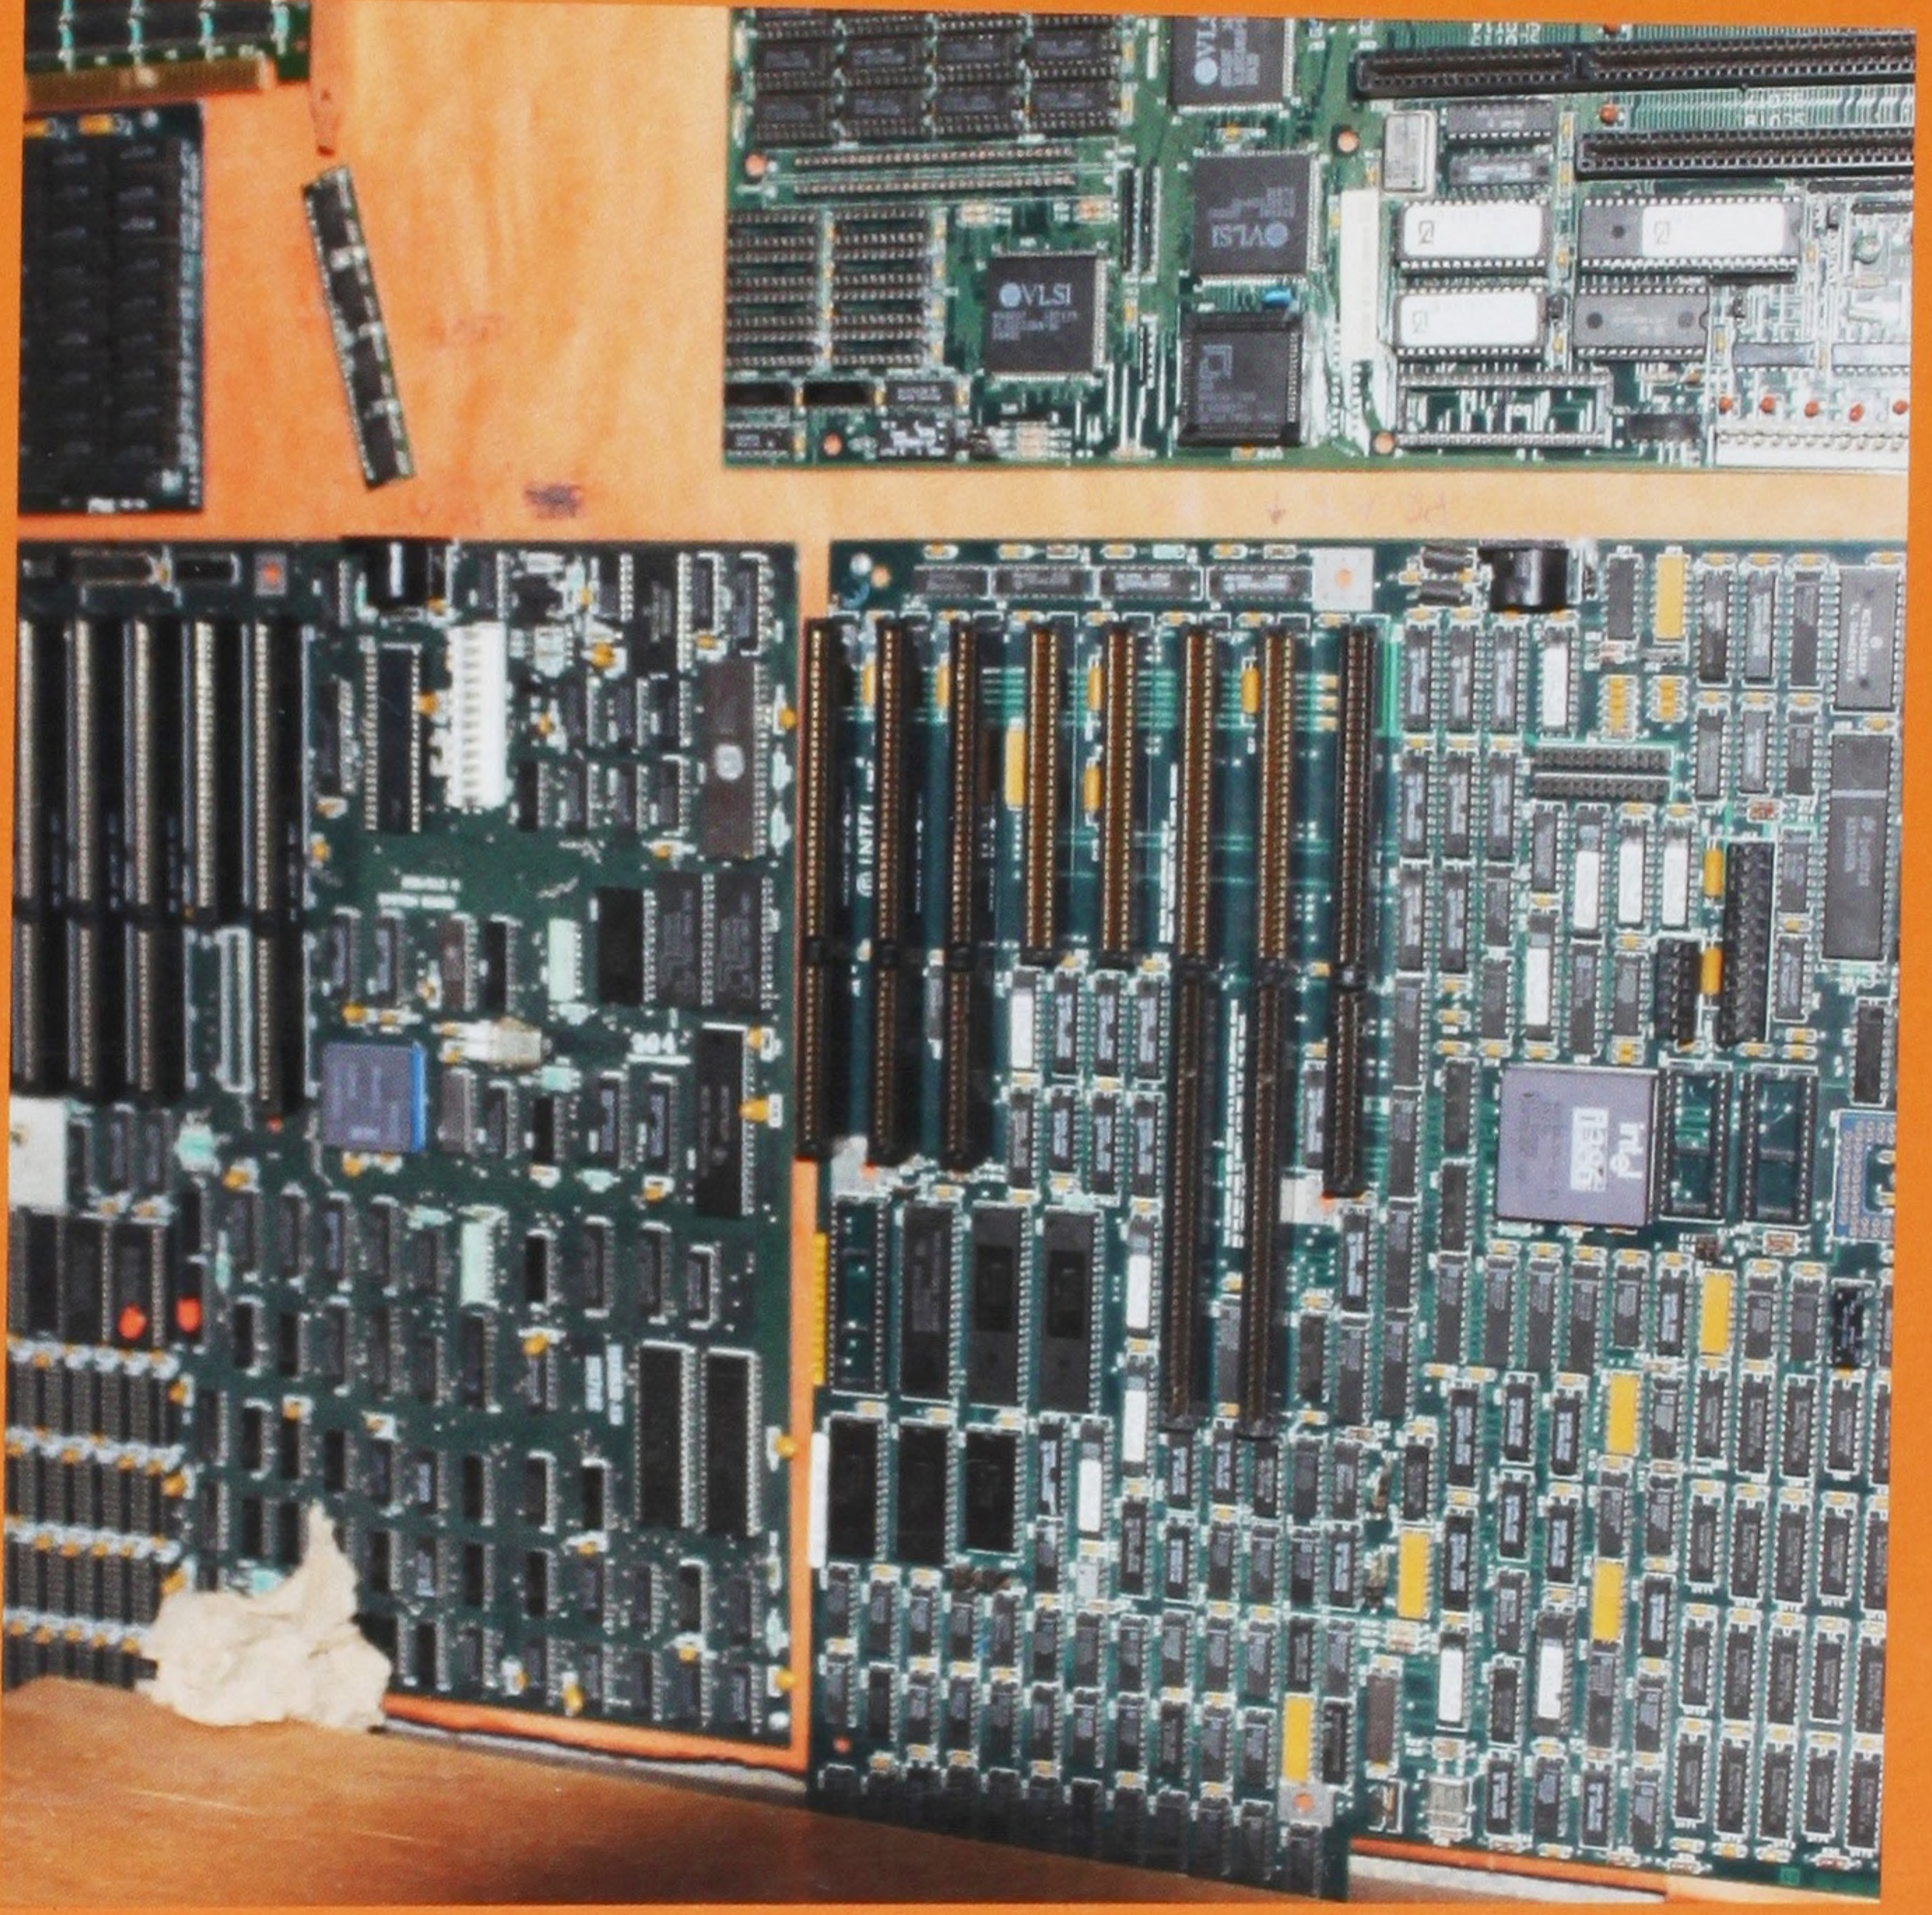

David Israel is making their own character. Maybe for a game? Who knows.

Flowchart Symbols (continued)		
	Connector	Used to join different flowlines.
	Off-page Connector	Used to indicate that the flowchart continues to a second page.
	Predefined Process	Used to represent a group of statements that perform one processing task.
	Annotation	Used to provide additional information about specific flowchart symbols.

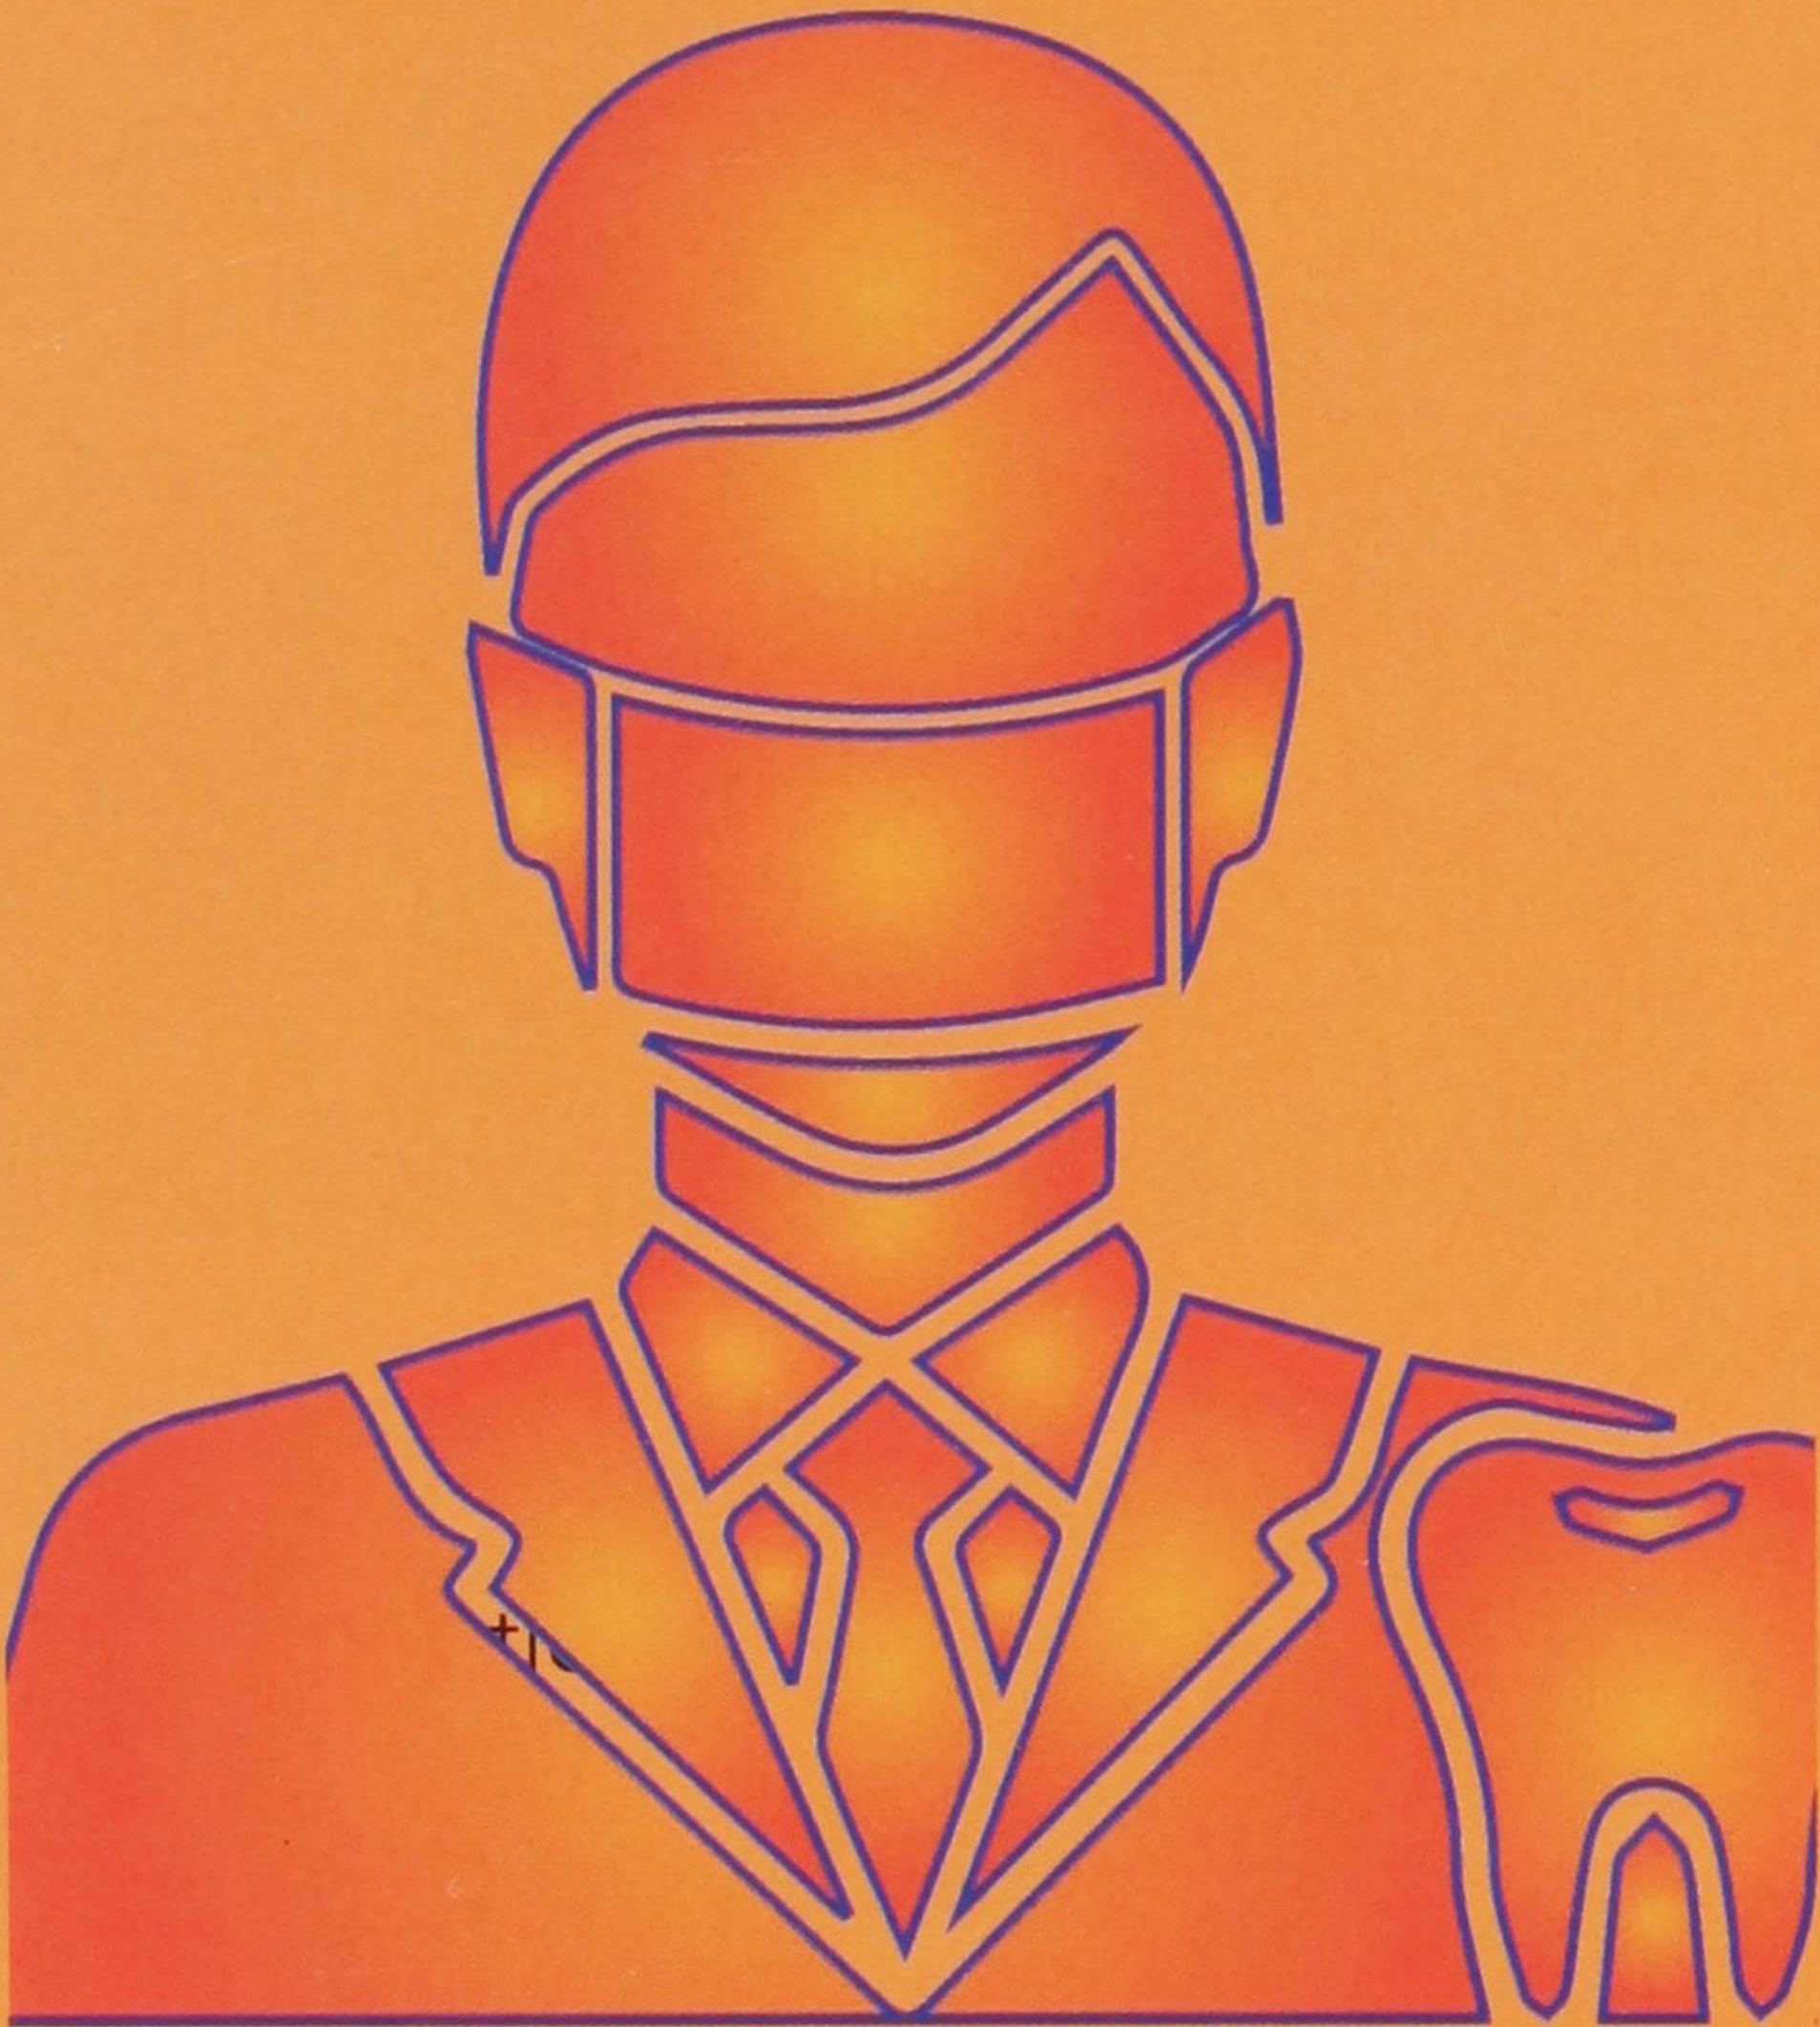

Junior/Senior quote

Dental

Look at all those gloves!!!

Wow....i had no idea we had so many teeth!

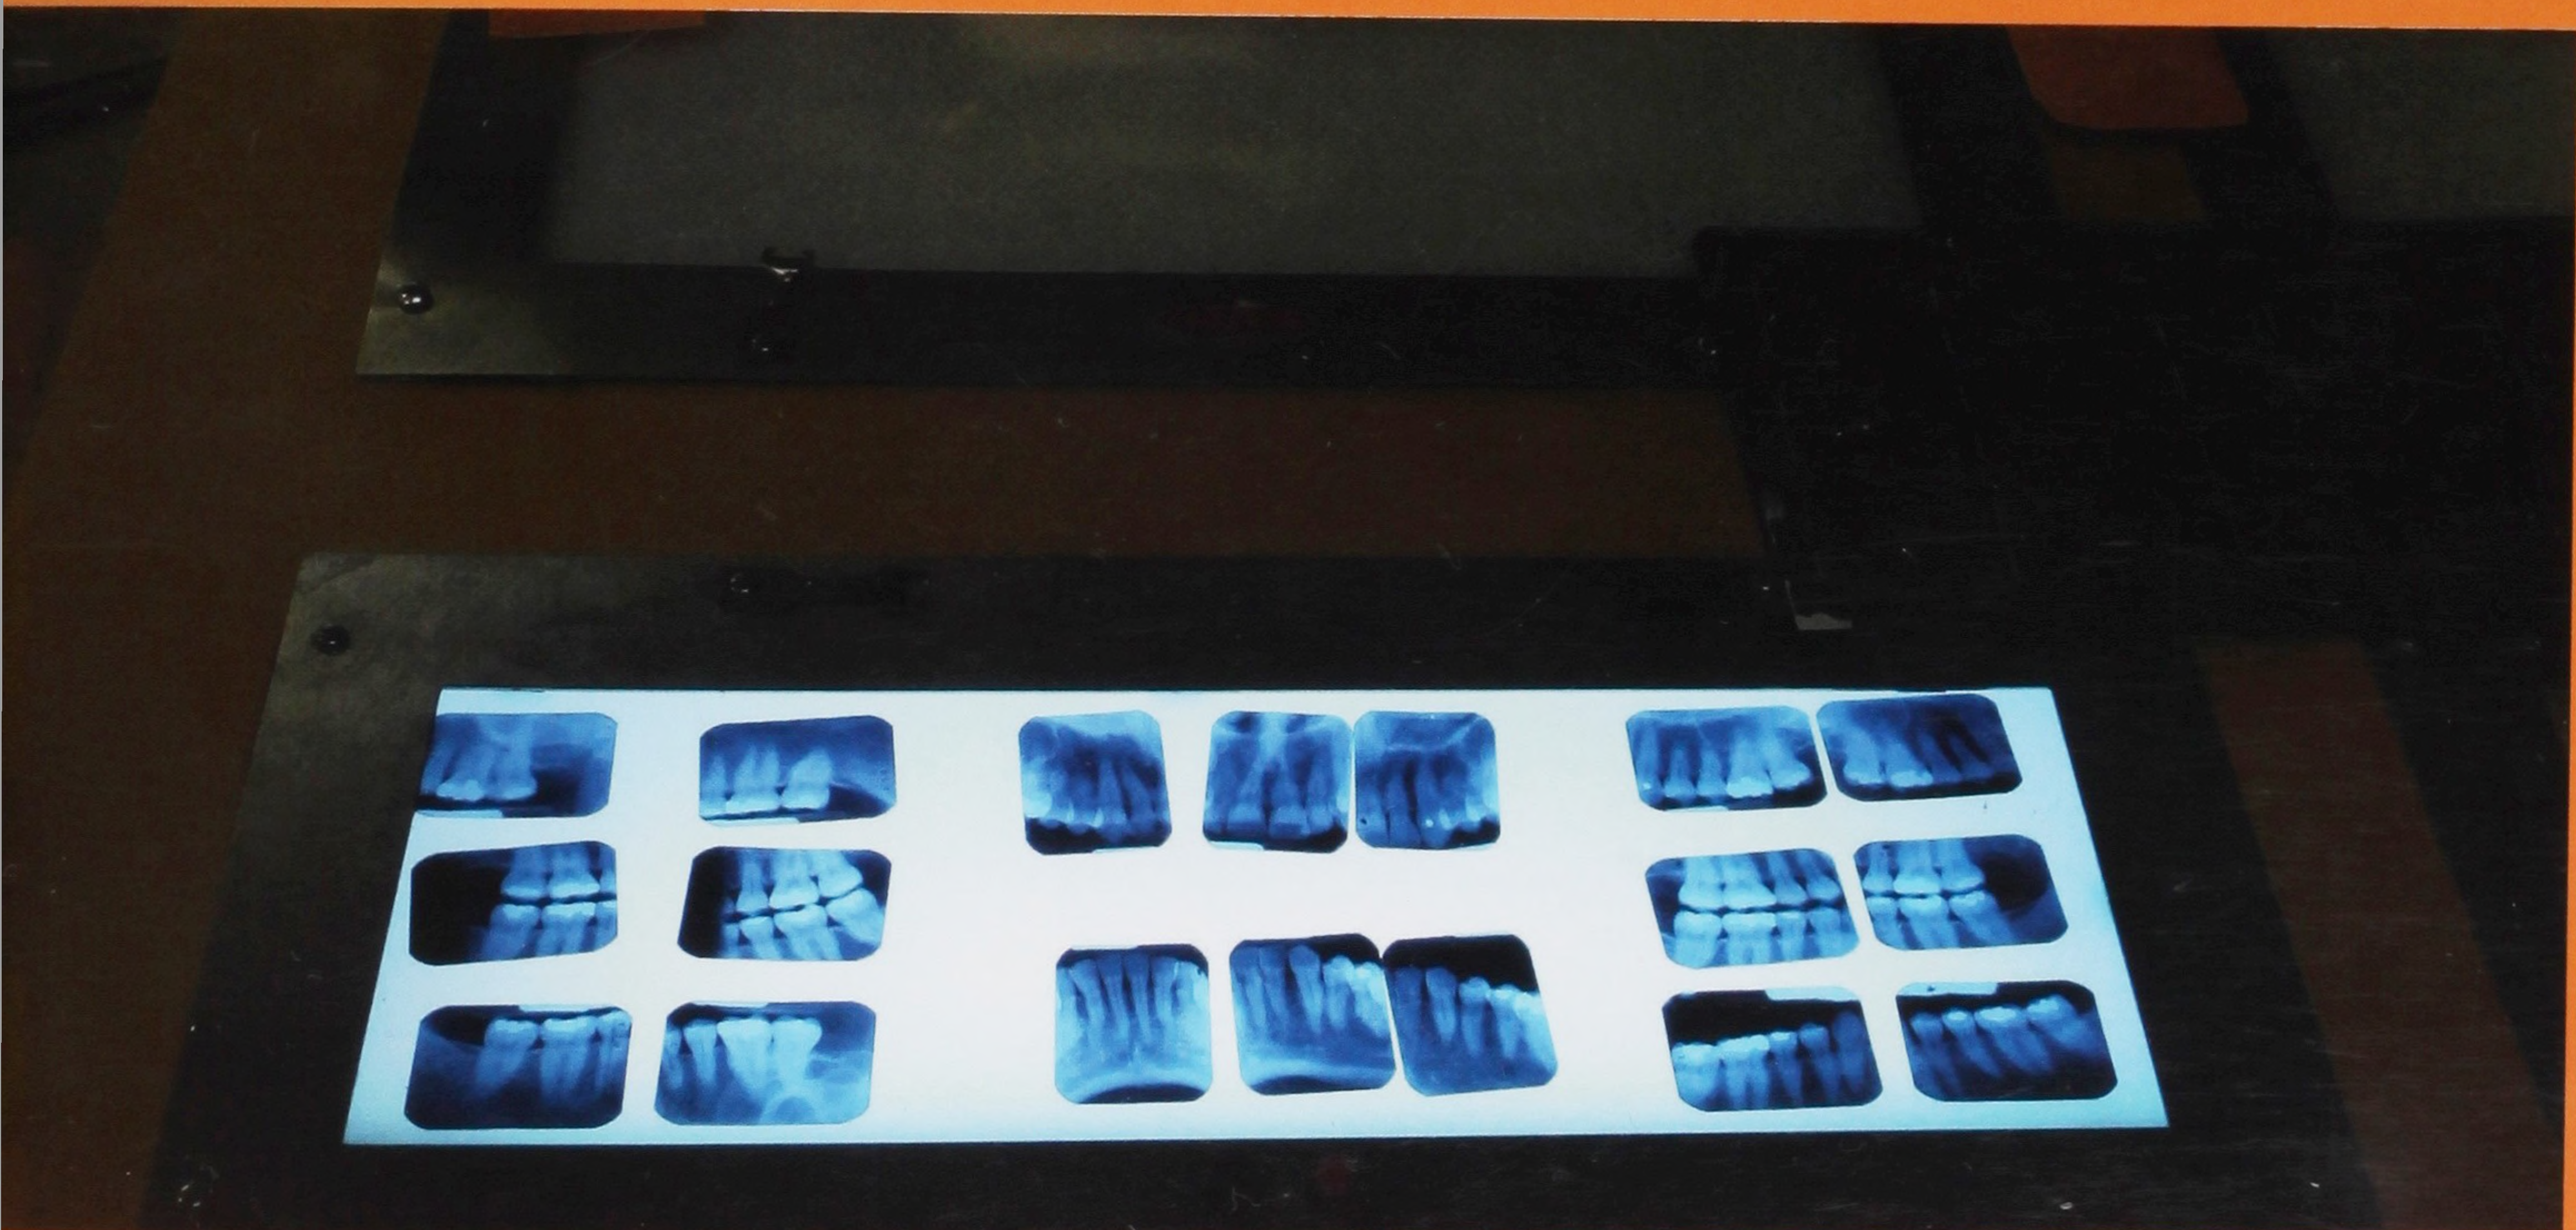

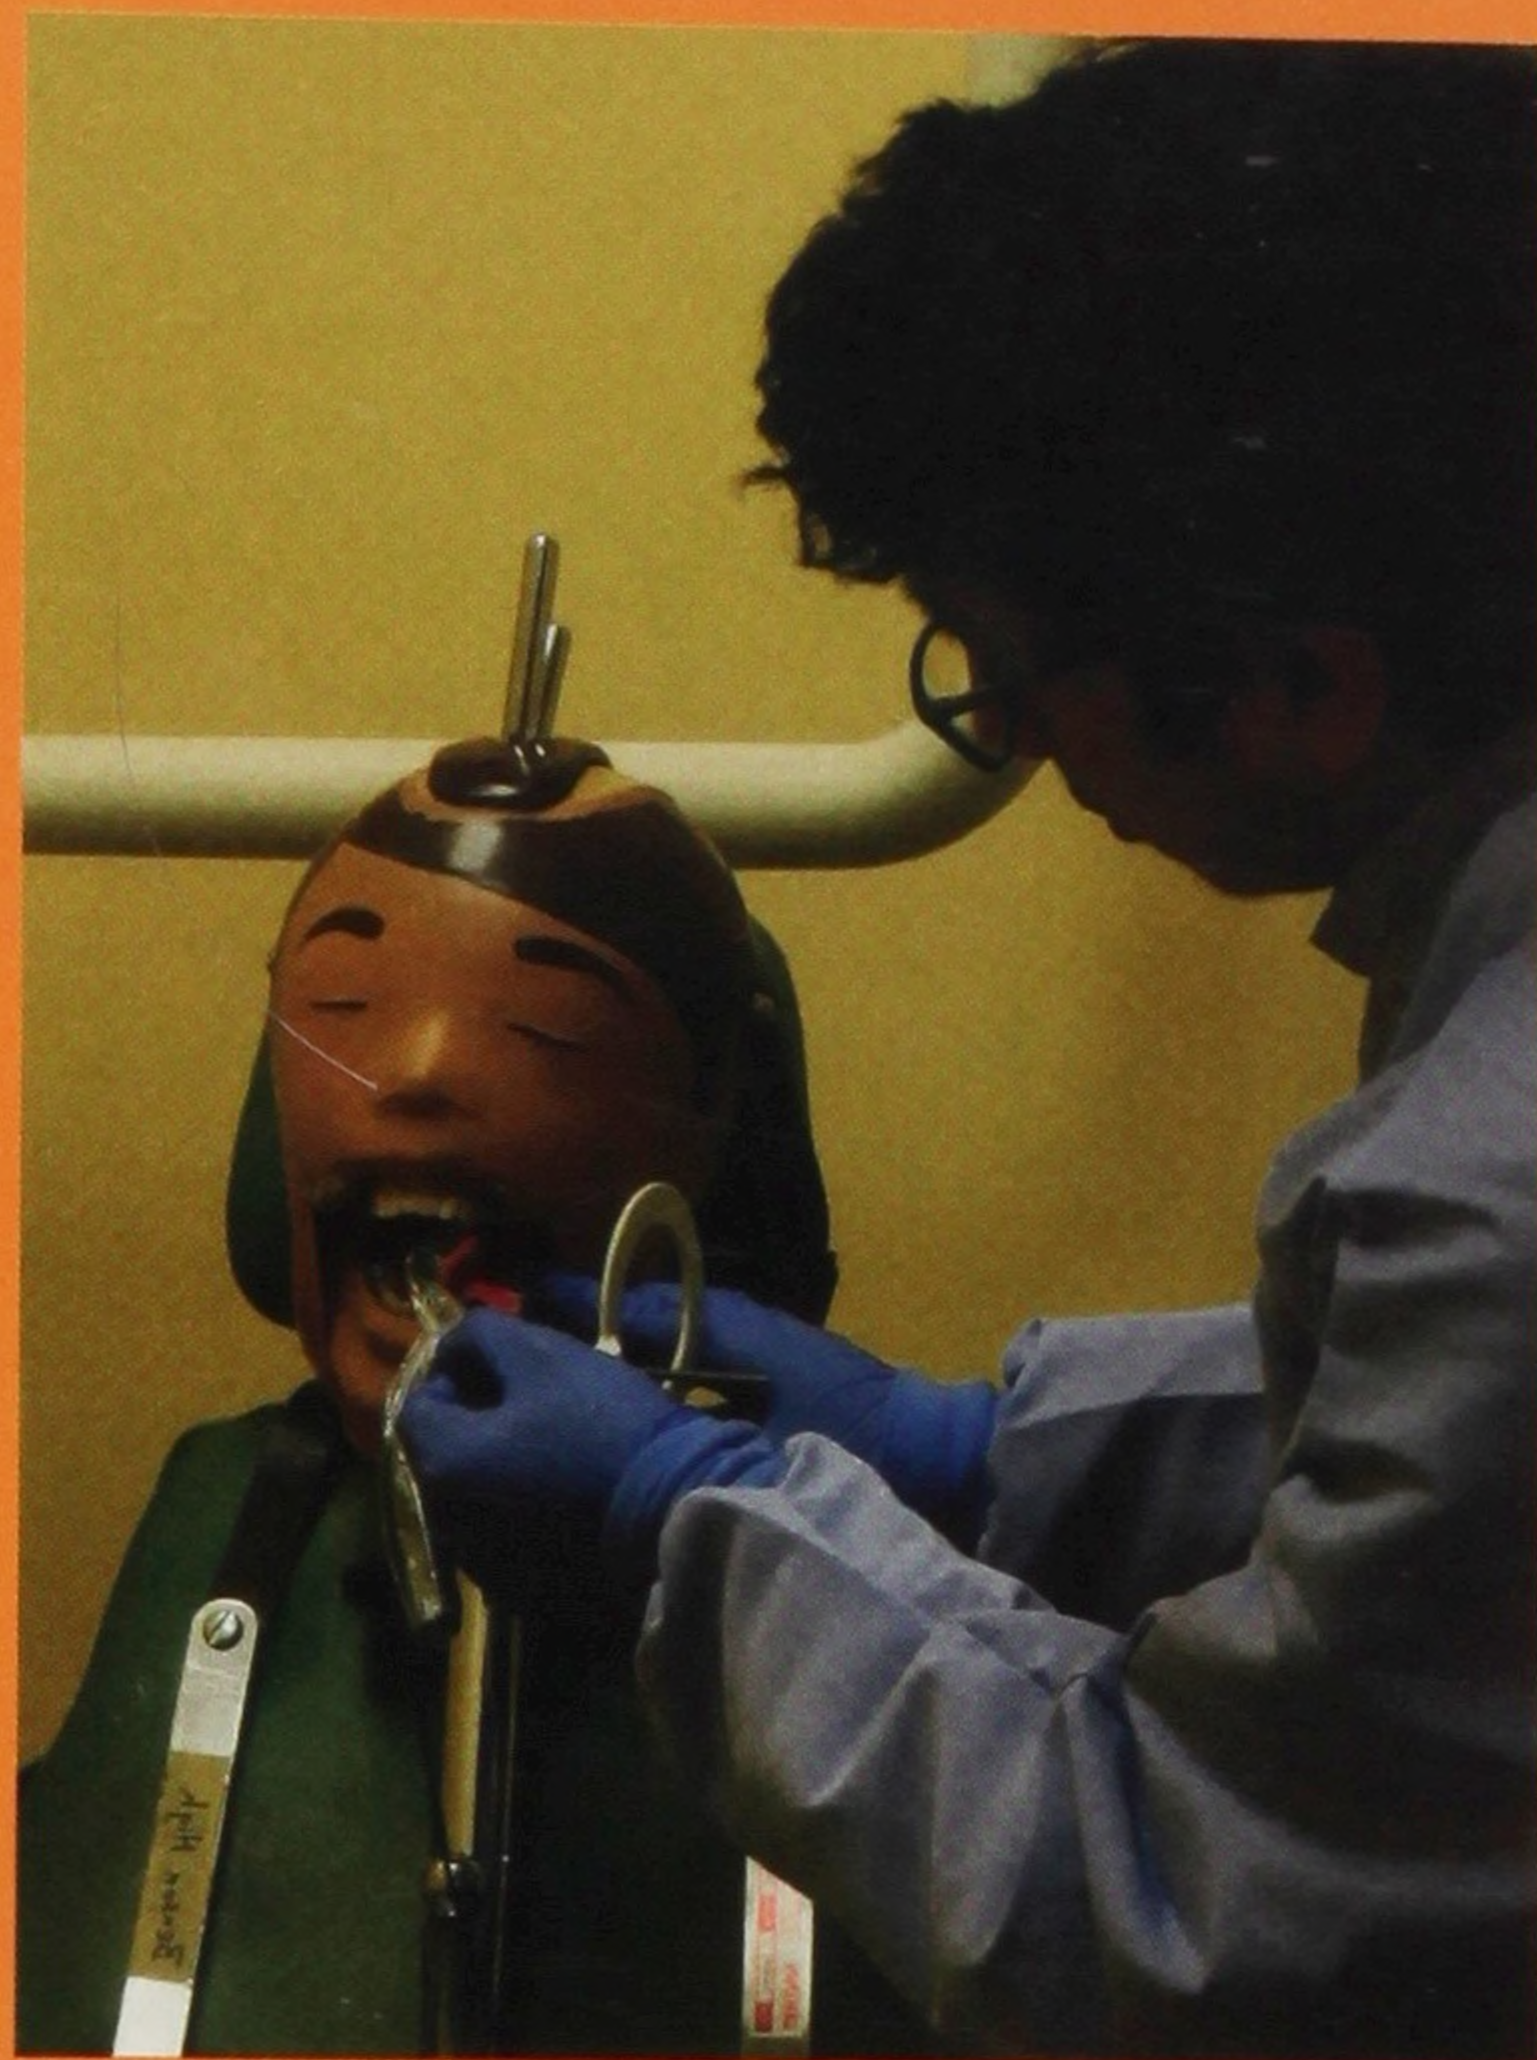

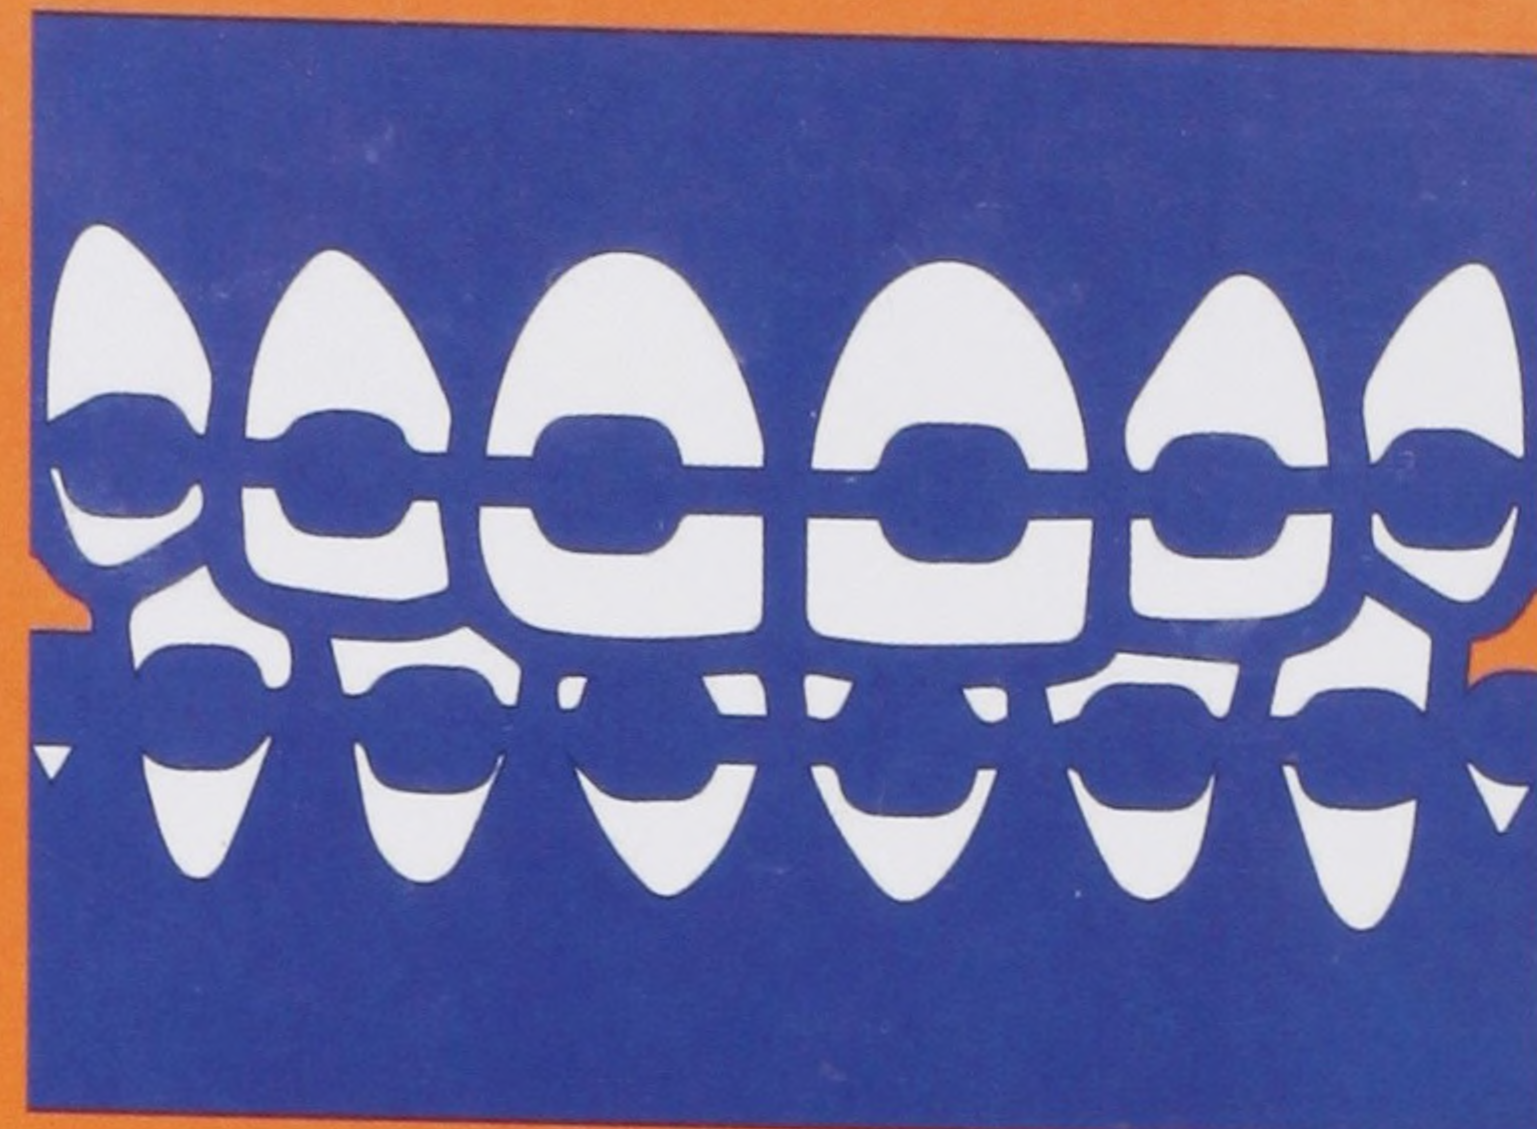

This major gives students the opportunity to work with dental tools found in dental offices. In this course, they explore the different types of career paths related to dental such as hygiene, oral surgery, and more. Like the other medical majors, students get hands on experience and get to go to clinical sites. Great futures await!

Data and computers are essential to today's dentist.

The cool glasses are a must for any patient.

Radiology and the art of the X-Ray machine can land you a great career with high pay.

Electric

Learning to use the soldering iron takes practice and skill, watch your fingers.

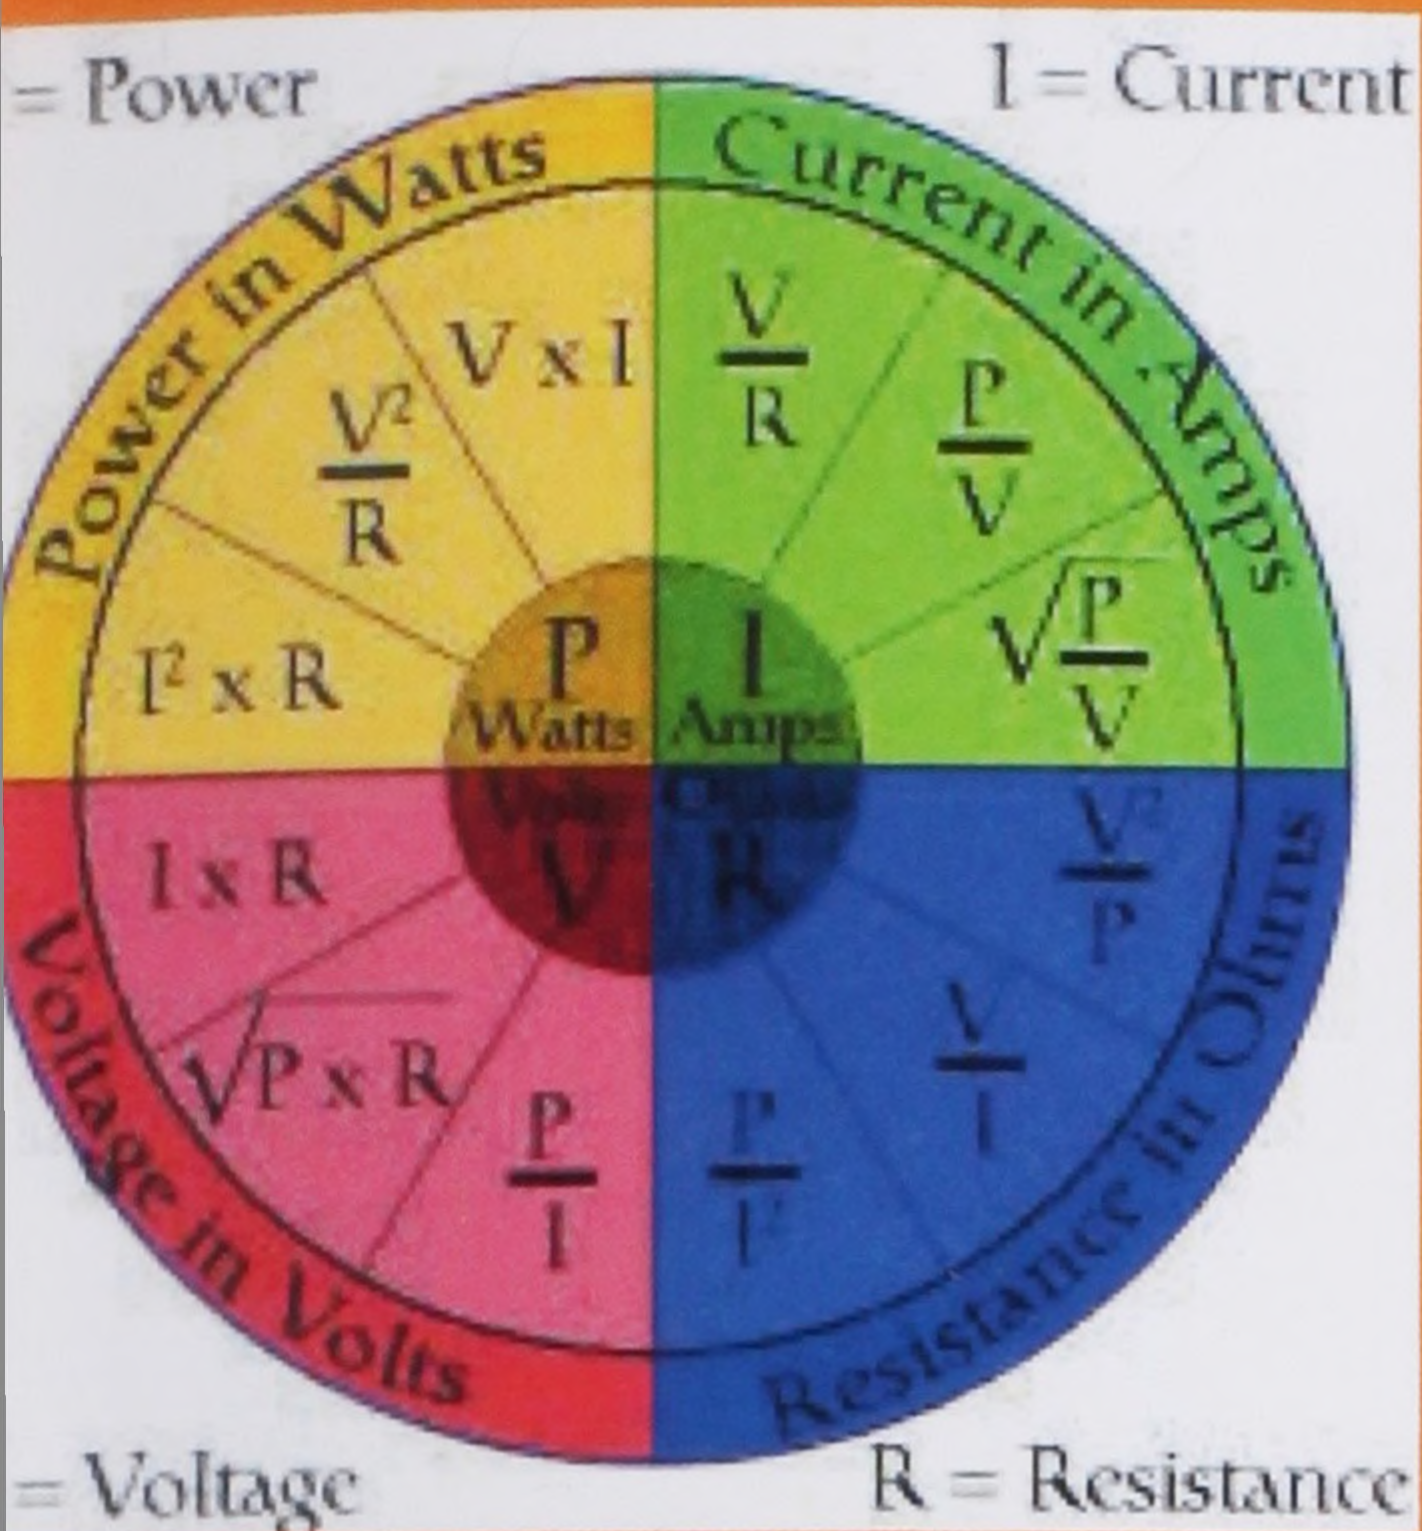

In the electric major, students work one on one with house wiring and circuit boards. They learn about residential house wiring, security systems, renewable energy methods, robotics, motor controls, and industrial automation.

Some of the many tools used in Electric include these wire strippers, charts and, of course, your phone.

Building circuit boards and led light connectors is fun but very time consuming work.

Cutting metal is a big skill in this class, once again, watch those fingers.

Bunch of metals used everyday in this class. Where do you guys get all that copper plate.

Hole punchin'...OH Yeah!

Cindy is here getting her materials for her project

Andrew is cutting a piece of copper. Copper is used all the time in Electric class. The students get an experience in basic elements.

Media Design

Media Design is one of the four fields inside of the Digital Media Productions major. Students learn to express their creativity and get a taste of design through the use of modern technology and software. Mr. Curley, the teacher for Media Design, is there to guide and push students to do their best using a positive mental attitude.

Students learn the basics of Adobe Photoshop, Illustrator and In Design. These apps are the premier programs used by today's designers and Graphic Artists. The new Mac Lab gives out students an edge in learning on some of the best equipment available.

Digital Media Mini-Gallery

Photo of fish design by M.Hawk. DMP

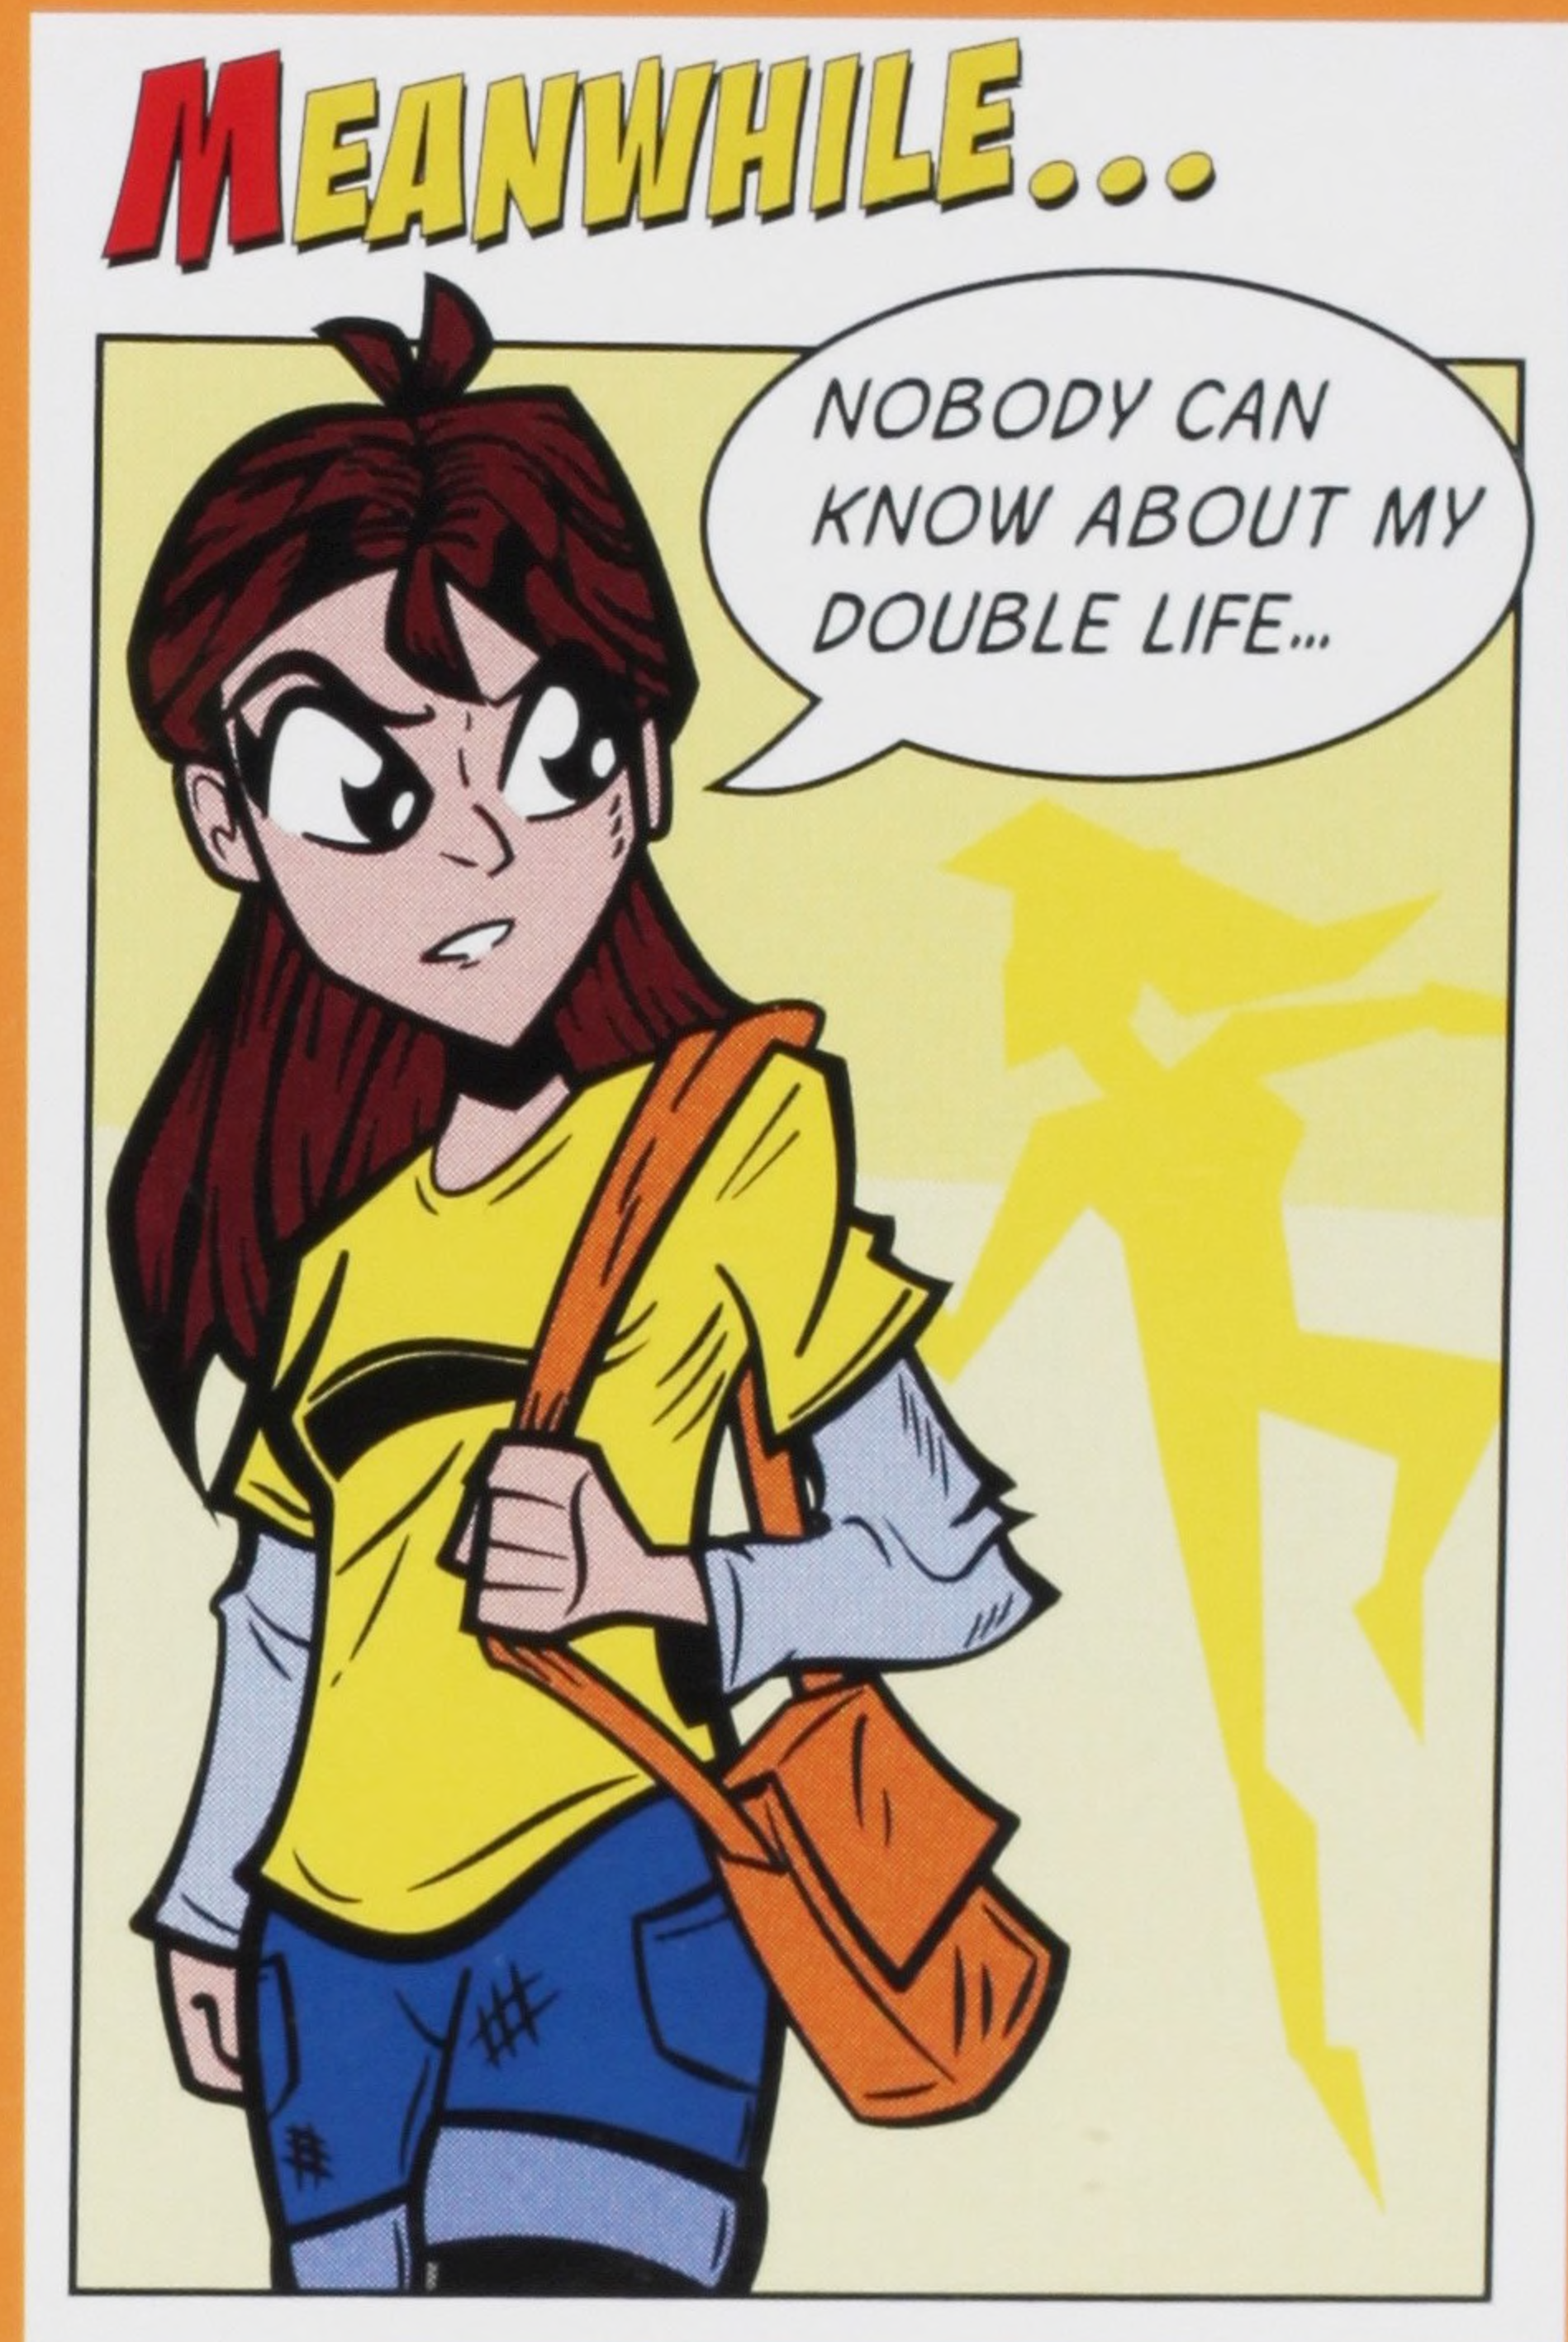

Photo of Illistrator image by Gabriela. DMP class.

Students learn the basics of Adobe Illustrator and Photoshop programs. Illustration by Corona Goliloyd.

An iteresting piece by Do. DMP.

A wonderful and strong piece by Senior Andres Herreas.

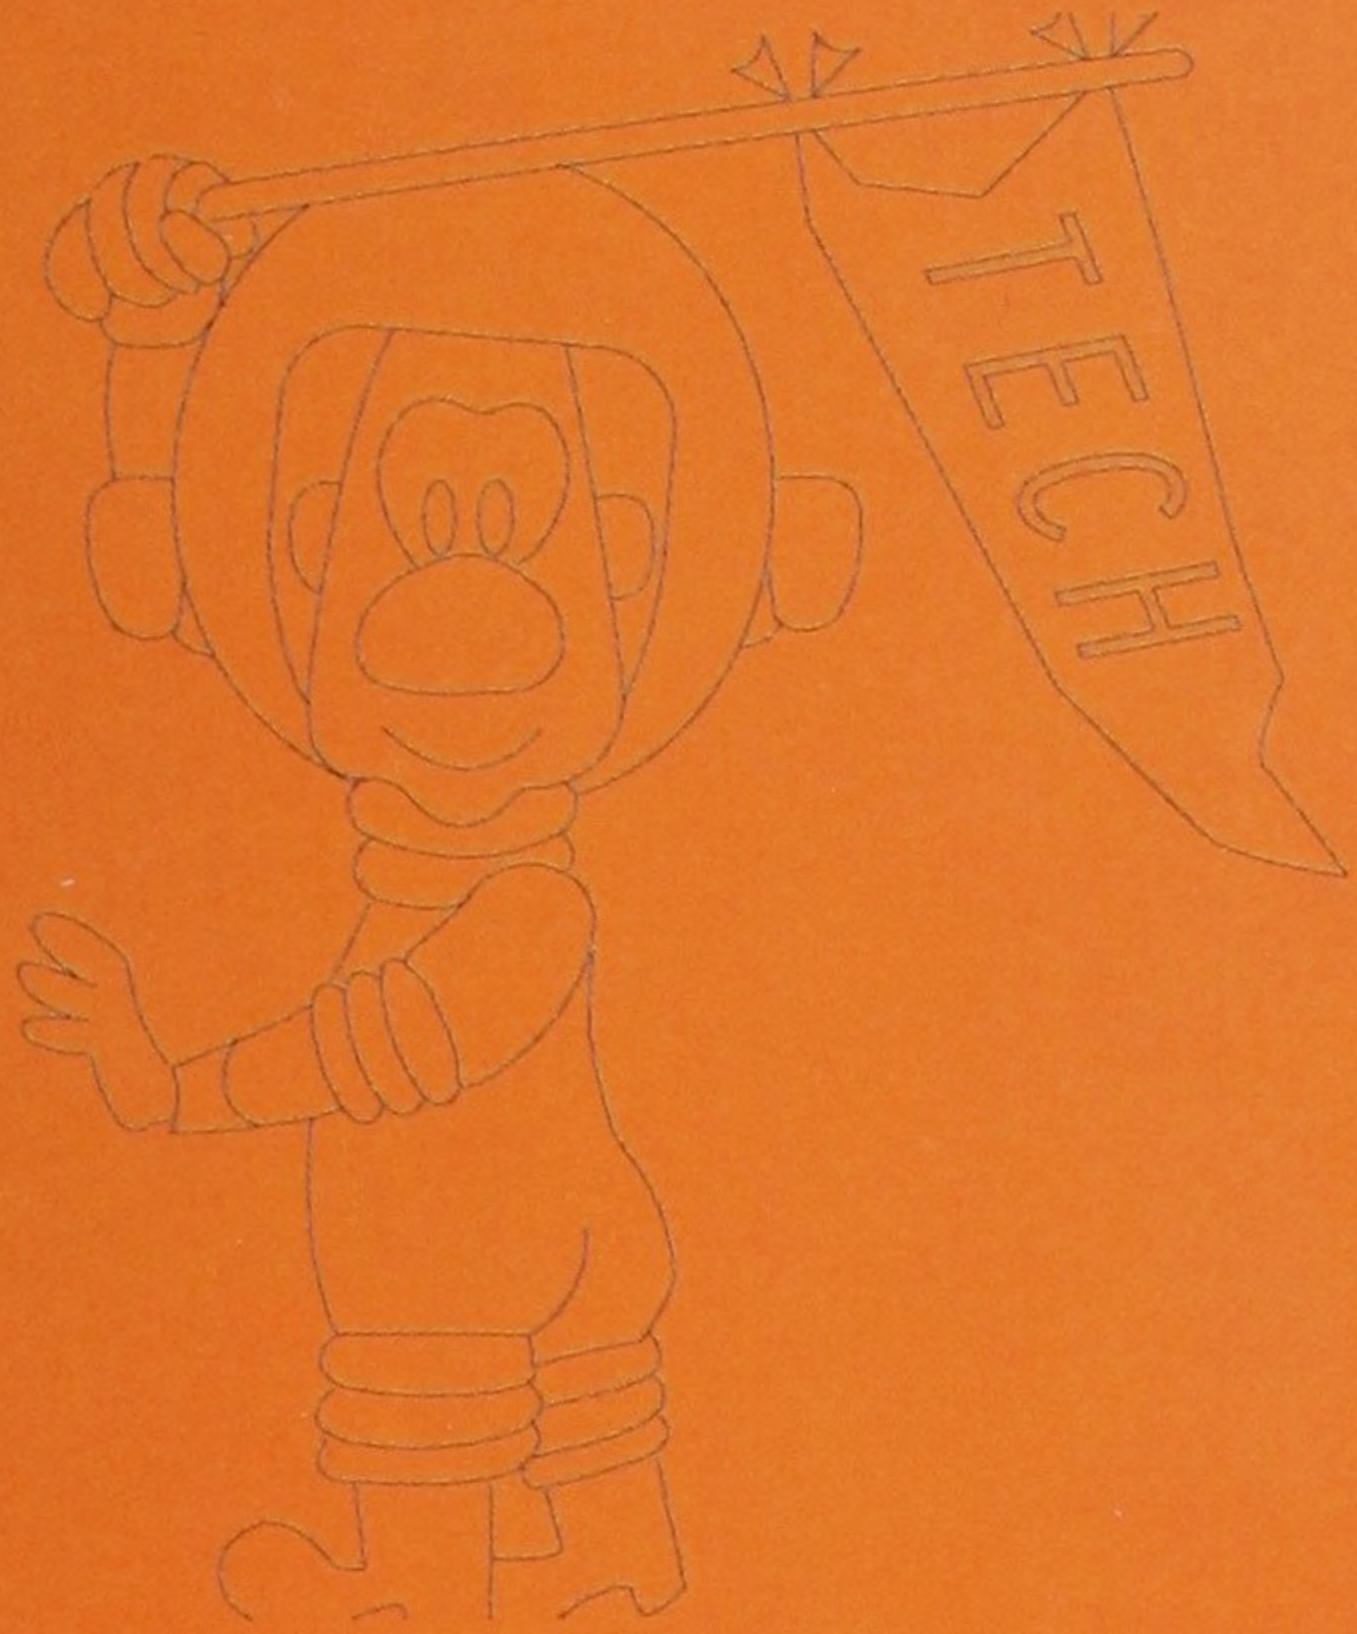

Medical Profession

In Medical Profession, students get an overview of the medical field. This pathway out of 3, is very hands-on. Students may participate in clinical areas such as Veterinary Medicine, Pharmacy, and more. Those in this field get a general knowledge of basic medical healthcare and learn the duties of health care professionals.

Students in their "Scrubs".Gezz Sofia why so shy?

Dissection and investigation are a big part of the curriculum here at Benson. Fetal pigs and cow eyes are the objects of choice. Students also learn about X-Rays, blood sugar work and C.P.R. certification.

Photo of an "Old School" stethoscopic. The age of modern medical practices started hundreds of years ago and is still a growing field. Students learn how to take blood, blood pressure, truma first aid and much more.

The Medical Center - Our heroes!!!

Caroline Bleckman
The school Social Worker

Nancy Zink , MD is our medical director here at the school Based Health Center picture with a Therapy Dog ,Uly

Patty Locke–Patty is the Head Nurse of our school that helps keep Benson healthy

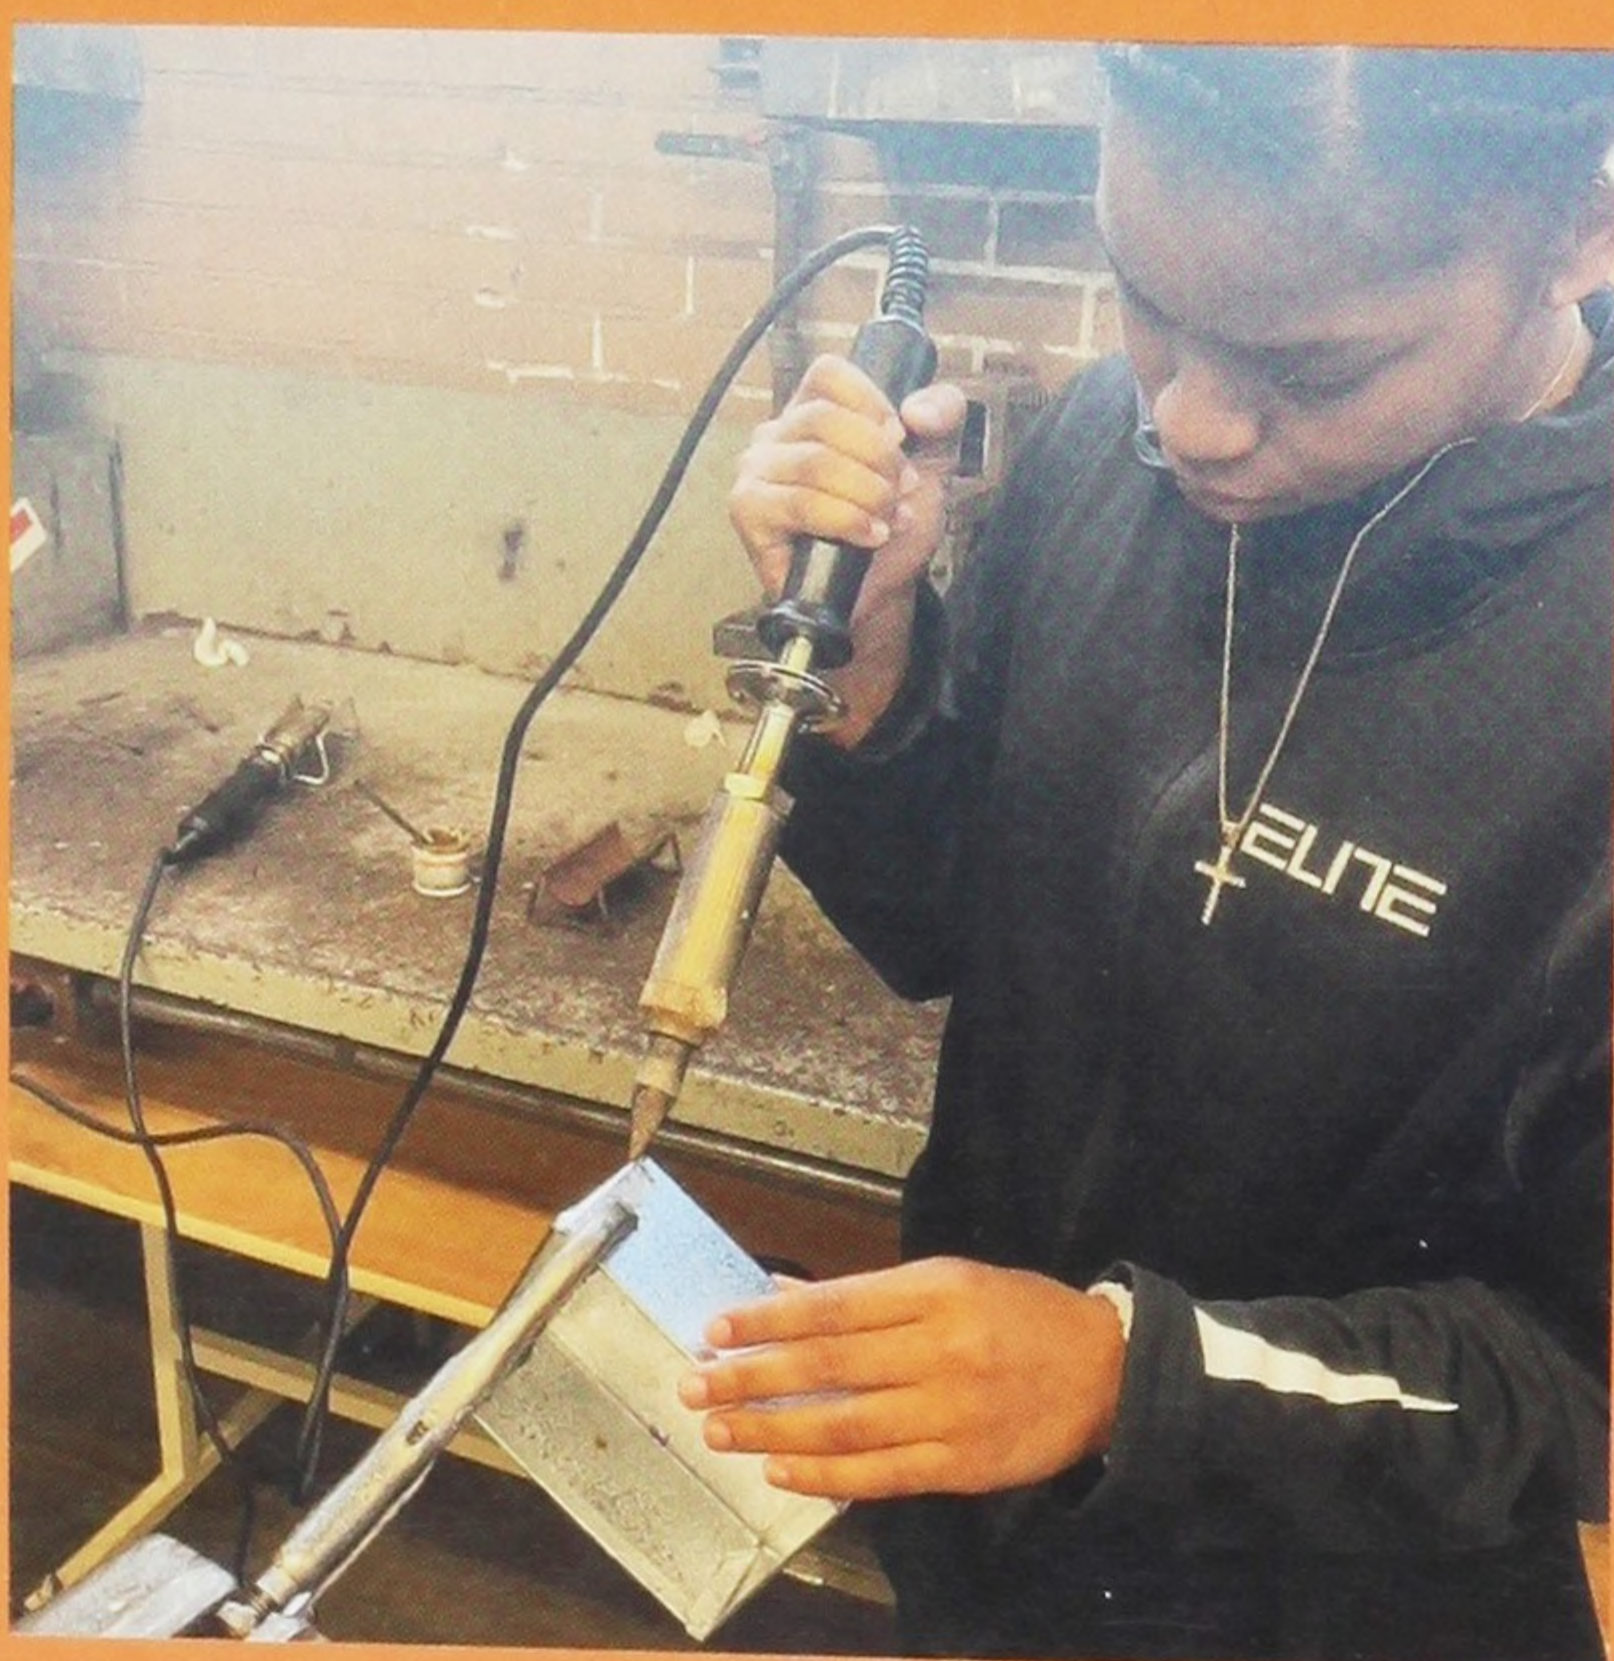

“The life so short, the craft so long to learn.”
— Hippocrates

Sandra and company using one of the many, many shops available to the manufacturing students. We have a shop for everything. Benson has eight functioning shops in C wing, also jokingly called "Clouten's wing" after Mr. Clouten.

Manufacturing

Taught by Mr. Gerber and Mr. Clouten, students get to work closely with machinery, sheet metal, tools, welding, foundry, and CAD/Master Cam. Projects that students make and finish can be taken home with them, or given to local shops. They are also eligible for dual PCC credits. Other skills taught are: Foundry metal casting, Lathe work, CNC machining, Laser cutting, plasma torch, Oxy-Acetylene braising and cutting plus many kinds of machining. Skills for literally thousands of tools.

3-D printing has taken a hold in the manufacturing shops. The latest technology allows for our students to be ready for the next stage in production design.

The forge is seen here, used for generations of manufacturing students to make the iconic screwdriver. This thing gets hot, at about 1800°F this thing will make the steel "plastic".

Students can often be seen carving out their custom made skateboards on this planer.

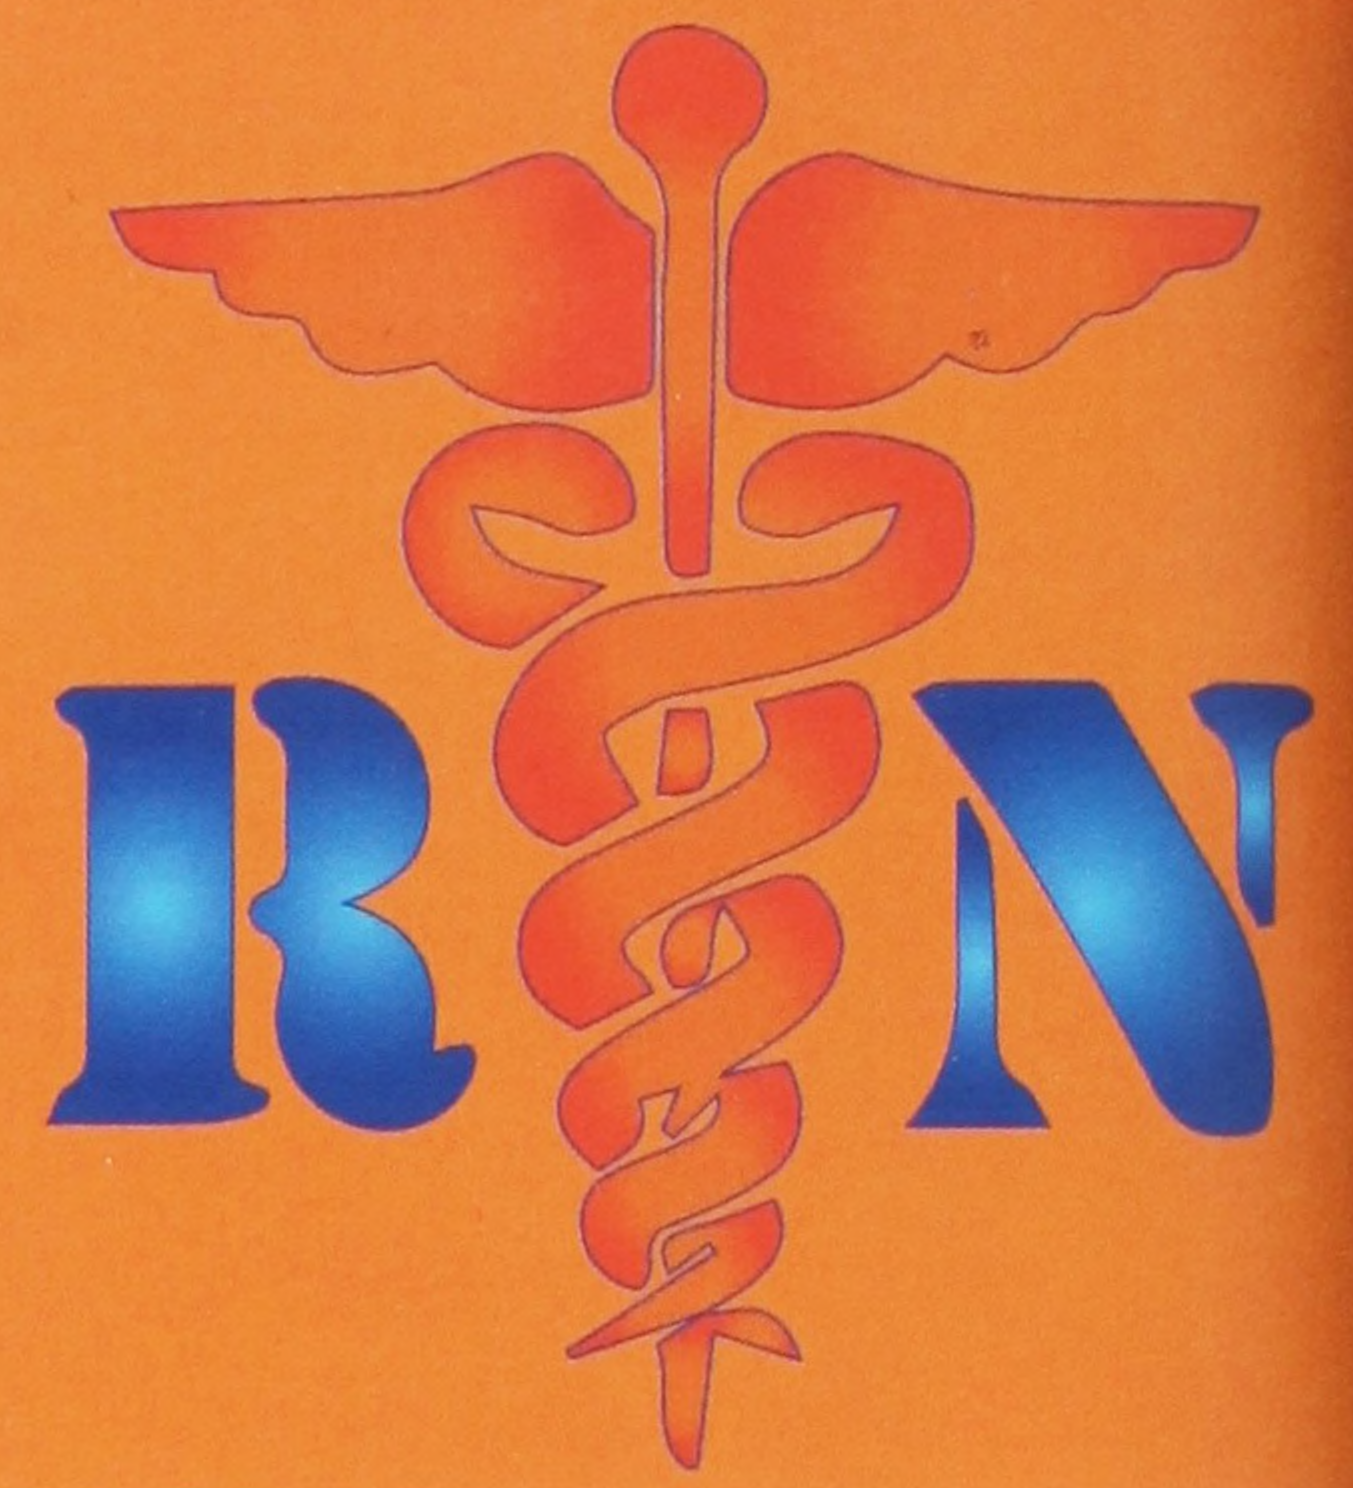

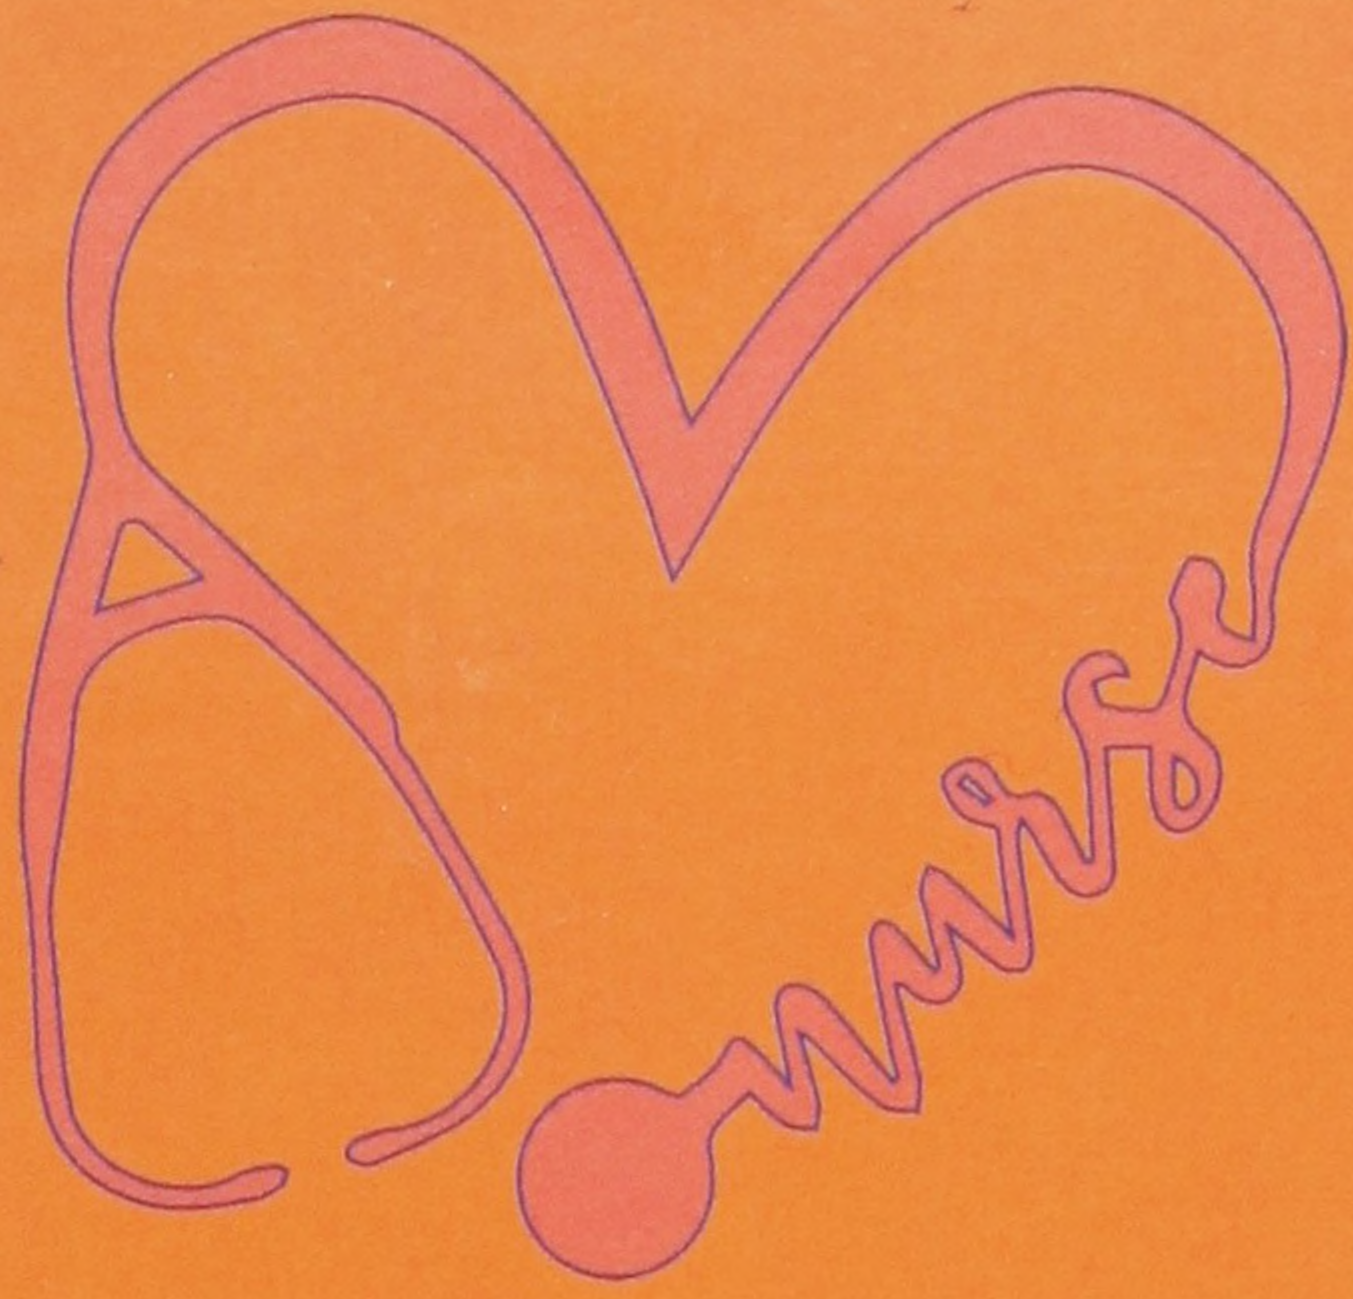

Students seen here playing video games, oops...I mean working really hard on the CAD designs for their skateboard trucks and other parts.

This is the new skateboard wood press. This allows the students to learn about processing a skateboard form from scratch. Very cool Mr. Gerber!!! To the right: The famous Lathe room where WWII bomber parts were made from 1940-44.

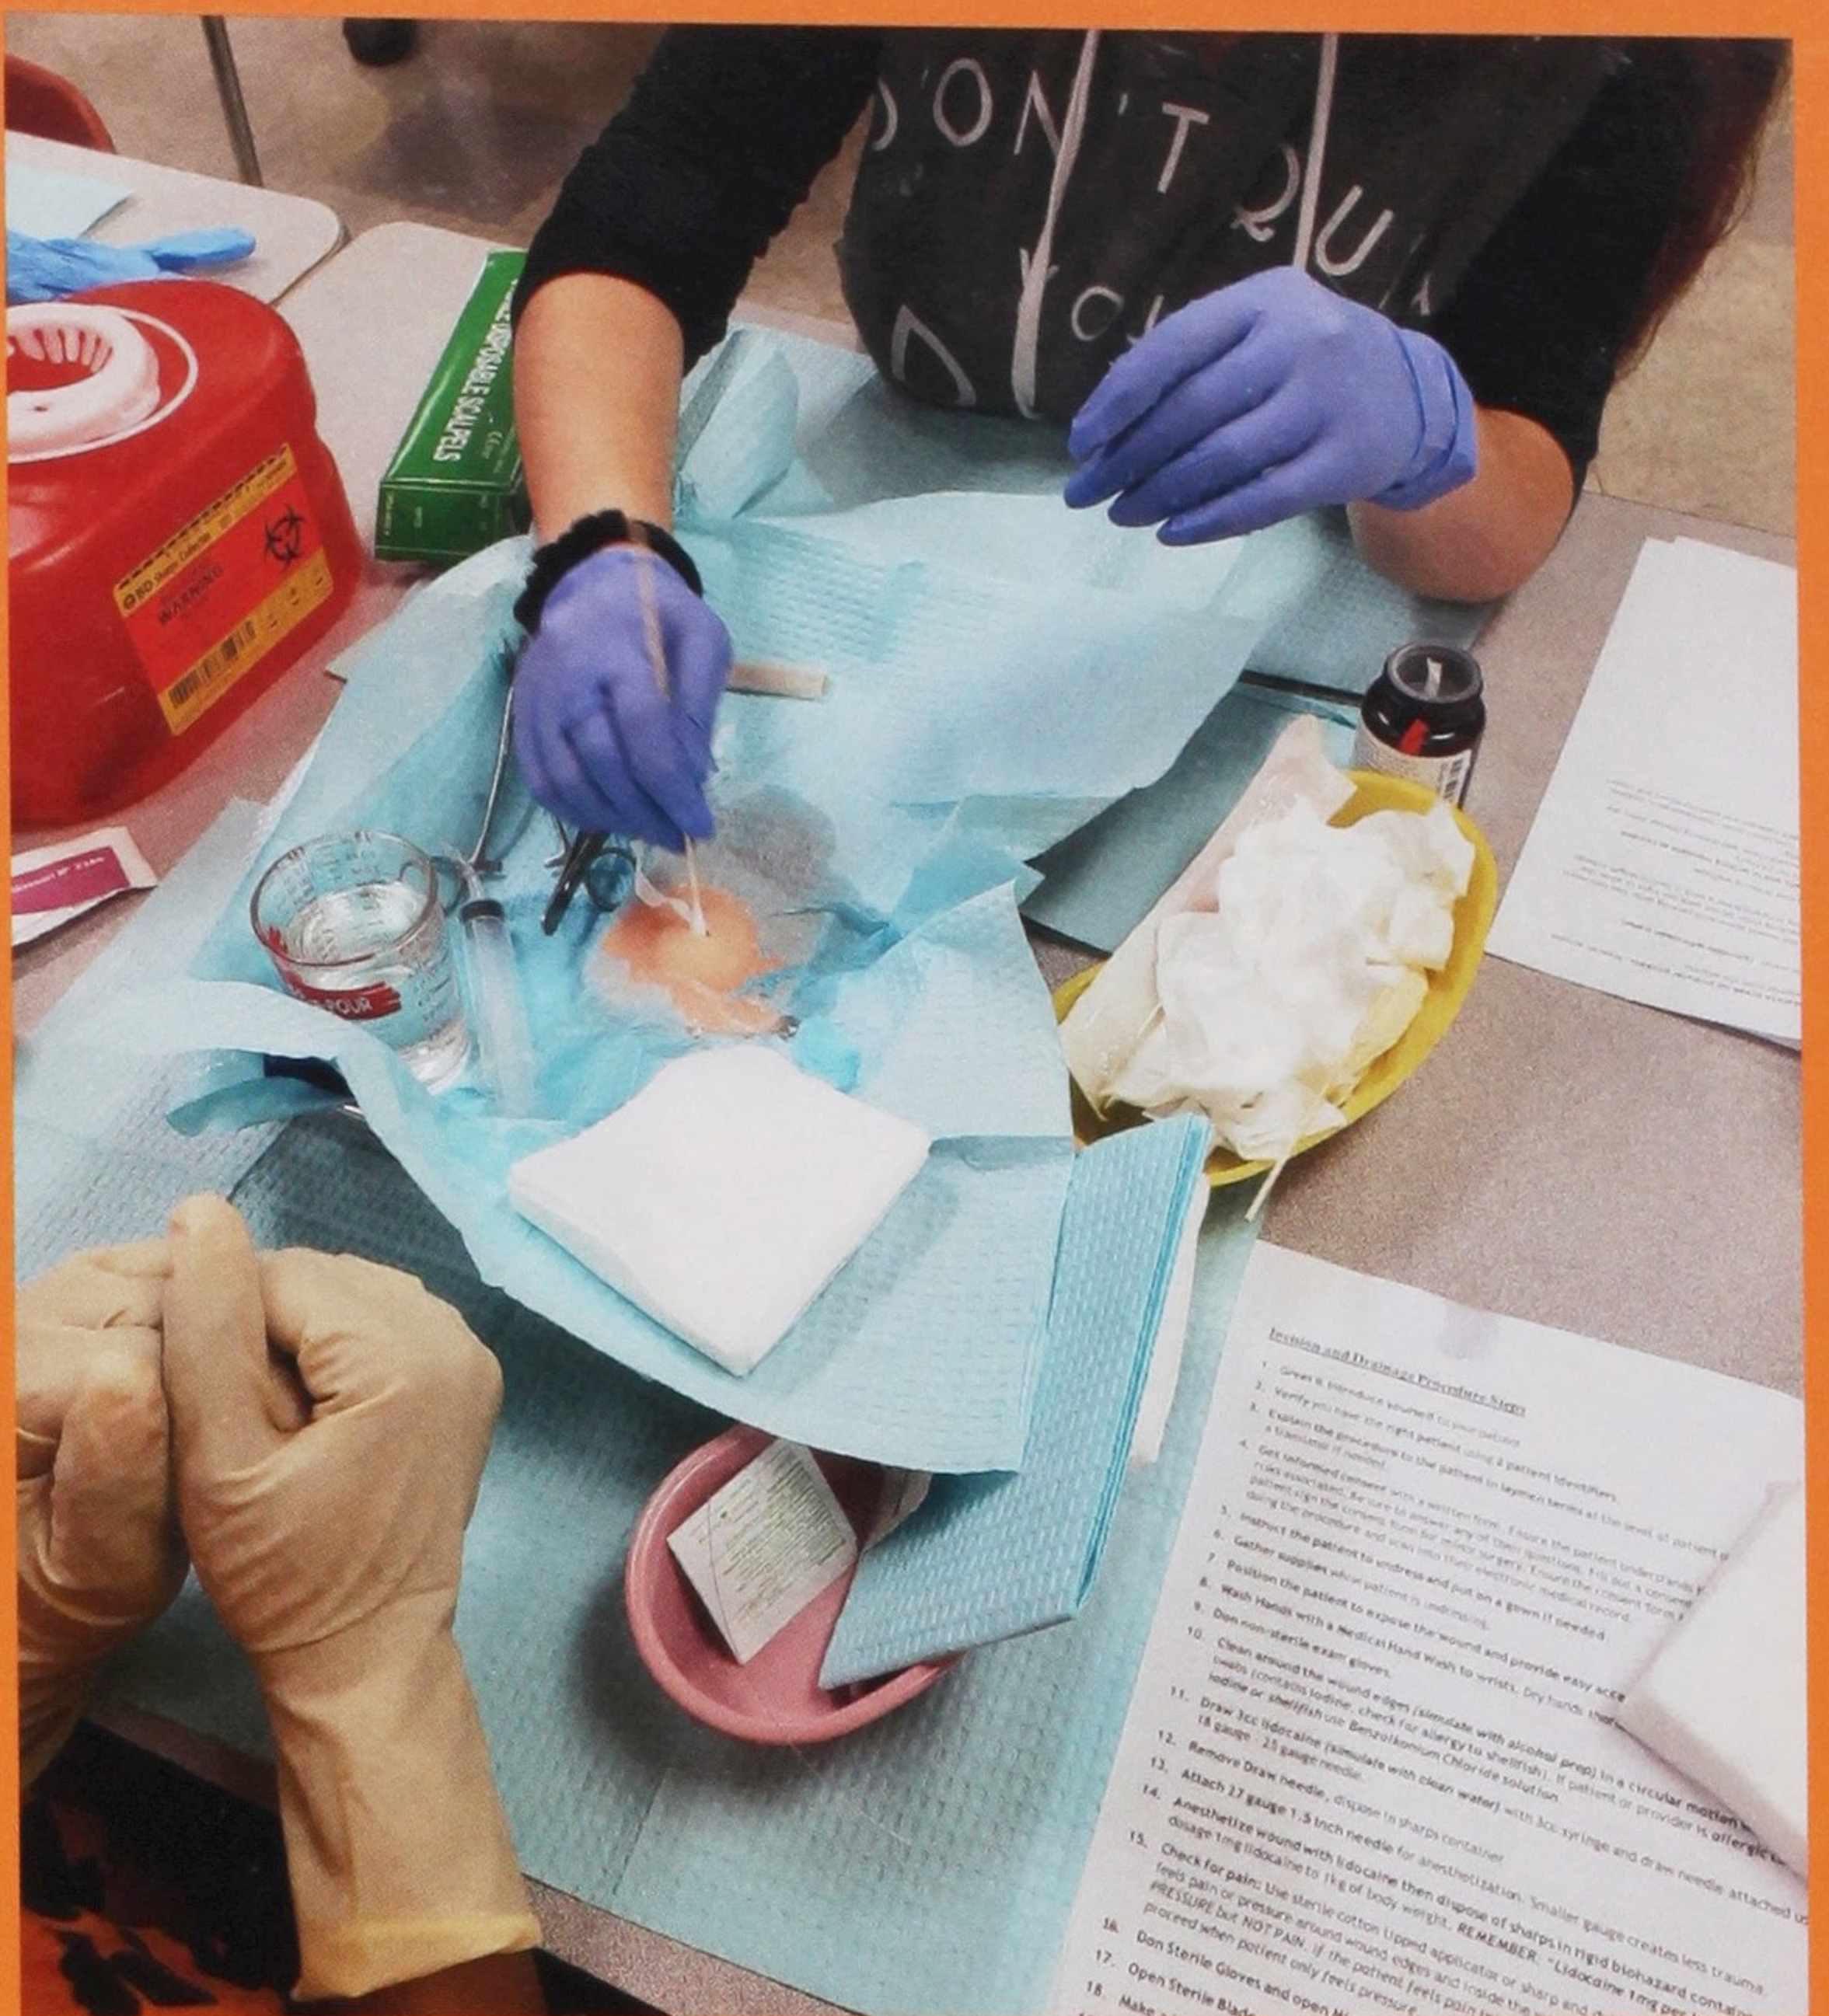

Nursing

Students are highly encouraged to participate in hands-on experiences. In Nursing, you learn about professionalism, how to take vital signs, do CPR, and more. Those in this pathway get trained as a nursing assistant and gets the opportunity to be sent to clinicals such as the Veterans Administration Hospital to gain valuable experiences. These clinicals allow students to practice what they've learned inside the classroom and learn how to provide treatment and care for patients.

Many tools of the trade seen here as students learn the use of things like syringes, first aid bandages, stitches and other great stuff.

Ready for the "Real World"! I think so...best of luck out there.

Photography

With Mr. Williams instructing the photography field in Digital Media Productions, you get to learn how to use camera equipment, set up photo shoots, and develop your photos. This field helps with gaining that knowledge of creativity and knowing how to express it through the lens of a camera.

"The Golden Boys" photo taken in one of Mr. Williams classes.

A typical 1960's camera

Video Production

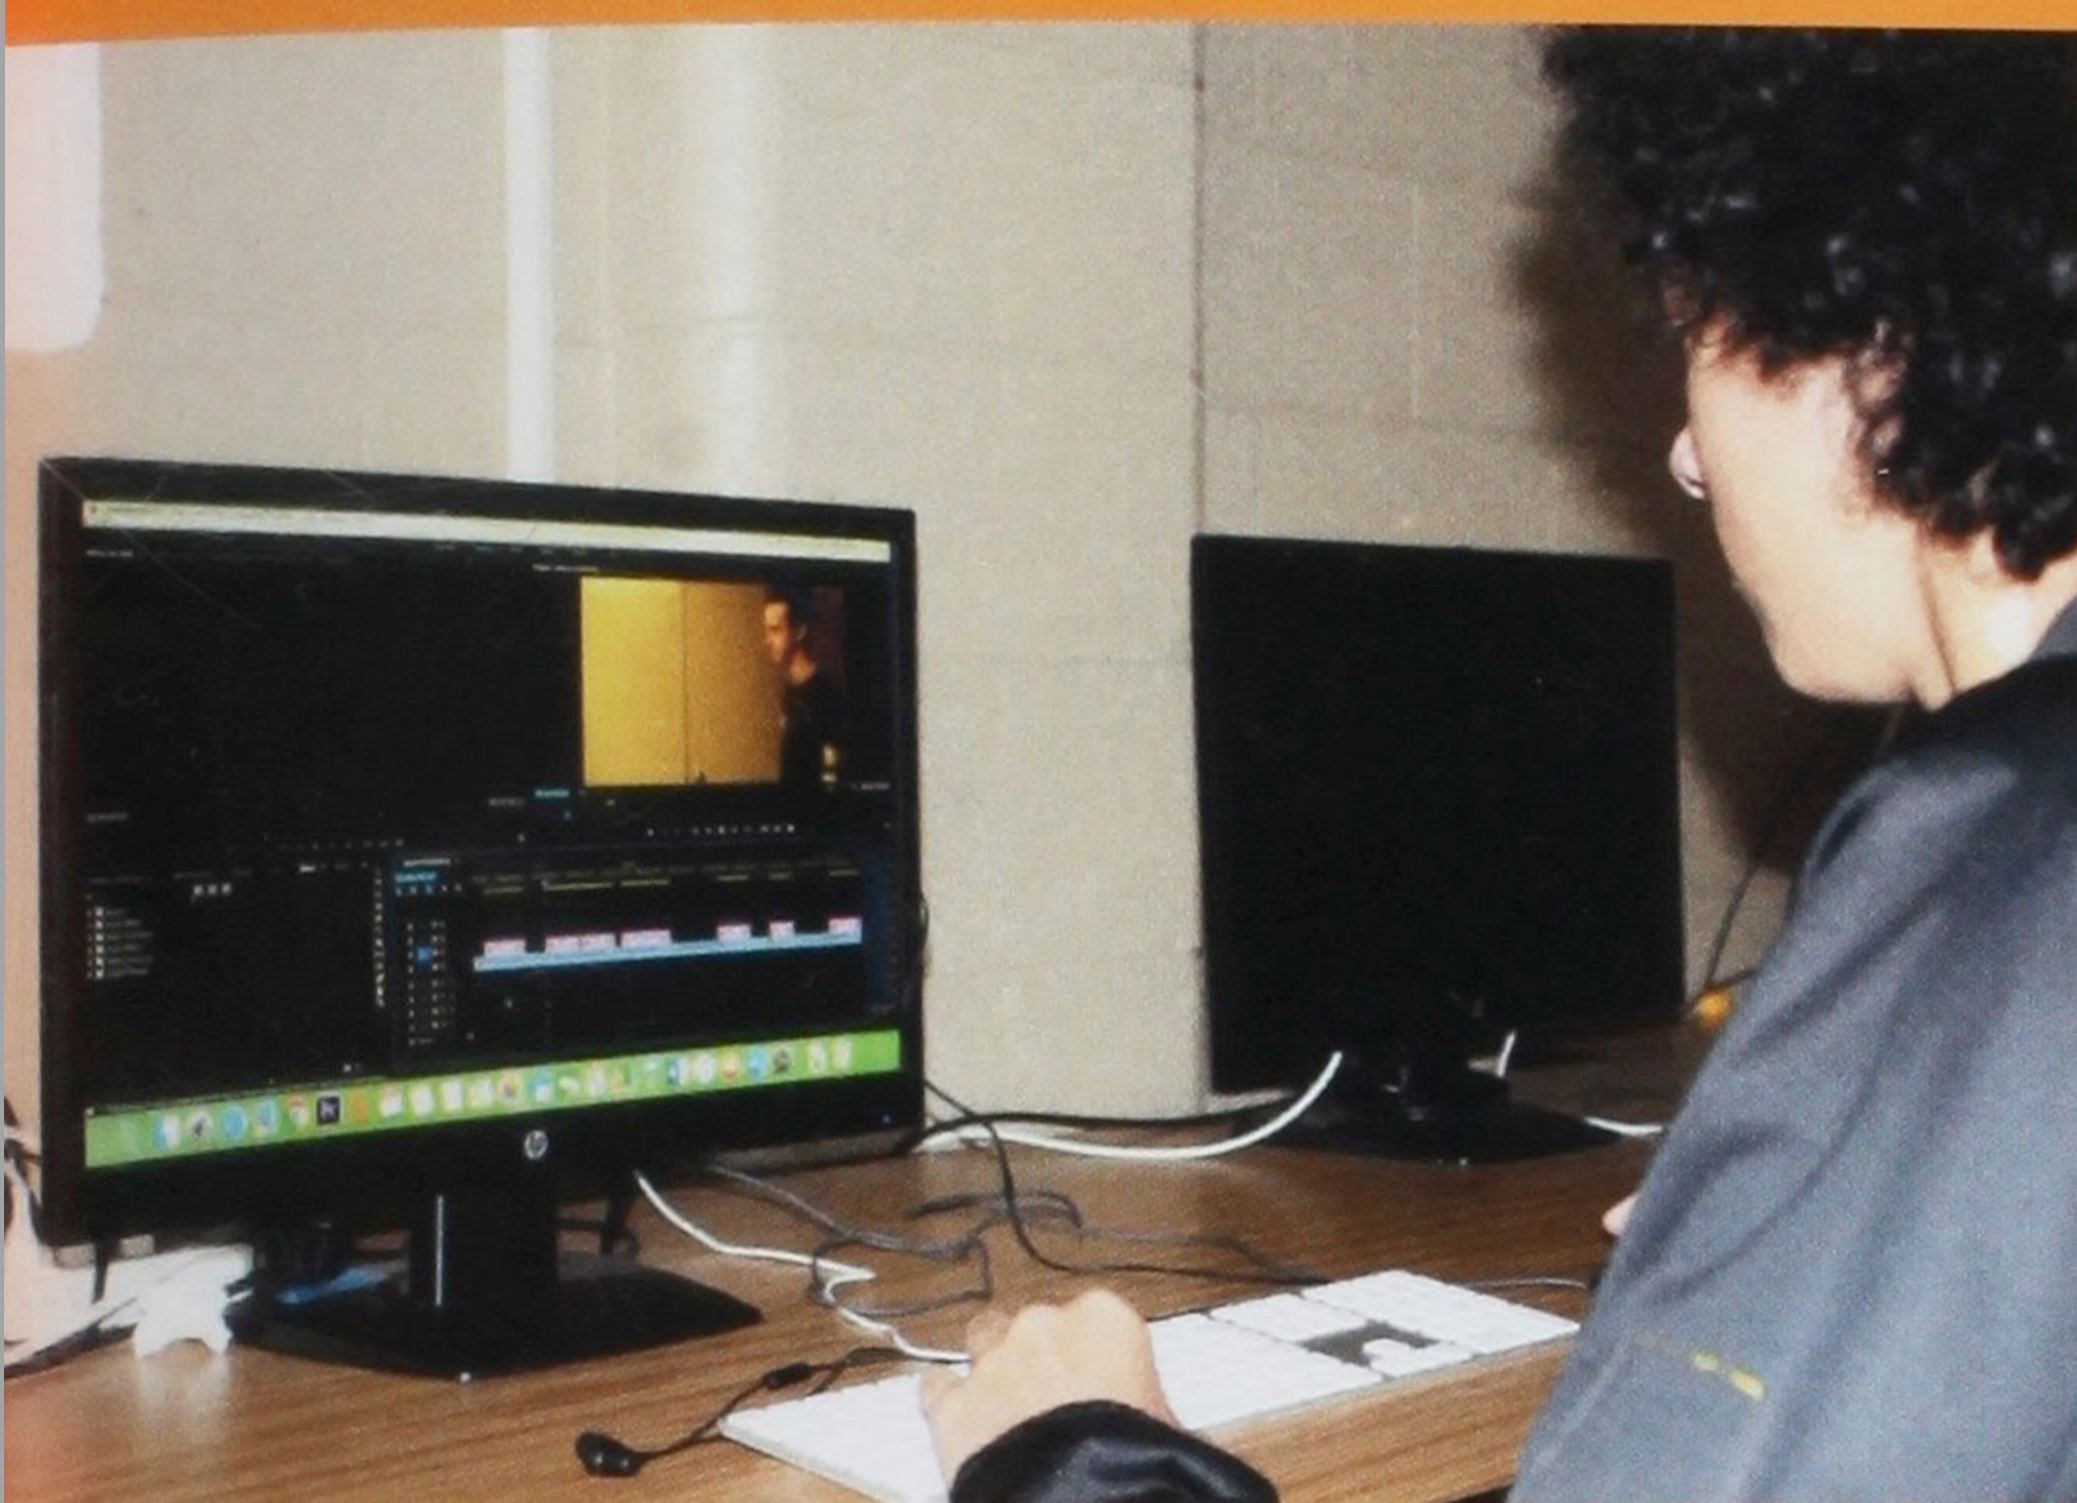

Liubov Panfilova records the Rose Princess event for the school. Skill building at this level is so important as technologies change at a steady pace. Go Liubov!!!

Video Productions is taught by Ms. Henderson. Students are exposed to video cameras and are encouraged to make their own fun, and creative videos. Skills such as editing and knowing how to use equipment is helpful if you wish to take video productions as a career. The equipment has vastly improved over the years. Just look at the stuff they used in the 1960's.

Various techniques are learned for capturing footage as is seen here using a skateboard for interesting effects.

After "Shooting footage" a student must learn the technical usage of the computer program. Adobe apps and products are the current favorites used and each one of those programs have about a million functions.

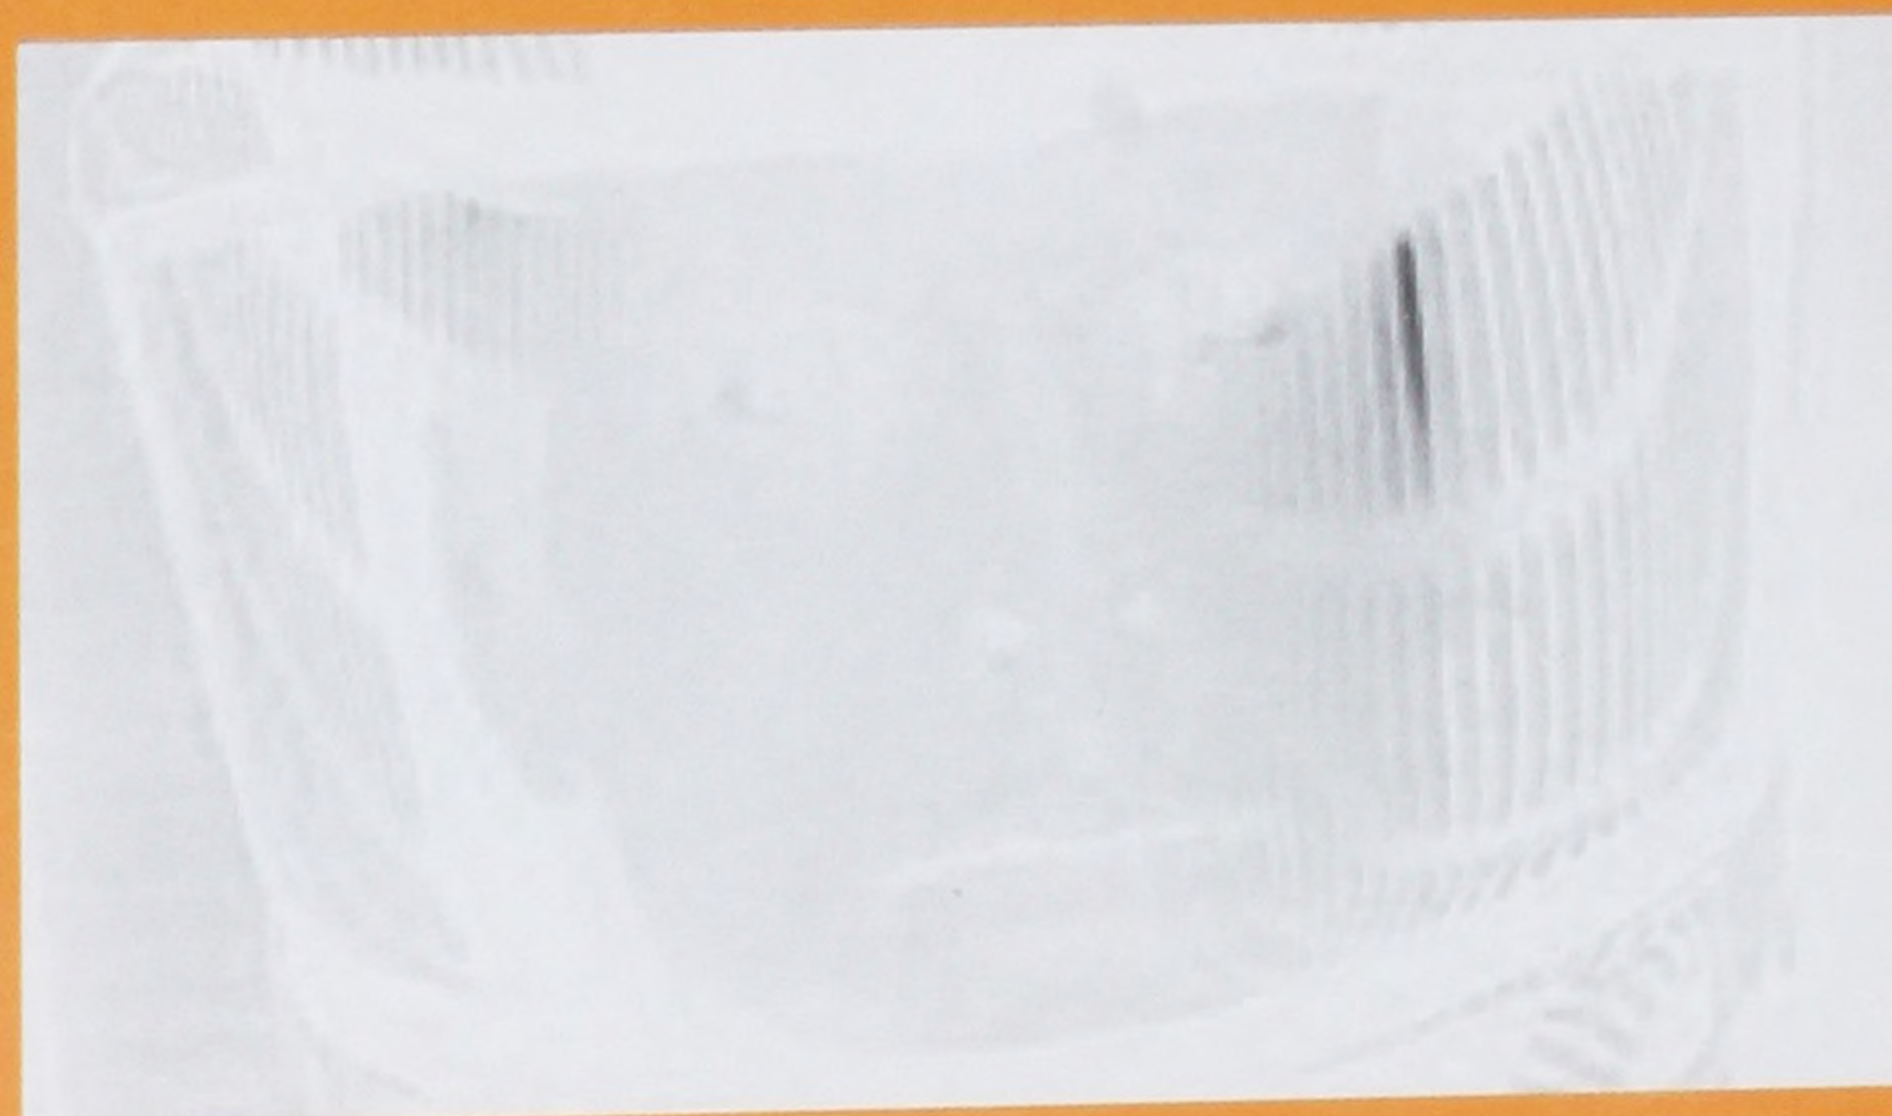

Once again the skateboard technique gives an interesting angle and effect of movement. What about a scooter guys, come on and switch it up a bit.

The organization of the "Set" is important for a good shot and corrects lighting issues.

A camera placed on a skateboard seems to be the technique of the year.

In 1969 the film "2001: A Space Odyssey" came out. The film won many awards.

Radio

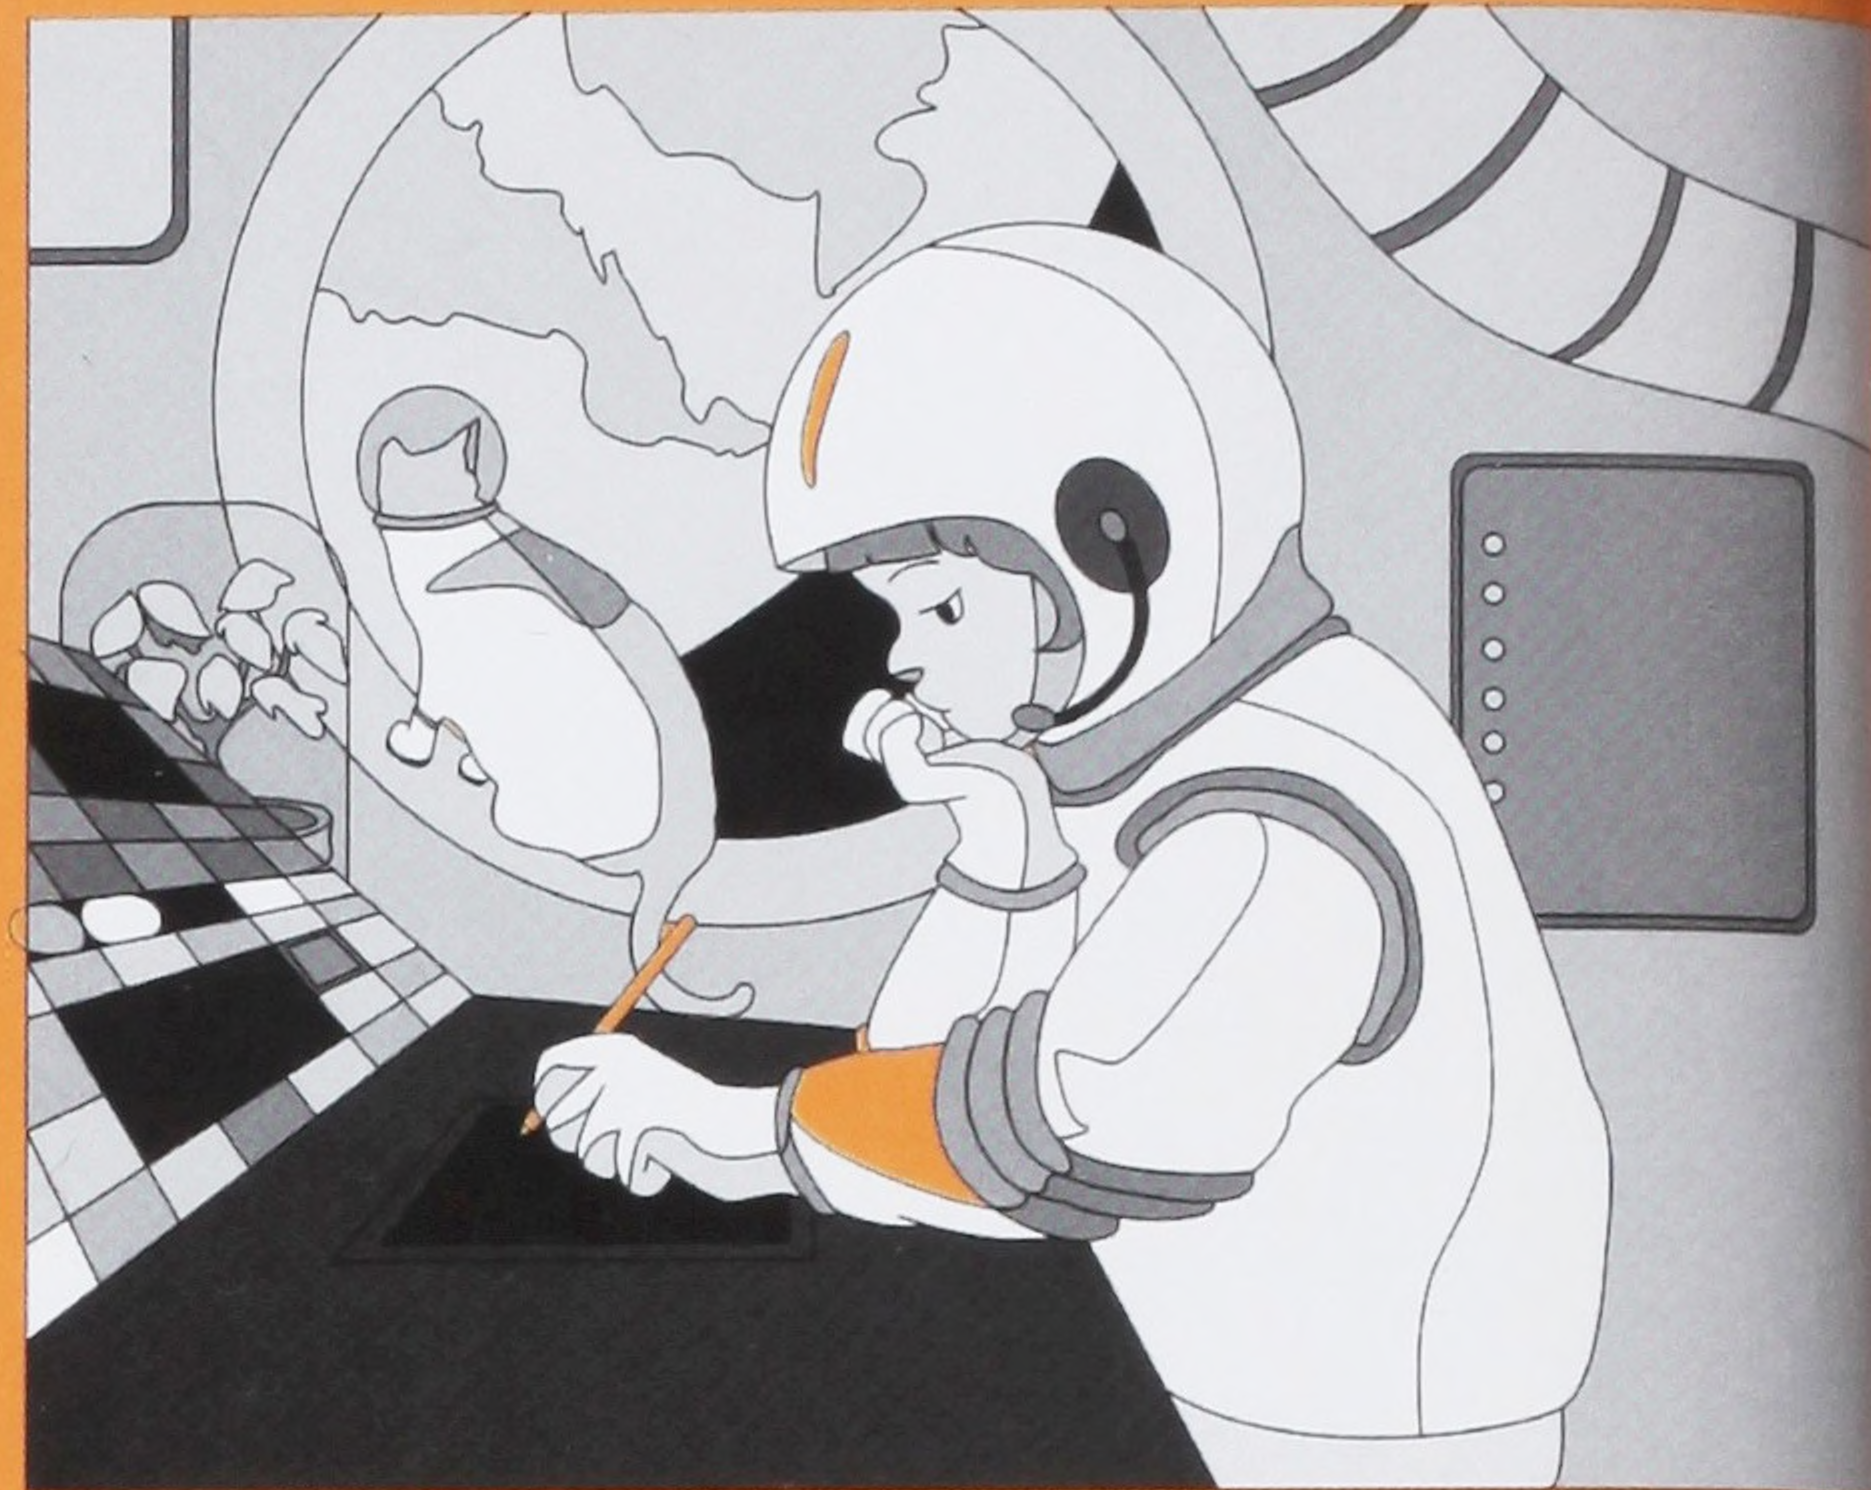

Illustration by Aberdeen Stuart

Hunter seen here working really hard.

Radio Broadcasting provides a hands on learning experience. Students will learn how to operate equipment and participate in actual on-air shifts. They will be educated on the history of the modern radio, different types of programs, different formats, announcement skills and many others.

The old school decibel meter, reminds the staff of their youth.

New school servers and computers help run the show.

Radio Majors have to learn how to use a plethora of equipment including mixing boards, mics and digital recording programs.

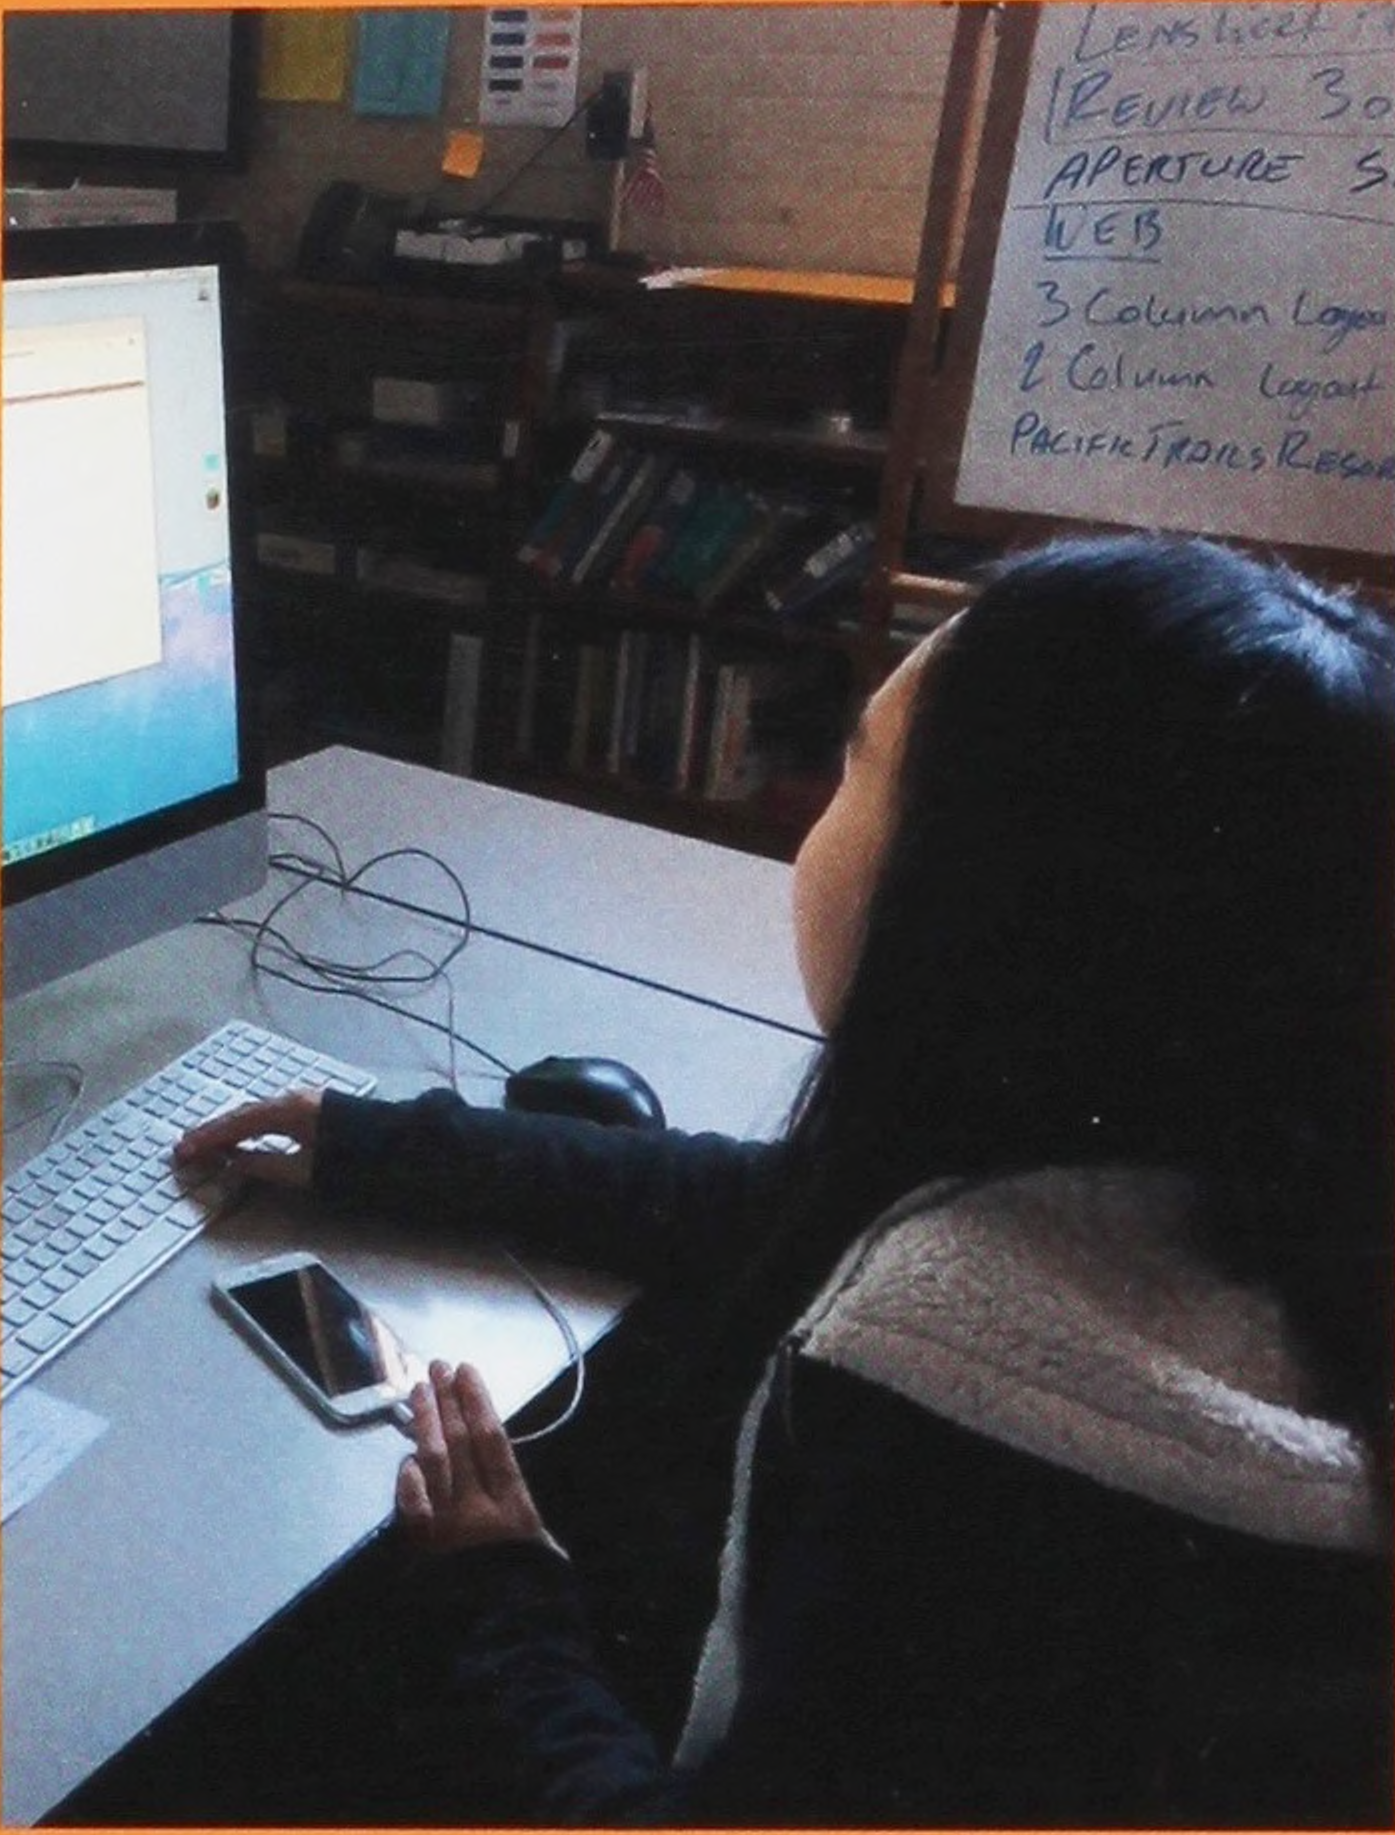

The main "Board", where the magic happen.

The digital sound meter, cool to look at as the song runs on.

Web Design

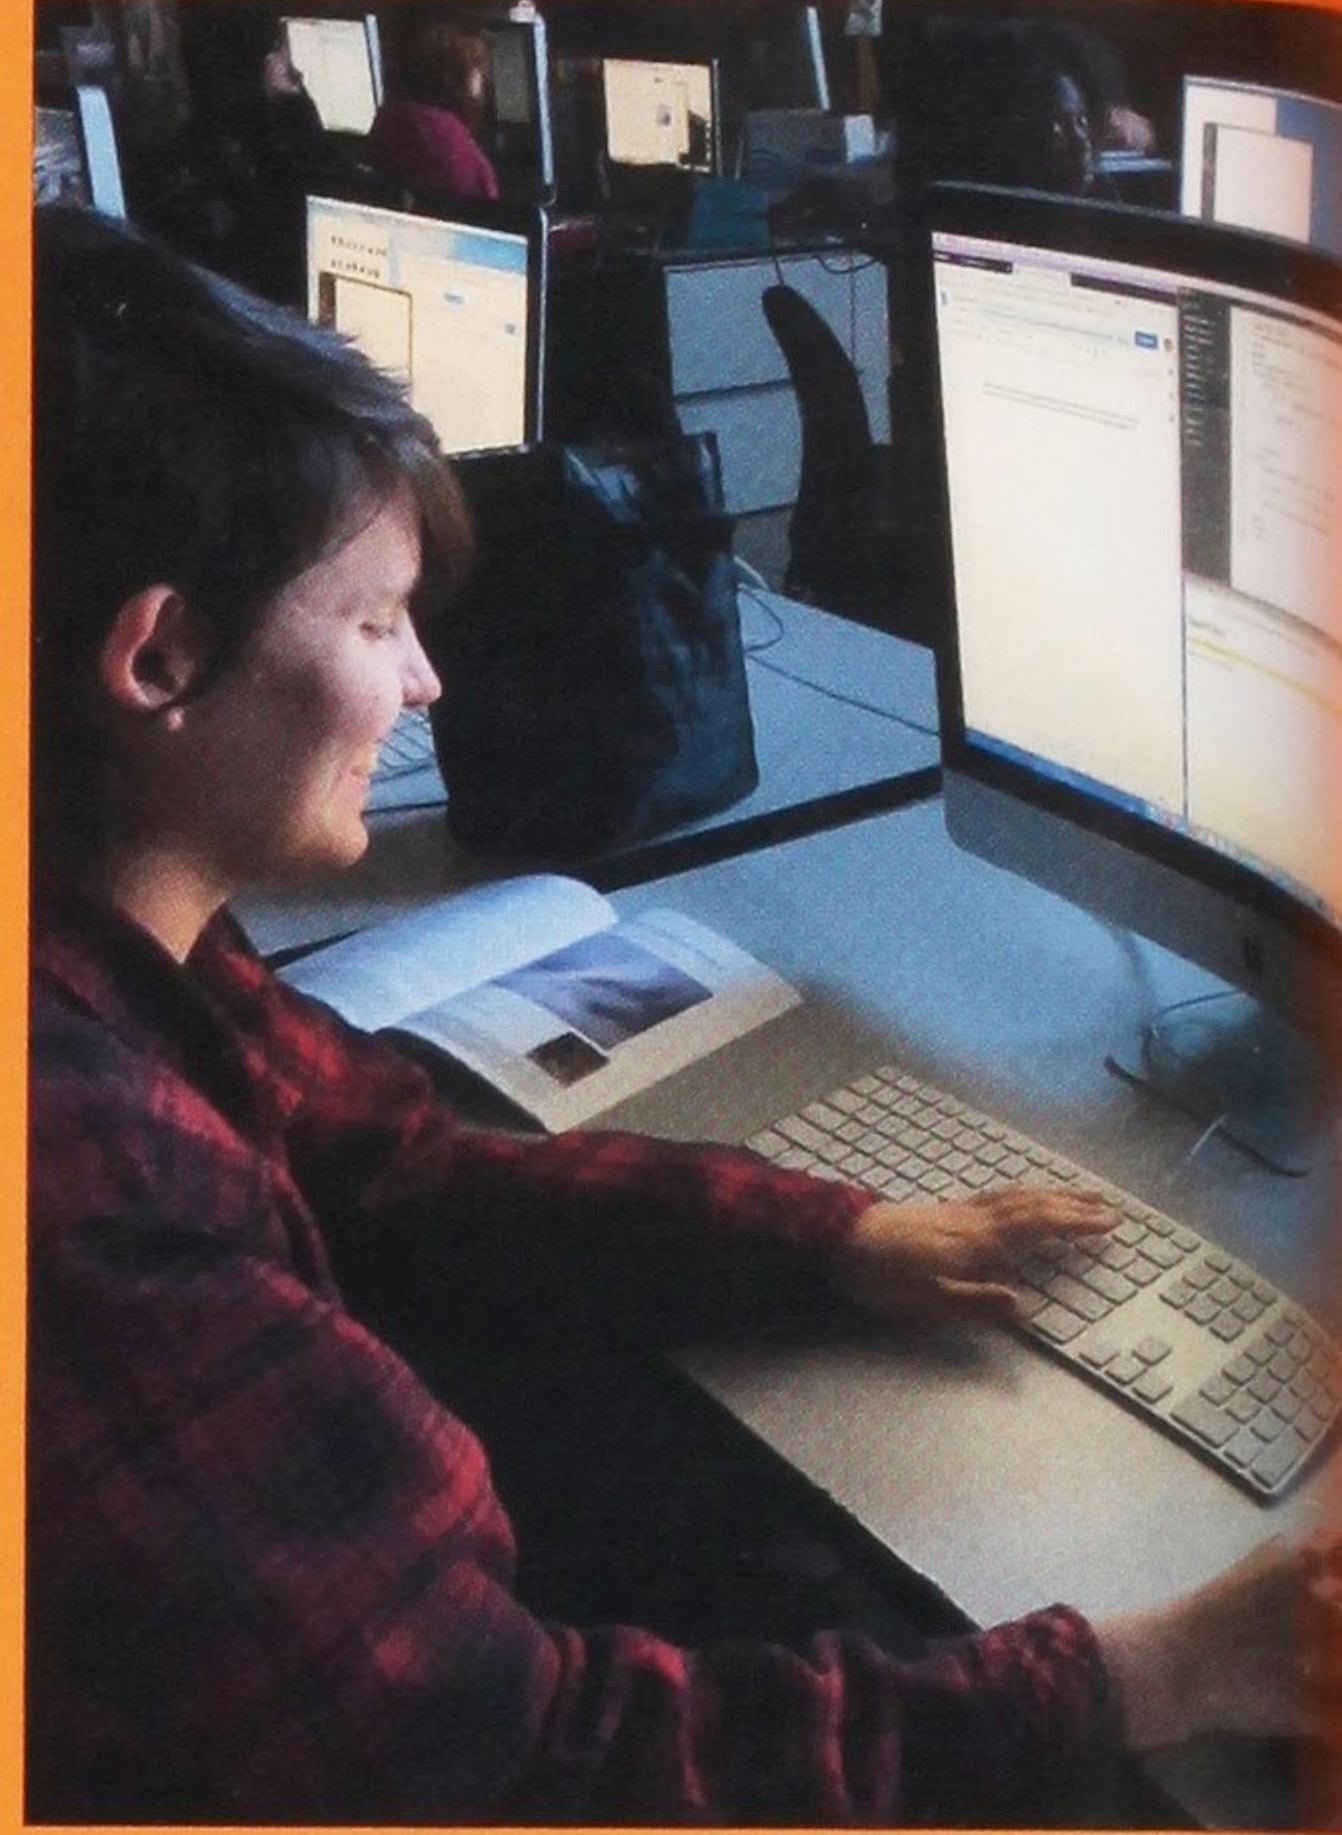

In Web Design, students are introduced to the world of coding. They create the design and layout of their own website. Those in this path of Digital Media Productions learn how to plan, create, and code http websites. Learning such things as combining text with sounds, inserting pictures, graphics, and video clips. This CTE class is one of only a handful taught in the district. Mr. Williams worked in the industry before he started teaching. He is also a professional Photographer on his own time.

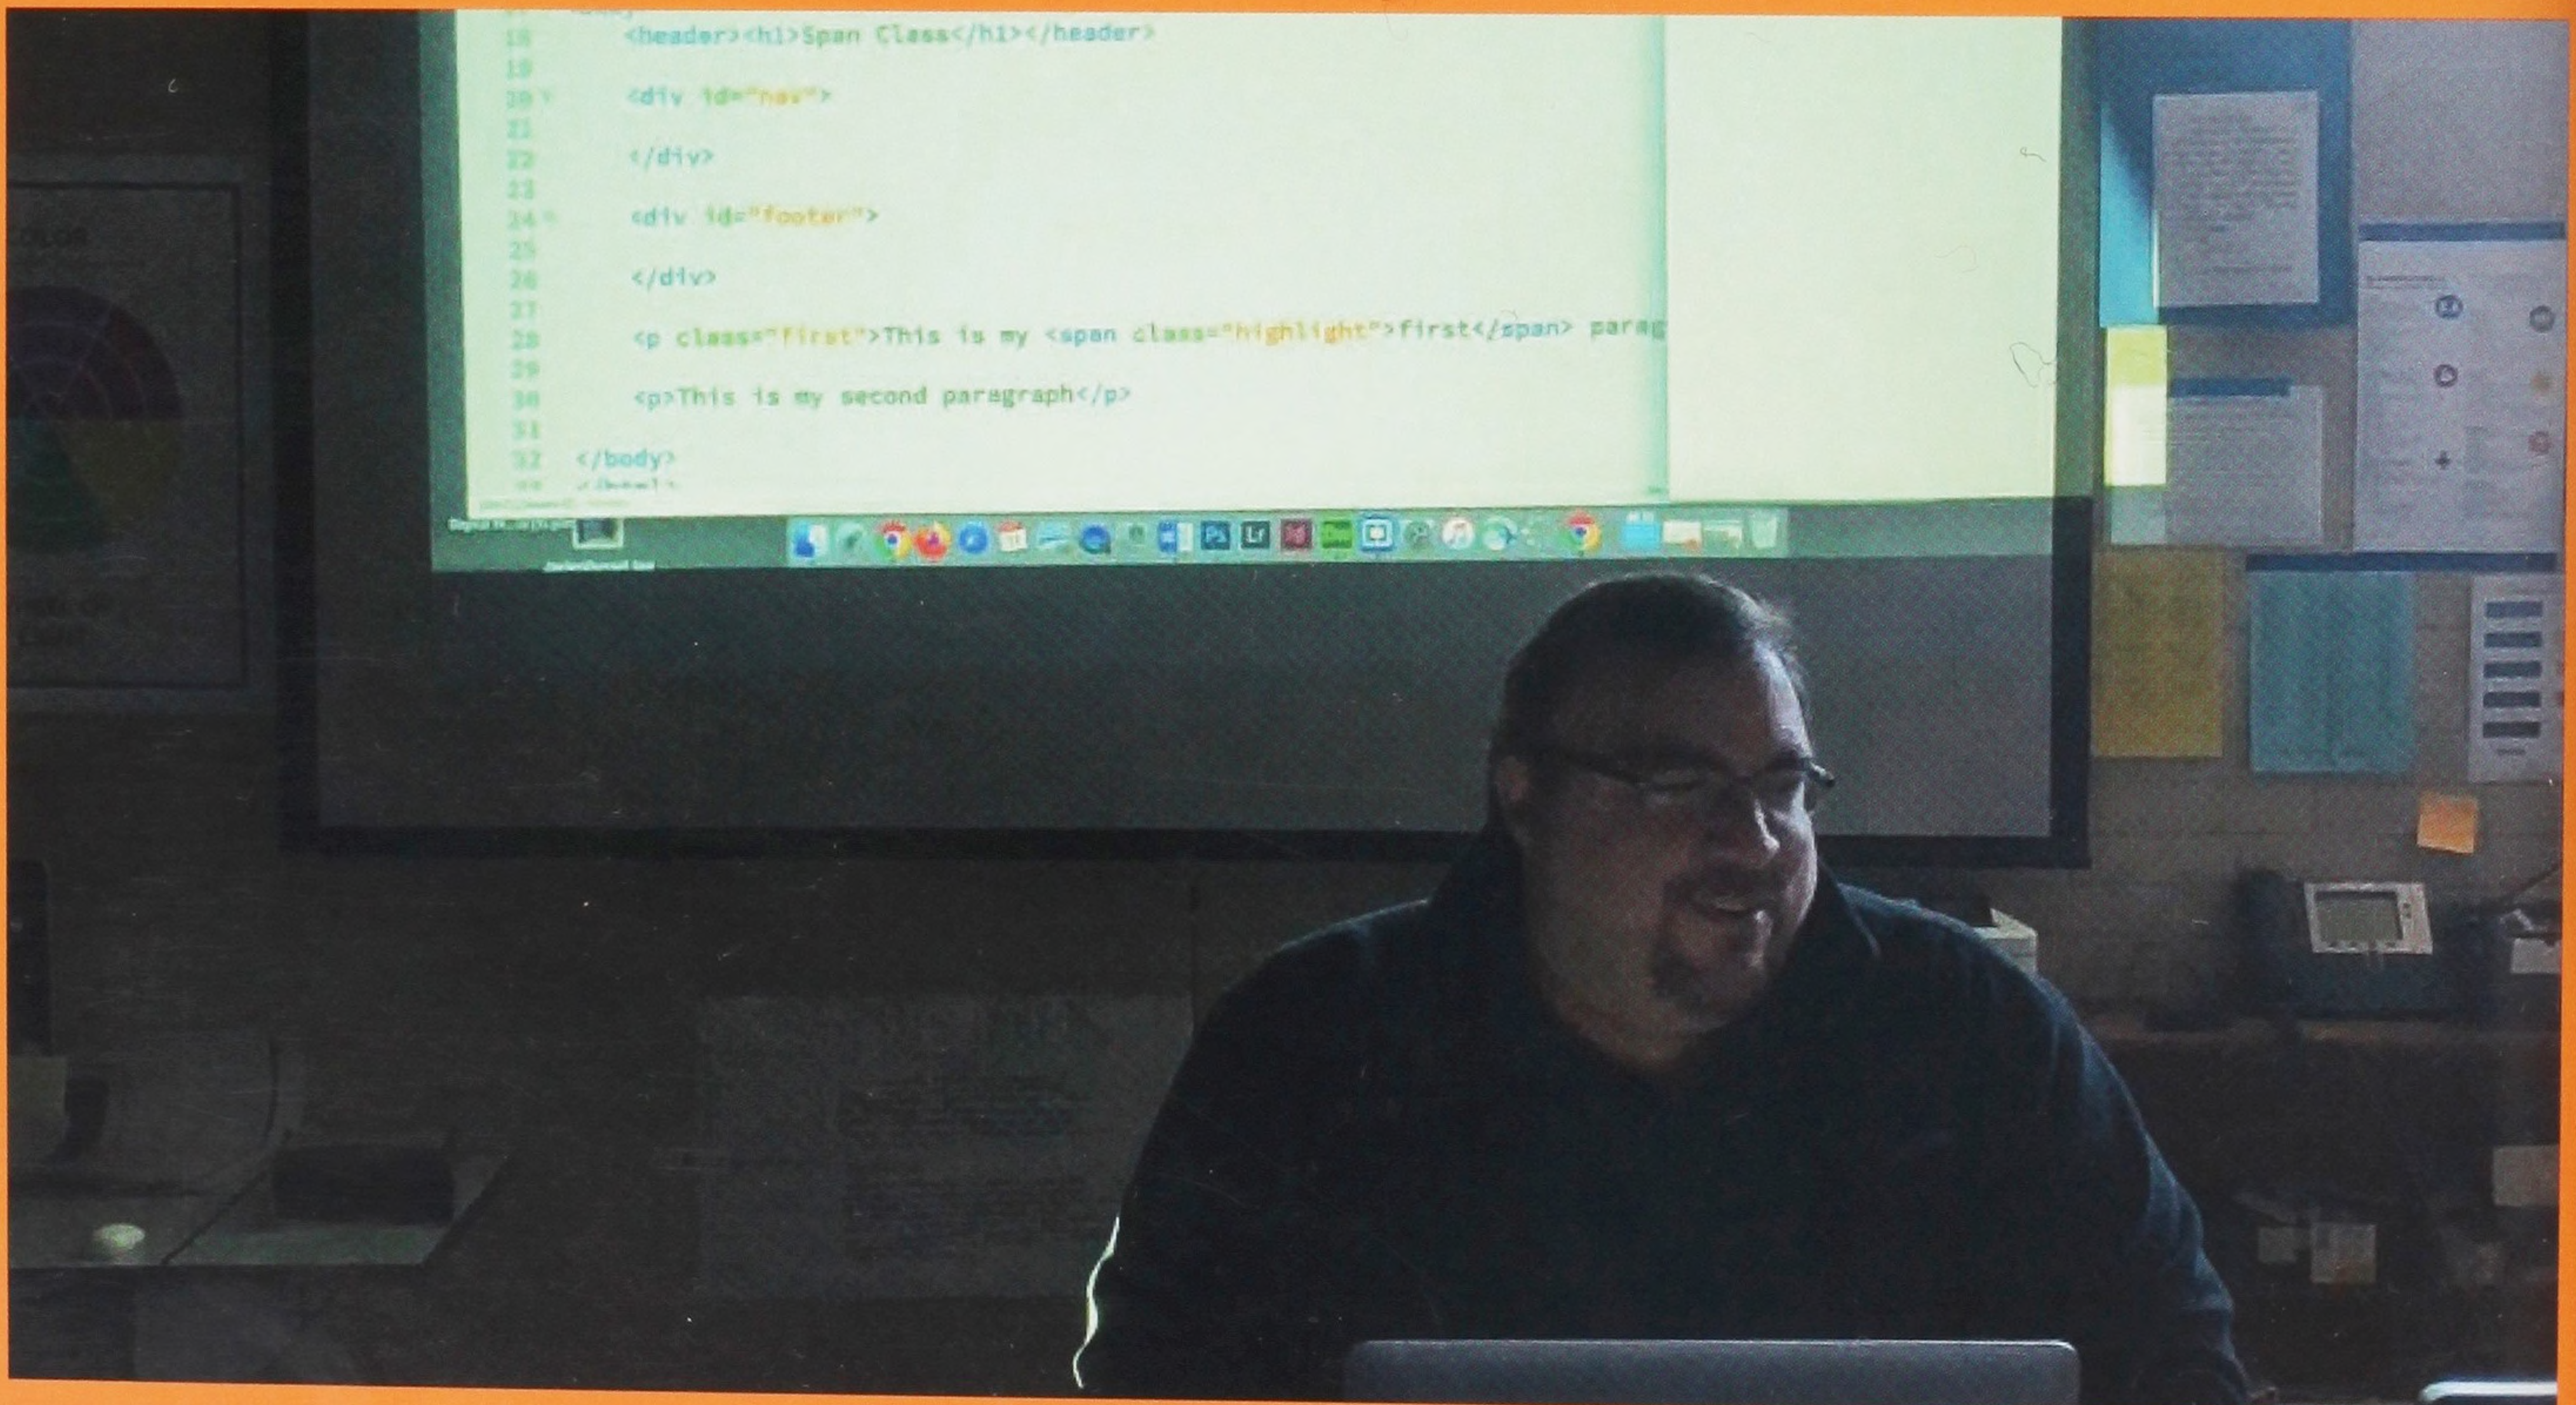

Kalynn Lam putting in art.

Kayli Berres designs a web page.

Francis Werth having fun.

Mr. Williams teaching the Web design class. What is a "Span" Mr. Williams?

Academics

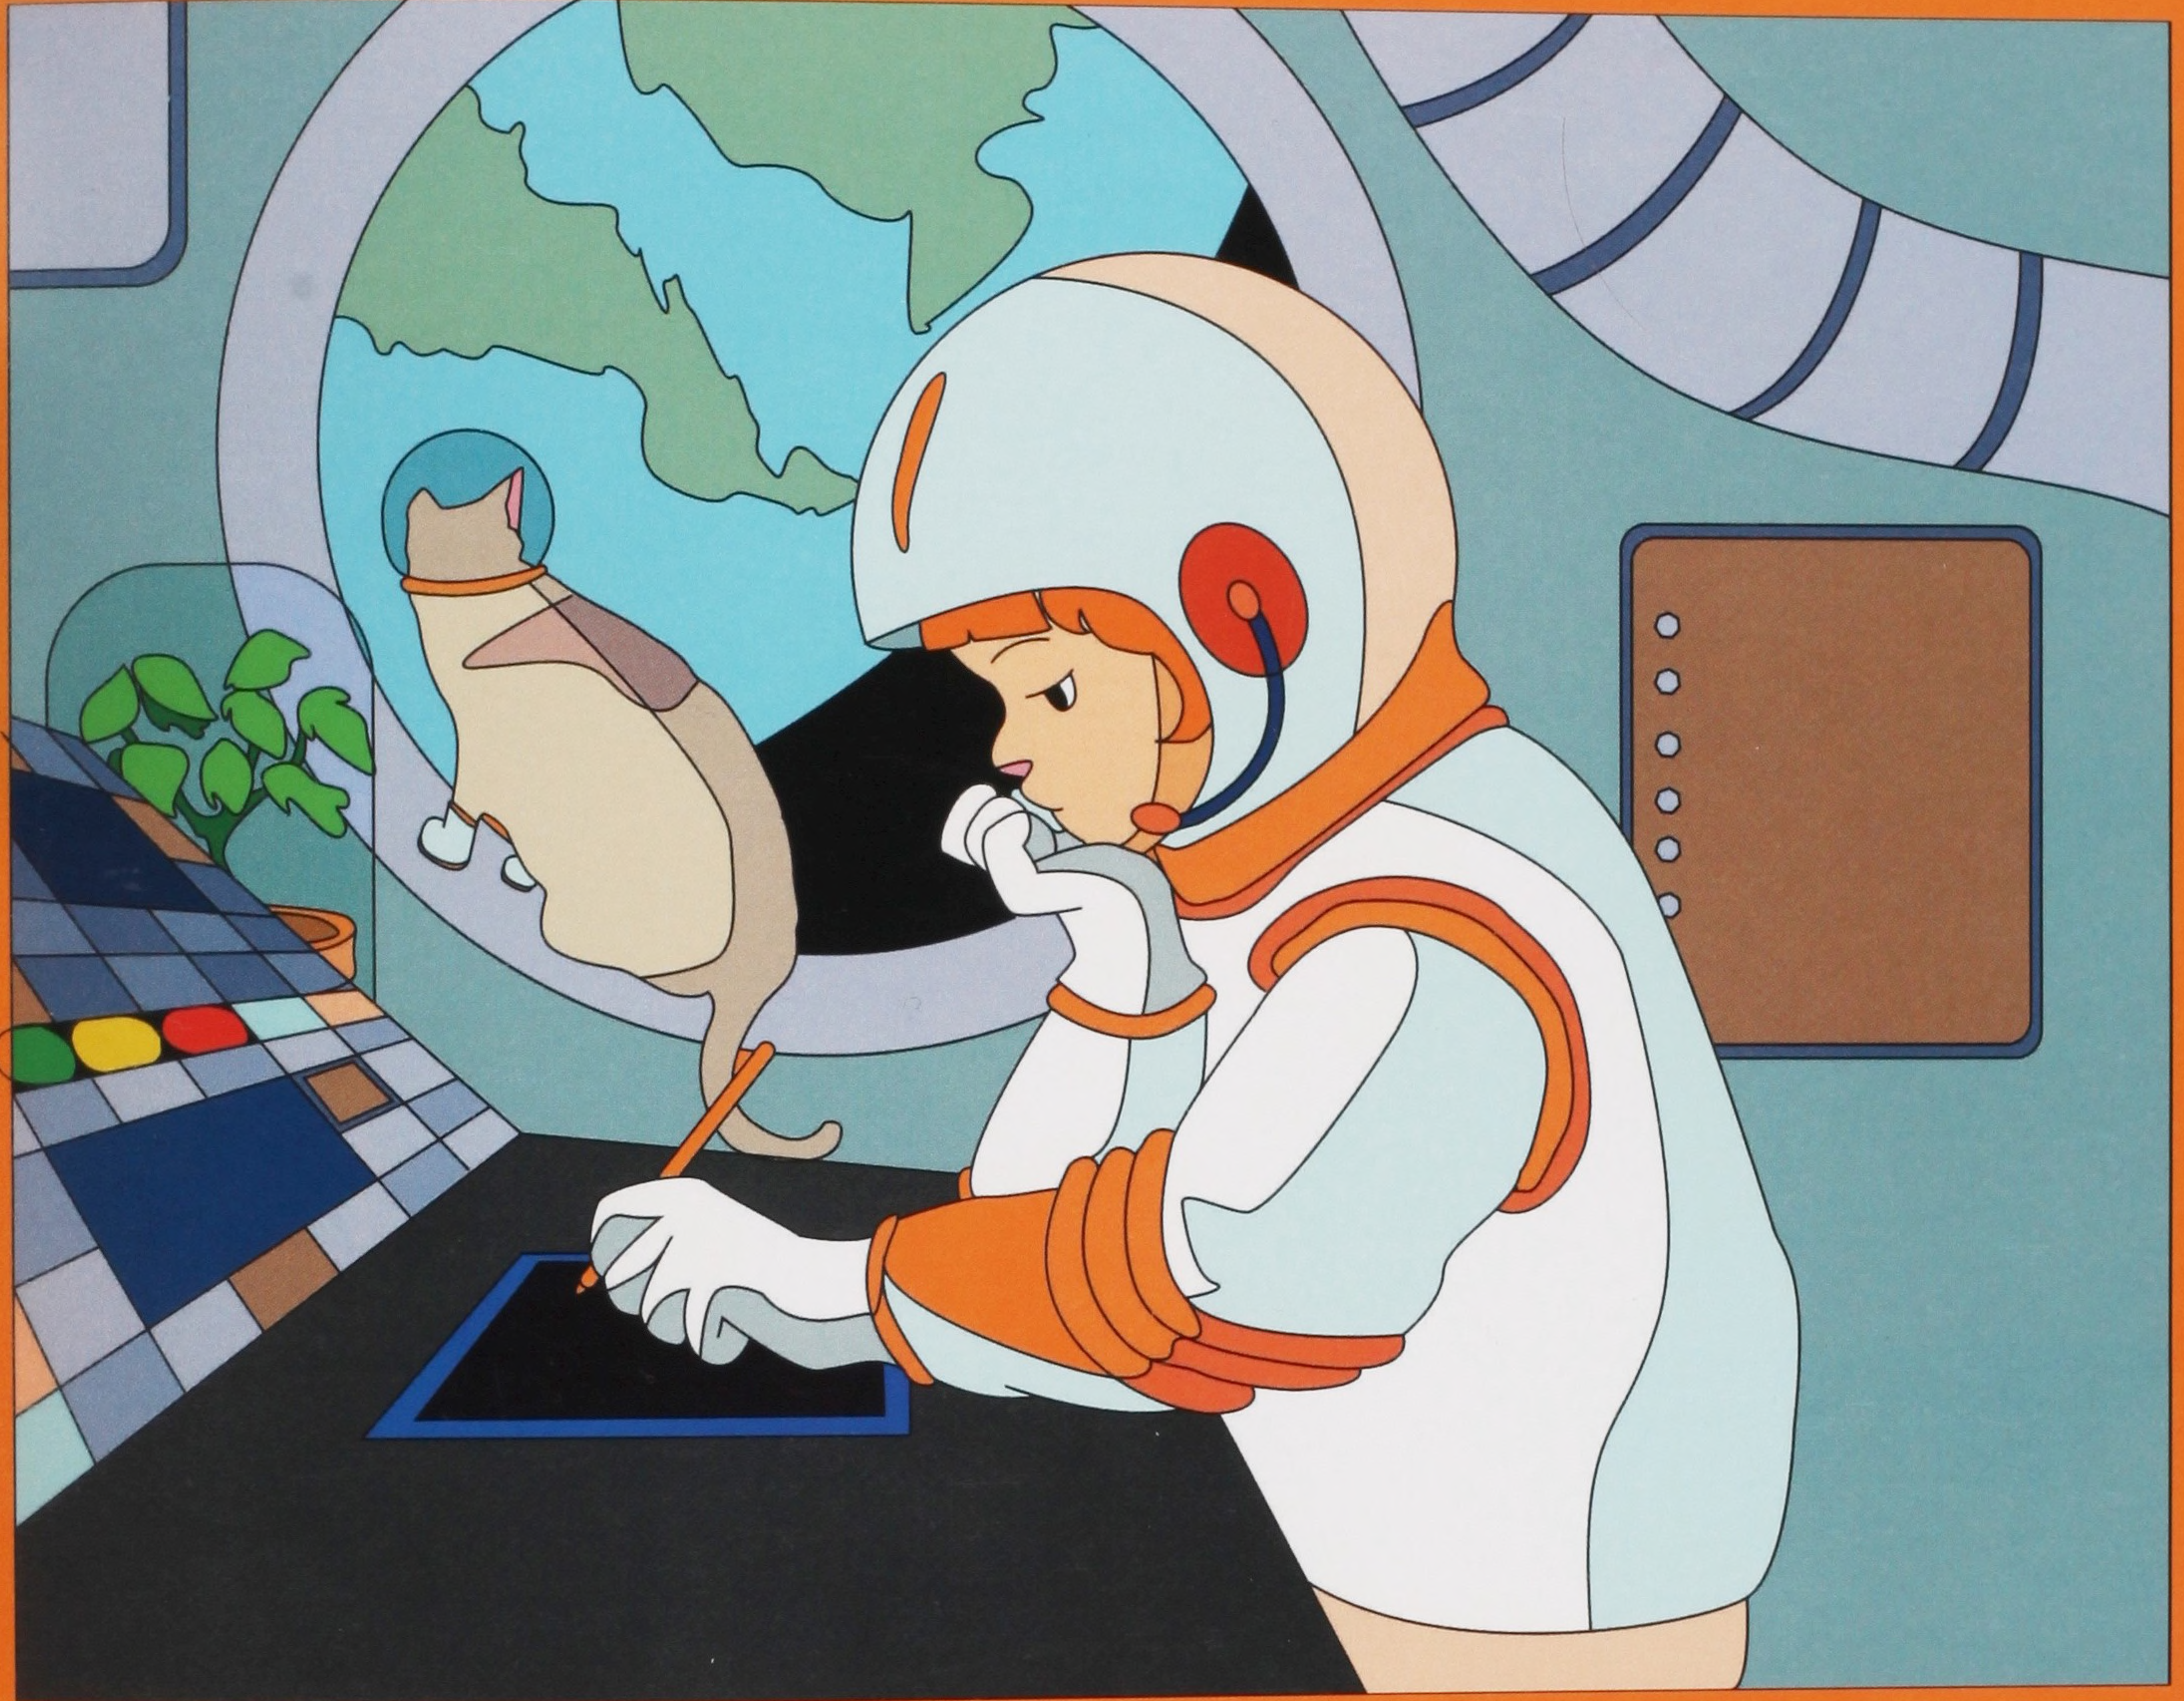

Illustration by Abredeen Stuart using Adobe Illustrator version of "Chilled cow" image.

Art classes, Sculpture and Ceramics

Hadiya Jackson details the animal sculpture she is working on for CTE 3-D applied arts class

Mr. Rozewski's 3-D art classes are a relatively new addition to the Benson course selection and offerings. When Mr. "R" was hired to create the curriculum and courses from scratch he eagerly did so and now offers three varieties of sculpture classes. The sculpture classes are also CTE course certified and now get federal grant money for supplies and tools.

Lessons taught in the three classes:
Hand building techniques such as:
Pinch pots, slabs and coil methods.
Basic Pottery and wheel work.
Glaze work.
Industrial Design units.
Mask making.
Movie props with mixed media.
Rubber and plaster moldmaking basics.
Geometric forms in mixed media paper products.
Eco- Architectural house design with small models.

Mr. Rozewski's 3-D class offers an experience in Industrial Design. Max is showing off his 1971 Lincoln. Freshman Clio Tzetos, below, is painting a "Slab" box.

Pictured above is Eli Donovan's lamp for Advanced CTE 3-D applied arts class.

Pictured left and above: Animals from the Sculpture class

Pictured right: A car design in progress by our favorite visiting student Naz.

Art 1 and Intermediate Art

Mr. Rozewski's 2-D art classes offer students a wide range of painting and drawing activities. In the beginners class students learn foundations and right brain activities to build a strong base of spatial knowledge. Color theory, Human anatomy and landscapes are also presented. These kinds of "Old School" arts training bring a level of classical training to an already healthy Graphic Design and Photography majors program.

Some of the projects include: Still life drawing, negative space work, blind contour drawing, color theory techniques, perspective drawings, art history, studio skills, landscape work in tempera and water color paints, ink brush exploration, self portraits and much more.

Delaney L. Otteman "Asian Landscape."

Jett G. Lascurettes

Addison P. Stiles does a great "Surrealism."

A very well done one point perspective.

Just more lovely art work by Kalynn and Sophia and one Art one student why tried their hand at One point perspective. Students in Mr. Rozewski's class go through 12-14 major art projects a year. This is meant to build a viable portfolio for Art college or an illustration job.

Before Mr. Rozewski got to Benson there was no "Fine Arts" program. So many schools have turned to digital art and graphic design but many have forgotten where that all came from. The art classes are meant to give students a solid foundation in art making.

Featured Artists of the year

Sadie Beckler "Untitled" 2020

Myrddyn Liles "Untitled" 2020

Engineering Class

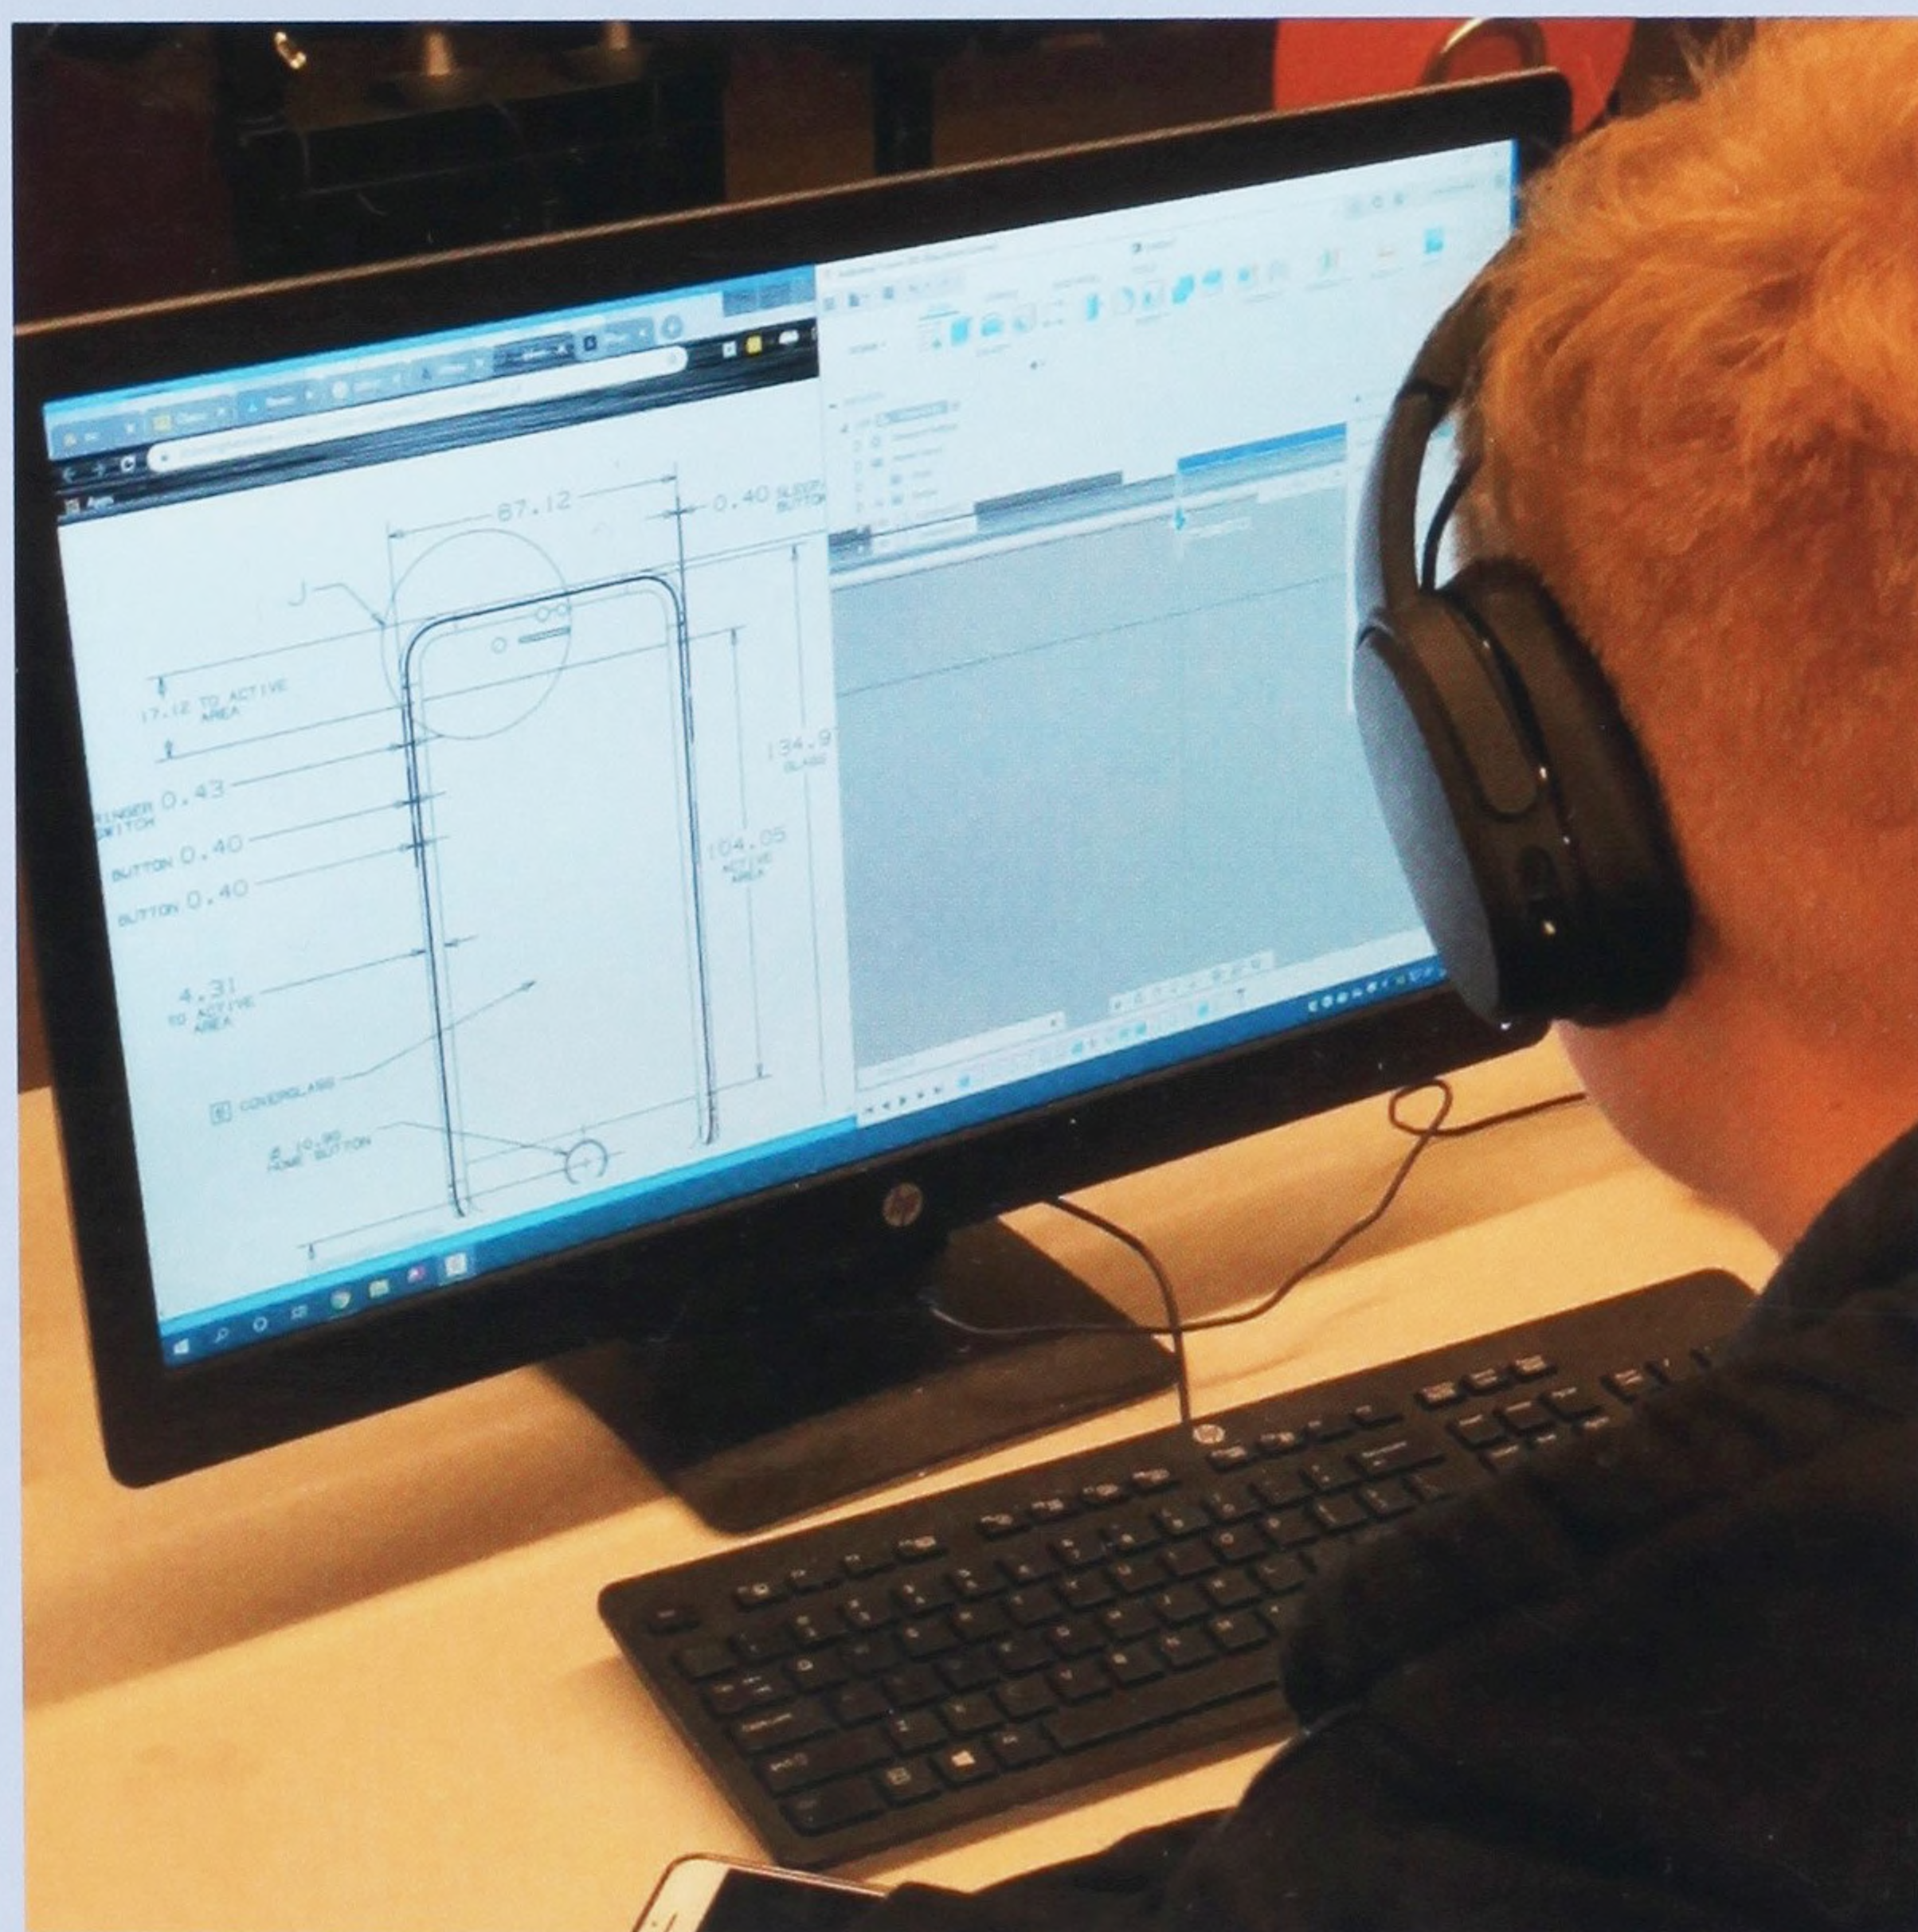

Above, Mr. Gerber checks on the students, no messing around in his class!

Creating a skateboard deck starts with the forming of the wood in a press. Students learn how to design, press and complete a unique skatedeck in this class. Casting the trucks comes next.

Creating a skateboard is hard work but these students make it look easy!

Creating a cell phone case is hard work. Students use the most updated CAD design programs to produce Industrial Designs to be 3-D printed.

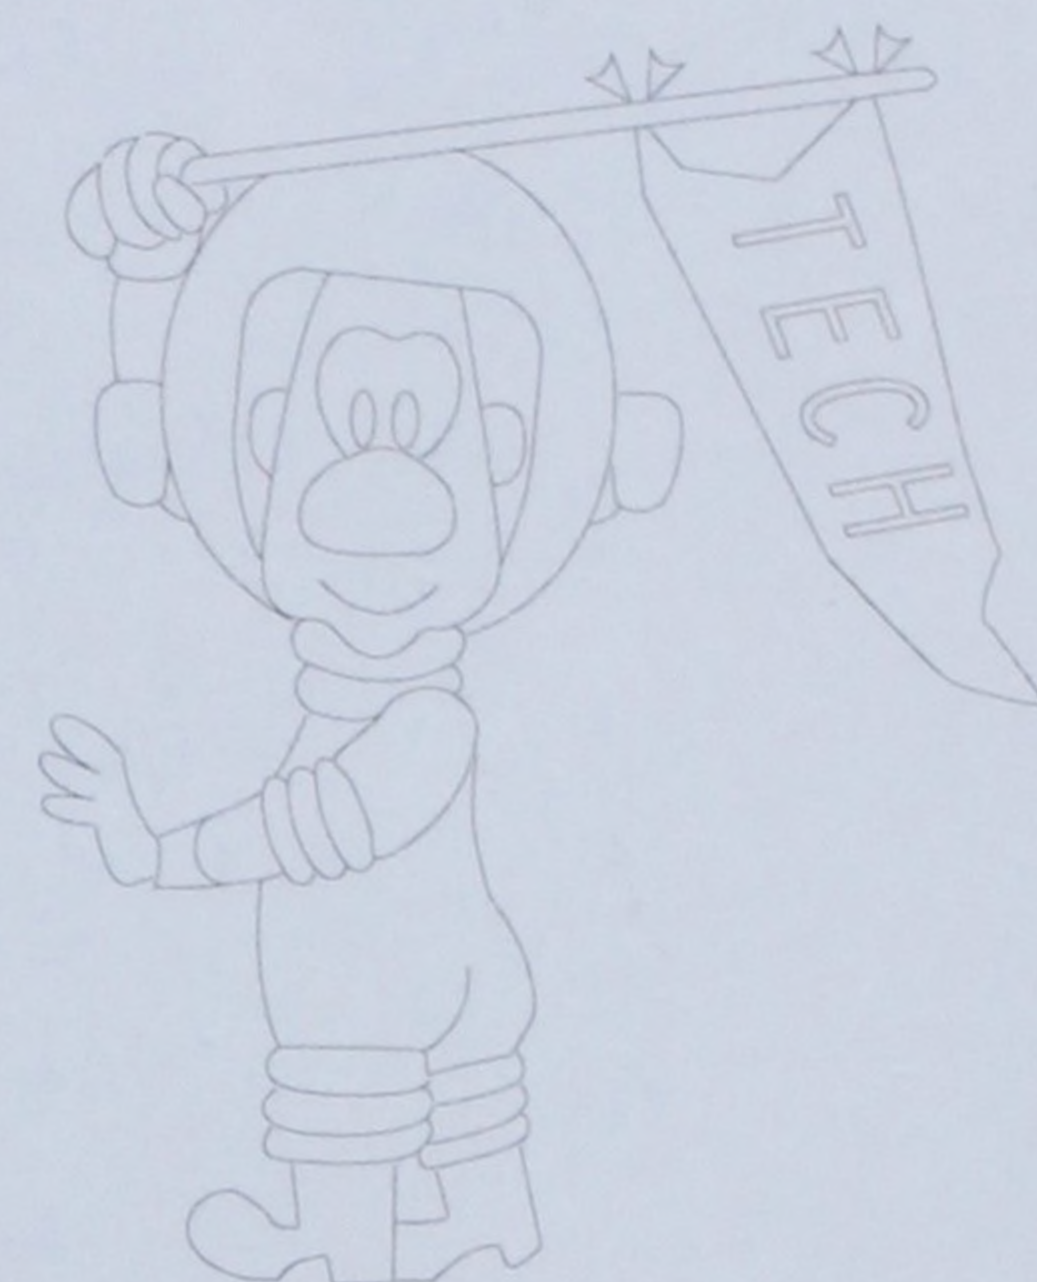

Engineering students are proud of their work! Andrew Daily is the master of 3-D printing this year, go Andrew!!!

History

Students in Ms. Hill's class hear from student teacher Mr. Smith on the history of the United States.

A rare map of the Middle East in the early 1960's.

Students thoughtfully take notes. This is really interesting stuff!

The class listens attentively.

Leadership

Introduction to Leadership students include: Marie Abino, Jemila Ahmed, Marta Yu Bejar Alonso, Shawntrell Carson, Xiu Juan Chen, Vanessa Cortez-Torres, Myles Deverell, Alina Gurola-Mendez, Minhthu Ha, Abigall Hernandez, Victor Huynh, Clio Kroeze, Sela Laulile, Estrella Martinez-Lopez, Johan Nava-Marin, Angela Nguyen, Alonzo Ortiz-Sanchez, Asa Pritchard, Amberly Riscajche, Henry Senters, ALaric Shaw, Kenya Vasquez-Flore and, Vy Vo.

Leadership classes do all the social and informational stuff around the school. They are a vital part of the communications in and around the school and it's events.

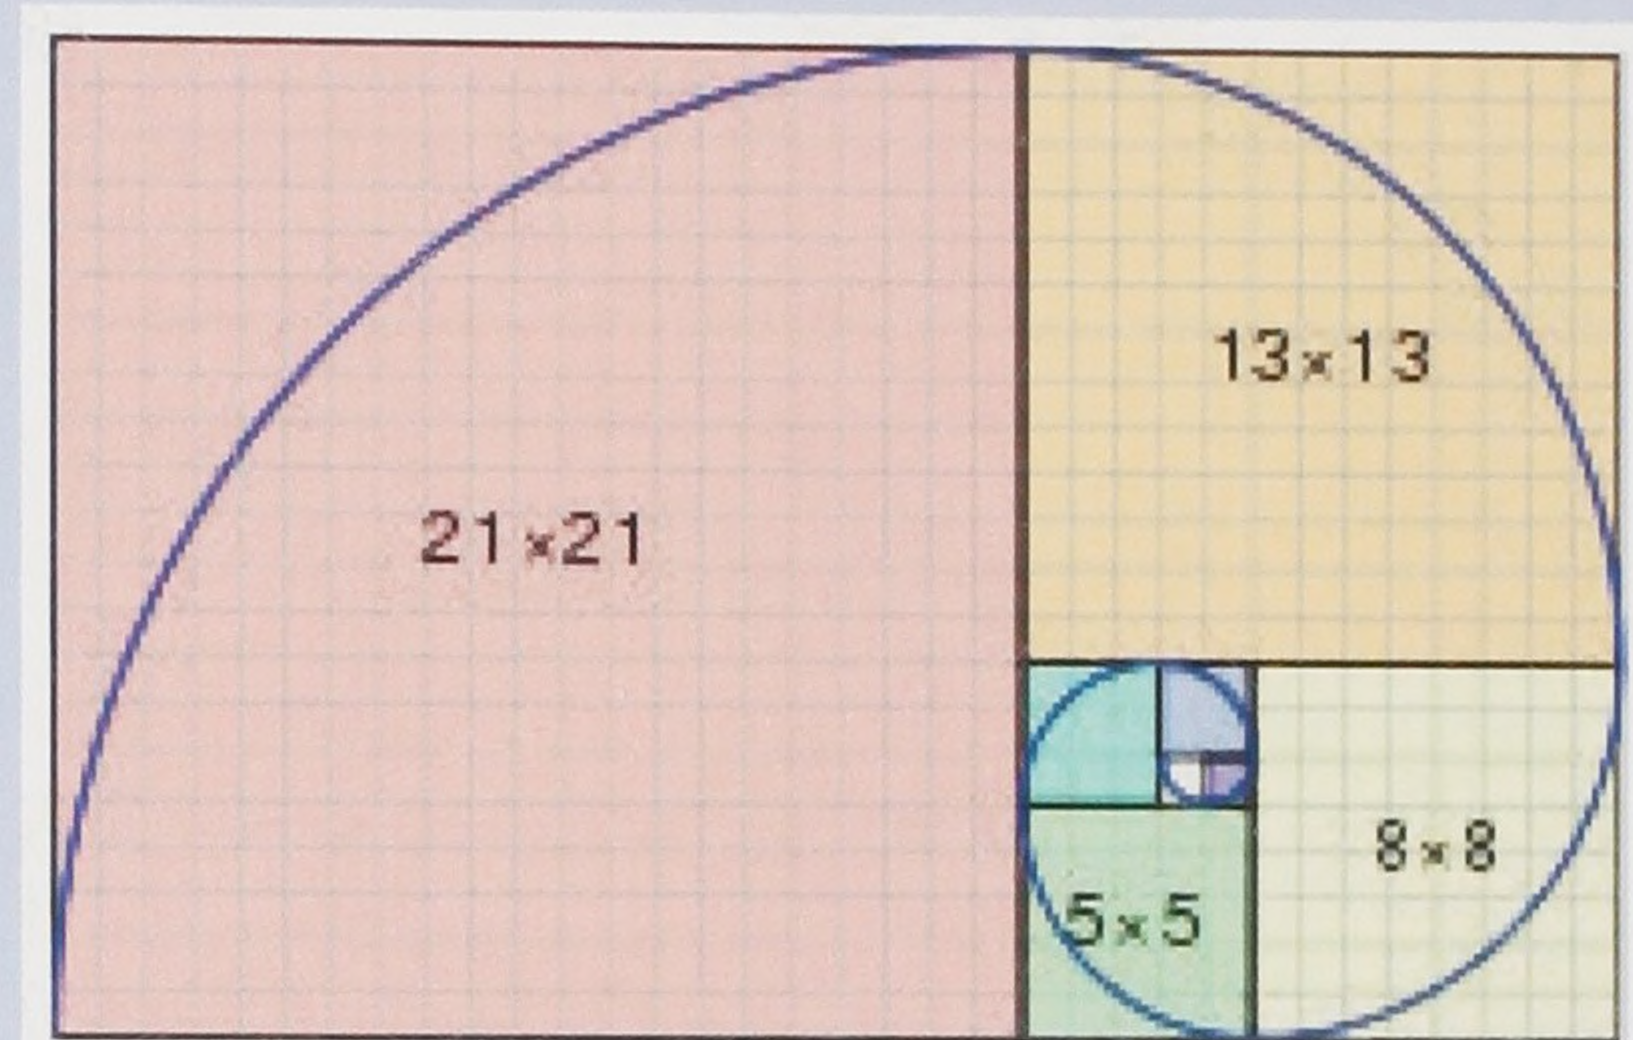

Advanced Leadership includes: Alex Andrews, Jordan Bradley, Ja'shanique Broussard, Xuan Do, Megan Ho, Lupita Javier-Vallejo, Greyson Joseph, Sophia Miller, Kimanh Nguyen, Thy Nguyen, Elena Peterson, Kieran Sara-Roberts, Sydney Shommer and Angeles Torres.

Math

Students are using activities and games to help make math, make sense.

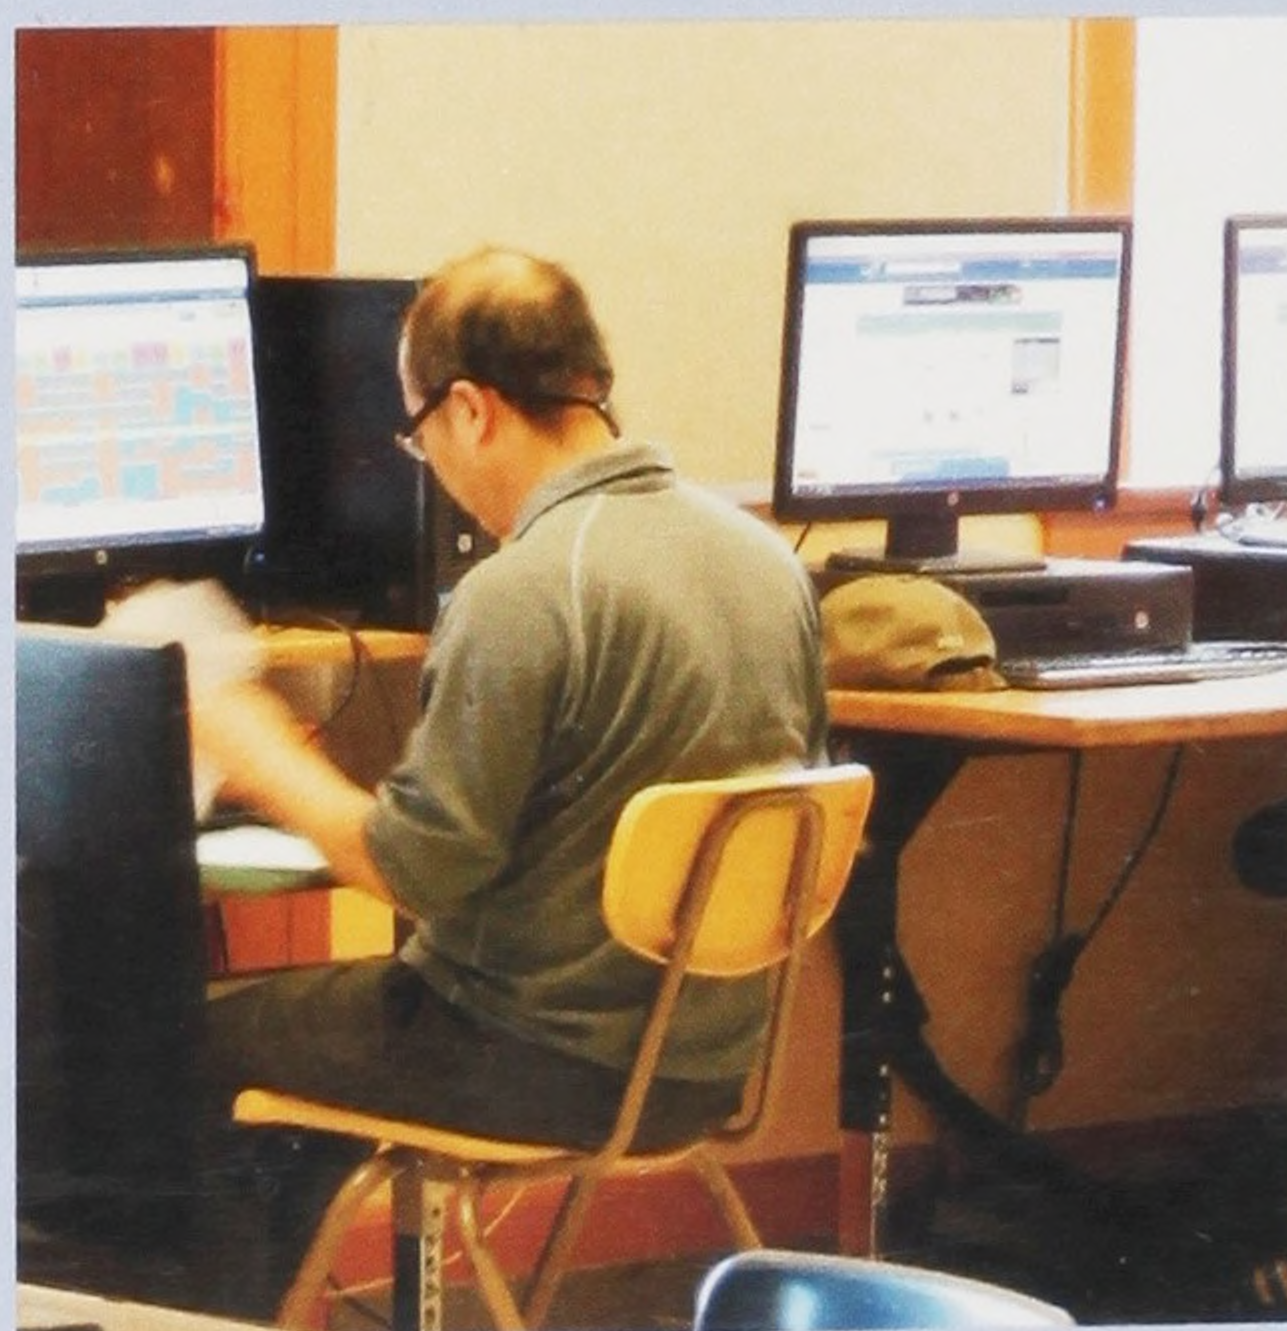

News Flash... Teaching Math at Benson has taken a turn. With a focus on Project based learning, group work and creative learning strategies the department at Benson has really turned Math on its head. This is very different than how they taught it in the 1960's. The "Direct teaching method" was the way most of the teachers learned Math, boring indeed. With many new ways to teach the young and energetic Math department make Math fun and interesting. Math is in everything and is everywhere! Yay Math!!!

A Fibonacci spiral starts with a rectangle partitioned into 2 squares. In each step, a square the length of the rectangle's longest side is added to the rectangle. Since the ratio between consecutive Fibonacci numbers approaches the golden ratio as the Fibonacci numbers approach infinity, so too does this spiral get more similar to the previous approximation the more squares are added, as illustrated by the image. This is seen in nature everywhere and is a fundamental function.

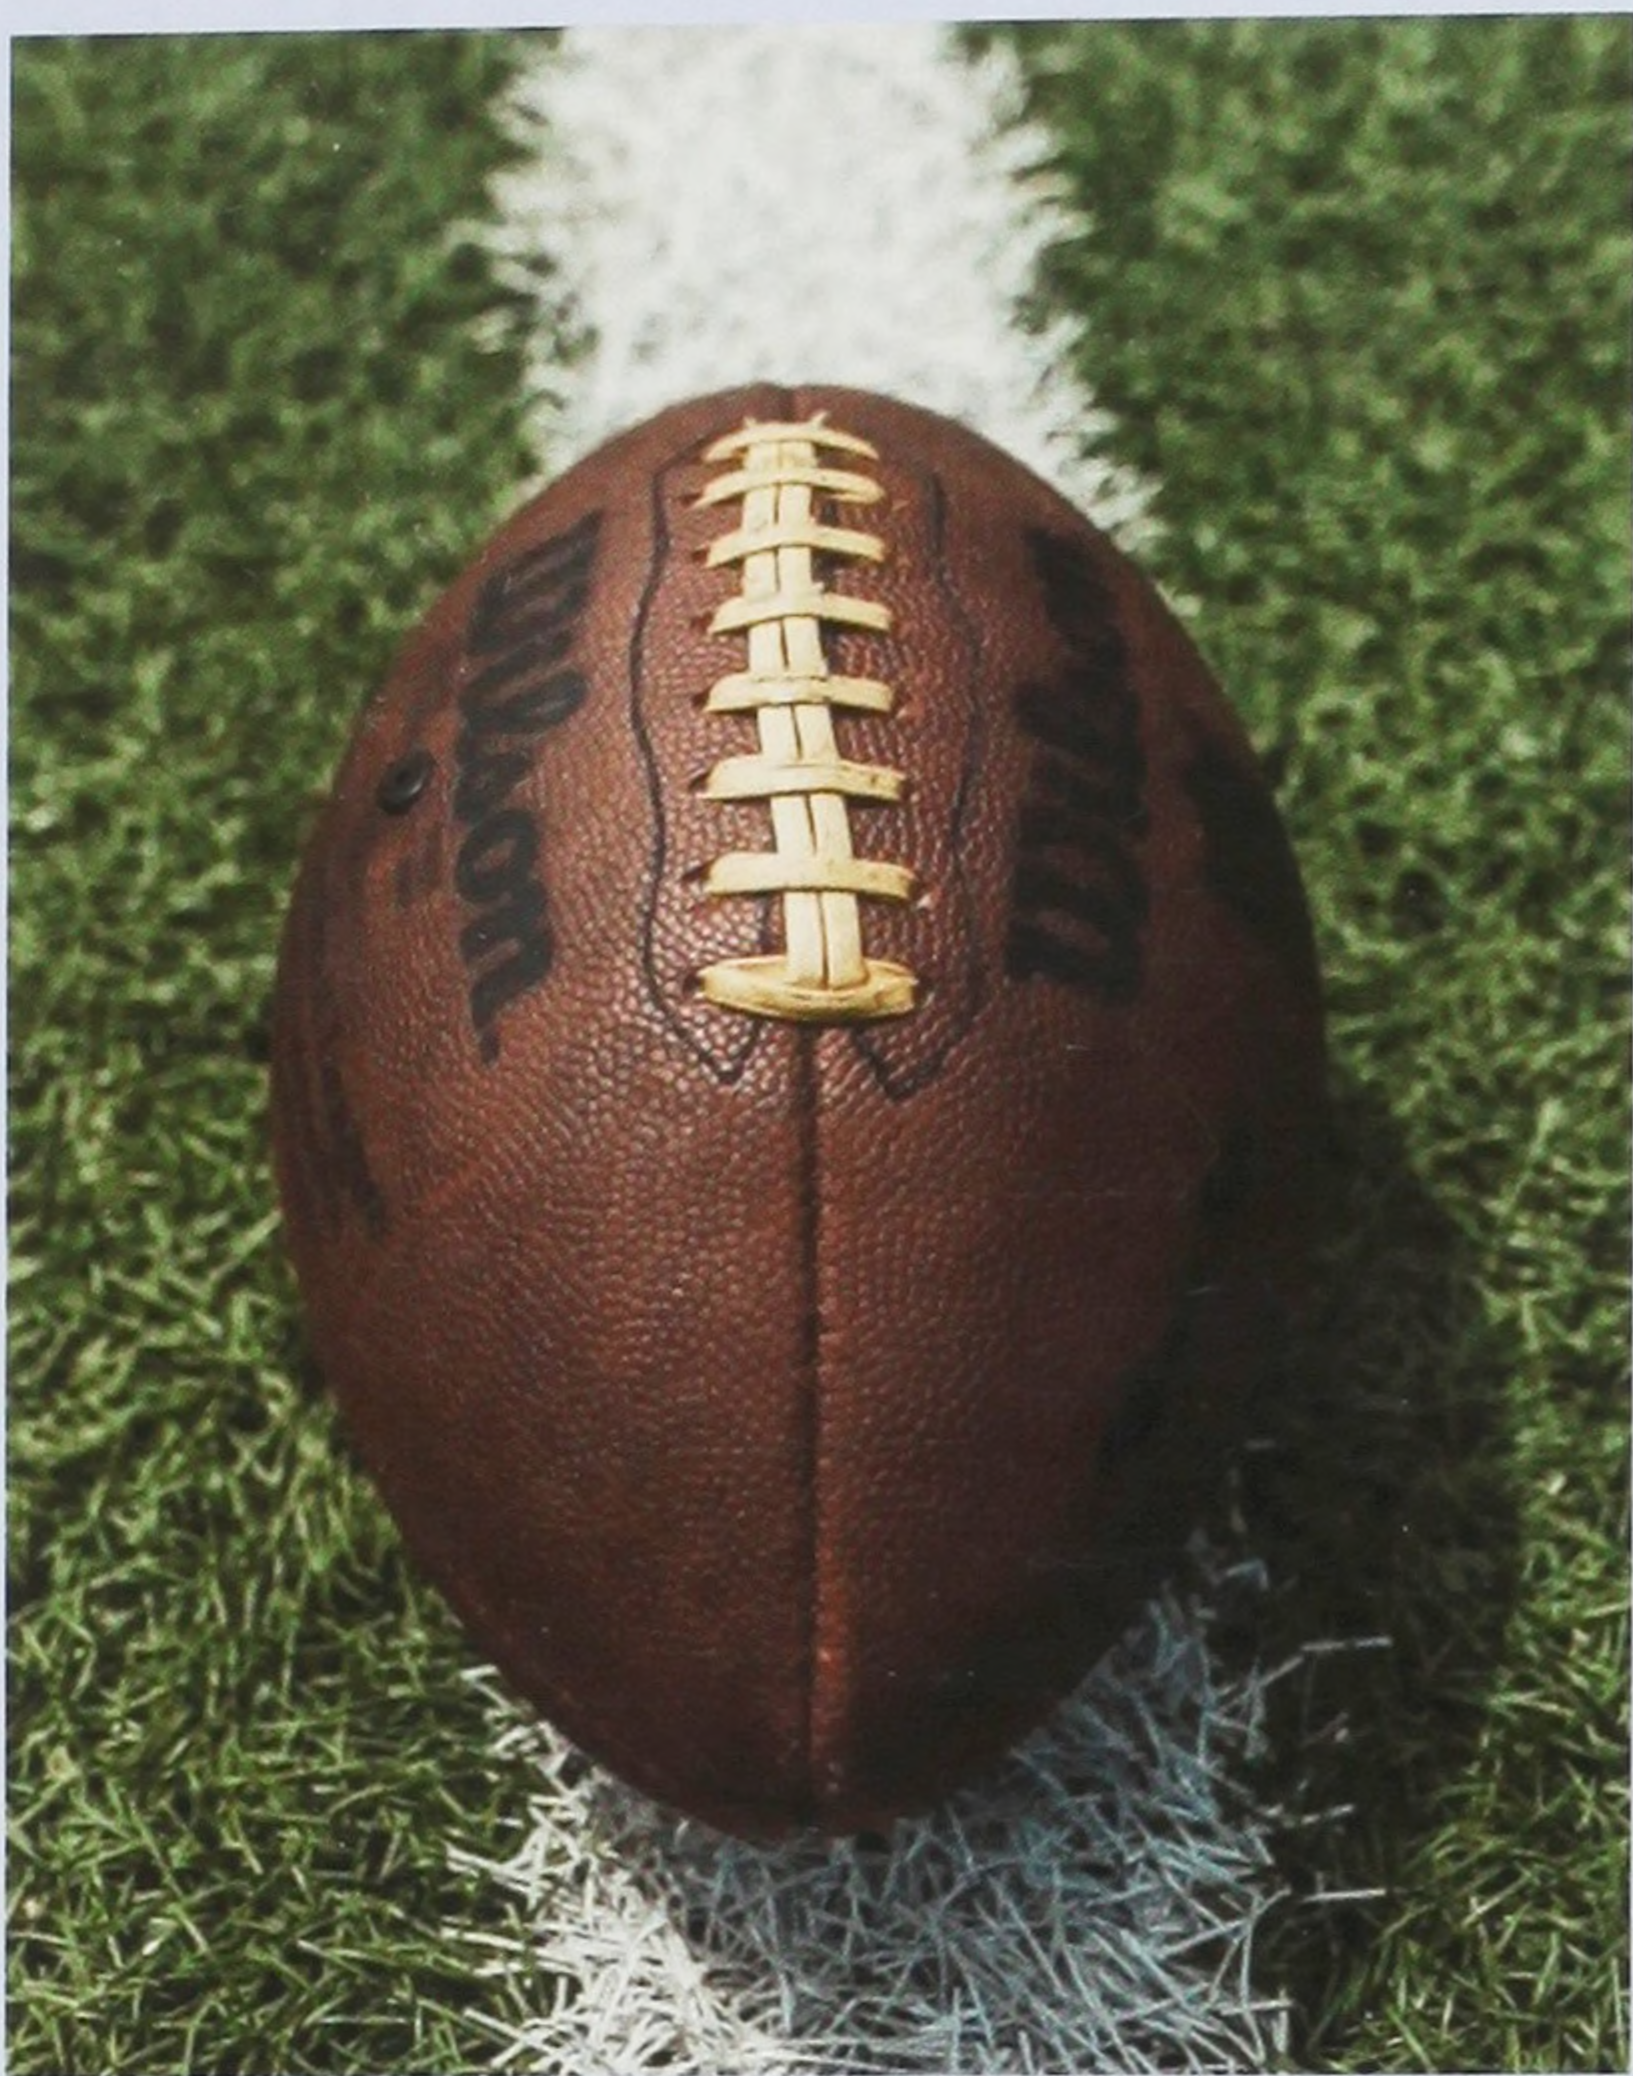

Student's of Mr. Yeager, sitting pretty... eager to learn!

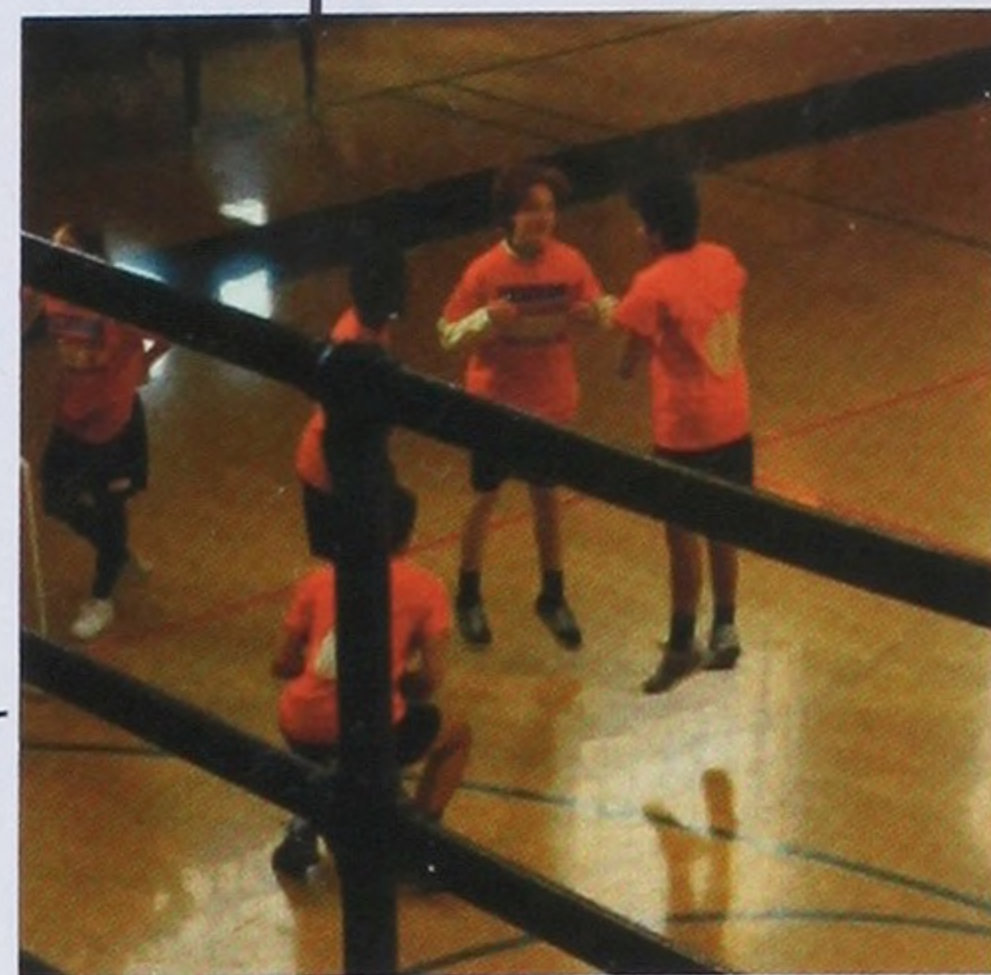

Mr. Trinh working hard on some grading, so dedicated to his students!

Mindfulness and Sports

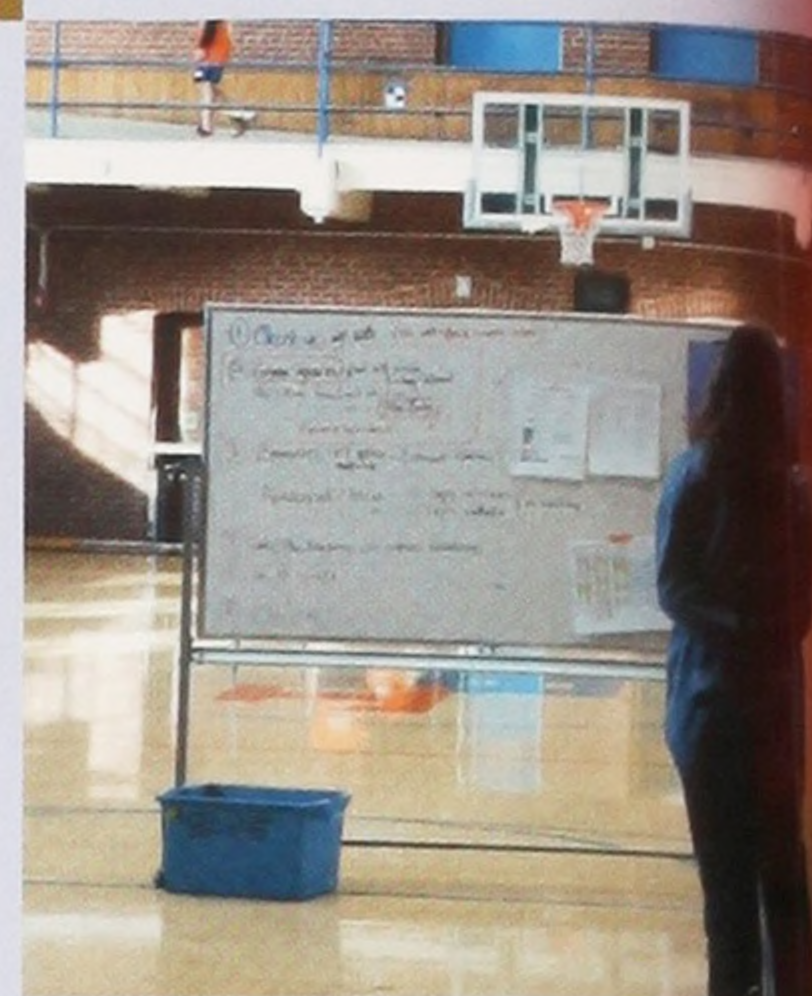

News Flash! After many decades the Benson Football team has been placed on hold. The ability to run the team was eliminated this year due to many reasons. A capped enrolment, being a focus school with students from all over town and difficulty with the "vision" of the teams viability causes for a painful end to this chapter in Benson's history.

Team work makes the dream work!

That's a lot of bootcamp kids.

Gotta get them gains!

It's pickle ball time. The best sport out there

Pumpkins.

It's a Tuesday, you know what that means... vigorous day!

P.E. Department

The Crew: Linda McLellan, Michelle Cvitanich, Monty Catabay, and Brian Allmer

Monty Catabay

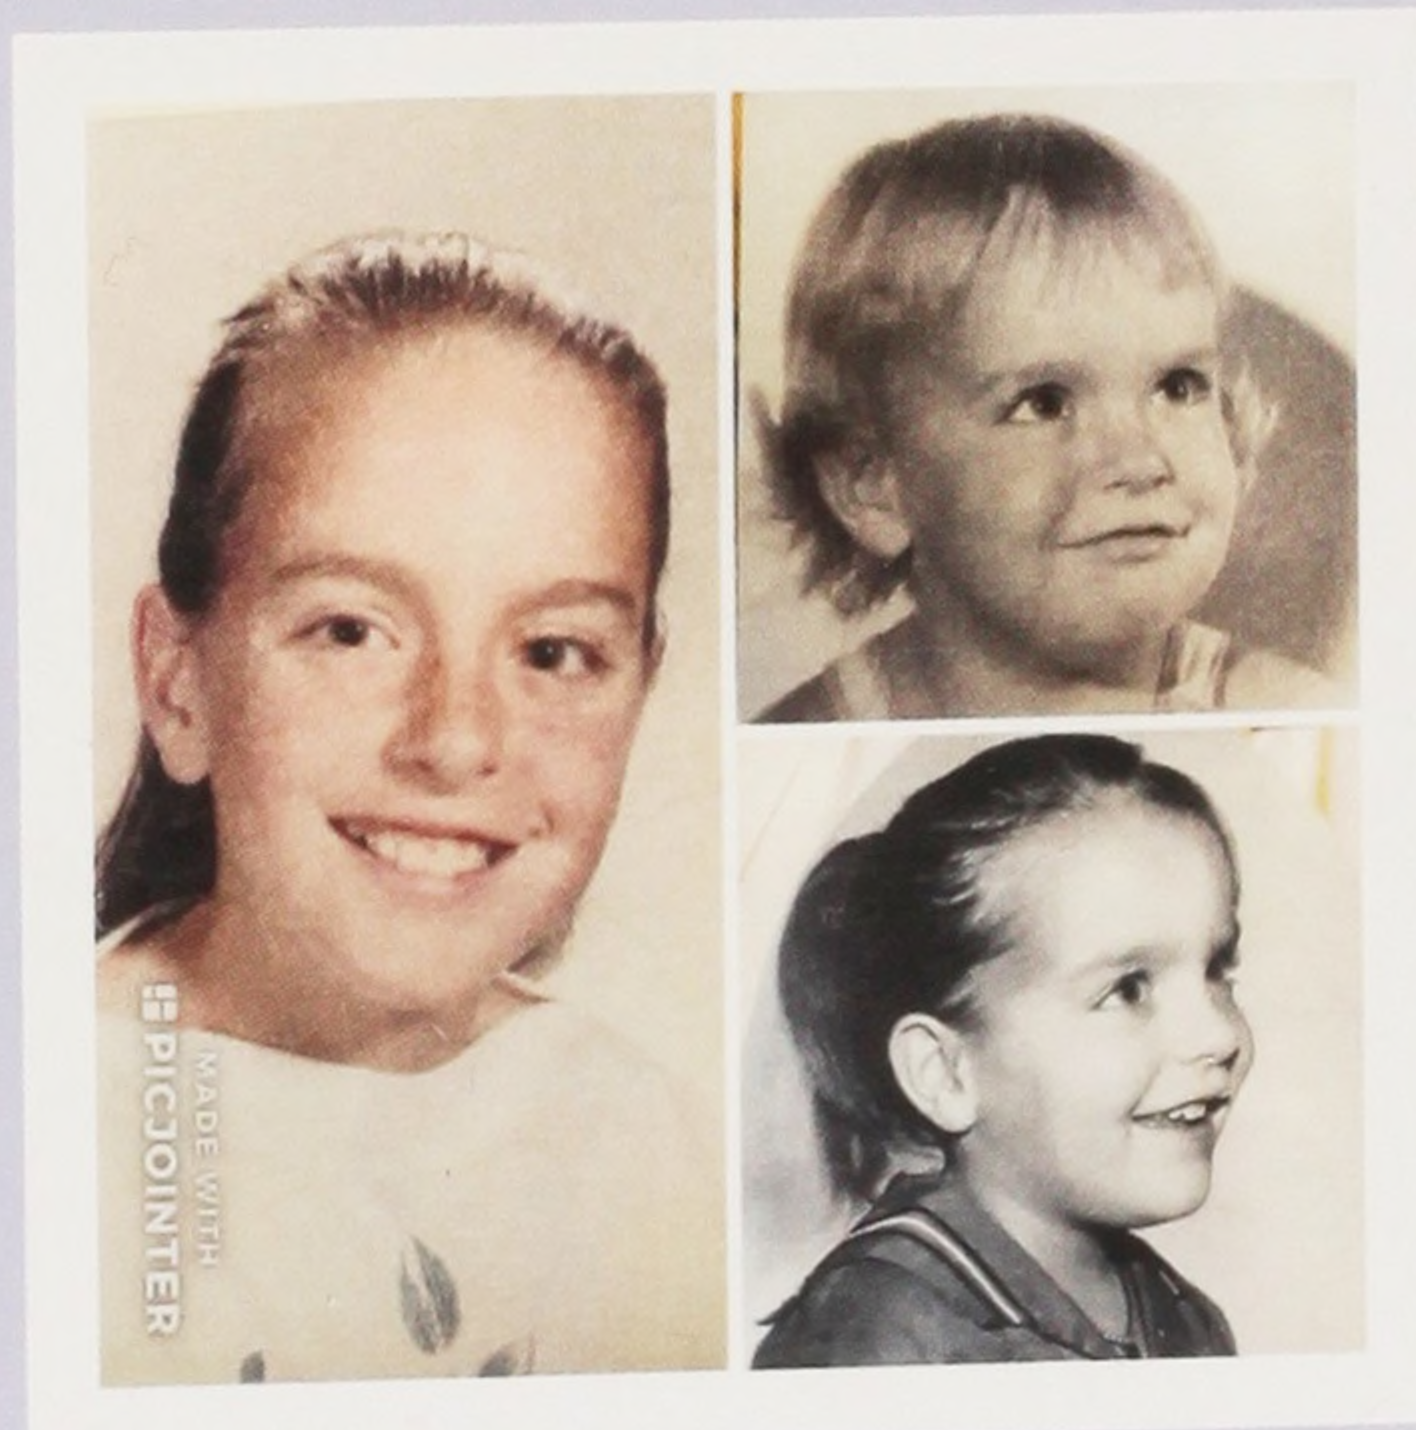

Michelle Cvitanich

Brian Allmer

the "Boss": Linda McLellan. We are going to miss you sooo much!

News Flash!!!
Linda McLellan
had a childhood.
Who knew?

Psychology

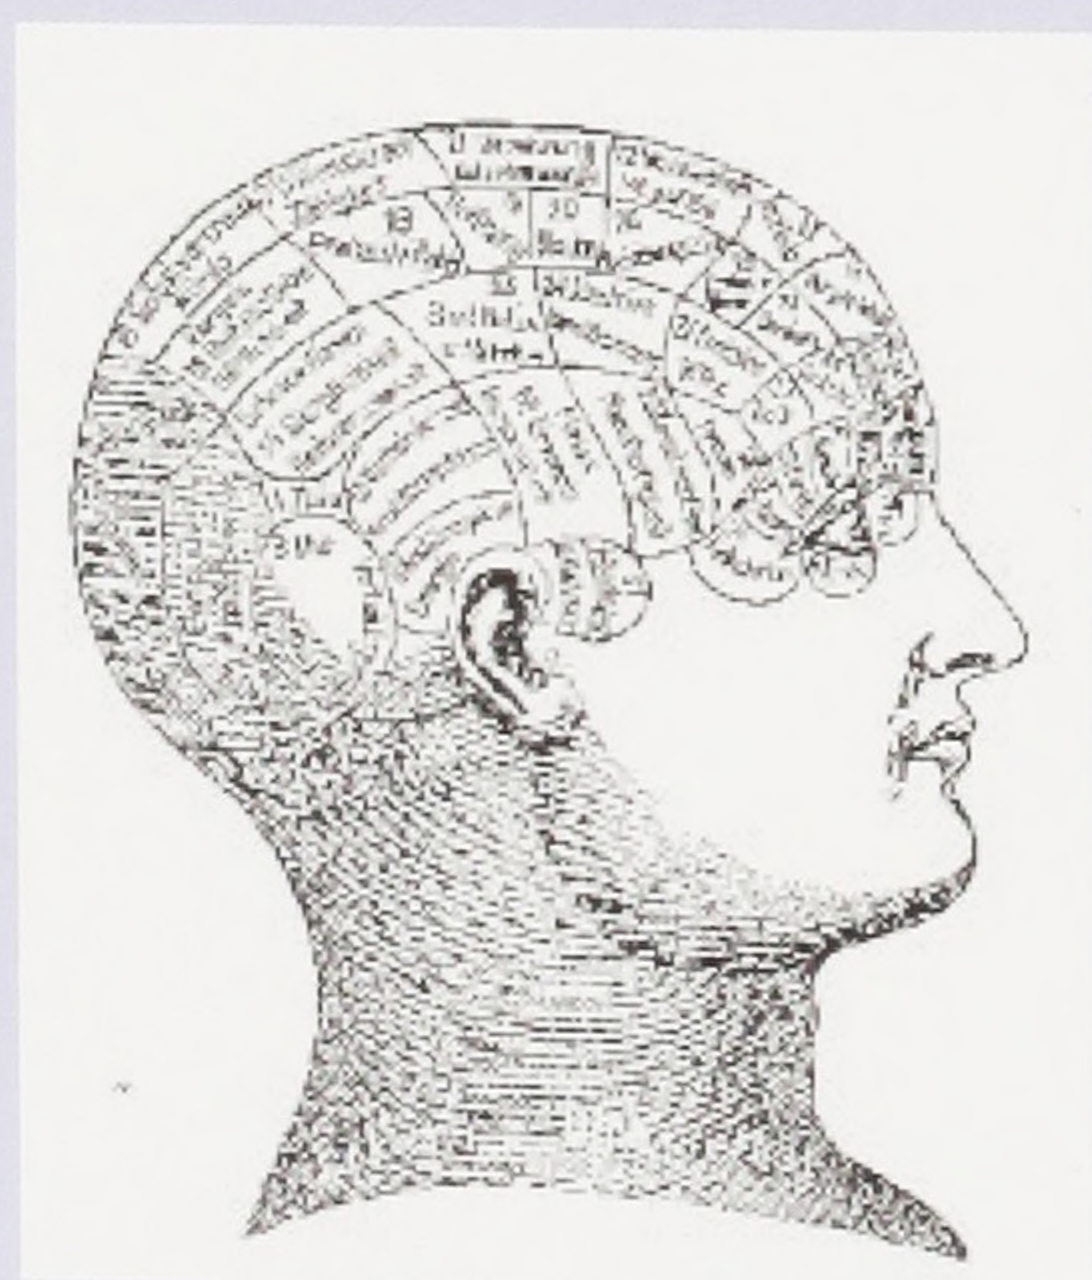

Mr. Weiner doesn't hesitate to show how passionate he is to give a moving lecture about the human brain.

Psychology students are deep in thought.

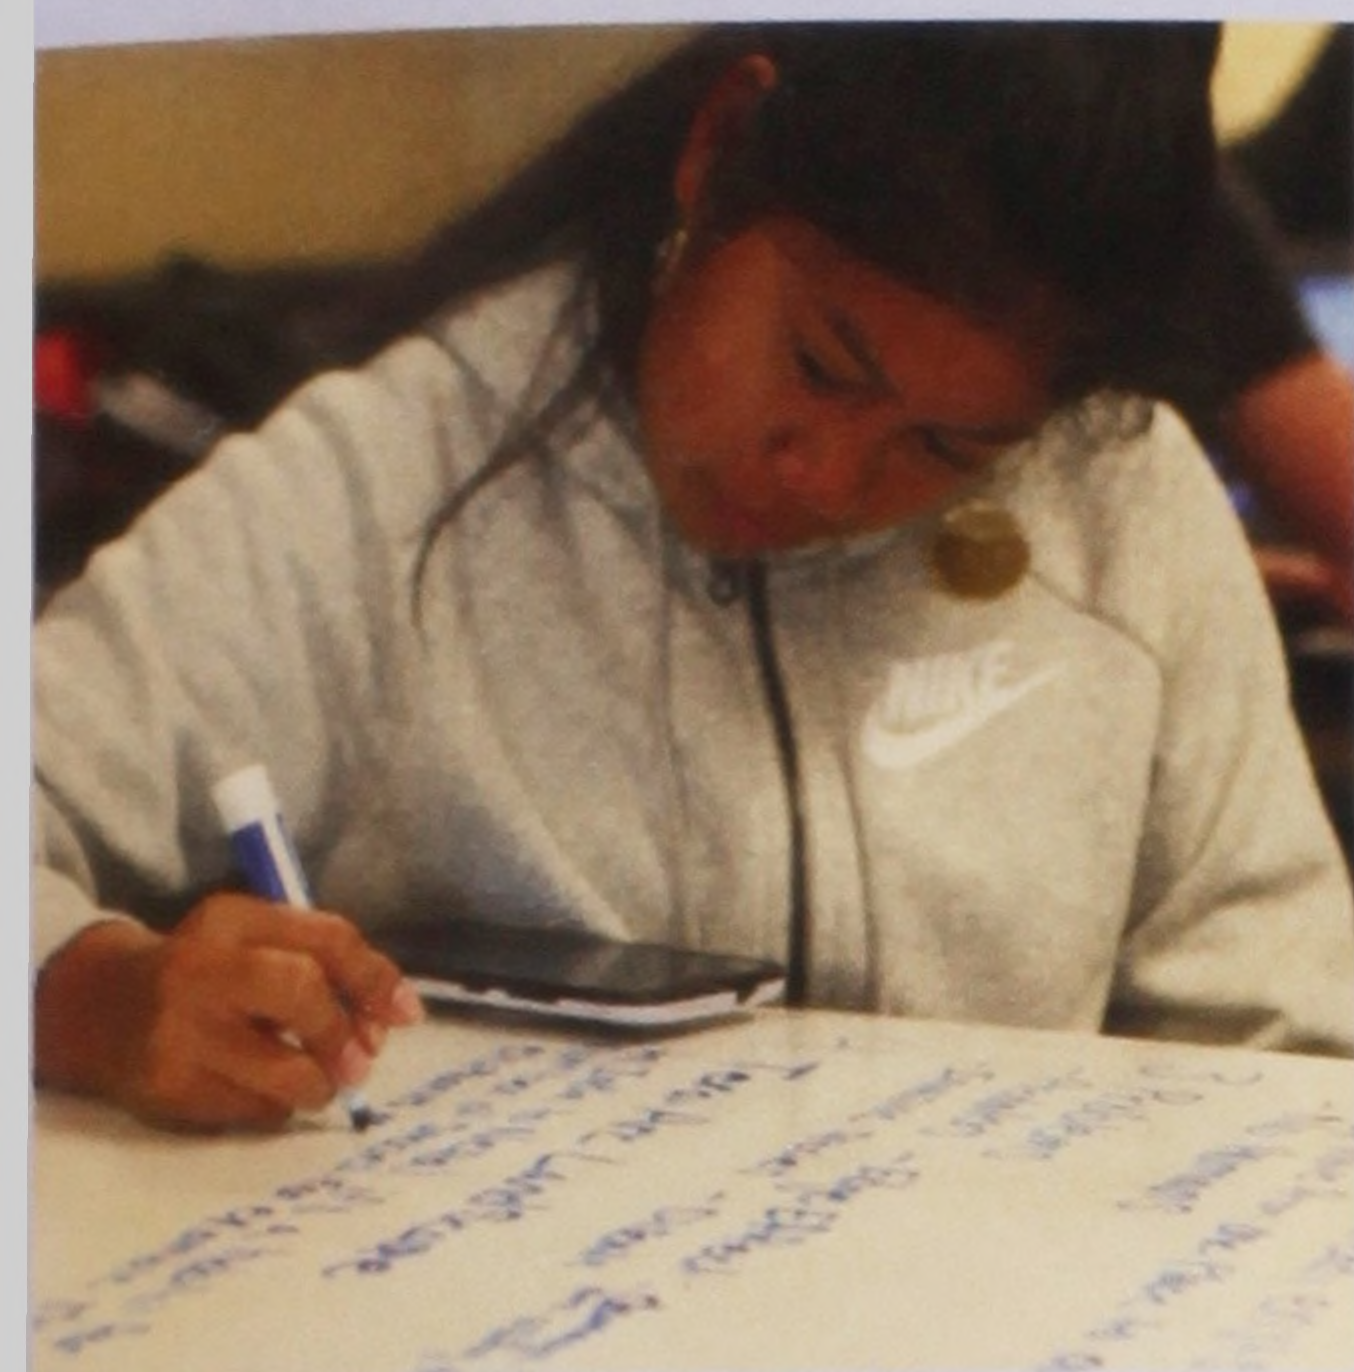

Students are paying close attention to Mr. Weiner's psychology lecture, the mind is a bizarre and interesting thing to study.

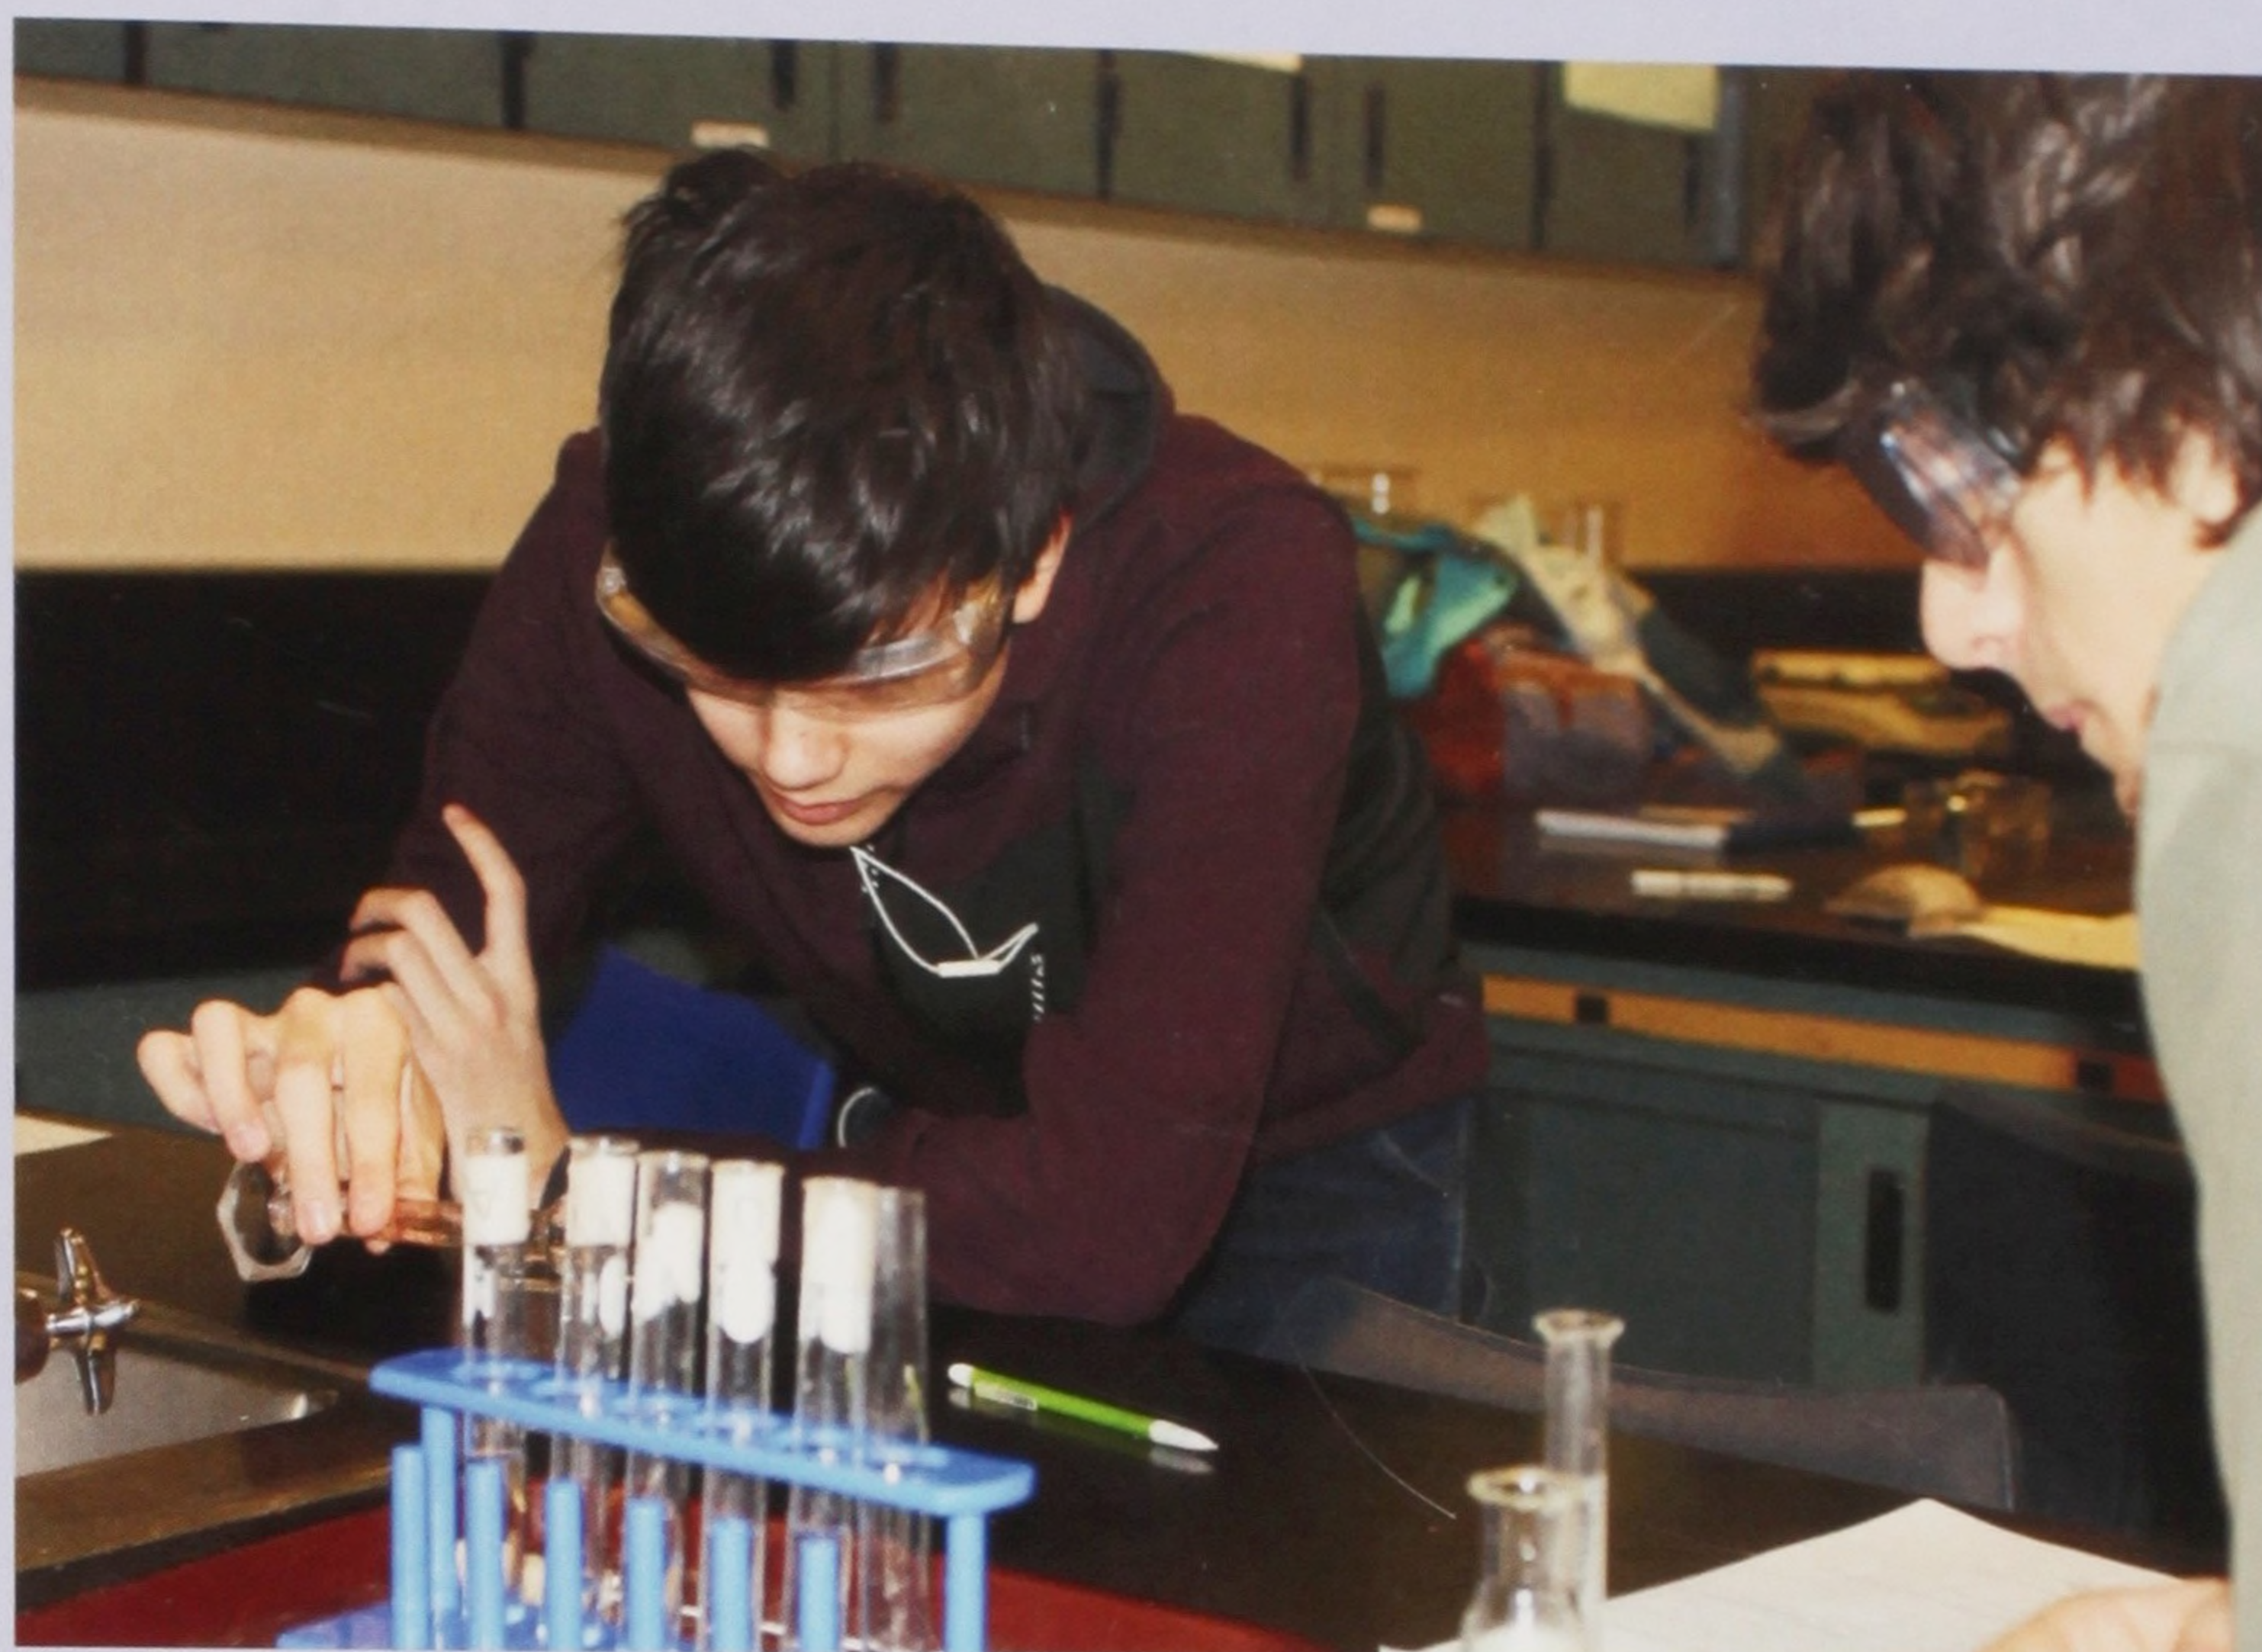

Students are happy and excited to learn.

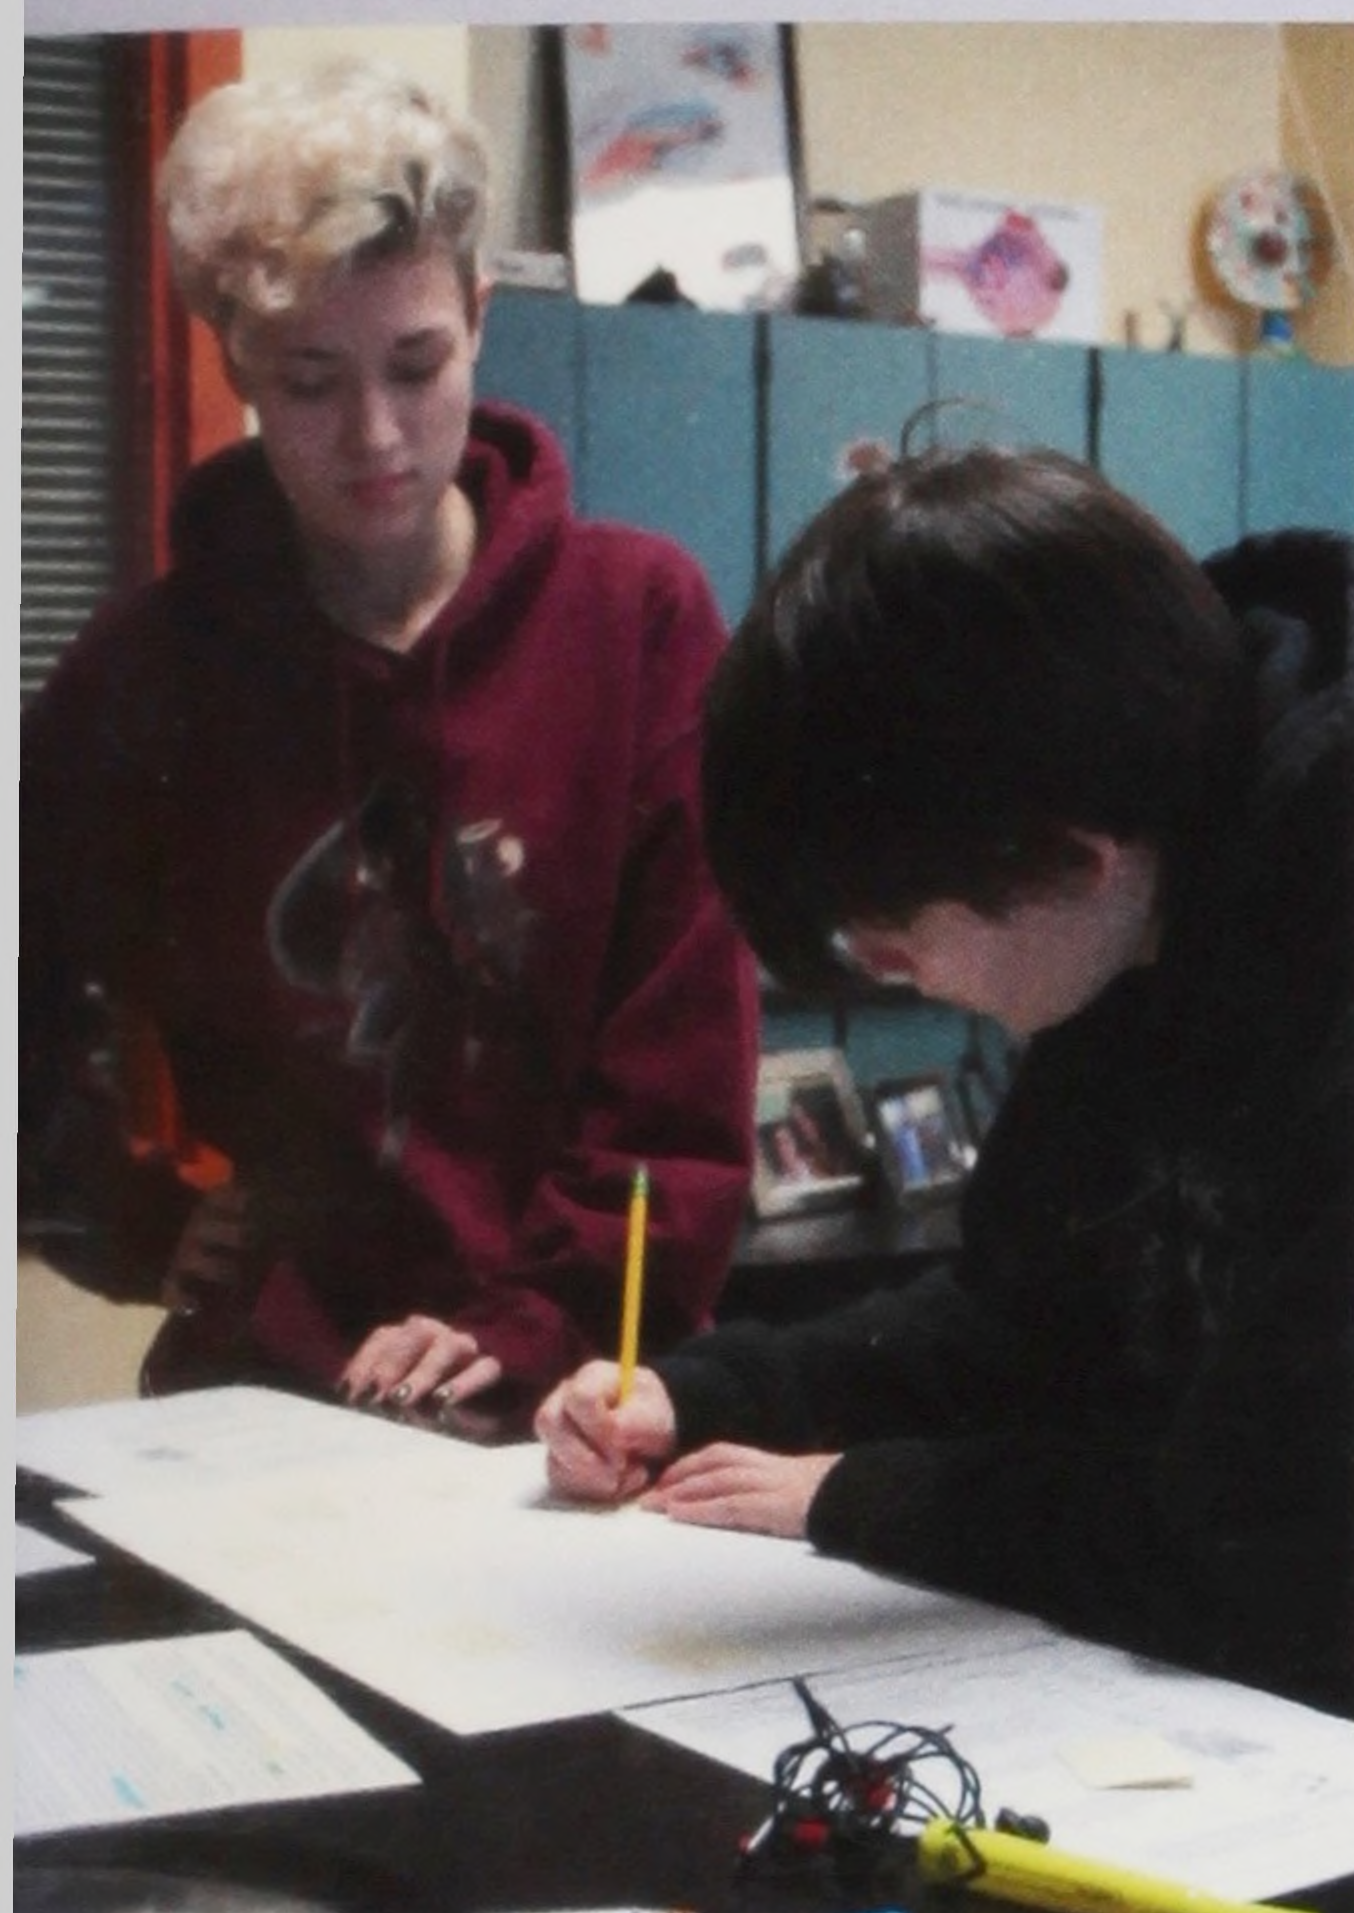

Science

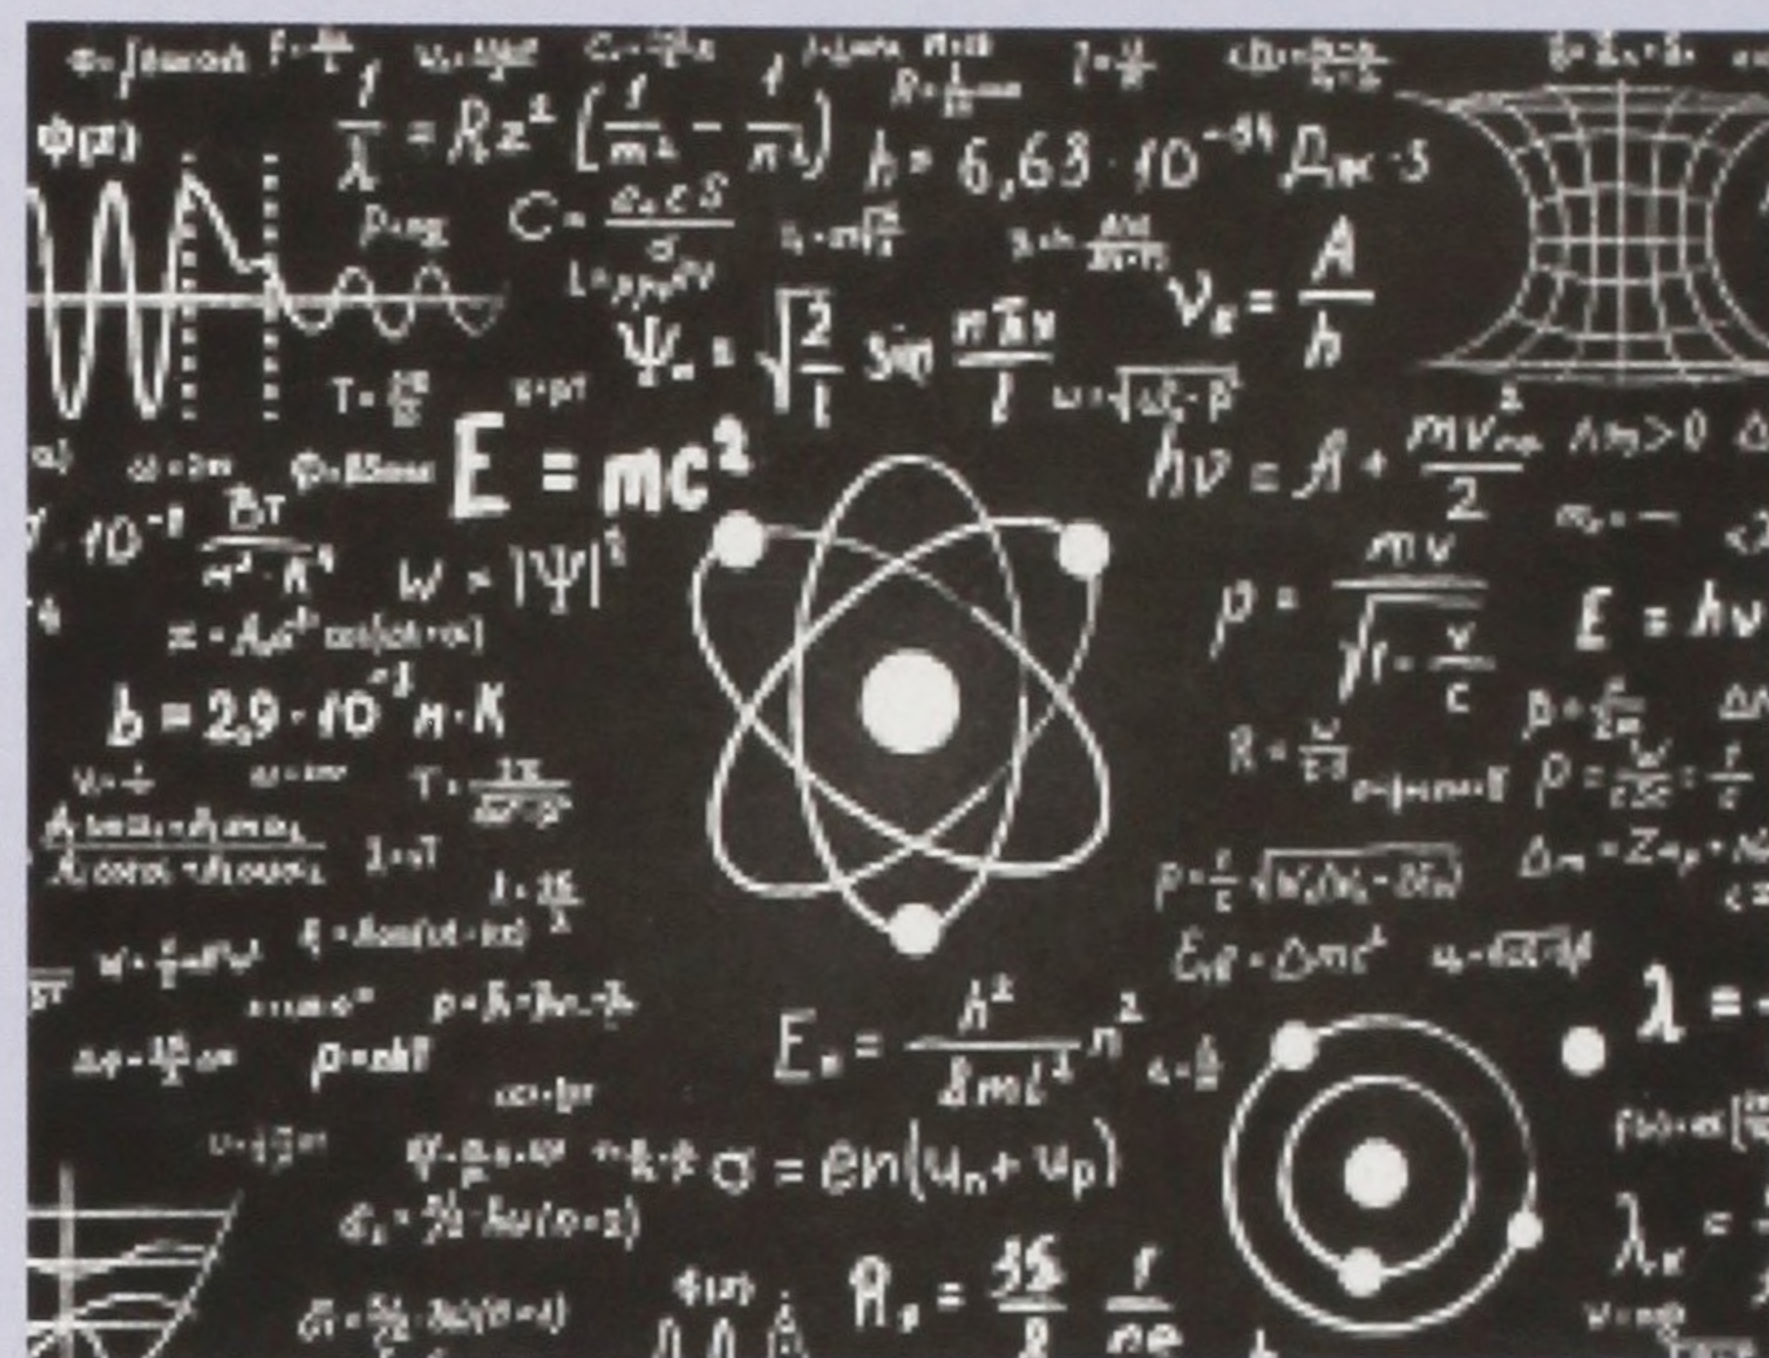

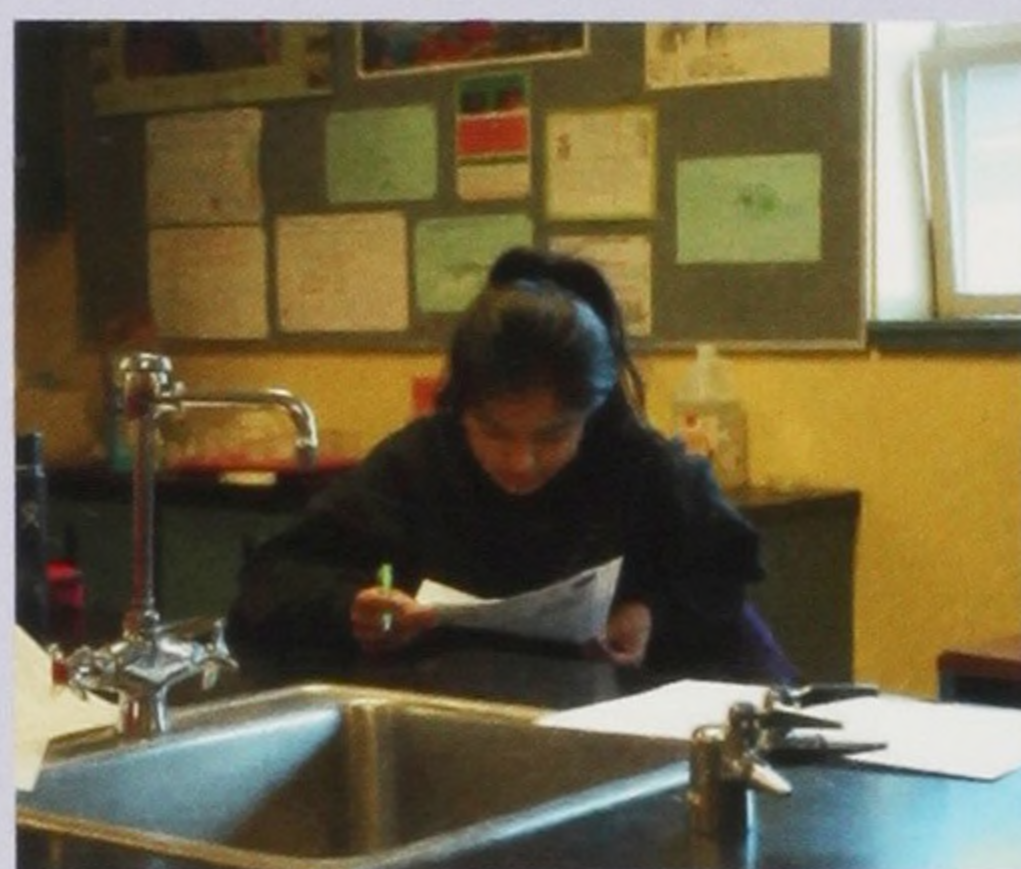

Alicia is focused on writing procedures.

Students are carefully conducting scientific experiments.

Estrella getting their assignment and reading through it.

Rowan and Francis working together on their biology assignment.

Simon caught resting his eyes just for a little bit.

Working together makes things better.

Zella concentrating and getting precise measurements.

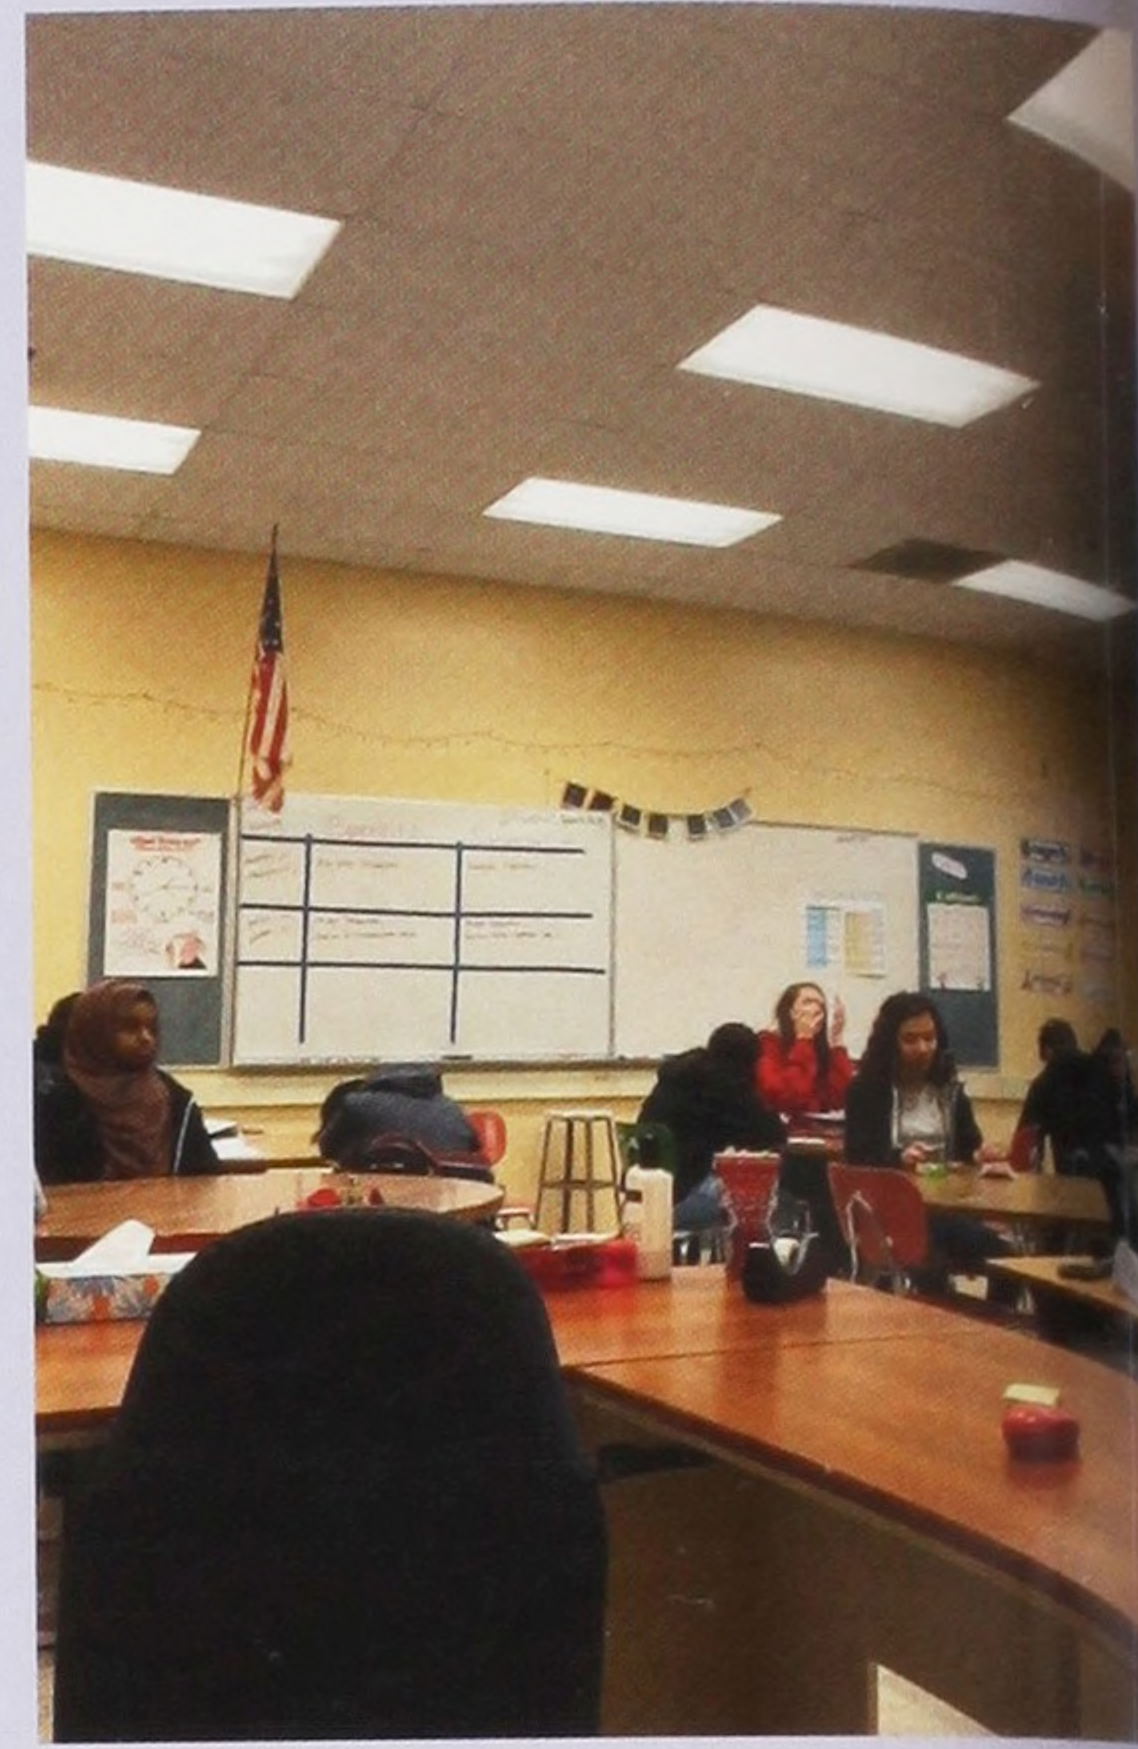

Spanish

Hard work pays off! Keep that grind going.

Hey, do you have the answers? Can you give them to me?

Caught a student sleeping!

Are they working? Or playing games? We will never know.

I bet your wrists hurt from all that writing.

Sending positive vibes from Spanish class!

S.E.S. - Social Emotional Support

Fun fact, reading can boost your brain power and make you a tad bit smarter!

Social Emotional Support Department-Formally known as "Pioneer", This very special and important component to the Benson environment helps kids who come from very difficult circumstances and situations. It allows for gradual reintroduction into the general student population.

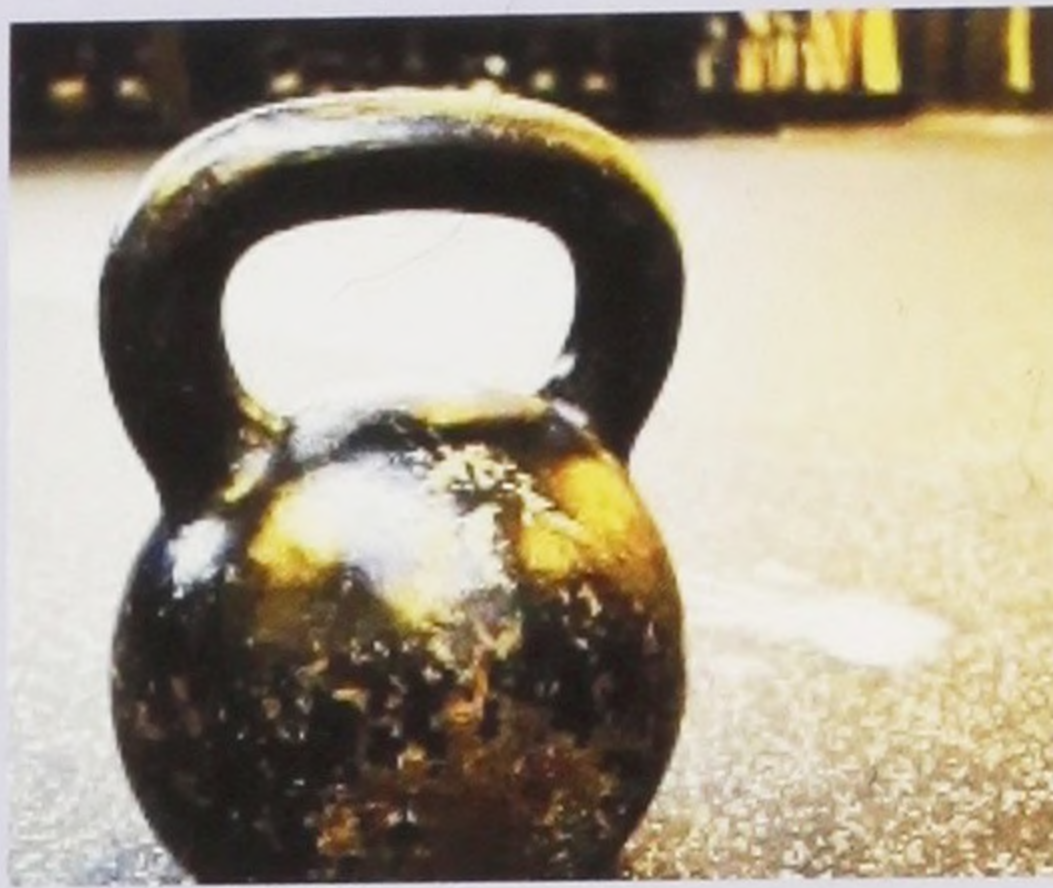

Derick Sanders shows off his "Badger" sculpture, a multi-handbuilding technique used to make animals in his Beggining sculpture class.

Kevin and Steve with a student at S.E.S. These guys work very closely with the students to create a loving, creative environment. Lots of work go into being a social and emotional support staff, it can be a very rewarding and taxing job.

Strength Conditioning and Training

Strength Training classes teach the students to push themselves to their own limits. Getting a well rounded education in the human body, stress management and flushing out toxins is an important part of education, burn off that teen energy. A healthy body makes a healthy mind.

A nice day to workout outside!

To the left: Seems like they might play some kickball. Can I join the fun?

Tech Algebra and Tech Geo

Students learning how to use the heat press machine.

It took seven years of research and hard work to even get this program started. Ms. Slaughter and others did the hard ground work and Ms. Stolte took it over with vigor and laser-like determination. Despite issues over shop space and tool use, the program prevailed and is now one of the shining stars of the CTE programs here at Benson. The program integrates math, geometry and labor, into a unified project based class. They build and use math skills to augment the overall design and implementation of the project.

Balsa wood houses in the making!

Learning from the print master themselves.

Tech
Geometry
period 3
represent!!

Need a table? Tech
Geometry will make
one for you.

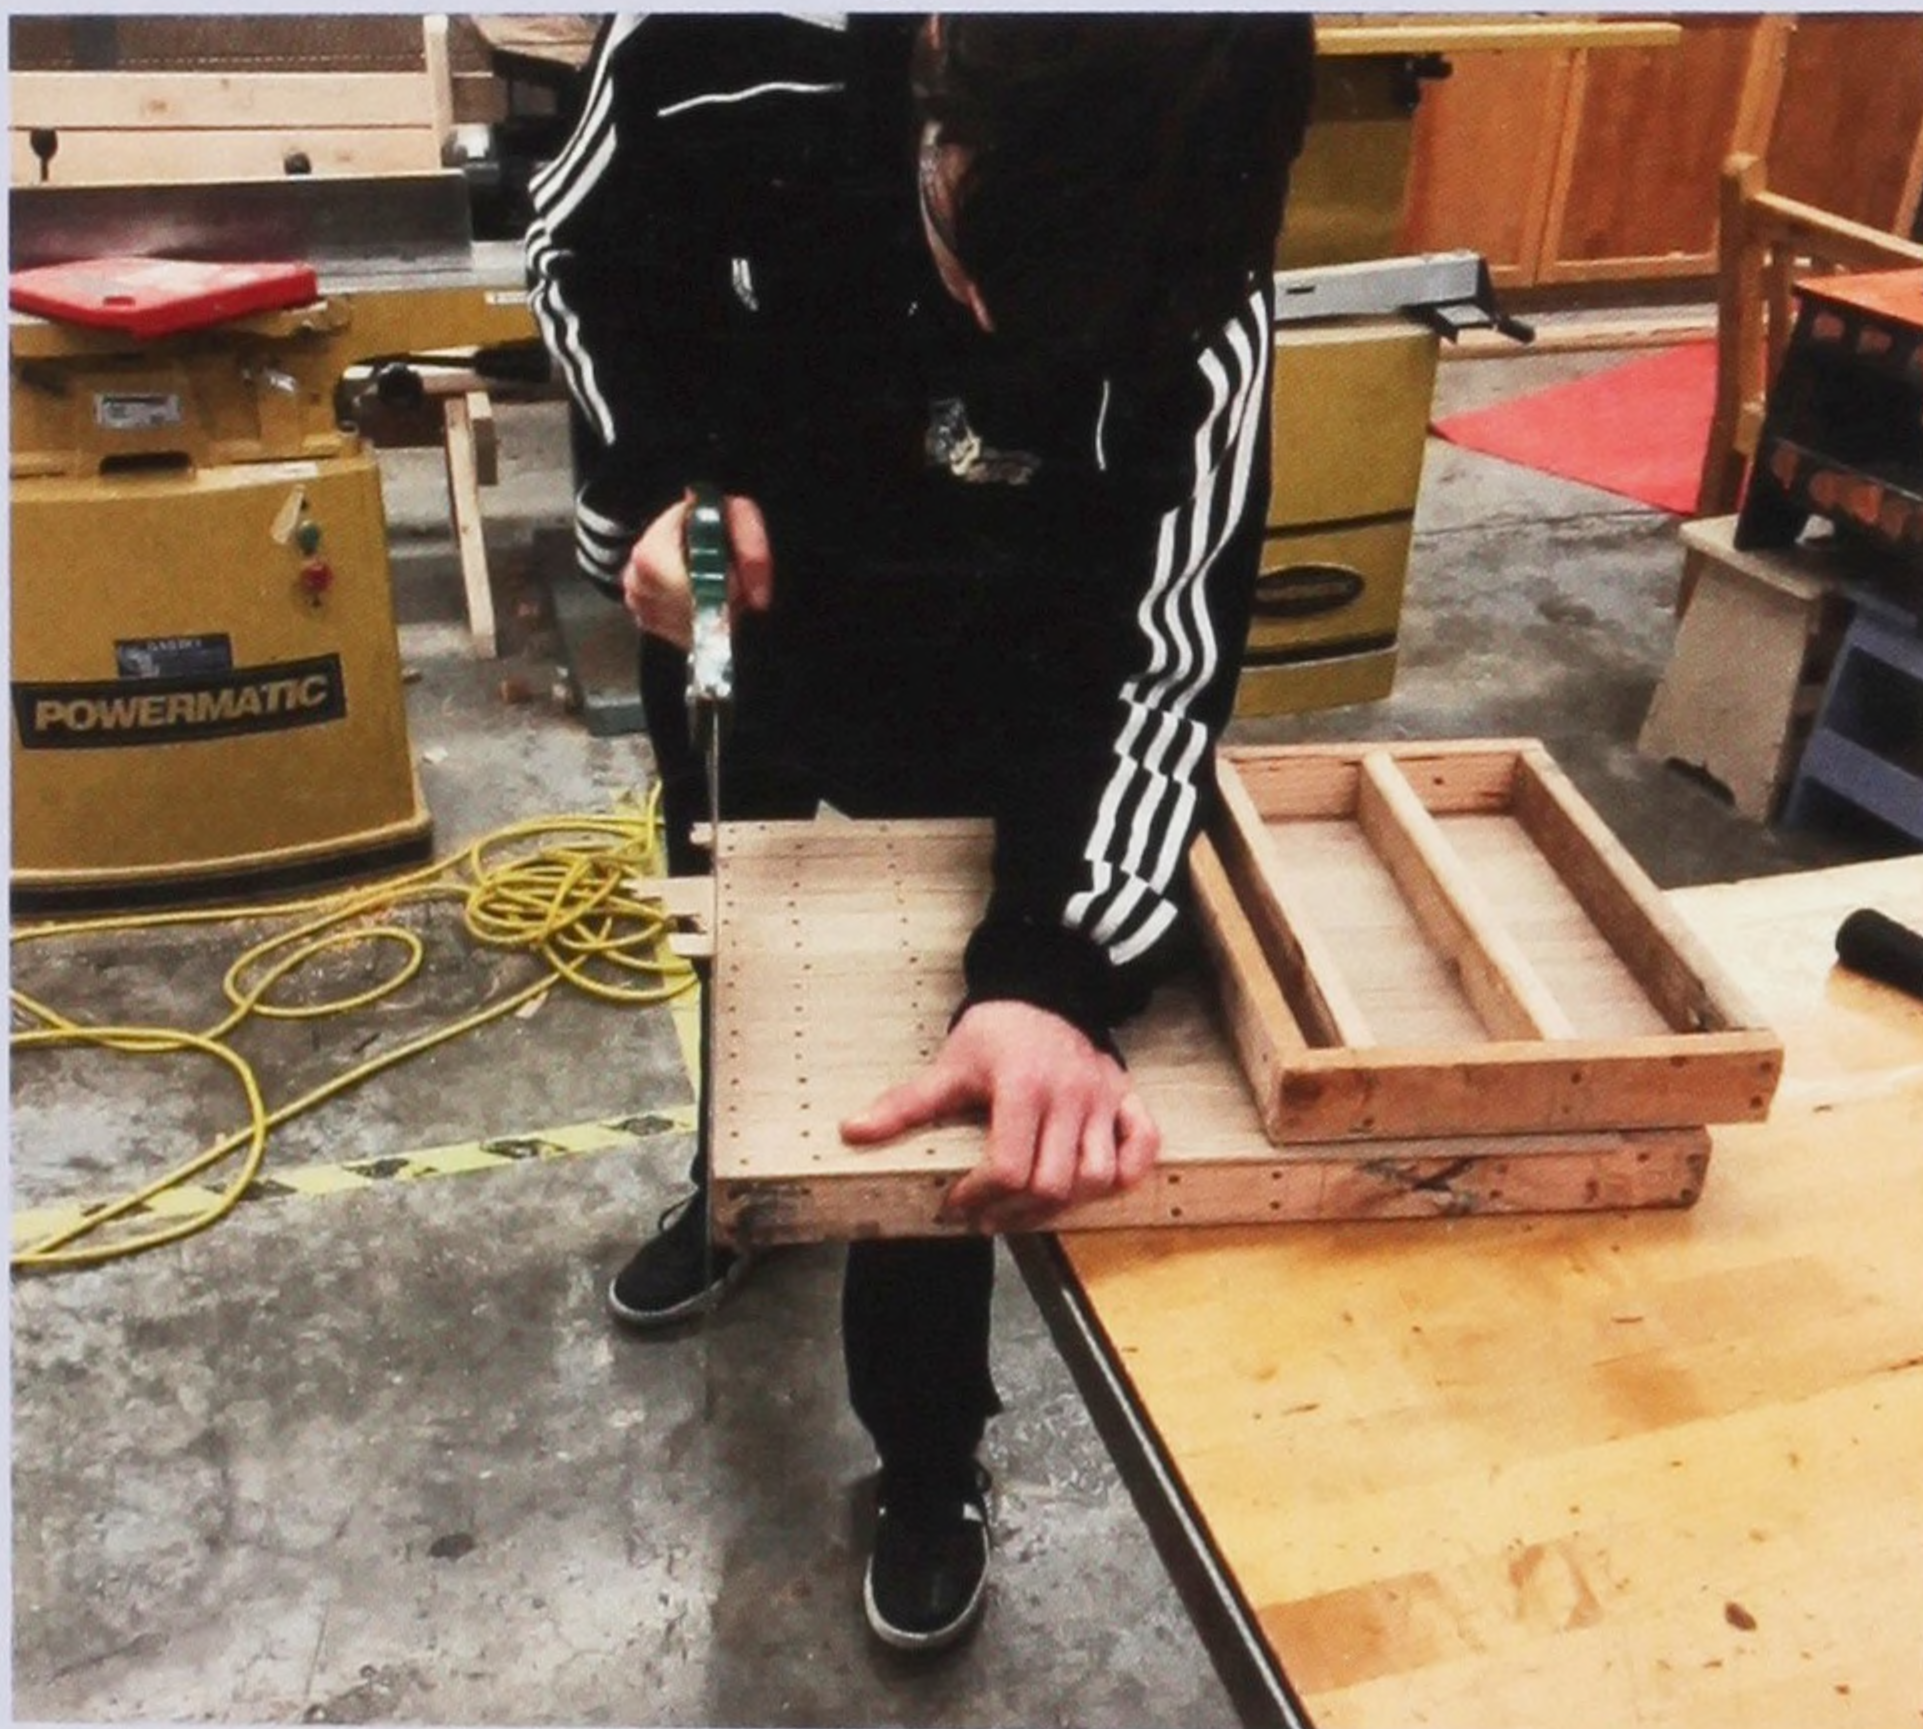

Wood Working

Mr. Ketah teaching a student how to use different types of tools.

This stool makes me want to go swimming.

This student is using his inner strength of Zeus to saw off the extra wood.

Woodworking students perfect their abilities to approach projects and try new techniques. This year students created end - grain cutting boards, jewelry boxes, end tables, and more. This elective opens a creative door for many. One student is even building his own bass guitar!

What do you call a piece of wood with nothing to do?

Bored.

Checkered cutting boards in the making!
Got to make them smooth.

Clubs and other school activities

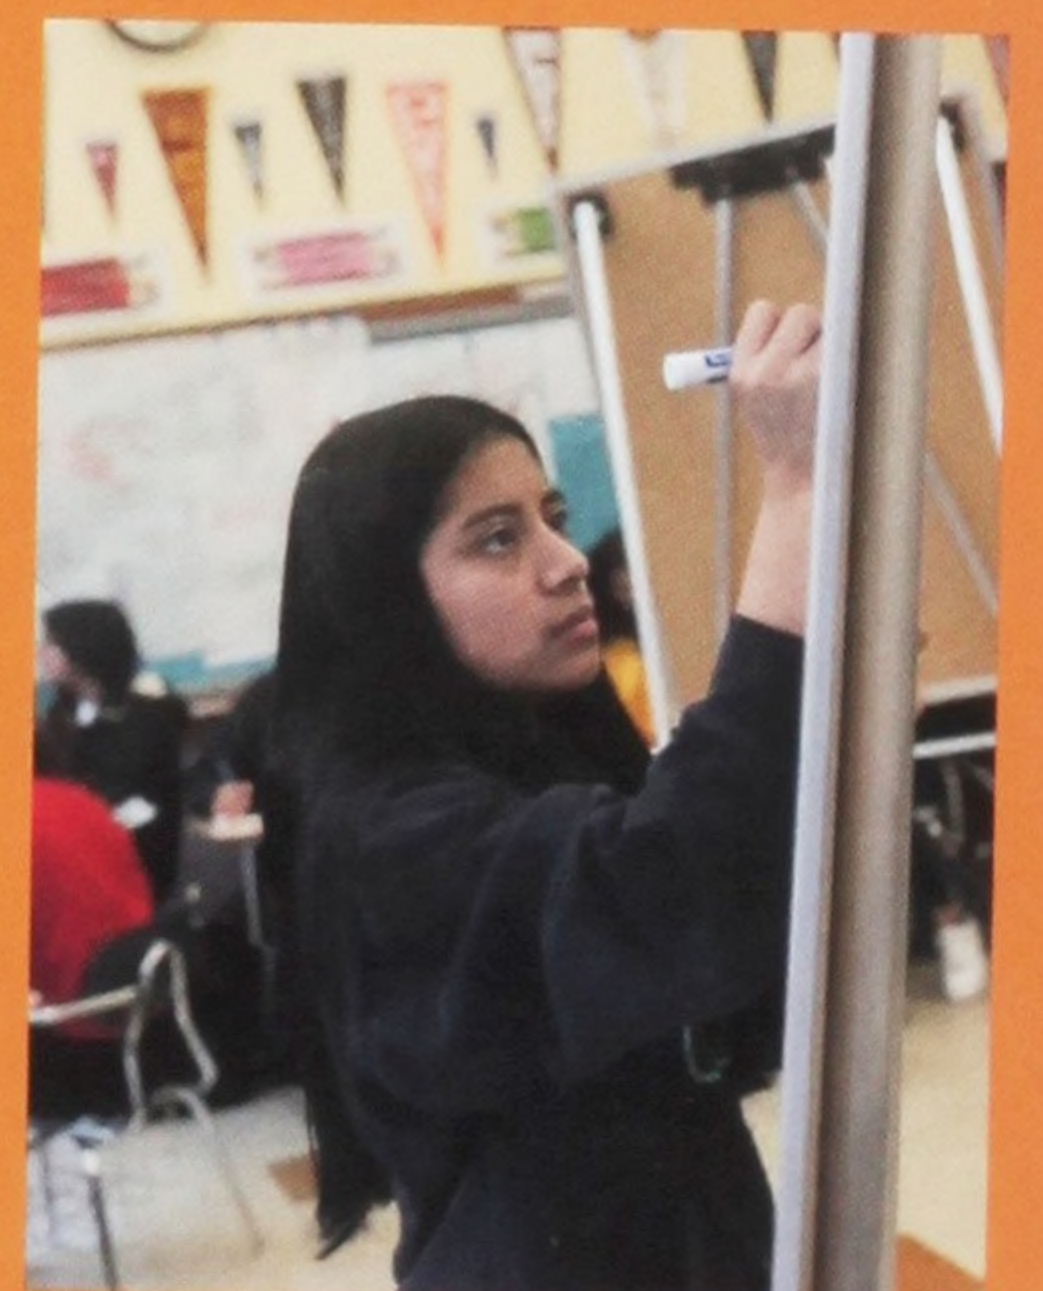

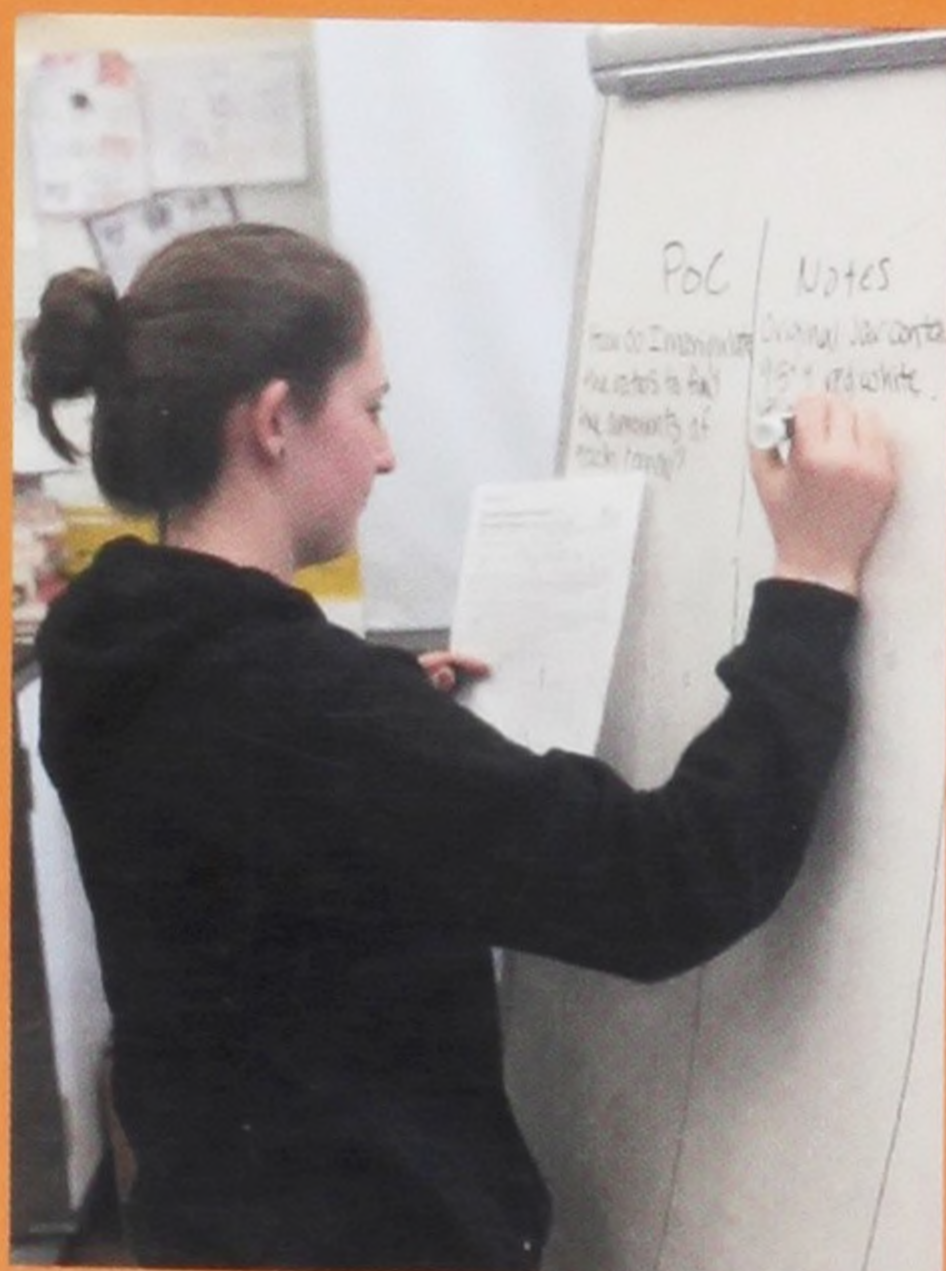

Illustration by Aberdeen Stuart 2020

AVID

The AVID curriculum, based on rigorous standards, was developed by middle and senior high school teachers in collaboration with college professors. It is driven by the WICOR method, which stands for writing, inquiry, collaboration, organization, and reading.

The AVID class with Ms. Kennybrew. Wow look at all those "avid" learners.

Associated Student Body

The Associated Student Body represents Benson Tech and several students are elected each year. This year all board members serve on their class board and on a committee. One goal of the body to be a voice for the students.

Asian Cultural Club

As with any cultural club, the Asian culture club brings together like minded students from Asian backgrounds to bond in unity and spirit.
Members pictured: Celena R., Huy D., and Marcy N.

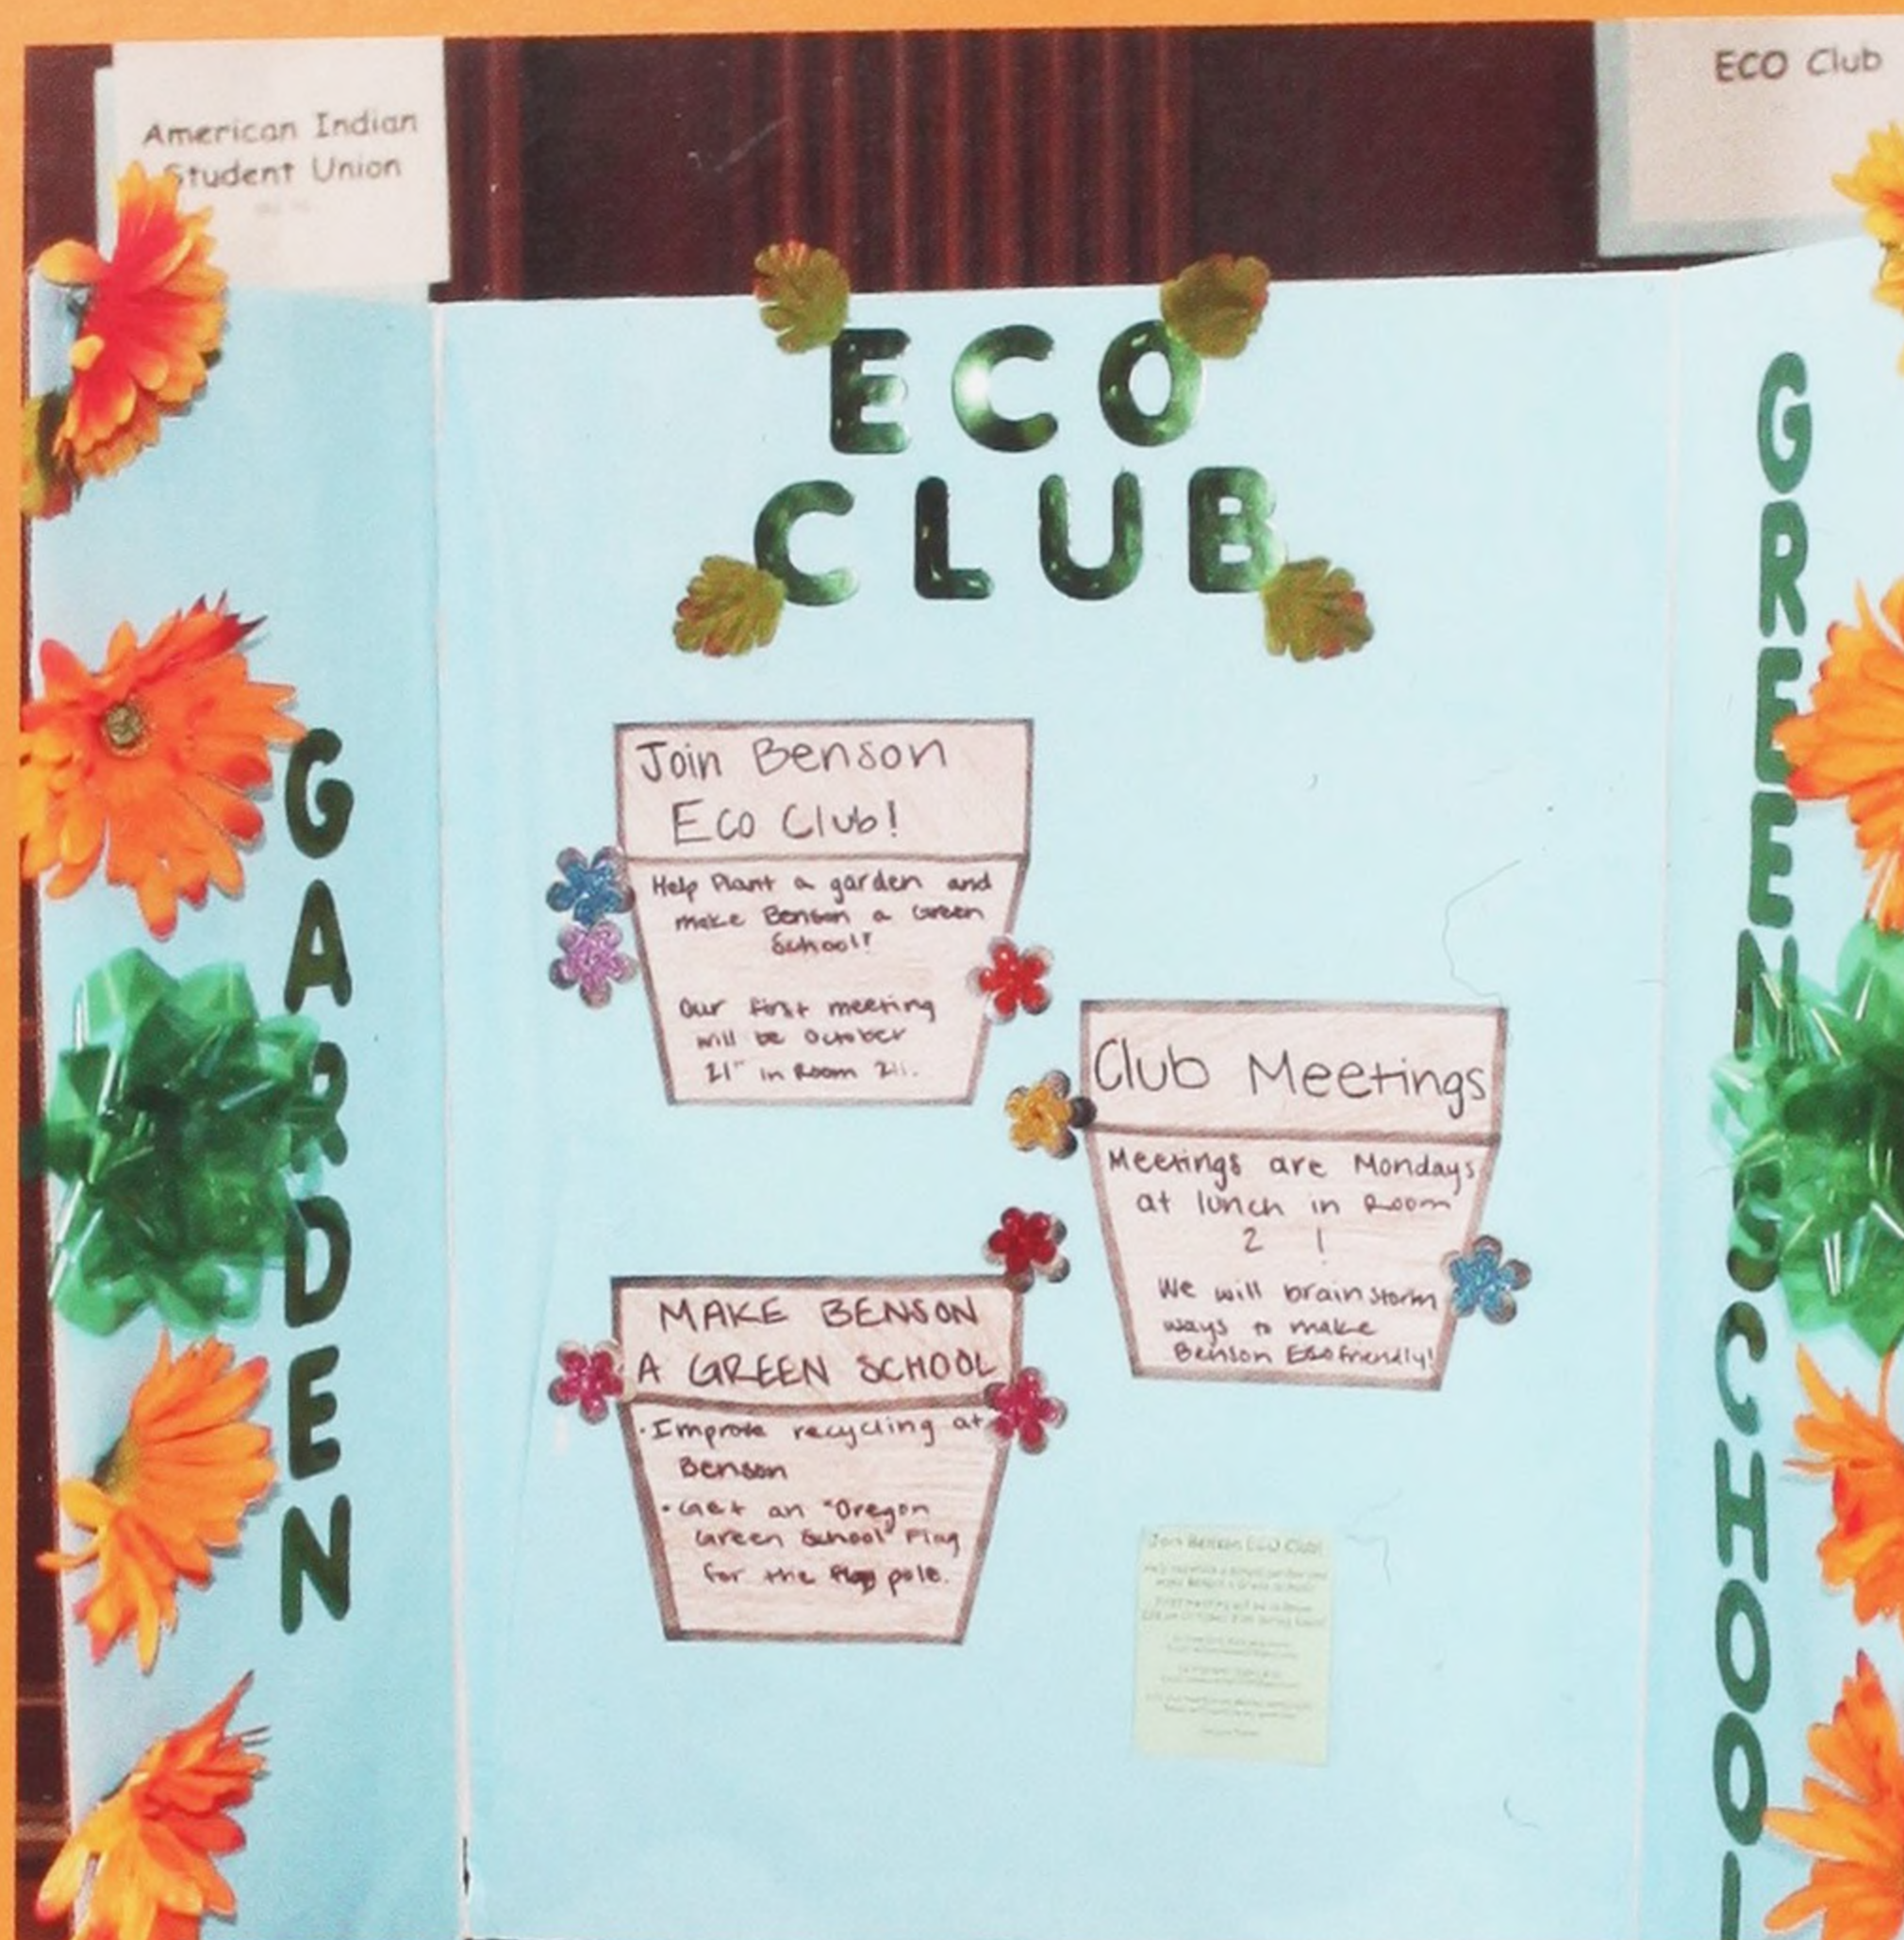

A pin from the 1960's, on the left, shows a union with white students in solidarity and on the right is the "power fist" embedded with terms we Americans all hold dear.

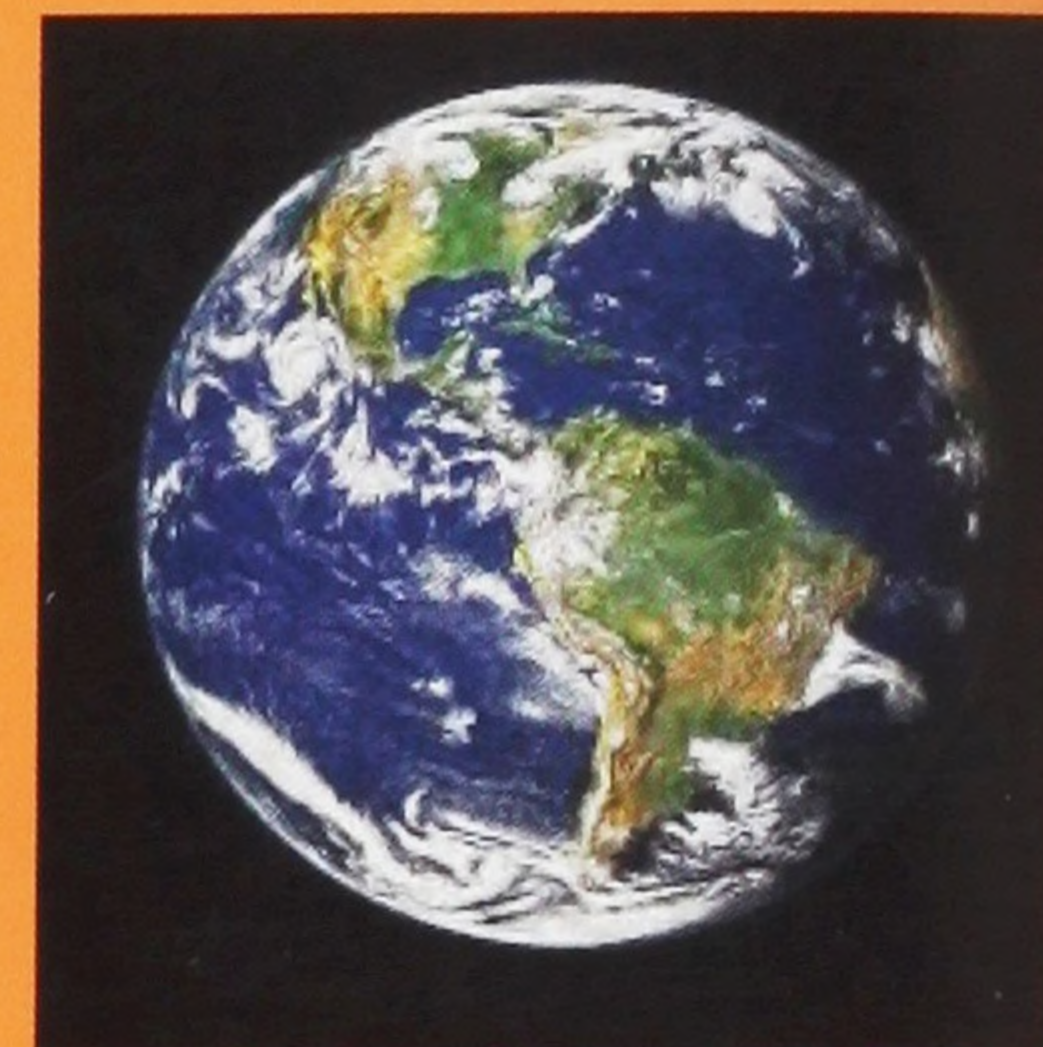

ОВОВ

Eco

Benson's Eco club is a student think tank and action group to help curv the effects of the environmental crisis that is facing our planet. The students meet and discuss strategie and ideas about what we can do now and in the future to make this a better place to live.

Key Club

The Key Club works on tons of social and environmental justice projects. They help the community at large and act as a support for many school activities.

Ocean Bowl

Benson's Ocean Bowl team looks forward to Nationals this year! Members pictured: Nemo C., Alex M., and Andres H.

Thirst Project

GSA

Movie Club

Movie club has "reel" fun watching and discussing films!
Members pictured: Austin W

The Gender and Sexuality Alliance is a union of students and staff who believe that all are equal here at Benson and the world. It is a gathering of friendship and positive social movements.

BSU Trip to Houston's Texas Southern University

This years trip to Houston with the Black Student Union included workshops, interviews and important information about the University.

Rose Princess Court 2020

For over 100 years the Rose Princess event has graced Portland. Back in the day, when Benson was all boys, they had to vote for the escort for the Rose Princess. Now of course as a Multi-gendered school we hold a vote after the young women do a speech and present themselves to the student body.

Rose Princess 2020

The crowned princess stands with the other young ladies.

**Congratulations
Roserina
Chipen choosen for 2020!**

Roserina with fellow techsters Lysie, Joanne and May on the day of the crowning ceremony. Youl rock girls!

Benson Sports Section

Unfortunately due to the Covid 19 pandemic this section could not be completed. On March 12th, 2020 the PPS district office ordered all schools closed and all sports and activities closed to the public and participants. The virus, part of a family of "Corona" viruses, named after its crown of protein spikes on its surface, caused much havoc this year. The Spring sports never happened and as a result we could not get more information and pictures.

SPORTS NEWS FLASH!

By Scott Archer

Winter Sports Teams Reach the Post Season:

Wrestling: Congrats to Koichiro Nakaya, who represented Benson Tech at the 2019 OSAA State Wrestling Championships in the 132lb-class. Koichiro finished out on the consolation bracket represented.

Benson well. Congrats, Koichiro and Coach:Paul Marquez.

Dance: Dance competed well at the 2019 PIL Dance Competition on Saturday as the team gears-up for state dance competition in March.

Boys' Basketball: The Benson Boys' Basketball team beat Lincoln on Friday securing a fourth-place PIL finish with an overall record of 13-11. Benson boys will now travel to Jesuit for the opening-round of the OSAA Boys' Basketball State Playoffs. Tip is set for Tuesday, February 26, 7PM at Jesuit.

Cobee Crawford earned First-Team All-PIL Honors.

Jaylen Russell was named to the Second-Team All-PIL Team.

The Benson Girls' Basketball team beat Lincoln on Friday to finish PIL

play as the PIL league champion with an overall league record of 16-0.

Benson Girls' finished the regular season 21-4 overall.

Benson girls will now host Lakeridge High School, Wednesday, 6:30PM at Benson in the opening round of the OSAA State Basketball Playoffs.

Cici Ellington was named PIL Play-of-The-Year for the 2018-19

season. Joining CiCi on the First Team All-League ballot was Tayler Lyday. Makenzy Porter

was named to the All-League Second Team. Congrats!

Volleyball

Varsity

Junior Varsity

Junior Varsity II

Theses ladies worked really hard along with their coaches, throughout all the season. Making every game memorable!

There's three teams in total, each and every single team works amazingly together, and give it their all

Let's goooooooooo TECHSTERS!

A few shots taken during an exciting game!

Women's Soccer

Ready as always!

The bond and energy these ladies have is unique! They stay together and support one another.

Alex Rangel warming up with Samantha Lobdell!

Antoinette Olivas, head coach of the women's soccer team. She has been a coach for Benson for a few years now. Seeing ladies grow each year. She has an amazing bond with her teams and makes sure they get all the training needed to succeed as a team!

Senior, Hazel Curley O'Marlley

Senior, Bria Dixon

Men's Soccer

These techmen have worked hard along with their head coach, Eduardo Perez and assistant coaches. They help each other and they work together as a team to succeed. Go Techmen!

Senior, Kenny Bojorquez Perera

Senior, Bryan Torres Hernandez

Cross Country

Greyson Joseph

John Asencio-Giron

The support is incredible! They run and cheer together!

Maxwell Schroeder

Sophia Chin

A few shots of some freshman and sophomores! Lets go Techmen!

All the hard work put in, is worth it after each successful meet!

Women's Basketball

Last year the Benson Varsity team took State. They are hoping to continue on their winning streak this year. Best of luck and hope we can finish up this year with the pandemic and all that crazyness.

Senior, Aujae Yoakum

Senior, Aubrianna Dixon

Men's Basketball

Time for team huddle. Go get em' boys!

Will it make it in? The anticipation is real!

Desmond Acuay

Jabreel Emerson

Huxley Martin

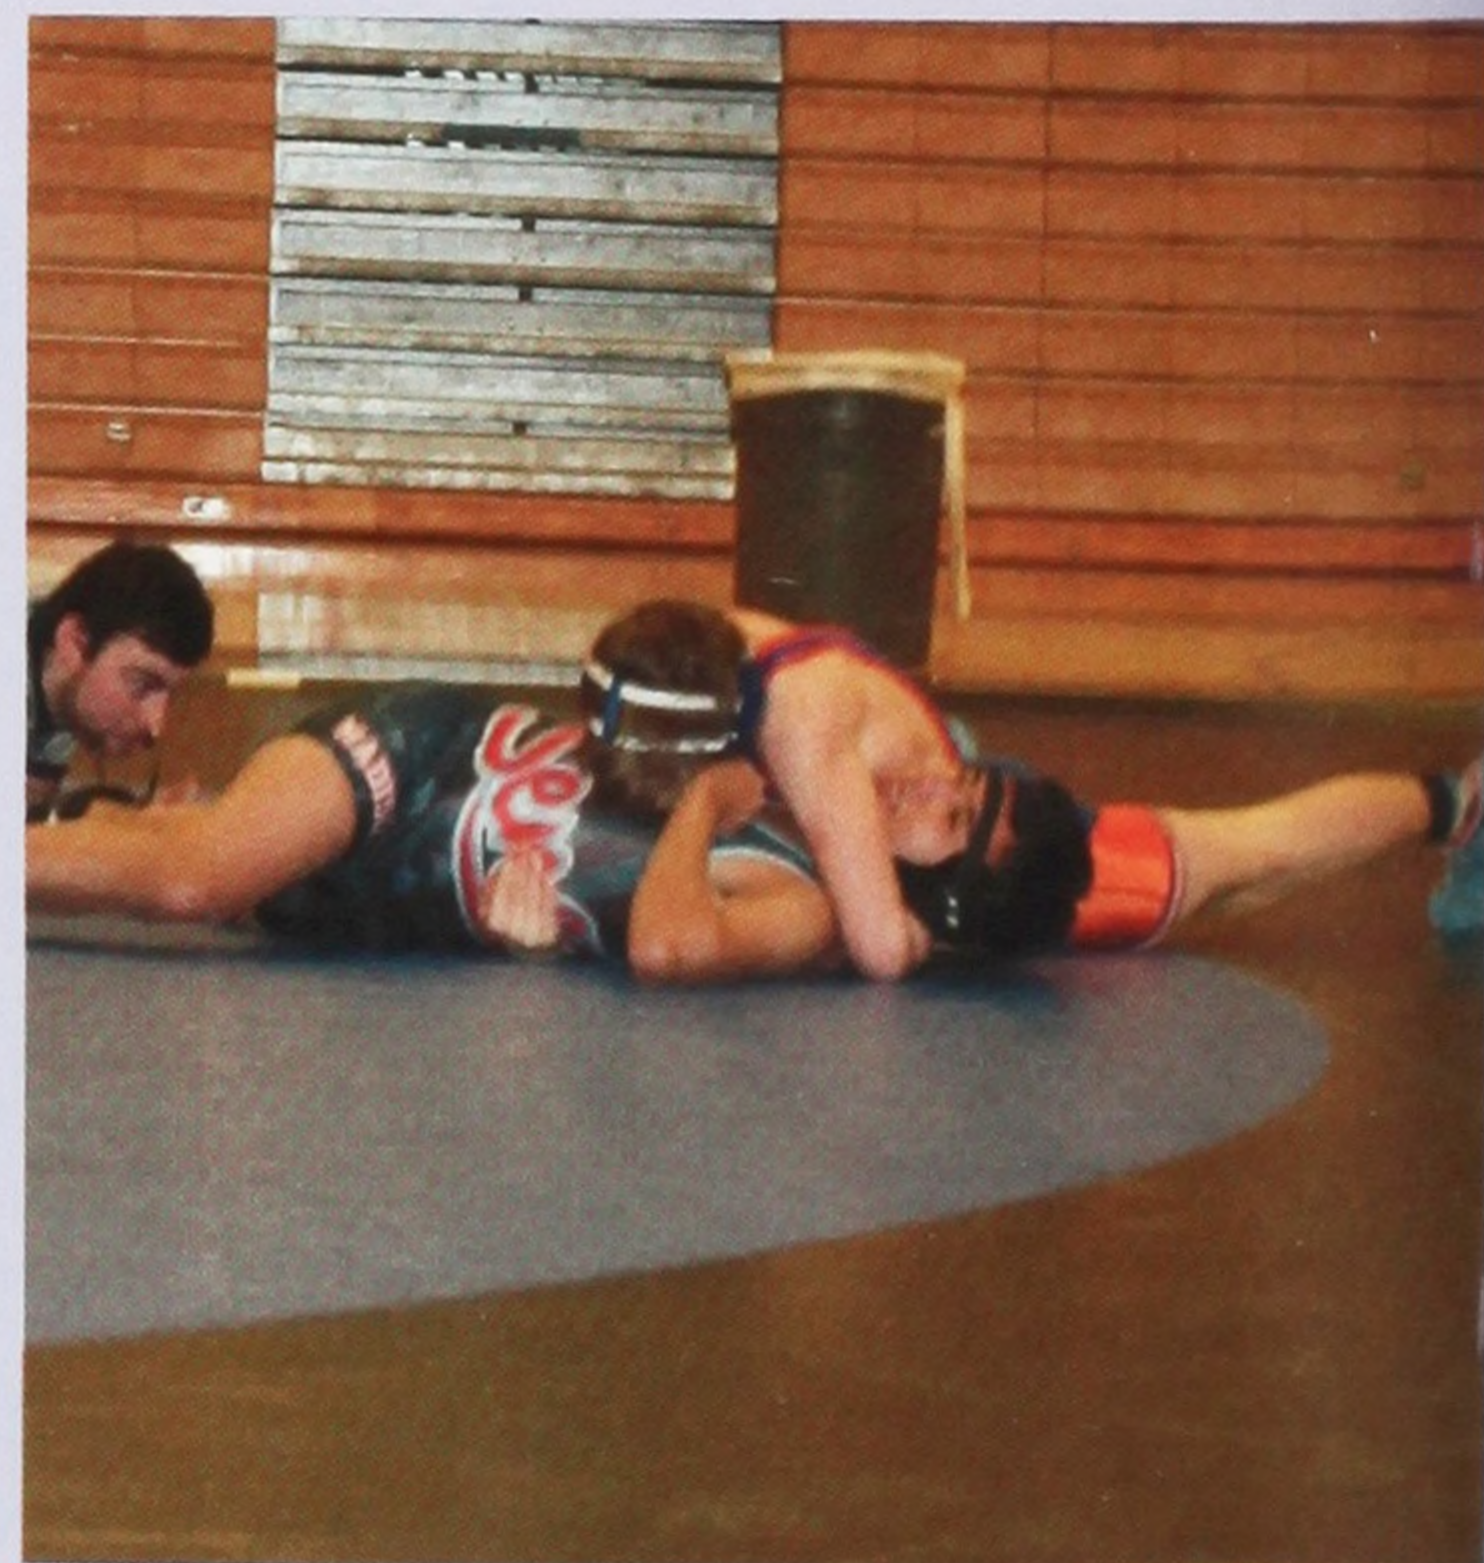

Wrestling

Wrestling represents one of the oldest forms of combat. The origins of wrestling go back 15,000 years through cave drawings. Babylonian and Egyptian reliefs show wrestlers using most of the holds known in the present-day sport. Literary references to it occur as early as the Old Testament and the ancient Indian Vedas. In the Book of Genesis, the Patriarch Jacob is said to have wrestled with God or an angel. The Iliad, in which Homer recounts the Trojan War of the 13th or 12th century BC, also contains mentions of wrestling. Indian epics Ramayana and Mahabharata contain references to martial arts including wrestling. In ancient Greece wrestling occupied a prominent place in legend and literature; wrestling competition, brutal in many aspects, served as the focal sport of the ancient Olympic Games. The ancient Romans borrowed heavily from Greek wrestling, but eliminated much of its brutality. -Wikipedia-

Kamilah Dillard
Faith Mills
Eamon Folkerth
Jacob Dennis
Elliot Reid
Gus Falls

Track and Field

The Track and Field crowd, worked hard everyday after school. They dedicated alot of their time to make sure they performed well the day of their meets.

These shots were taken on a nice sunny day after school. They work hard but they also they make sure they have alot of fun!

Track and Field team: Piper Acton, Sam Anderson, Ian Baldwin, Saul Blackbird, Reba Booze, Oria Boyd, Simeon Braun, El Carreto, Vince Castaldo, Tania Chavez, Sophia Chin, Paige Cook, Cobee, Crawford, Cadence Crumble, hazel Curley O'Malley, Frances Curley O'Malley, Aiden Curtis, Sam Dehen, Jacob Dennis, Kamiliyah Dillard, Jason DiStefano, Charlie Dodds, Sam Farber, John Fernandez, Gio Ferroggiaro, Taline Garris, Desmond Gerber, Loch Gholson, Reign Gholson, Jesse Grant, Collin Harrington, Willie Harris, Tessa Hefty, Andrew Hoffman, Keziah Hollands, Kyeese Hollands, Noah Hollen, Zanyah Holloway, Lupita Inez, Griffin Jackson, Zion Jackson, Vincente Keaney, Deasia Kennedy, James King, Priscilla Kotey, Joesphine Krohn, Aysha Langer, Tupeh Laulile, Kayla Le, Corbin Leaver, Micah Logan, Jeris Malynowski, Jenn Martanez-Vidals, Mar'lsha Martinez, Hannah-Le'yon McCoy, Cole Mc Vay, Charles Mease, Jake Melville, Jackelyn Mercado, Liam Meredith, Catherine Miller, Pat Minko, Gabriel Moreland, Carson Ogren, Madison Page, Sam Peters, Theerat Punyasit, Lindsay Raban, Josh Reddy, Nora Rishel, Archie Rohden, Devin Rounseville, Roselyne Sanchez, Max Schoeder, Phoenix Sachuler- Hubert, Simon Shulevitz, Kevin Simons, Ed Siquina, Aidan Smirl, Gavin Spliethof, Shea Stephens, Nyah Swanson, Kai Swanson, JaShaun Tinnon, Kinji Tlehhema, Ayantu Tollera, Briana Turner, Sirrena Tuyub, Anaiyah Two Two, Omar Valencia, Trinity Warren, Caleb Washington, Meseret Watiyo, Dalton Weidman, Micah Williams, Aaliyah Wilson, Ramona Yeargers.

Benson Boys Tennis

Unfortunately, tennis was another spring sport that was cancelled along with most of the others due to the pandemic.

Both women's and men's tennis teams enjoyed the first few days of practice but that was pretty much it!

No pictures were able to be taken, but everyone enjoyed the first few days of the season to the fullest. Sorry guys, maybe next year when this whole pandemic "thing" blows over.

Benson Girls Tennis

The women's tennis team had the amazing opportunity to make a promotion as a for a fundraiser. This took place towards the beginning of the spring season. What a fun, and unique way to start of the season.

Let's go BENSON!!

Cheer Team

Jada and crew spend many an hours practicing and perfecting the moves. Now seen as a sport, Cheerleading can be very demanding. From boosting school spirit to performing amazing acrobatic feats, these young women give it their best and keep the rest of us entertained.

"The crew": Jada, Clare, Trinity, Anayan, Kiara, Alona, Hannah, McKenzie, Zanyan, Priscilla, Jacqui, Jaliyah, Jay, Morelyn, and Bri.

During one of Benson's many assemblies, these techsters are always energizing the crowd. Many hours and hard work go into keeping things moving at an assembly.

Benson Dance Team

The dance team spends many hours working hard to get ready to perform in front of many! As for example they have performed amazingly during Benson's assemblies.

Team Members:
Ana Silva Appelt
Hunter Chinn-Raicht
El Carreto
Elena Peterson
Pia Beer
Marta Bejar
Sirrena Tuyub
Tory Norton
Abigail Hernandez
Cheyenne Thao

SPORTS NEWS FLASHBACK!

From 1968

1968 Olympics Black Power salute
From Wikipedia, the free encyclopedia

Gold medalist Tommie Smith (center) and bronze medalist John Carlos (right) showing the raised fist on the podium after the 200 m race at the 1968 Summer Olympics; both wear Olympic Project for Human Rights badges. Peter Norman (silver medalist, left) from Australia also wears an OPHR badge in solidarity with Smith and Carlos.

During their medal ceremony in the Olympic Stadium in Mexico City on October 16, 1968, two African-American athletes Tommie Smith and John Carlos each raised a black-gloved fist during the playing of the US national anthem, "The Star-Spangled Banner". While on the podium, Smith and Carlos, who had won gold and bronze medals respectively in the 200-meter running event of the 1968 Summer Olympics, turned to face the US flag and then kept their hands raised until the anthem had finished. In addition, Smith, Carlos, and Australian silver medalist Peter Norman all wore human-rights badges on their jackets.

In his autobiography, *Silent Gesture*, Smith stated that the gesture was not a "Black Power" salute but rather a "human rights" salute. The demonstration is regarded as one of the most overtly political statements in the history of the modern Olympics.[1]

Softball

Smile! Enjoying the first few days of practice, under this nice weather!

Zanyah Holloway

Victoria Hawes

Lily Urquhart

Baseball

Always ready!

A quick demonstration of a throw! Great!

Practice, practice, practice!

BHS Student Body

This just in...nine out of ten Benson students would recommend this school to a younger sibling. As a tactile, project based learning school, Benson Polytech appeals to the more "Hands On" types of students. According to Educational theorist Mr. Howard Gardner there are seven distinct learning methods that people use to grow intellectually. Benson offers us a heavy dose of tactile and visual learning, in which our student body thrives.

Freshmen

Freshmen smiling through Ms. Kuhlman's geometry class.

Kimmy Trinh and Karla Chacaj are making "Electronics Art".

Mr. Smith gives "the stare" to his Physics class. They know why...

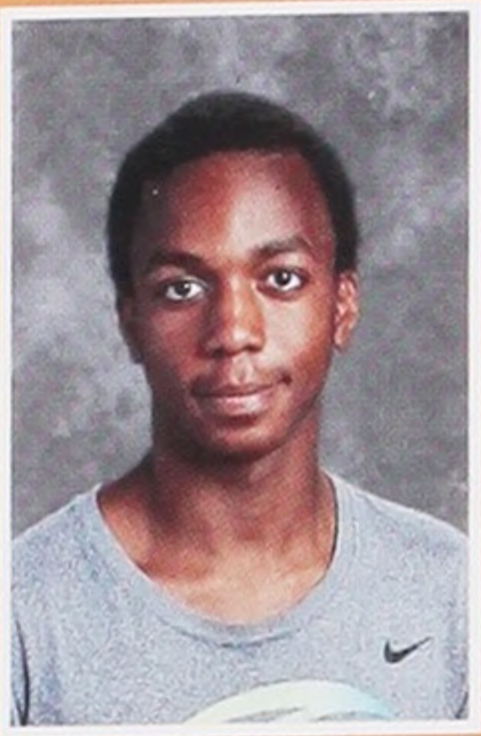

Imagine, being on your phone in the middle of geometry class. Some students do use them for "academic" purposes, sometimes...ha ha...

Mr. Anderson helps the Freshmen class with the Auto rotations. His caring and attentive ways make a big difference in their learning.

Congrats Seniors! What a strange year this has been.
You guys have persevered through a major
pandemic. You are now ready for a life of challenges.
Best of luck we will miss you all.

Quotes

"its too bad architecture was cut, that was my major.
Good thing i was able to do construction"

Be a Pineapple: Stand tall, wear a crown and be sweet on
the inside

It's been "one of those days" for like, 4 years now.

"It's not cold outside"

Guatemalan Gunna

"If you don't like where you are in life, move you ain't a
tree baby." - BhadBhabie

I guess I'm not having dinner.

I fail to see the problem with demonic possession.

:v

All of my dreams are on the other side of my fears.

FOOLS; Troye Sivan. 11-14 seconds.

Birth is a curse and existence is a prison.

I can't regret the things I don't try

"Heroes are made by the paths they choose, not the
powers they were graced with."

I keep it 99, cause I be lyin' sometimes.

"Keep your expectations low, and you will never be
disappointed."

We're all smart. Distinguish yourself by being kind.

"Happy are those who dream dreams and are ready to pay
the price to make them come true. PERIOD"

I lost my keys

" Hard work beats talent when talent fails to work hard"

i don't know where i'm going from here but i promise it
won't be boring

Nostalgia: 100%

B days sucked

Here for a good time, not a long time

People say nothing is impossible. But I do nothing every
day.

"After 4 years, I still understand nothing" - Me

If this is the good old days, how come we spend so much
of it doing what we don't want to do

fruit

the sadder the person, the looser the bowels

"What? No. We can't stop here, this is bat country!"

God knows the way

Stay Gold

"If you've got a problem, take it out on a drum."

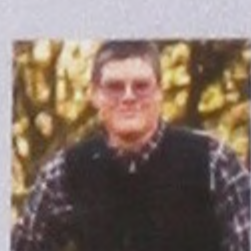

I wonder U

Of course I know how to dress, I didn't spend all of that
time in the closet for nothing.

The fear of the Lord is the beginning of knowledge but
fools despise wisdom and instruction

Knowing there is a problem is only half the battle. The
other half is proposing a solution.

It's Kieara not Kieara

Quotes

Prefiero vivir un año como rey en vez de 100 como guey

If I'm not the GOAT idk who is

Imagine not graduating in 2020

"You miss 100% of the shots you don't take. - Wayne Gretzky" - Michael Scott

If it hurts, repeat it.

The office, season 7, episode 19, minute 14:45

"Injustice anywhere is a threat to justice everywhere."
-Martin Luther King Jr.

"In the end, we reached the mirage and it became our reality." -Sea (BTS)

Entre ser o no ser..yo soy
-Teresa

Hero's come and go, but legends live forever....

"I'll tell you how to know: you make a decision. That's how the future works—it's always your responsibility, even when you know what it'll be."

Gwen Stefani was right when she said this sh*t is bananas

"Do not waste your time upon this; it is sad trash."
-Frankenstein

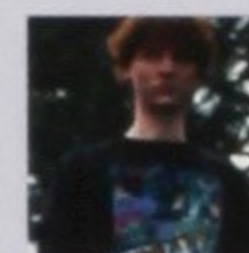

Jakob, I've got a plan, you've just gotta have some faith

"You can overcome anything, if and only if you love something enough." - Lionel Messi

Mmm unwashed fruit

"Now that thought was just as bright as a 20-watt light bulb" - GZA

wash your fruit

Class of 2020

Earth is just one big flying saucer I mean it's crazy.

"Release the Drone" -Charles Stiles, Mystery Diners

9/18 not a good day

"Release the drone." - Charles Stiles, Mystery Diners

"I used to be jealous of Harry Potter for being able to talk to snakes but it turns out I've been doing it for years."

If you didn't take the time to get to know me, your opinion of me isn't valid nor important.

High school was easy, It's like riding a bike. Except the bike was on fire & the ground was on fire & everything was on fire because it was hell.

I may be from the class of 2020 but I don't got 2020 vision

When my time comes I want to be buried face down. That way whoever doesn't like me can kiss my... -Red Forman

Dudes be like subway sucks

"You cannot escape the responsibility of tomorrow by evading it today."-Abraham Lincoln

Corrimos sin caminar.

no 4.0, no dinner

We were all once stuck at the bottom with nothing but a dream to rise.

Think my closet bipolar it just keep throwing fits

"Chase your stars, fool. Life is short."
-Keshi

**This page is dedicated
to all the health care
workers, the delivery
people, the helpers,
the bus drivers, the
gas attendants, the
administrators, the
custodial staff and all
who have taken a
chance and risked
their lives in order for
us to have some safety
and access to things
we take for granted
everyday. This too
shall pass. What a
crazy year!**

Thank you!
