### THE AVIATION SHOP

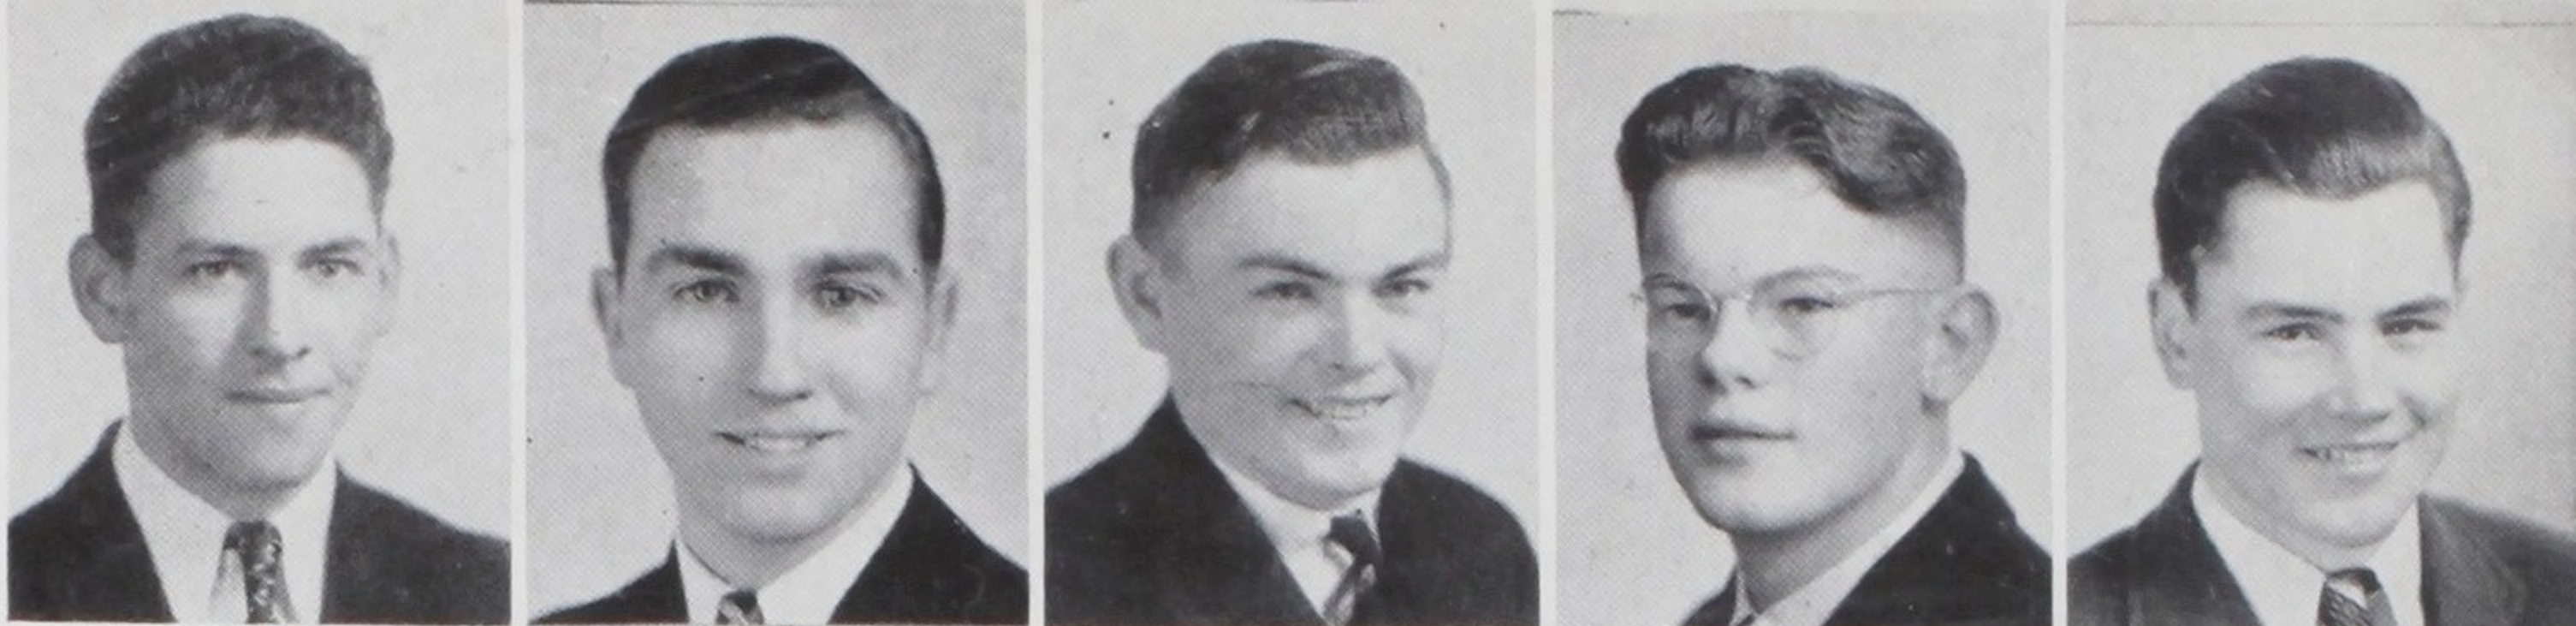

Conditions being what they are in the world today, the Aviation Course is undoubtedly the most popular course in Benson at the present time. The Aviation Shop in Benson teaches ground work only, and makes no effort to teach flying, although the theory of flight and aerodynamics are given. Actual construction of full-sized airplanes is part of the course, as is the study of navigation and radio.

Instructors are H. S. Buckman, foreman, G. A. Urquhart, A. H. Tanner, and Wm. B. Bidwell.

### THE SHEET METAL SHOP

The Sheet Metal Course offers the student nearly every variety of work which will confront him in any trade plant, only on a smaller scale. Soldering, of course, is taught first of all, and then the student learns blueprint reading, measuring, and cutting of materials. Oxy-acetylene welding is taught, as well as the use of a wide variety of tools and machinery which are special to sheet metal workers. The problem of heating and ventilating is also studied during the last year.

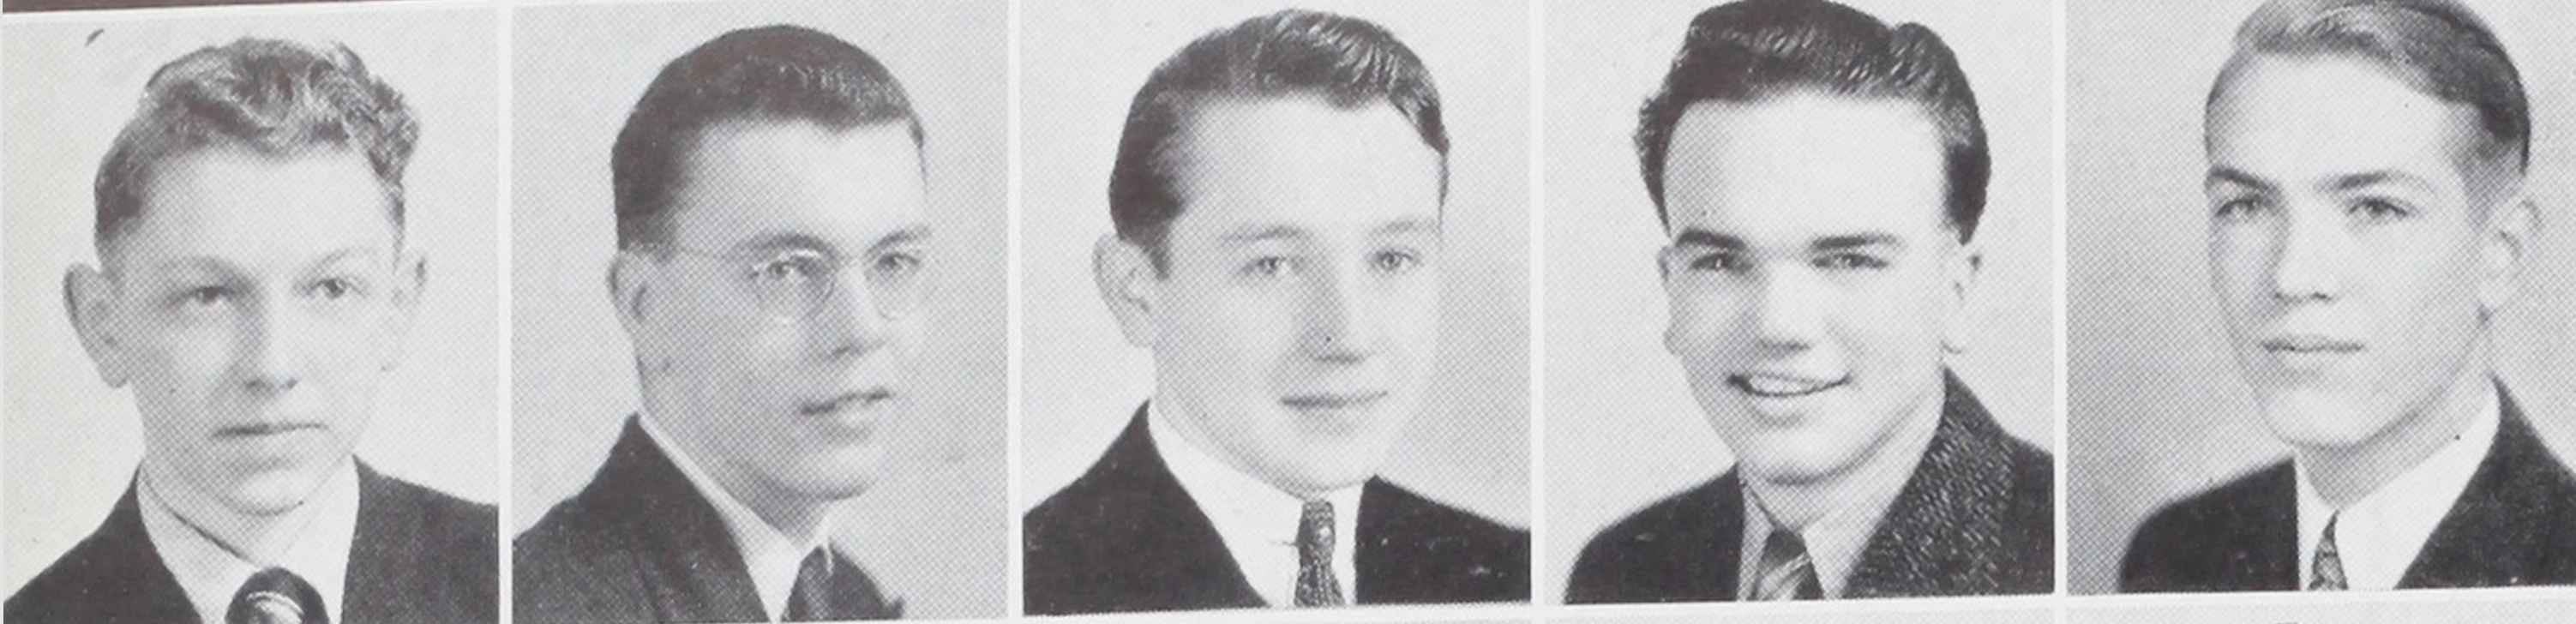

Instructors are Gilbert Drynan, foreman, and Oscar Garrison.

### THE ELECTRIC SHOP

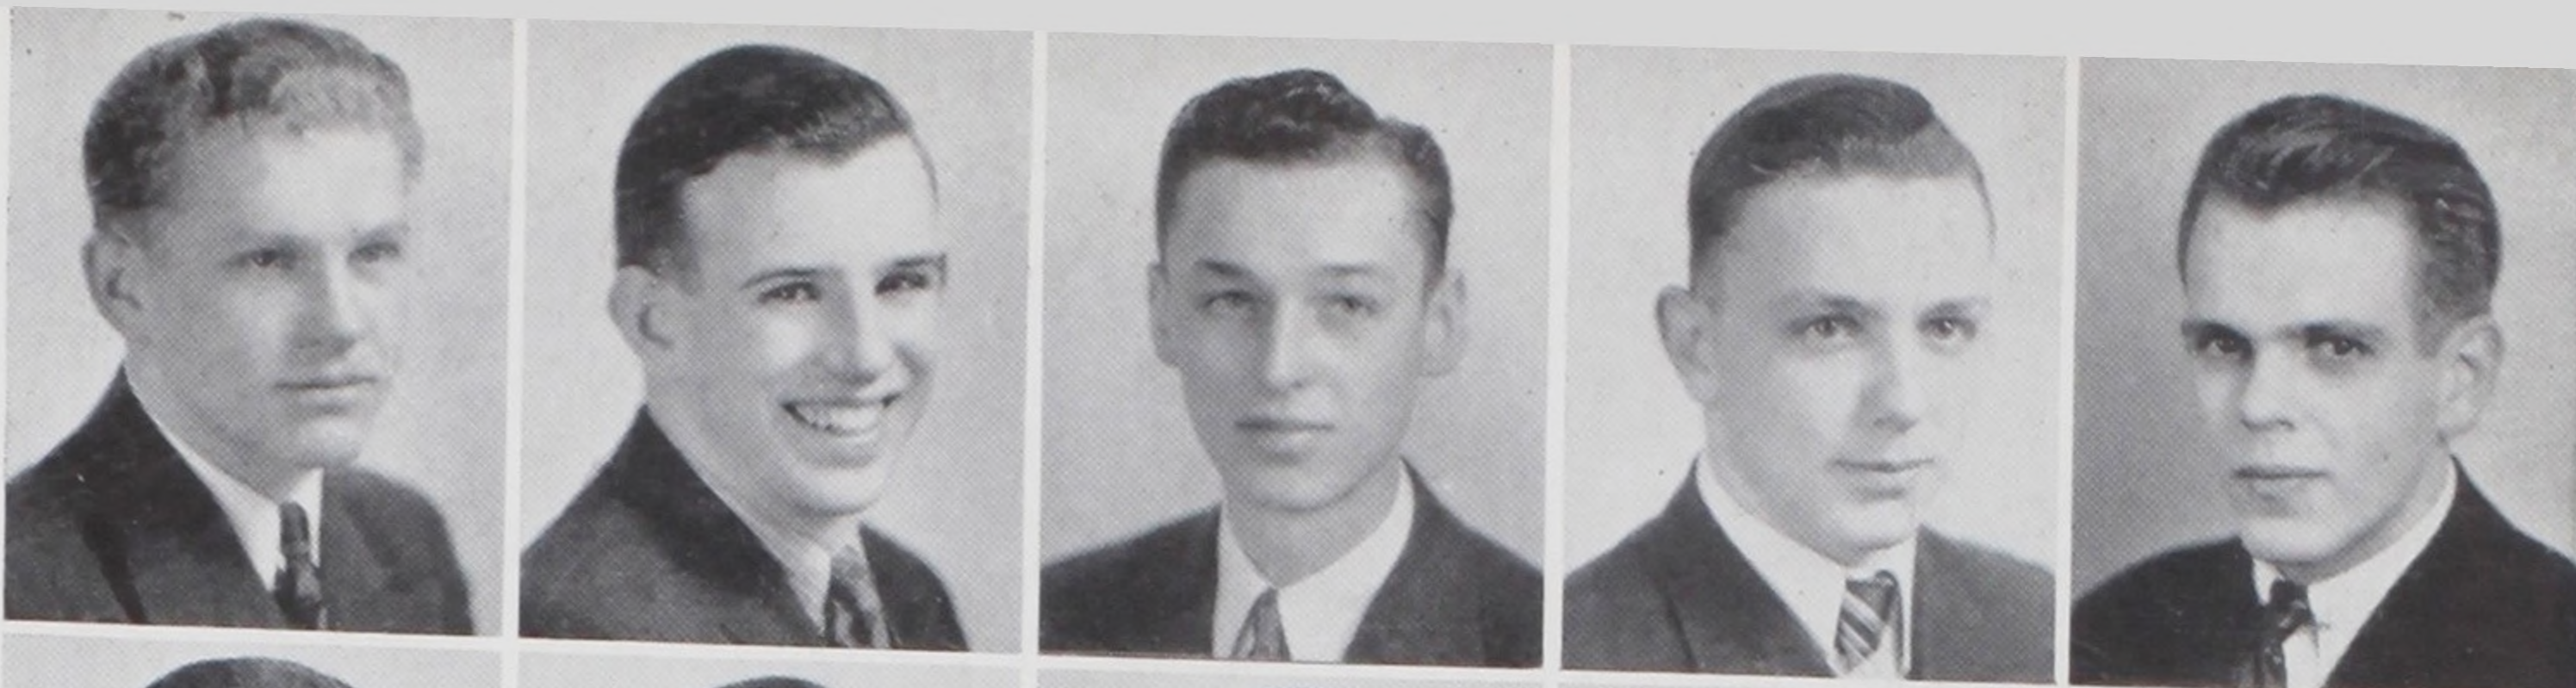

The Electric Shop offers the prospective graduate a wide variety of work including armature winding, house wiring, telephone wiring, radio repair, electric machine shop practice, etc. Actual work is performed in all of these types of operations, so the boy receives a solid foundation for his apprenticeship in the matter of splicing and soldering wire, and the use of conduit and flexible cable.

Instructors in this shop are E. A. Ruhl, foreman, C. J. Allison, F. E. Miller, J. Dunkin, A. W. Mee, and Glenn AnDyke.

### THE PRINT SHOP

The Print Shop offers three different courses to the student, a three-year Presswork Course, a three-year Composition Course and a four-year Technical Course. The shop is equipped with a wide variety of machinery, all of it standard in the trade. Students of the shop publish and print the weekly paper, The Tech Pep, as well as a wide variety of printed forms used throughout the school system.

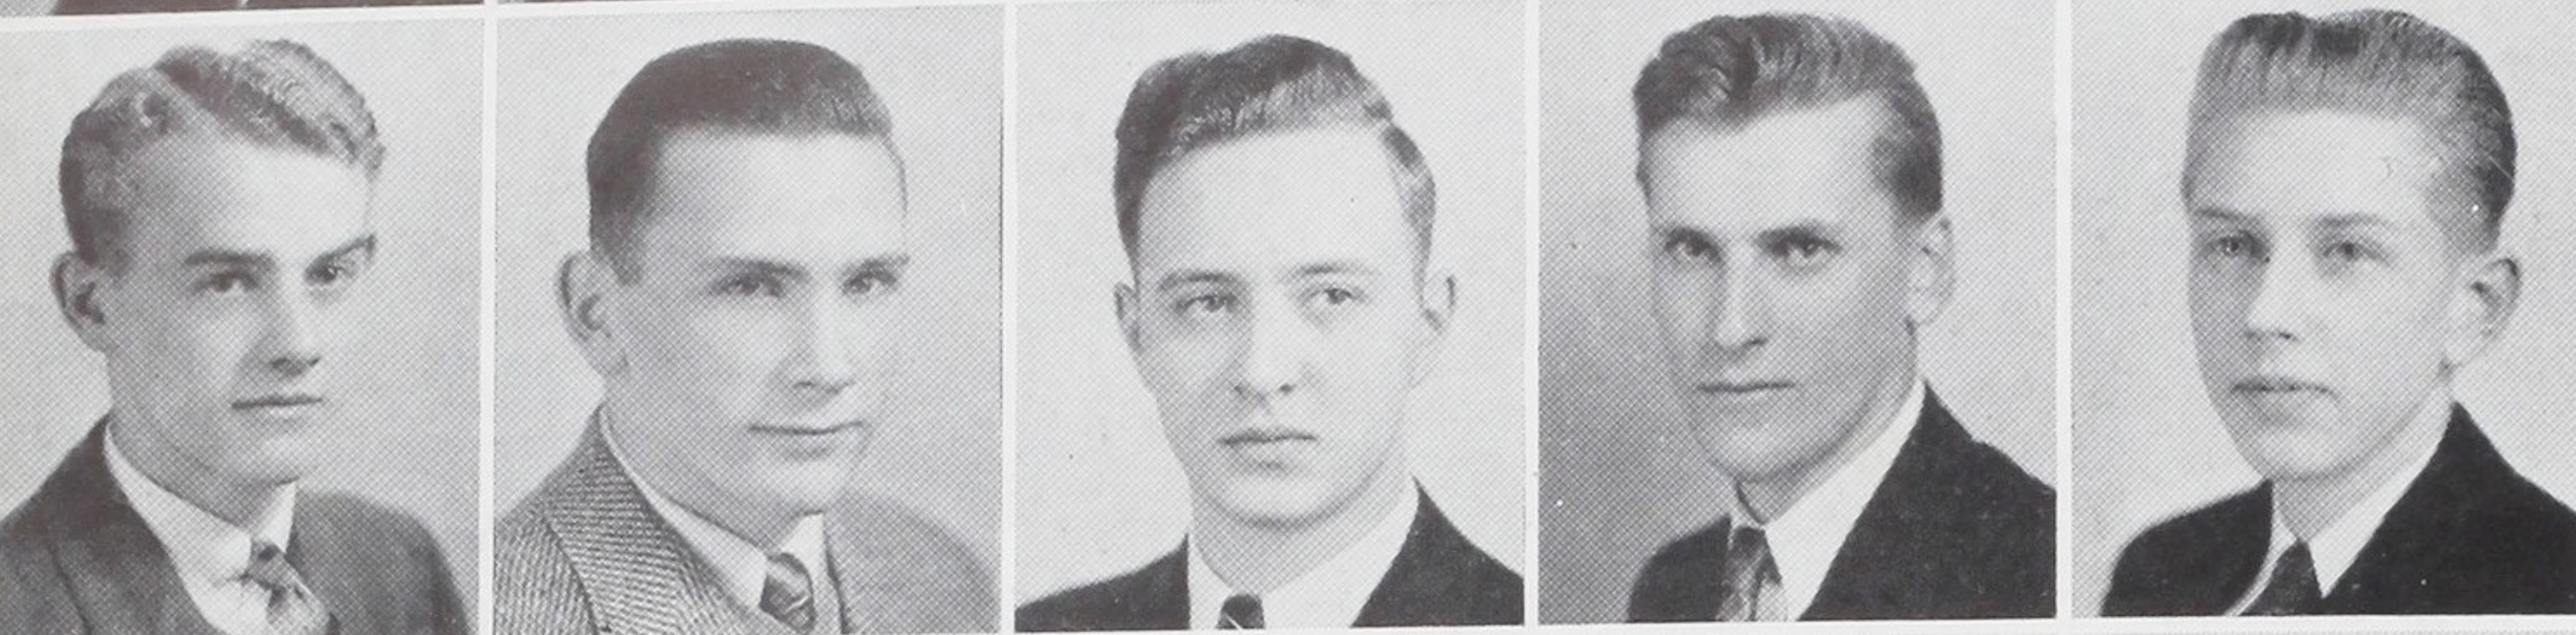

Instructors in the shop are Geo. A. Willis, foreman, G. C. Henriksen, J. H. Miller, and Jos. Hovde.

### THE FORGE SHOP

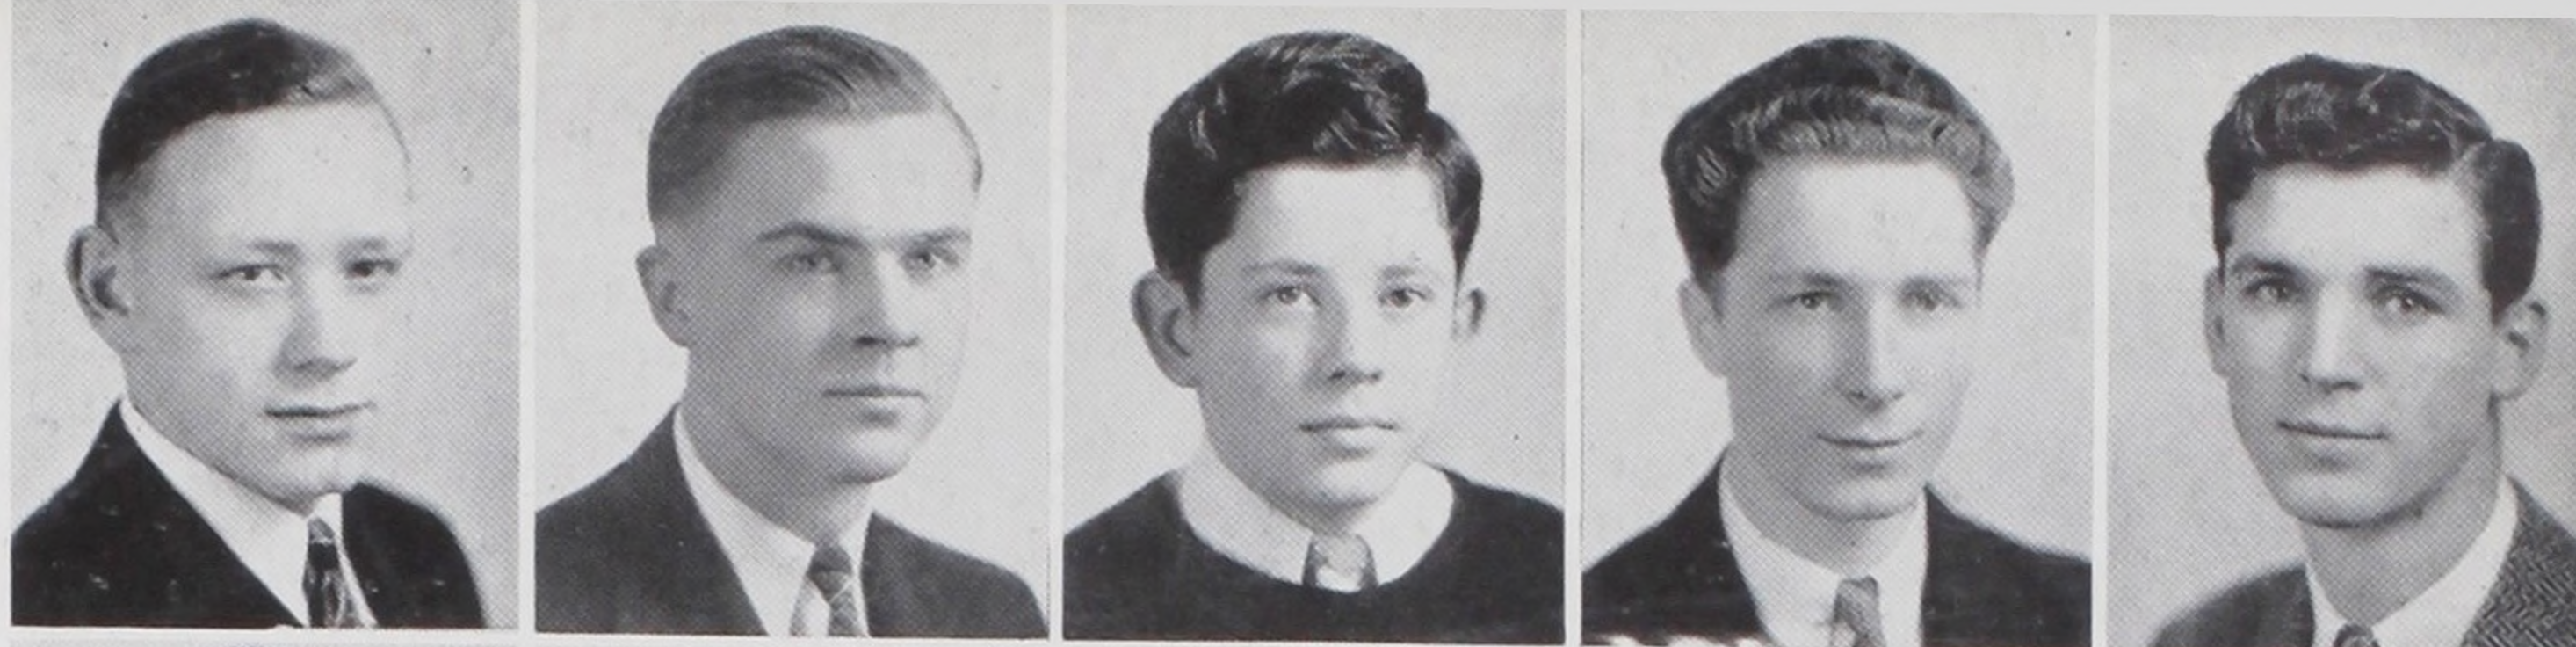

The Forging Shop in Benson is a very complete plant and boys taking this course receive a wide variety of practical work in every type of iron and steel forging. Electric arc welding is taught, as well as blacksmith welding. Fancy ornamental iron work is given to those who show aptitude for this art metal work, and many fine examples have been produced by the students. Composition of various metals and their uses are also taught the students.

Instructors are Dwight Holden, foreman, and Michael Nielsen.

### THE AUTOMOTIVE SHOP

The Automotive Shop provides the student with all projects performed in most garages and filling stations, from changing and repairing tires, electrical theory and practice on automobiles, and all types of repair work on all parts of the modern motor car. The auto student also takes minor courses in sheet metal work and forging. Both three-year and four-year Technical courses are given in this shop.

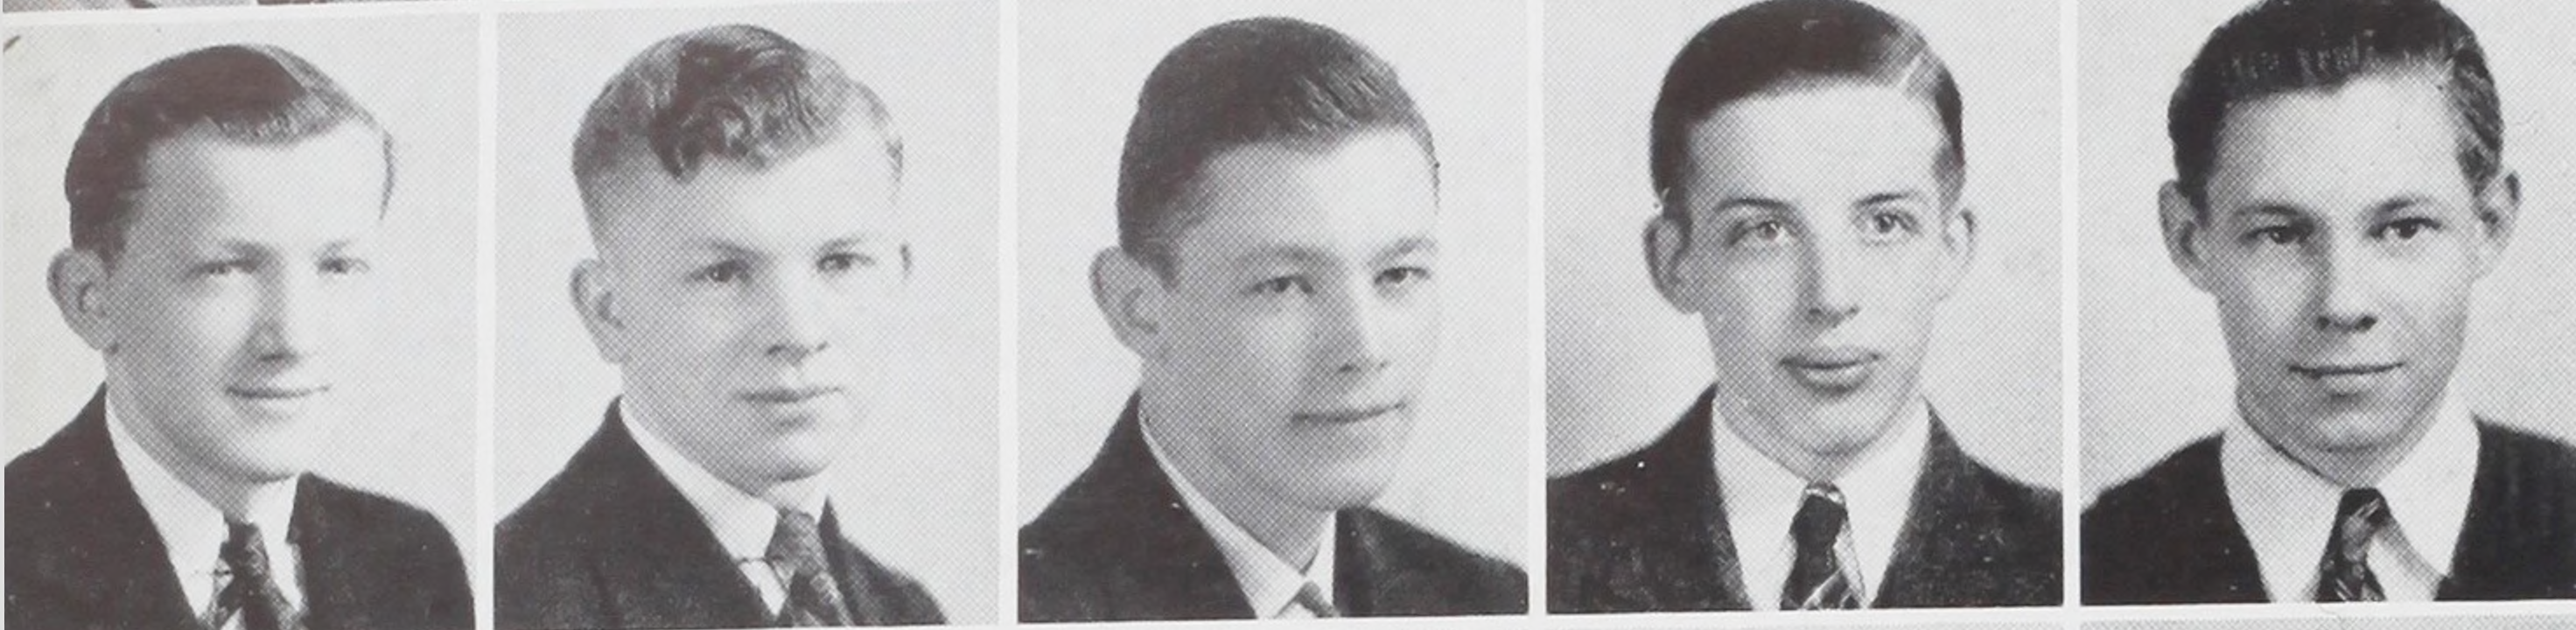

Instructors in this department are H. S. Buckman, foreman, Stuart Boline, B. E. Badley, Theodore Raisig, and C. C. Henderson.

### THE WOODWORKING SHOP

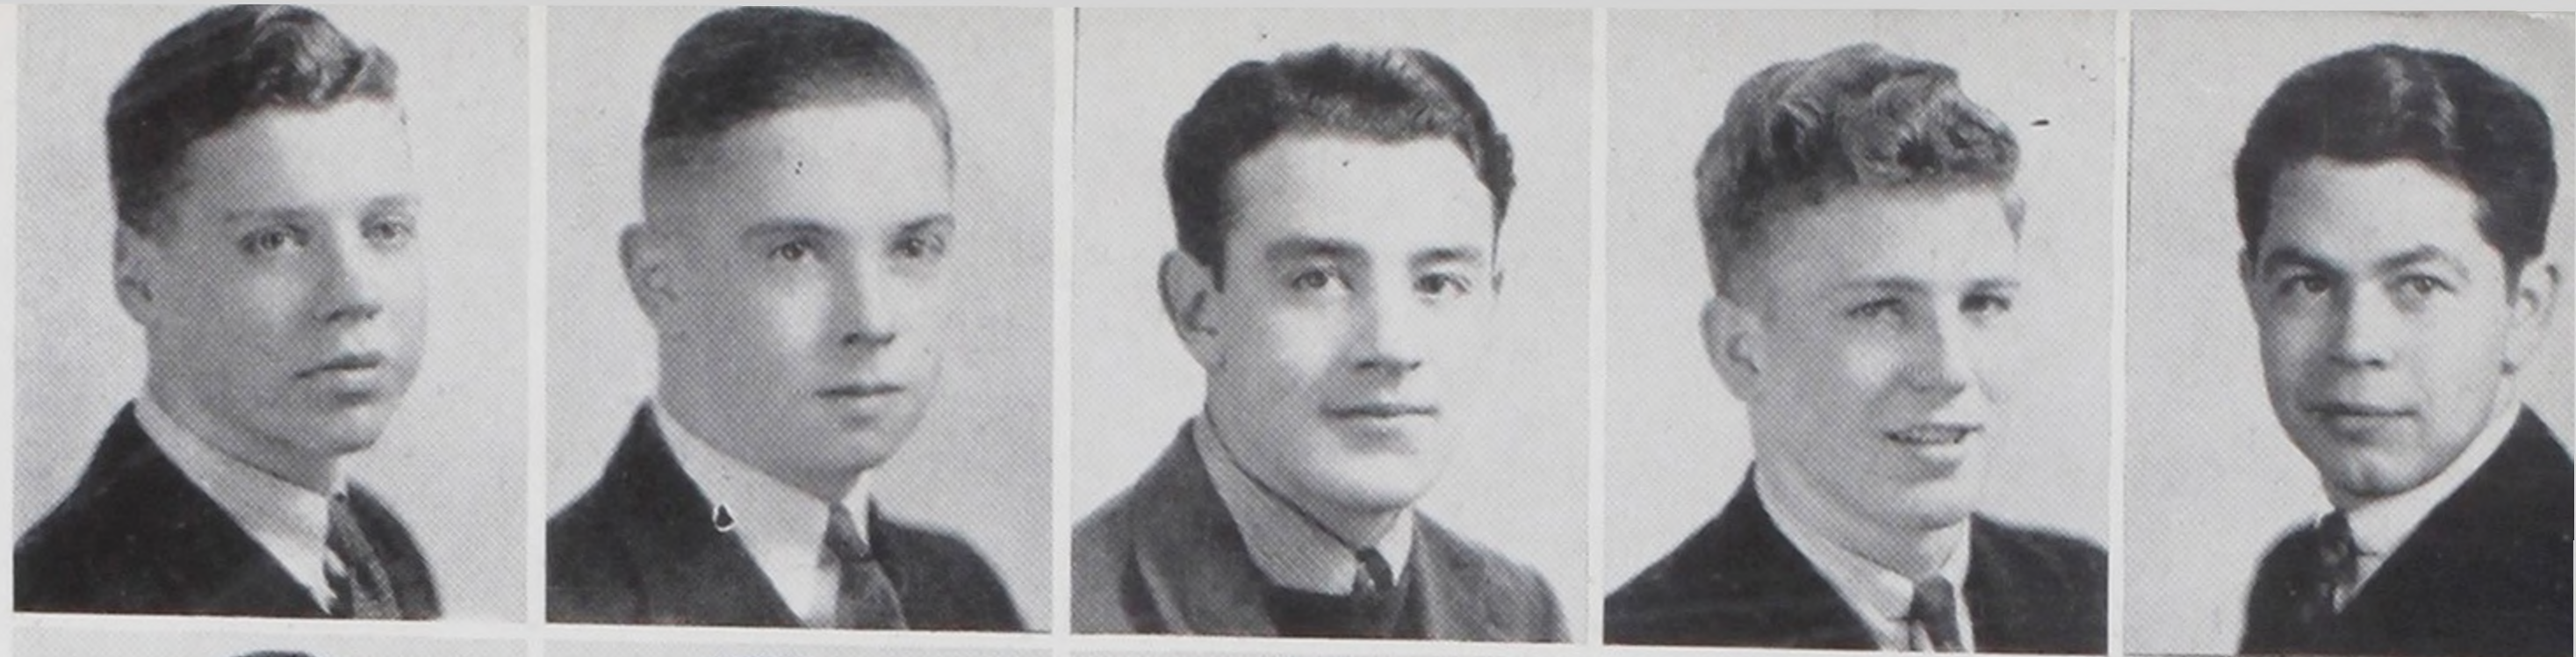

Several different courses are offered in the Woodworking Shop, among them being Cabinet Making, Pattern Making, and Carpentry. The shop is well equipped, and a large variety of work is turned out under the capable direction of five instructors. Practically all technical courses given in Benson require some work in this department, and all patterns used in the Foundry are made in this shop.

Instructors in this shop are F. G. Benson, foreman, B. J. Kuhns, Bert S. Sparks, Oscar Holmquist, and Birger Arnbom.

### THE FOUNDRY SHOP

Time in the Benson foundry is divided between class work and foundry practice, and the students are taught the composition of various metals and alloys. Casting is done several times each week, and metals melted include bronze and copper, aluminum, and iron. Molding and flasking and care of sand are given the student also. Most of the patterns used are made in the Benson Woodworking Shop, and the finishing is completed in the Benson Machine Shop.

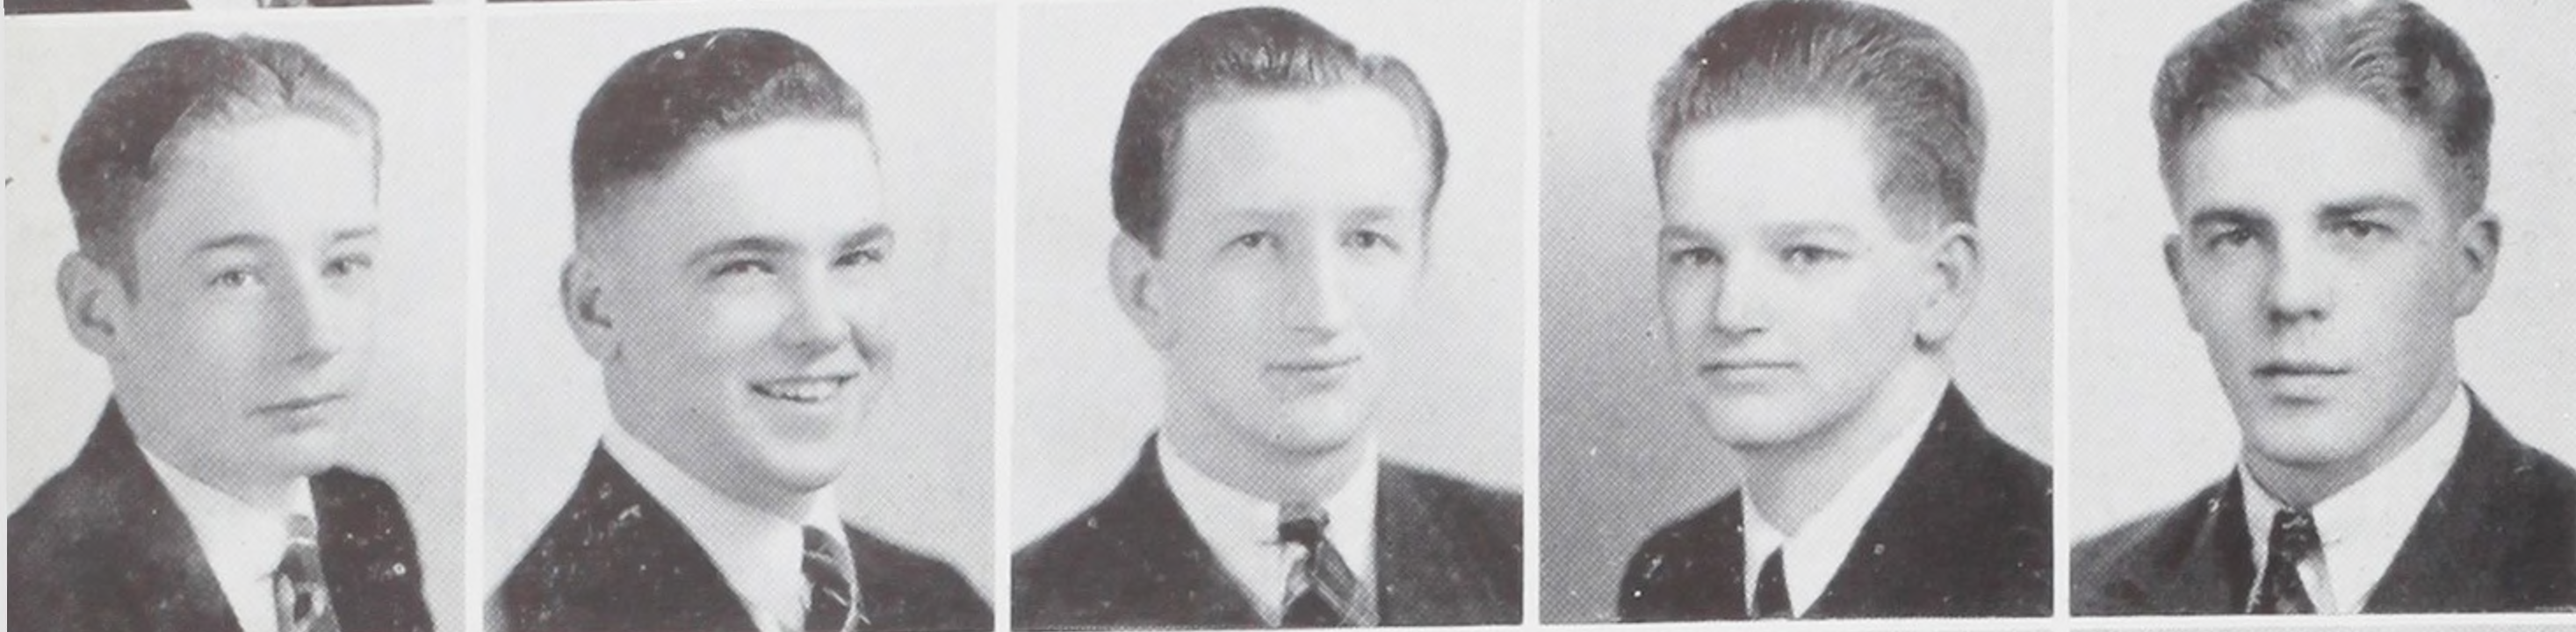

Instructors are W. D. Haskell, foreman, and Charles Hadley.

### THE MACHINE SHOP

The Machine Shop is the largest shop in the school from the standpoint of the number of machines. Nearly every variety of machine to be found in any commercial plant is in daily use in this part of Benson, and the large majority of boys who attend this school spend some of their time in the Machine Shop.

Instructors in Machine Shop are Claus Messing, foreman, Frank Battaglia, George Cross, Harry Matheson, Gear Caspar, Kenneth S. Lee, Harold Oakes, and J. D. Sieforth.

### THE PLUMBING SHOP

The Plumbing Shop is a three-story skeleton building in one room, where the prospective plumbers and boys taking the technical building course may receive actual practice as it is performed in the construction trade. All necessary materials for actual construction are furnished and the boy has the opportunity to perform work from roughing-in to finishing. Space is provided for sketching-in from plans, and boys learn blue-print reading.

Instructors are Gilbert Drynan, foreman, and Edwin Widmer.

## THE BONNEVILLE DAM PROJECT

Bonneville was selected as the site of the first of a series of dams which, it is expected, will be built along the lower Columbia River. A map of the site is on page 36, and will show the main dam on the Washington side of the river, while the power house is located on the Oregon side.

The dam itself is constructed of reinforced concrete, and the width of the base is 200 feet, while the height above the lowest foundation is 176 feet. There are eighteen gate openings of 50 feet in width each, making the length of the dam proper 1090 feet. The normal pool elevation of the water behind the dam is 72 feet above mean sea level. The spillway is designed to carry a greater volume of water than has ever been known to come down the Columbia. Pictures of the spillway may be found on page 63, along with a view of the practically completed project.

Commercial fishing on the Columbia River is a gigantic industry, so Our Uncle Sam took care of that matter while he was constructing the dam. On the next page you may see two views of the fish ladders, one showing the construction and the other with water flowing over them. The ladders consist of partitions each 40 feet wide by 16 feet long, and each partition is one foot higher than the one next below, until the water height behind the dam is reached. This system enables most fish to swim right up the dam in a sort of a circle from low to high water. There are also fish elevators in case the run gets too great for the ladders to handle.

There are navigation locks about 500 feet long by 74 feet wide capable of handling ocean liners.

As development of electric power is the principal reason for building of the Bonneville Dam, the power house was built to accommodate six large hydroelectric generating units. The lower bearings of the mighty turbines are fifty-eight feet below sea level, and these bearings are nine feet in diameter, built in sections which can be removed if any trouble develops. The turbines are driven by runners twenty-three feet in diameter, and will generate 60,000 horsepower each under a 50-foot head of water.

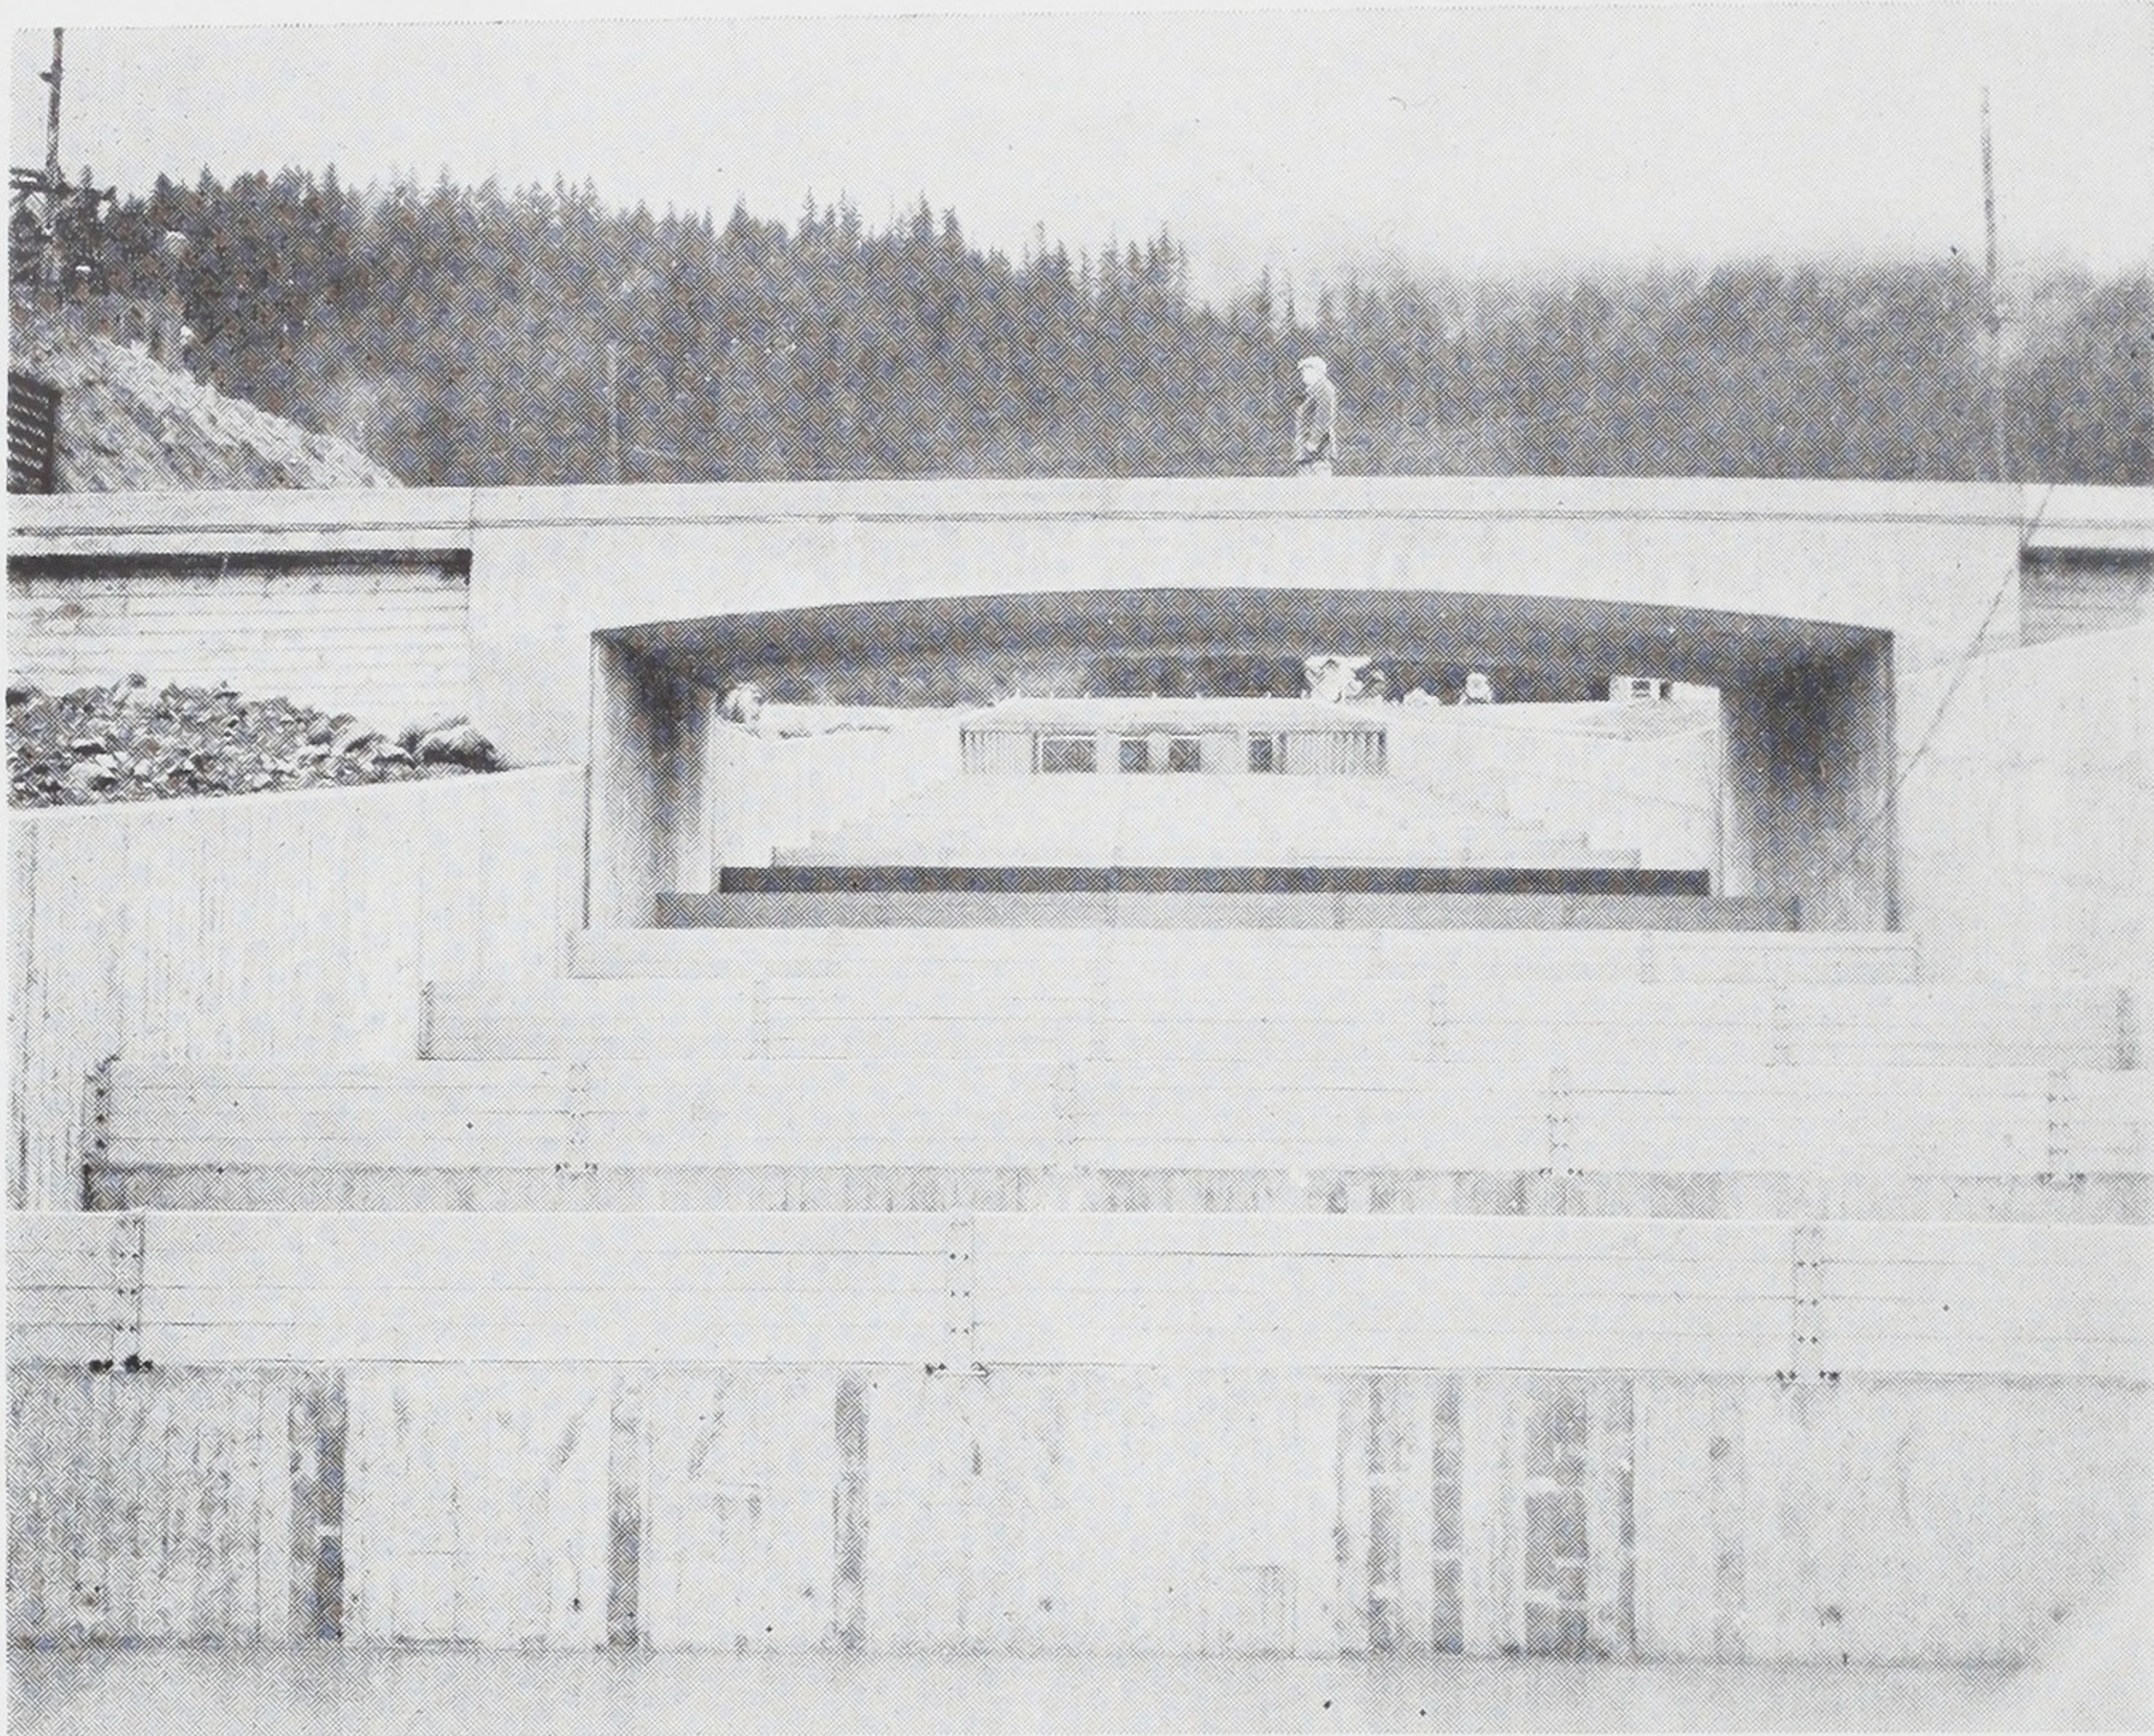

Two turbines have been installed at present, and installation work is being done so that the others will be in operation before many more months roll by.

A service roadway runs across the top of the dam, and gigantic cranes traverse the dam to raise any of the gates from their positions in case of trouble. If it becomes necessary to raise any of the main gates, there are auxiliary gates to lower on the upper side of the dam while repairs are being completed.

The whole project is an inspiring one, and well worth the time to visit. The United States Army Engineers have one more big job to their credit, and the big dam will add much to the resources of the Pacific Northwest.

## "THE NUT FARM"

Friday evening, April 12, the June '40 senior class play, "The Nut Farm," was presented to a large, critical, and appreciative audience in the Benson Auditorium. The play was under the able direction of Mrs. Doris Smith assisted by Miss Lydia Pliter and Phil Young, stage manager.

The story revolves around Willie Barton, a youth, with a hidden talent for motion picture directing who attempts to save the fortune of his brother-in-law, Robert Bent from the itchy palm of Hamilton T. Holland, studio executive. Willie falls in love with Agatha, beautiful but dumb neighbor girl just out of seminary. The play reaches a climax when Willie is trying to save the picture made by his sister and involving all of Mr. Bent's money with which he had planned to buy a nut farm in California. Willie is accused of running off with the money and his girl friend, but to everybody's relief he shows up with money, girl, and a film,—the original idea behind his rather involved plot.

Mrs. Bent is still convinced despite the failure of her picture that she is destined to become a highly successful actress and make oodles of money for her husband.

The most amusing highlight in the entire production occurs in the scene depicting several travelers stranded on the desert and struggling to reach safety from the Bedouins. Butcher knives fly; and wild is the horse act put on by Ezra and J. Clarence Biddeford, a retired Iowa farmer and script writer respectively.

Leonard Fiske was originally scheduled to play the part of Willie Barton, but because of an emergency appendectomy he was replaced by Don Drugan who did a very successful job of learning the part.

## CLASS HISTORY

Four years ago in September, 1936, Benson was the center of interest for nearly four hundred eager and awe-inspired freshmen. Many of those present wanted a chance to learn a trade and thus go out into the rapidly industrializing world better equipped to make a suitable living.

The Senior Class itself was not organized until late in the fall term of 1939 by Principal C. E. Cleveland who at that time introduced the class advisers, Miss Frances Elmer and Mr. Birger Arnbom.

Officers were elected as follows:

Guy Desimini .....	President
Leonard Greger .....	Vice-President
Del Schroer .....	Secretary
Lynn Hadlock .....	Treasurer
Joe Puppo .....	Sergeant-at-Arms

The class officers immediately started the business routine necessary for a large graduating class.

The Class Play, "The Nut Farm," was presented to a large and critical audience on the night of April 12, 1940, in the Benson Auditorium and was pronounced a huge success.

Class Colors—Royal Blue and Gold.

Class Flower—White Carnation.

Class Motto—Courage and Determination Constitute Success.

## CLASS WILL

Know All Men, we the June Class of 1940, allegedly of sound mind, do gratefully will the following:

### Section I

#### Article 1.

To the faculty we leave an expected sigh of relief.

#### Article 2.

To the freshmen we leave this thought—Don't envy us. We have to start all over again.

#### Article 3.

Seriously, we leave with inter-mingled feelings of gratitude and reluctance.

### Section II

Individually we bequeath the following:

Len Gregor leaves one well-worn slide rule.

Americo Di Benedetti leaves his long name to anyone strong enough to carry it.

Frank "Flash Bulb" Havercroft leaves his blurred negative to the Print Shop.

Eddie Cancilla leaves his rooter's shirt to Bill Prentiss.

Martin Hicks leaves a record of a fine Poly Tech.

Will Trumbull leaves with the echoes of "Sugar Blues" resounding in our ears.

Leonard Fiske leaves his operation to the next leading man.

Bob "Boomer" Westover leaves for Westover, Inc.

Stanley Wood leaves a long trail of crack-up gas models.

Robert Mecum leaves the Hornet engine safe in the hands of the Aviation Shop.

Guy Desimini leaves with the rest of us.

Ed Holden leaves for Oswego.

Dick Shaw leaves his bewitching smile.

Frank "Gabby" Gambert leaves a little wiser, and much older.

Bob Kiesel leaves his political abilities to the future officers.

Pete "Punchy" Gilson leaves for Oregon State.

Caldwell Hamill leaves to become a stenographer.

Ben "Ace Minuteman" Kelly leaves a splendid collection of 100% signs.

Len Barde leaves as a convincing success.

Jack Sieforth leaves the Tech Pep better than he found it.

Arnold "Chorus Gal" Siita leaves his lovely dance routine to the next senior assembly.

Bill "Scotty" Gray leaves, picking up his kilts and bagpipes.

Bob Delzer leaves behind a fine performance as Hamilton "Snake" Holland.

Art Yerkes leaves his role as Bob Bent to return to Gloria.

Lloyd "Pinky" Whiton leaves the Cavaliers club with a glorious past record.

Chuck Groshens leaves wondering which way the milers ran.

Ray Fresh leaves for Washington and F.D.R.

This is where we came in—let's leave.

#### INTERNATIONAL CLUB

The purpose of this organization is to study foreign affairs so as to have a better understanding of the people of other nations and promote good will among them. The members are Hicks, Bartline, Zimmerman, Palumbo, Ryan, Bremmer, Kurtz, Nickson, Christenson, Reinland, Greber, and Auguston. Mr. Bowles is adviser.

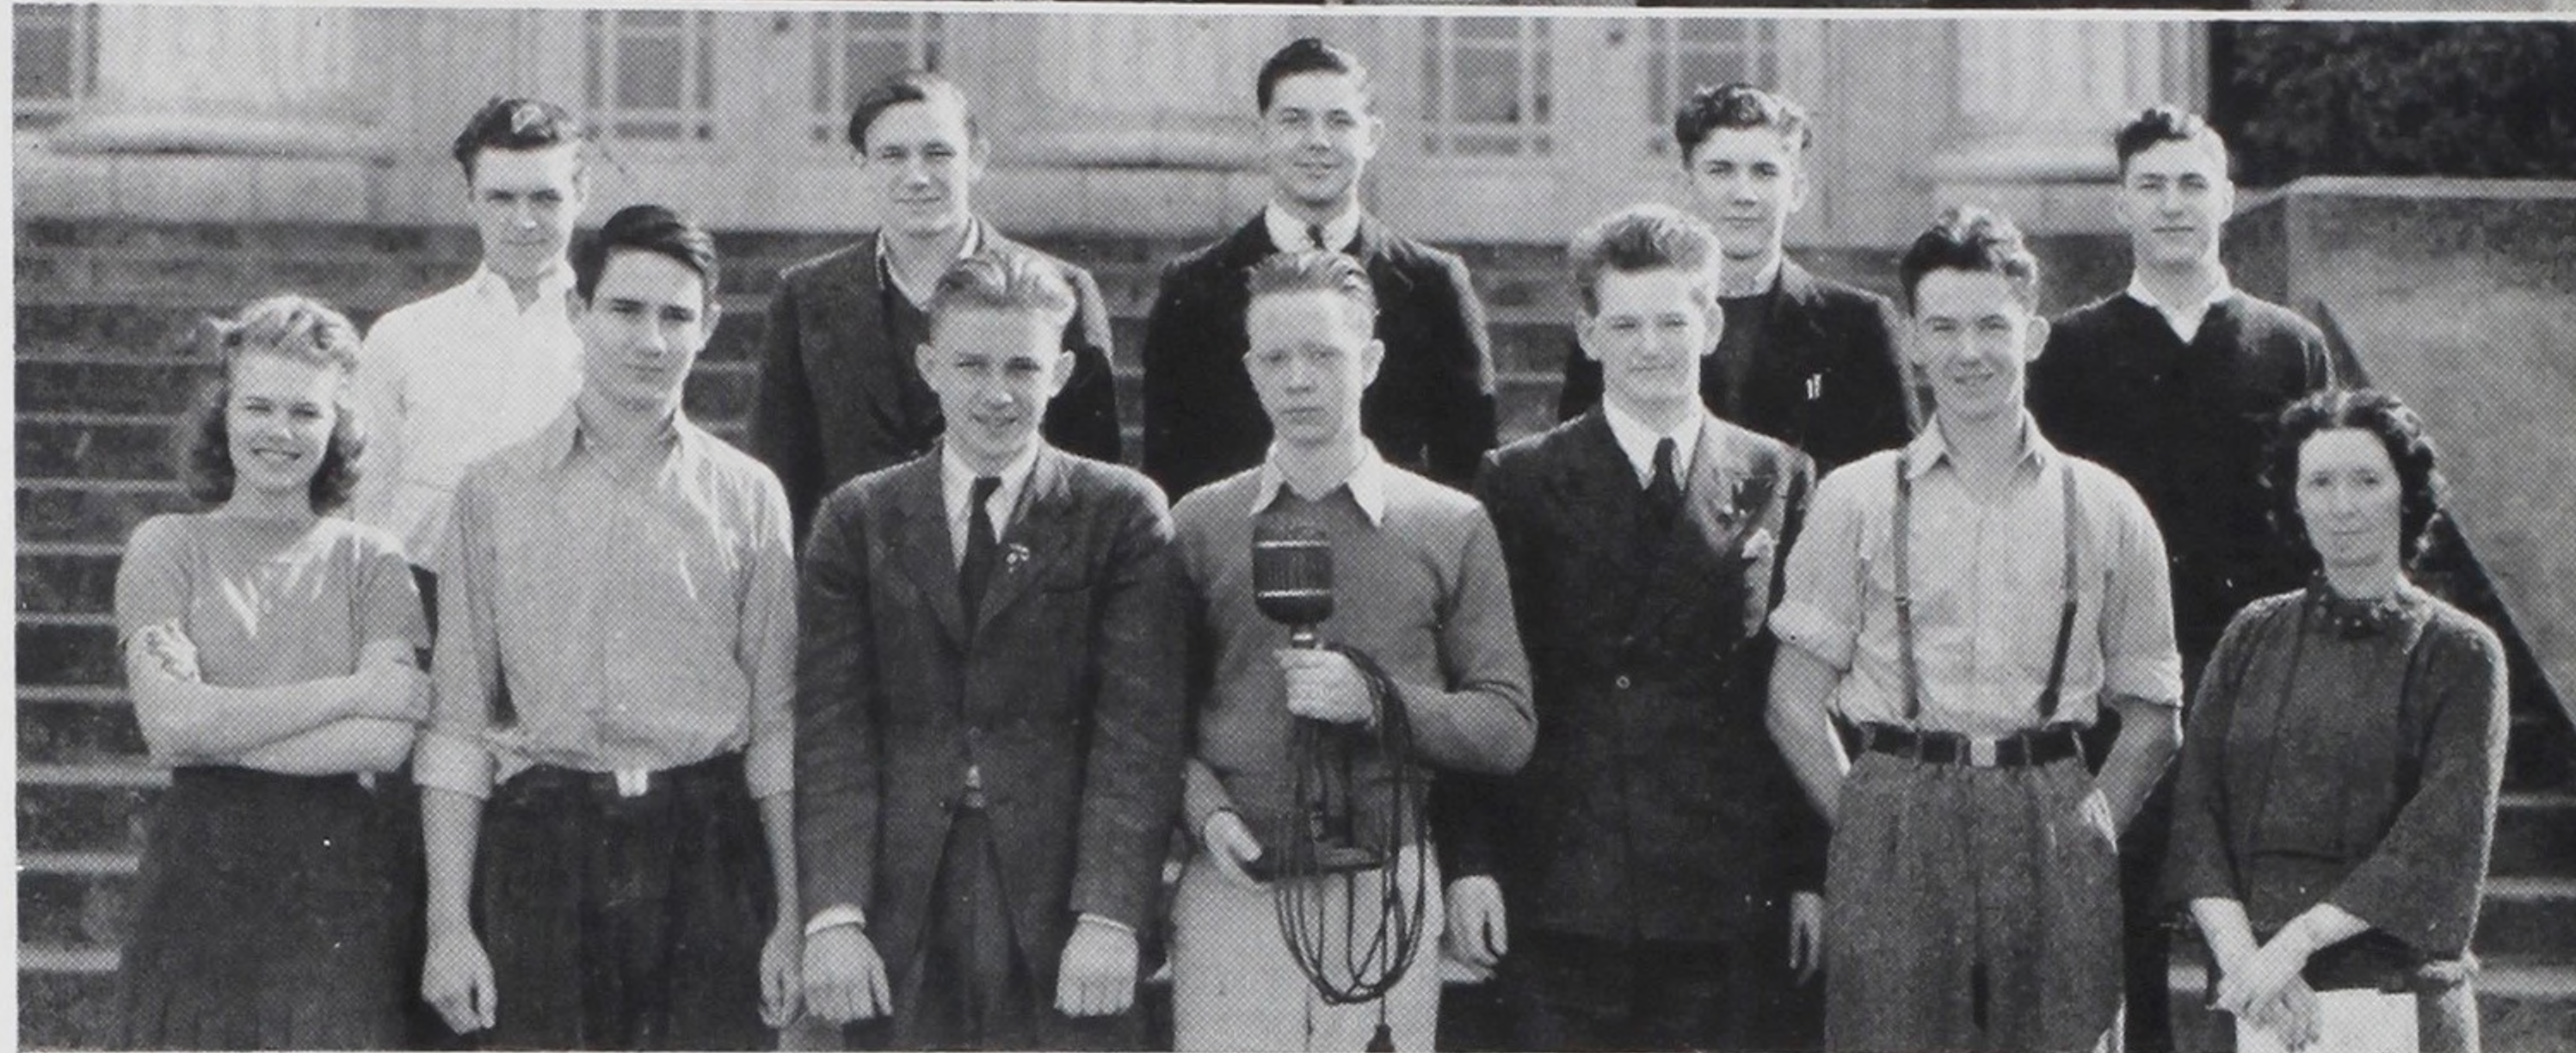

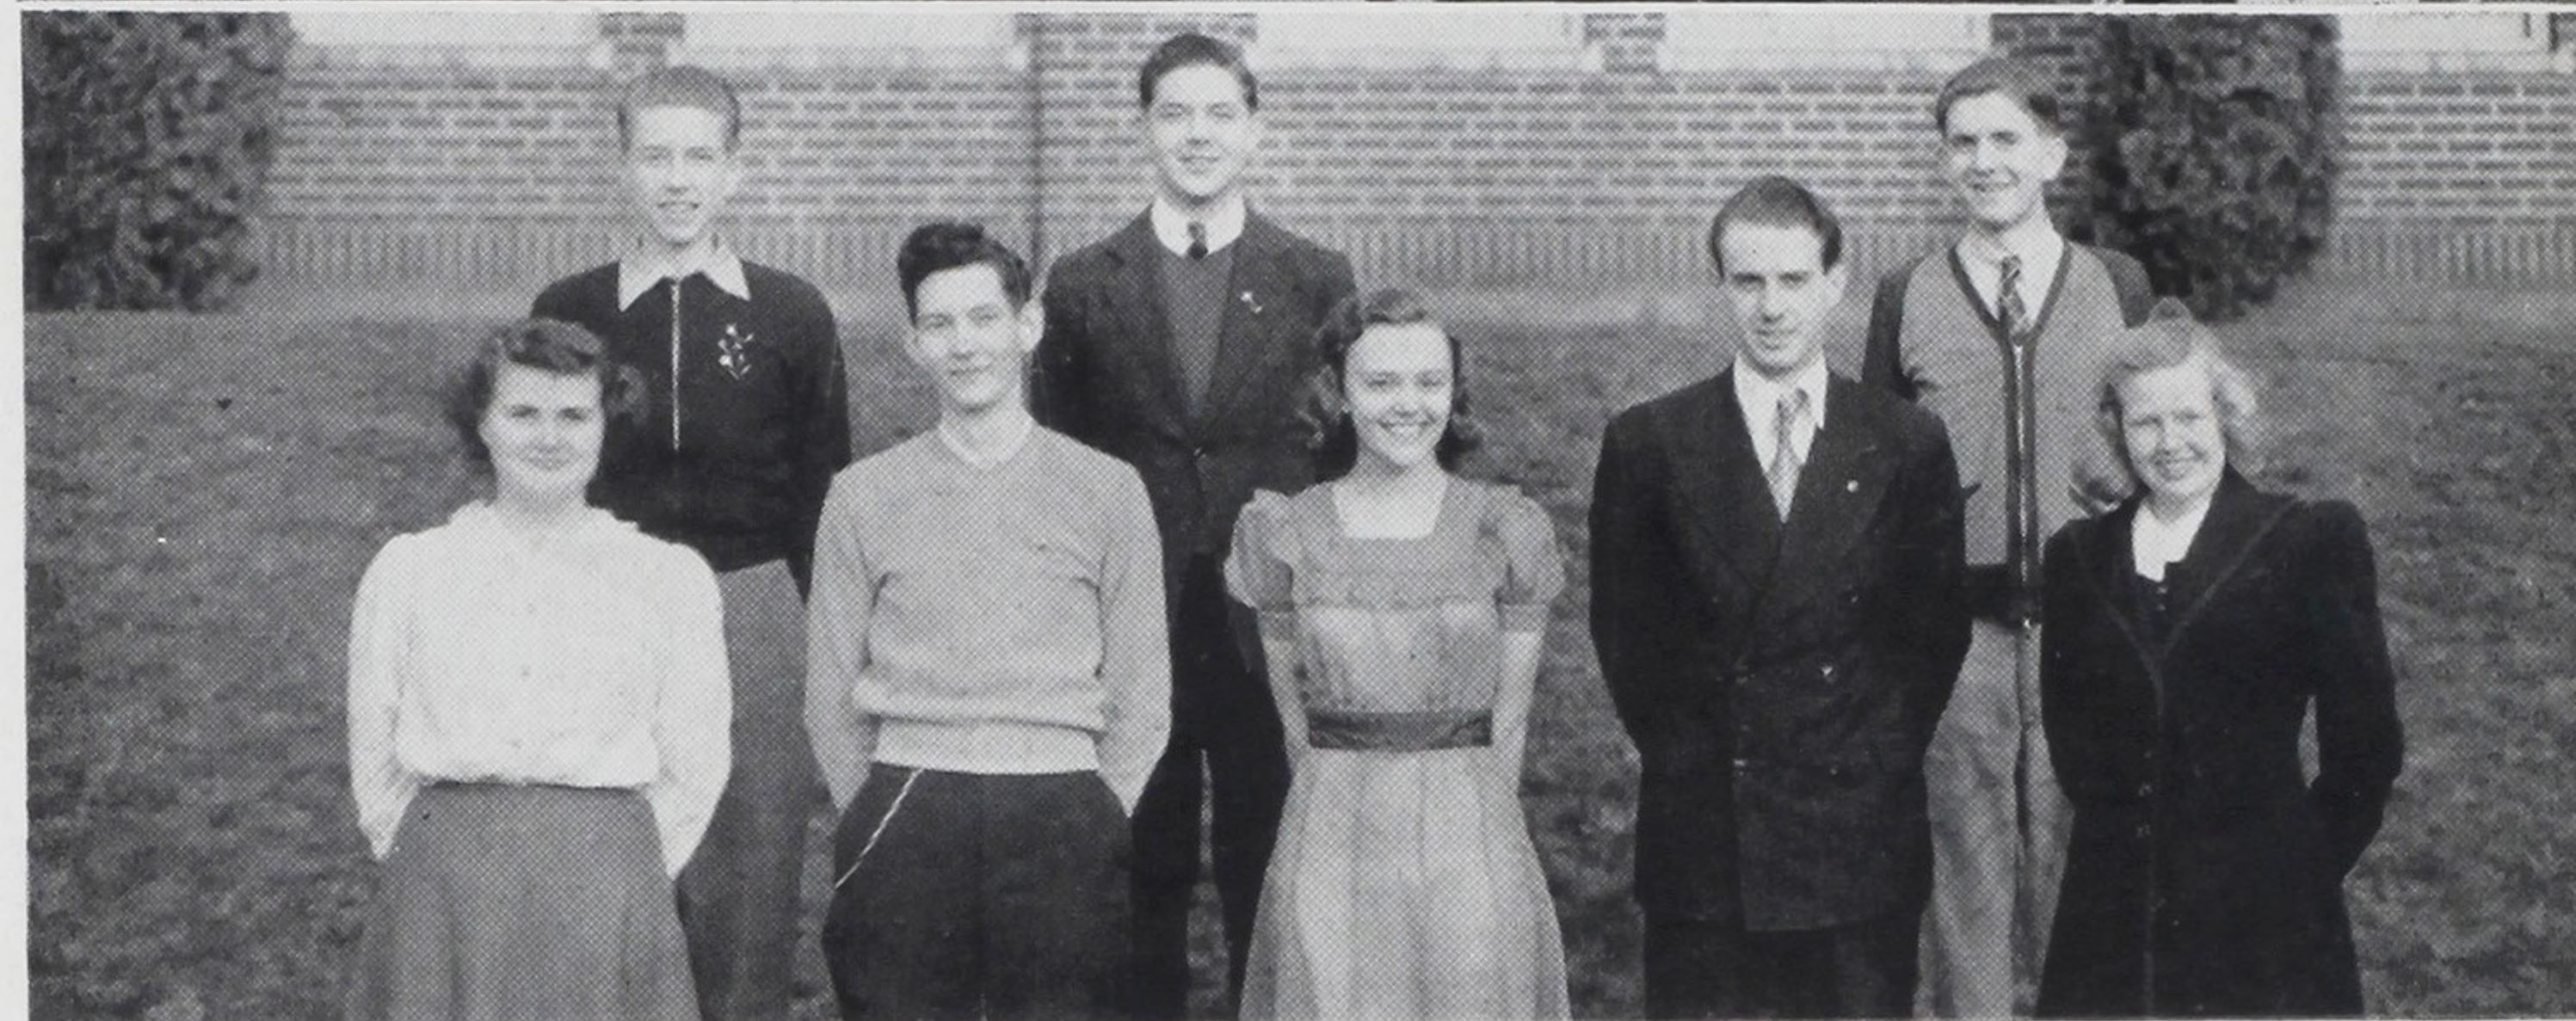

## *Usher Corps*

## *KBPS Radio Staff*

## *Class Play Staff*

### USHER CORPS

The Usher Corps consists of a group of students who help the boys and their seats during assemblies and are on duty serving the public during graduation exercises and other school activities. The members are L. McCormick, Blettel, Rogers, Browning, Delzer, Day, Guarnero, Hicks, Rhoades, Siita, E. McCormick, Mason, Gitschlag, Klinge, Carneau, Swaren, Lord, McDowell, Eyler, Hussey, Jones, Wiler, Heard, Fiske, Hawley, and Walker. Mr. Sieforth is adviser.

### RADIO K.B.P.S.

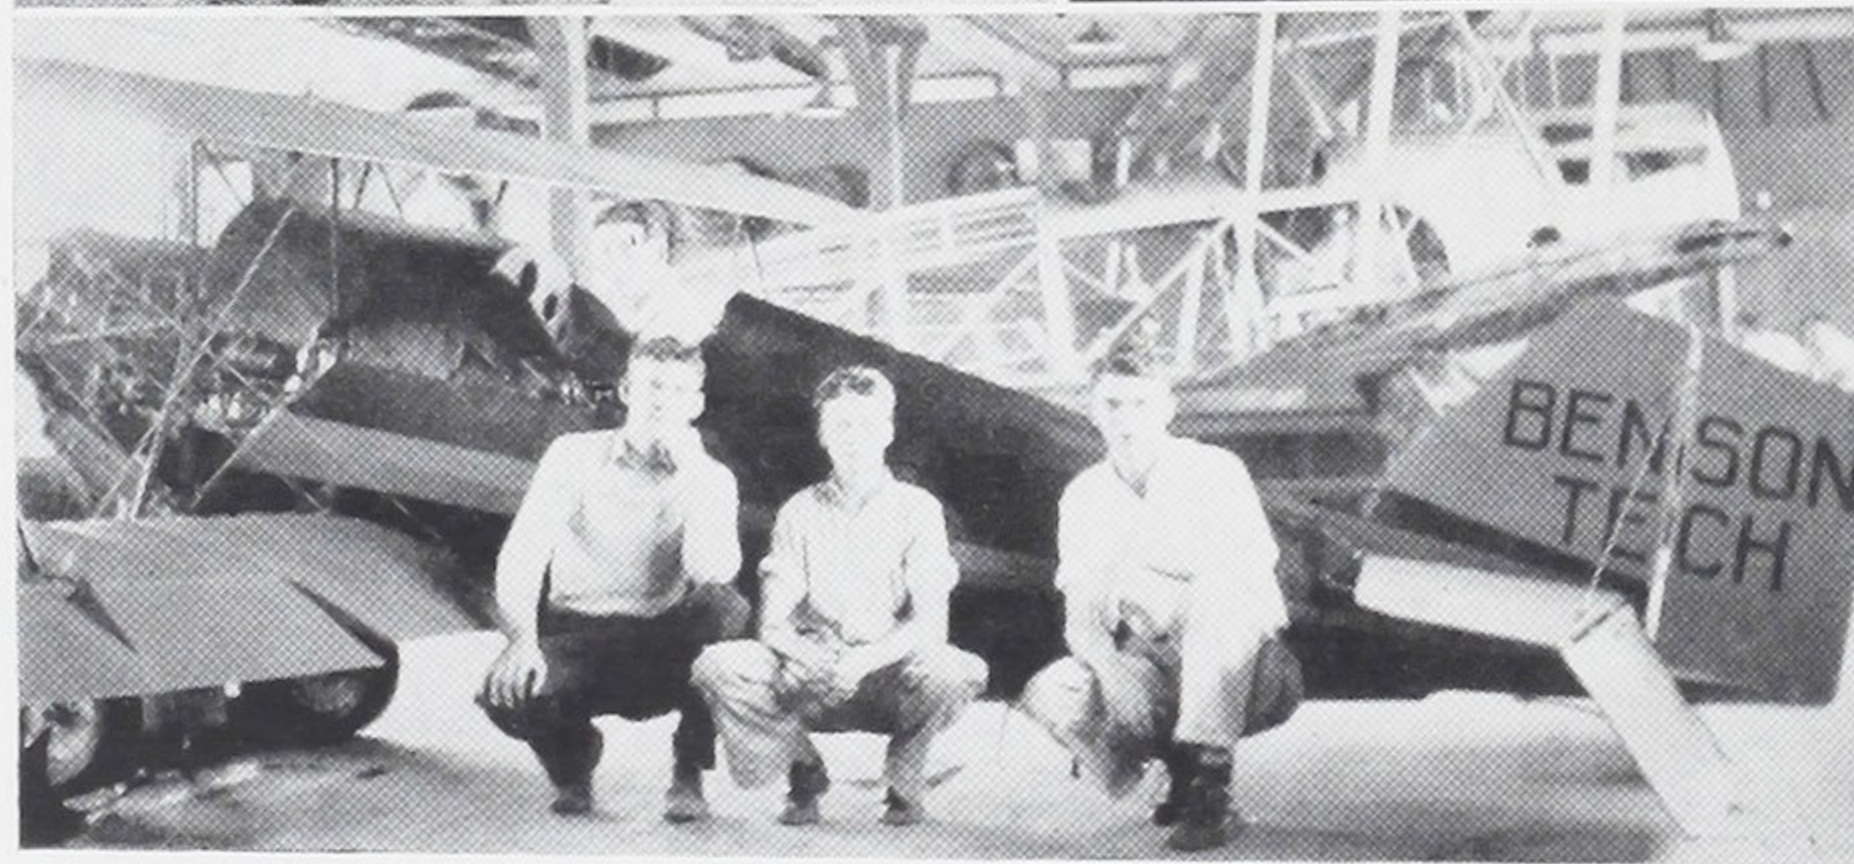

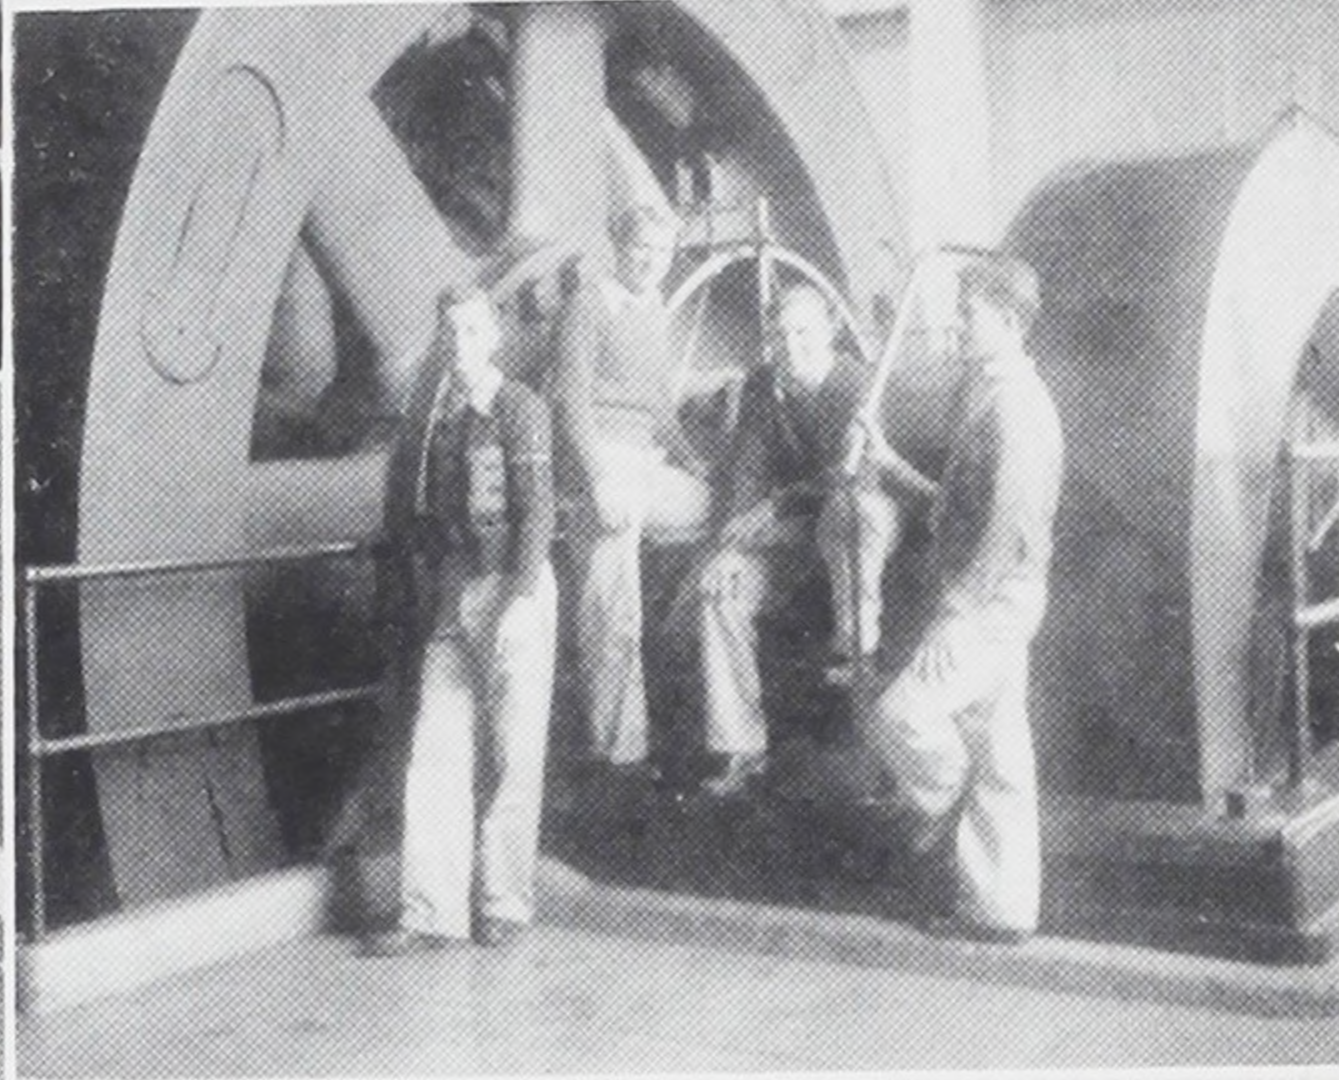

All boys who are connected with the operation of the broadcasting station, such as electricians, control room operators and announcers take part in the broadcasting of all city school programs and Benson assemblies. This roster includes Johnson, Cunningham, Struck, Post, Hadlock, Sloan, Zanders, Day, Delzer, Weibe, Meyers, Miss Kenyon, and Miss Van Volkenburg. Mr. Fred Miller is adviser.

### CLASS PLAY STAFF

The Senior Class chose "The Nut Farm", a rollicking comedy, in three acts, for their June 1940 stage production. It proved to be a great success with a large attendance and fine display of dramatic ability by members of the cast. Girls in the cast were chosen from other schools in the city. The original cast pictured above consisted of Gossler, Fiske, Ostroot, Yerkes, Pearson, Hurst, Delzer, Havercroft, Fresh, and Drugan.

FLOOD TIME

## BASKETBALL

Coach Marineau is justly proud of the 1939-40 Varsity Basketball team for their fighting spirit that lasted all through the season, although theirs was a losing fight.

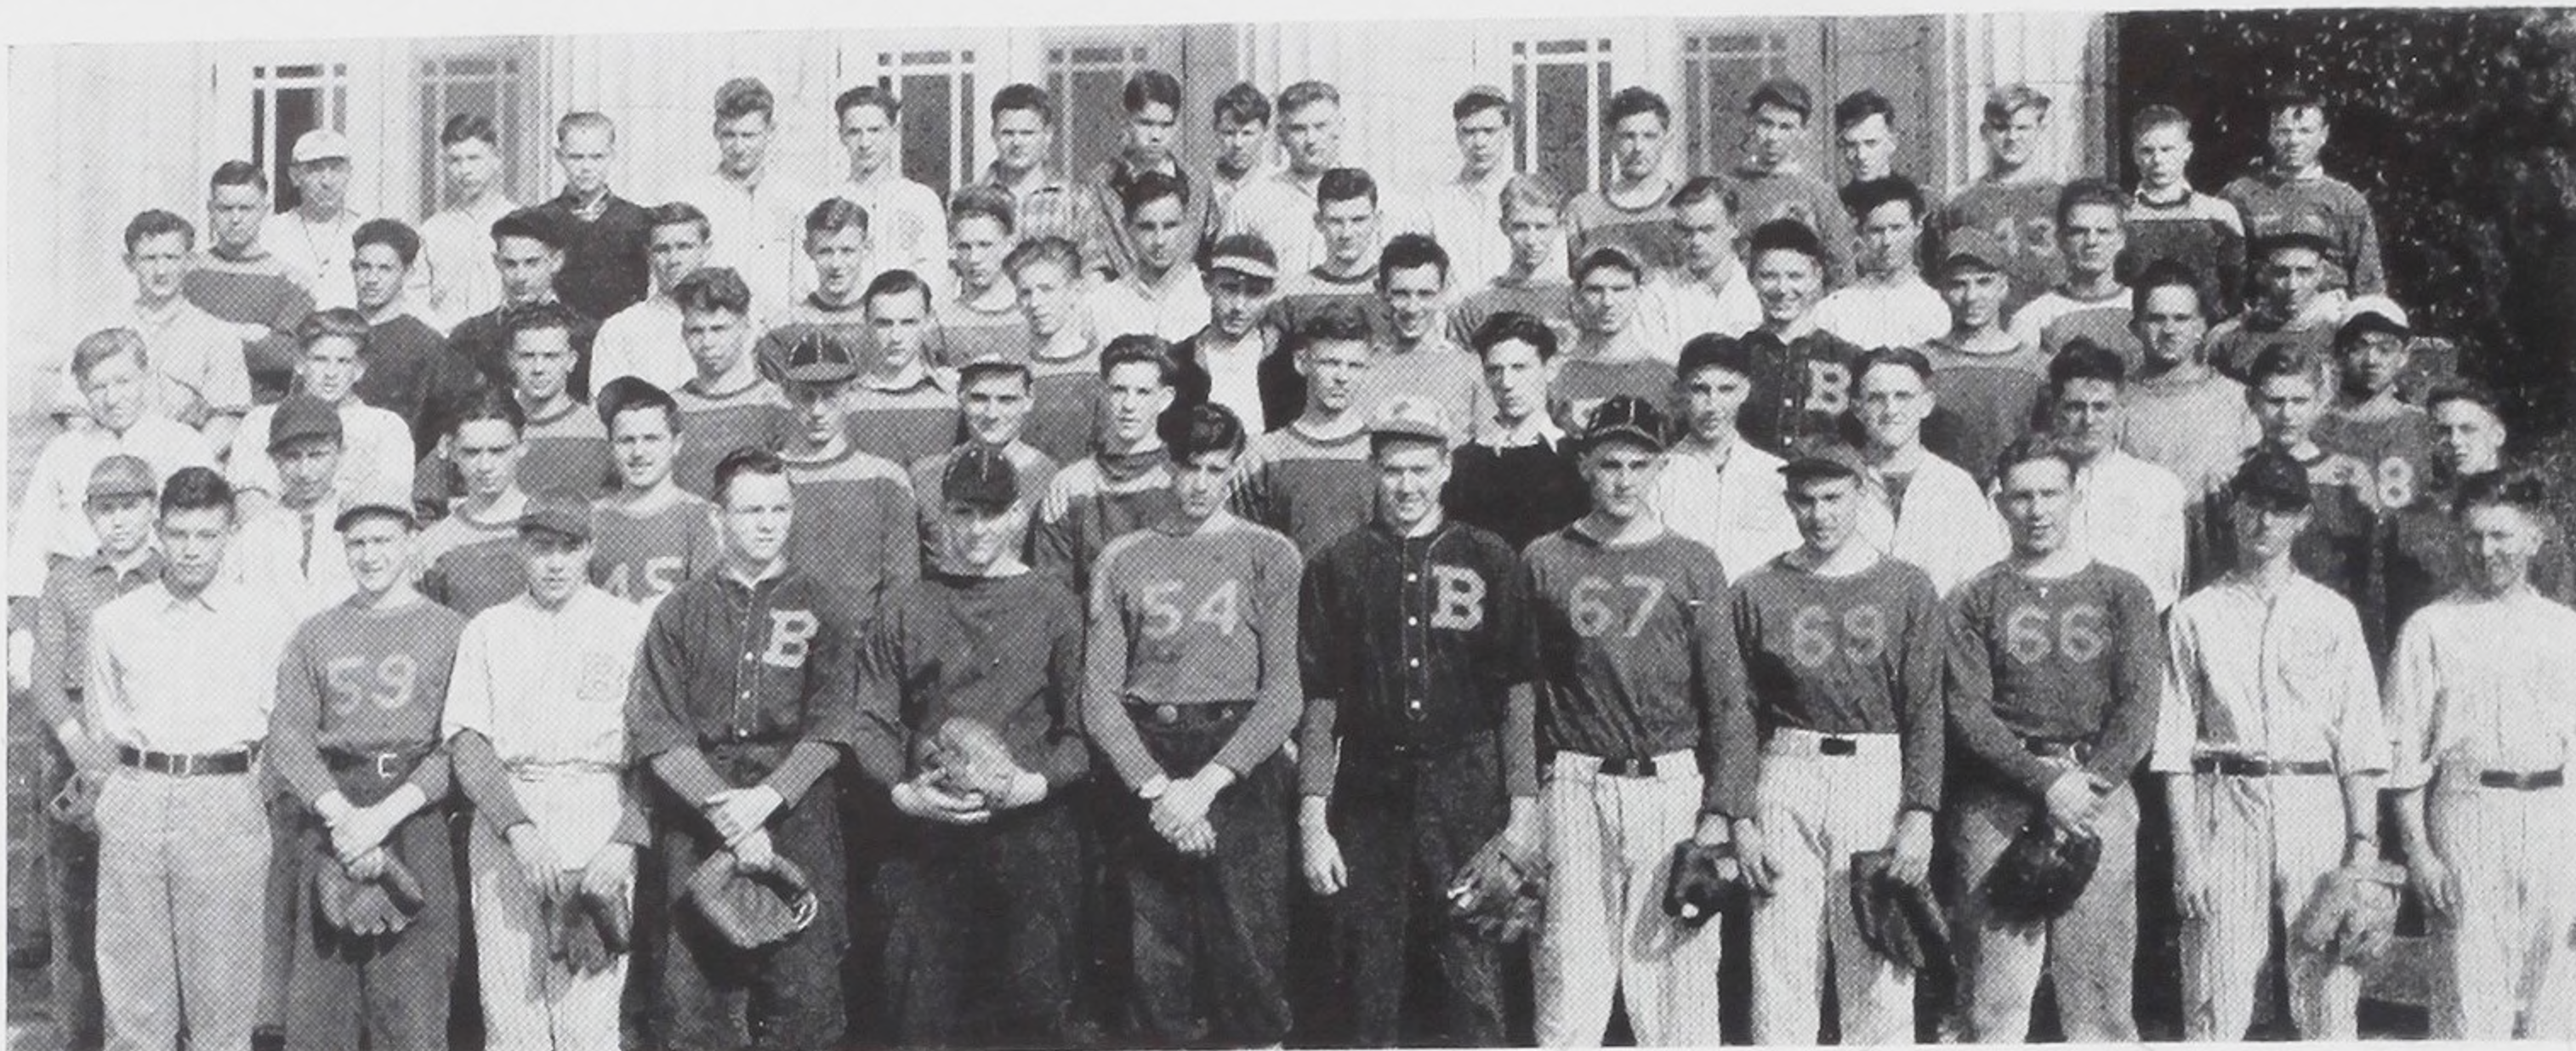

The highlight game of the season was played with Washington, Benson winning by one point after a six-minute overtime period, the score being 29 to 30. As this game was played in the latter part of the season, it shows a great improvement in the Benson squad.

The lettermen for the year are Leonard Barde, Ernest Zanni, Jack Jernander, Martin Kombeitz, Edgar Lee, Arnold Oathes, Bob Rankin, Dean Sempert, Bob Wiess, and Dick Shaw, manager.

The season game by game score is as follows:

Franklin 34 .....	Benson 30
Edison 24 .....	Benson 43
Jefferson 35 .....	Benson 16
Grant 27 .....	Benson 14
Commerce 37 .....	Benson 24
Roosevelt 38 .....	Benson 21
Lincoln 53 .....	Benson 39
Washington 20 .....	Benson 26
Franklin 31 .....	Benson 18
Jefferson 36 .....	Benson 26
Grant 30 .....	Benson 29
Edison 17 .....	Benson 47
Washington 29 .....	Benson 30
Commerce 47 .....	Benson 31
Lincoln 34 .....	Benson 38
Roosevelt 56 .....	Benson 34

## BASEBALL

Coach Marineau is more than pleased with this year's baseball team, as at the time of this write up they are in second place in the city league. This year Benson's team is the best since the championship team in 1924. Mr. Marineau states that the boys' weakness is the outfield and in their batting. Kiesel and Warren will be a tough combination to beat as pitcher and catcher, as both are four-year lettermen. The boys have been practicing very hard, although most of their time has been spent in the gym as the weather would not allow them on the diamond.

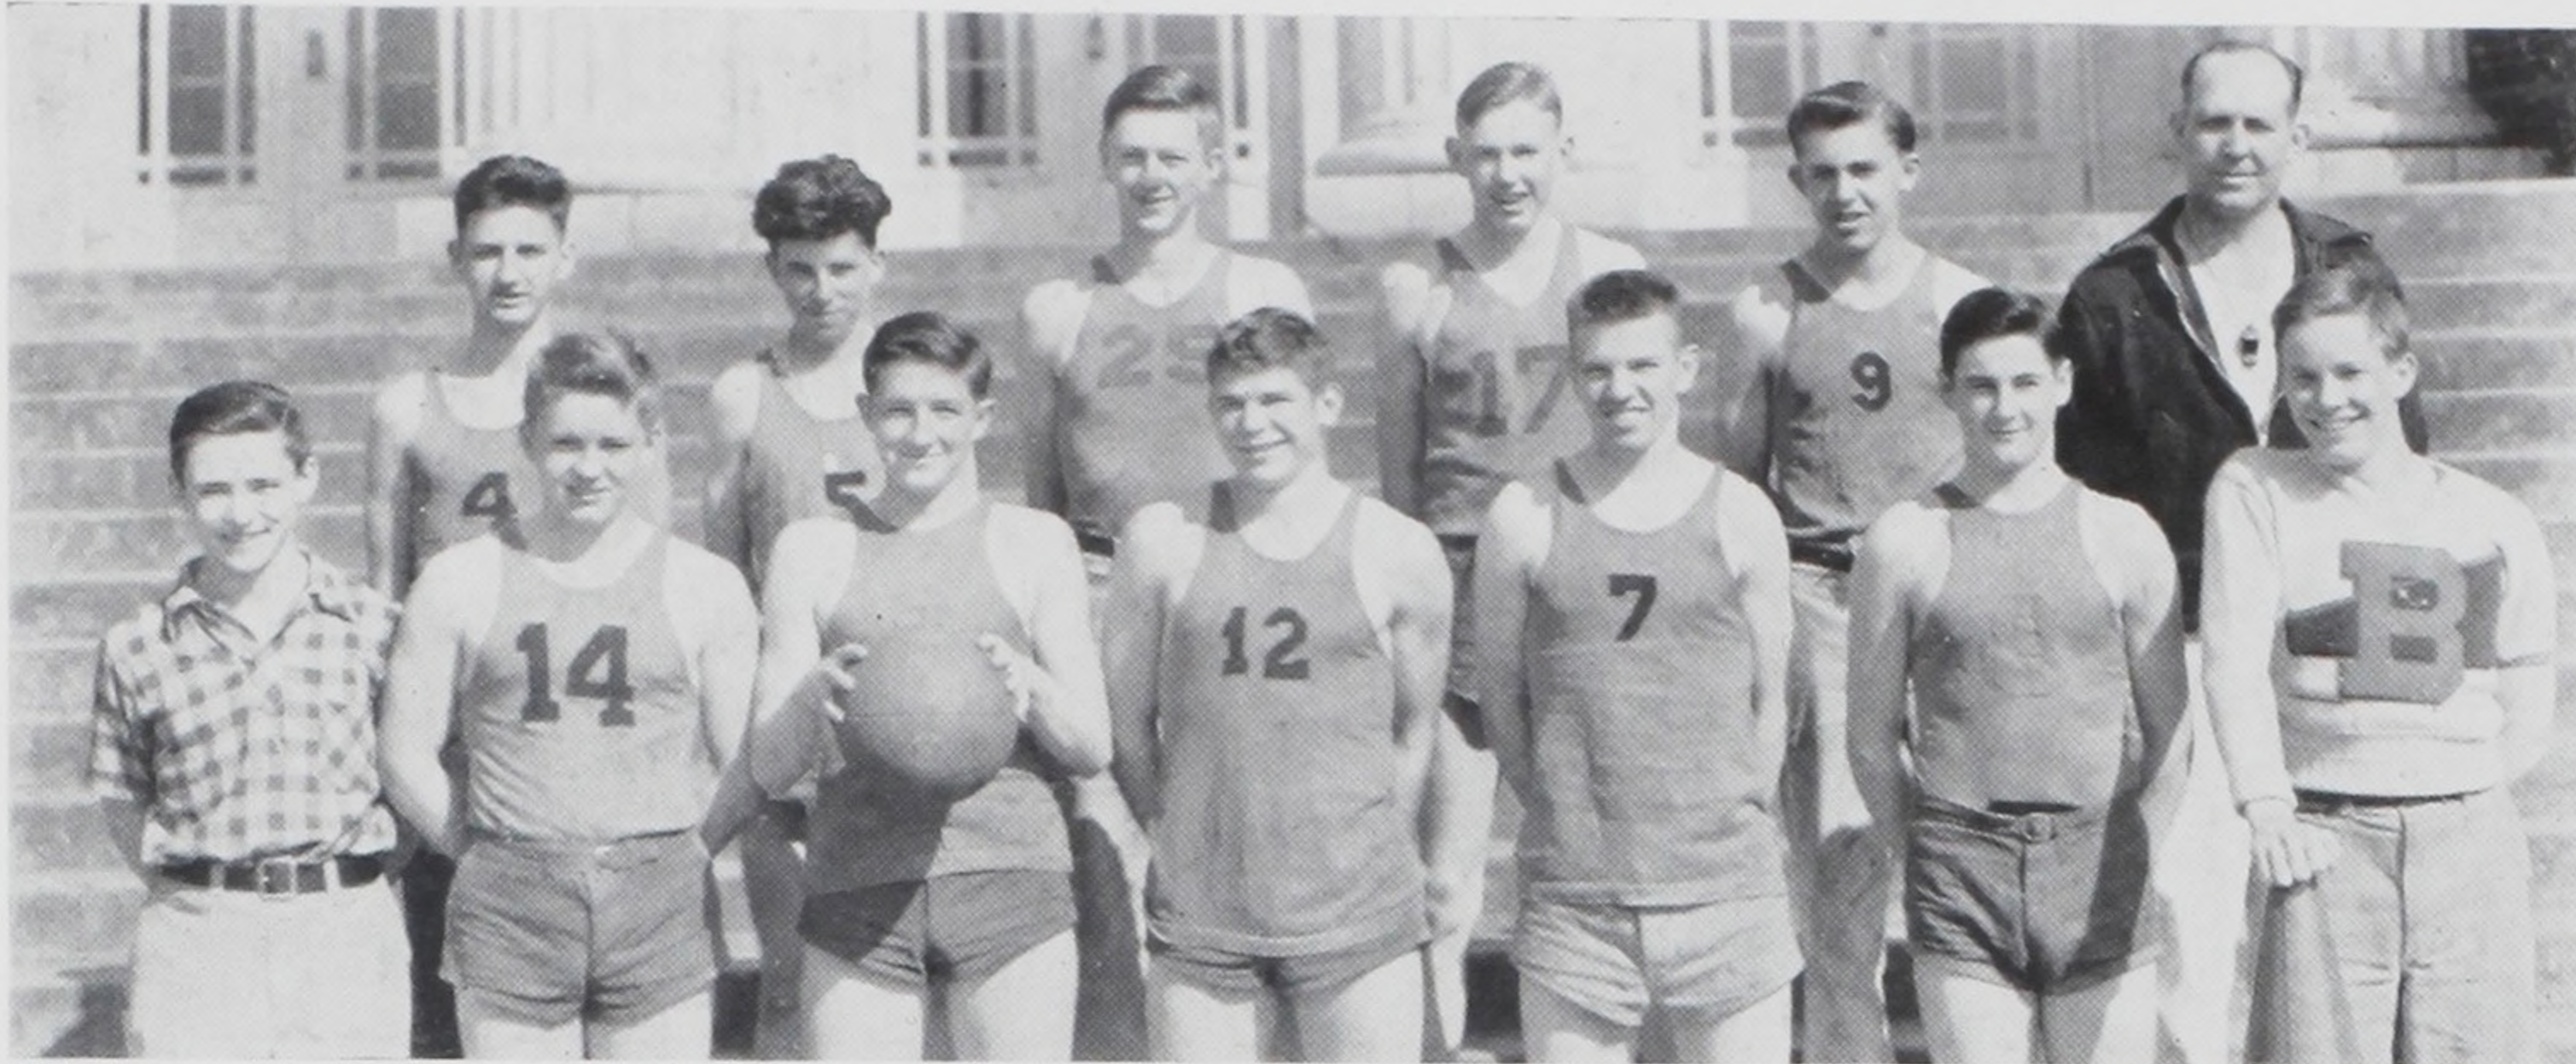

The returning lettermen who made splendid records in '39 are Marquardt, Carnese, Lominsky, Schroer, Emery, Sexton, Dappen, Frahler, and Landrom.

## TRACK

Coach Gerald E. Exley was loud in his praises of the track team, but as the Benson track was in very poor condition the team was handicapped. Therefore if the team fell below standards it was because of the bad condition of the track, as it is in the worst condition than it has been in many preceding years. Many of the boys turning out for track were members of the track team last year. Benson was the only school in Portland to win two races in The All-City Relay Meet held in April. Pettit, Turner, Smith, and Dubay composed the winning team of the 440 and 880 yard relays. The Tech track team is strong in sprints, fair in distance, but poor in field. The victories in the all-city meet gave the Benson boys a great deal of encouragement.

## JUNIOR BASKETBALL

The Benson Juniors ended the season near the top of their basketball league, losing only four games and bringing home twelve. The four games lost were to Franklin 30 to 27; Lincoln 25 to 20; Washington 27 to 24, and Grant 30 to 18. Benson trounced Edison 32 to 8; Jefferson 32 to 30; Grant 20 to 15; Commerce 42 to 17; Roosevelt 24 to 17; Washington 36 to 28; Franklin 30 to 18; Edison 22 to 14; Roosevelt 30 to 25; Lincoln 24 to 23; Jefferson 17 to 15, and Commerce 46 to 36.

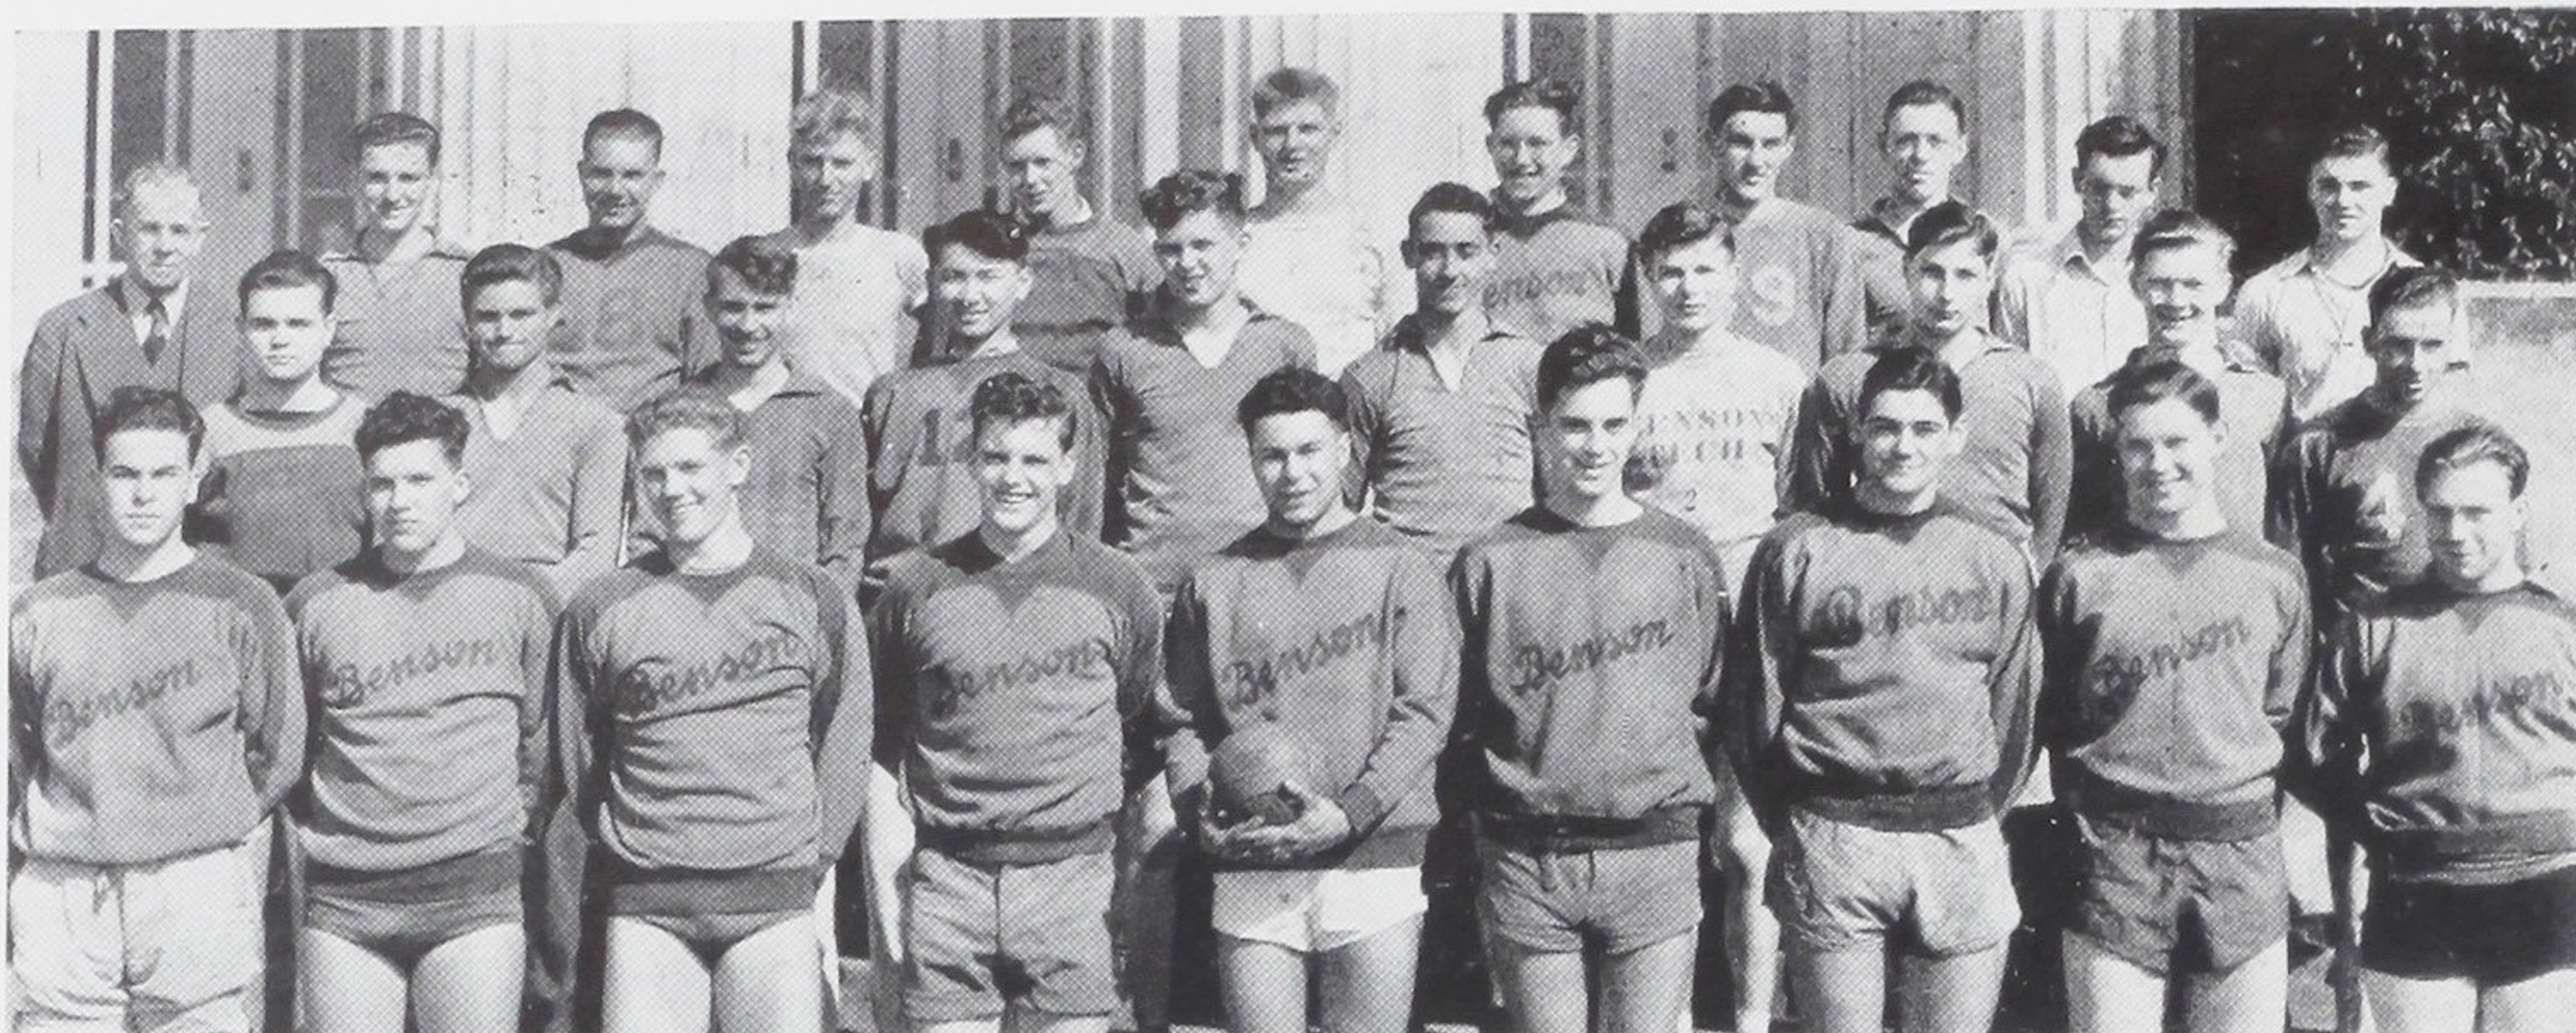

High point man for the year was Floyd Otness who scored 113 points or one third of all the points scored by Benson. Second honors went to Dan Pistoressi with a score of 103, followed by the rest in order of their score rankings: Ted Dern-Bach 97, Edwin Larson 59, Jack Detour 57, Bob Bennett 6, Stewart Norene 4, and Dick Bisenius 2. All of these boys have earned letters and Coach Exley is more than pleased with the junior team.

## HOCKEY

For the first time Hockey has been included in the sport's curriculum of the Portland public schools. Benson entered a team in the five-team league and ended the season in second place, playing a total of seven games, trouncing Grant 2 to 1, Jefferson 3 to 2, Franklin 14 to 0, Grant 9 to 1, Jefferson 3 to 1. They tied Lincoln 1 to 1 and lost to Lincoln 2 to 0.

A greater number of teams will enter the league next year, and more games will be played. Eldon Jenne, director of physical education, appointed G. C. Henriksen as hockey supervisor for the league, and he acted as the Benson adviser as well.

## SOCCKER

Coach Drynan had a very successful Soccer team of Benson Ballbooters, winning six games and losing one. The losing game was played with Grant High School with a score of 1 to 0.

The result of their fine playing placed them second in the city meet, but the last game with Commerce, resulting in a 0 to 0 tie, kept the Benson team out of the final play-off.

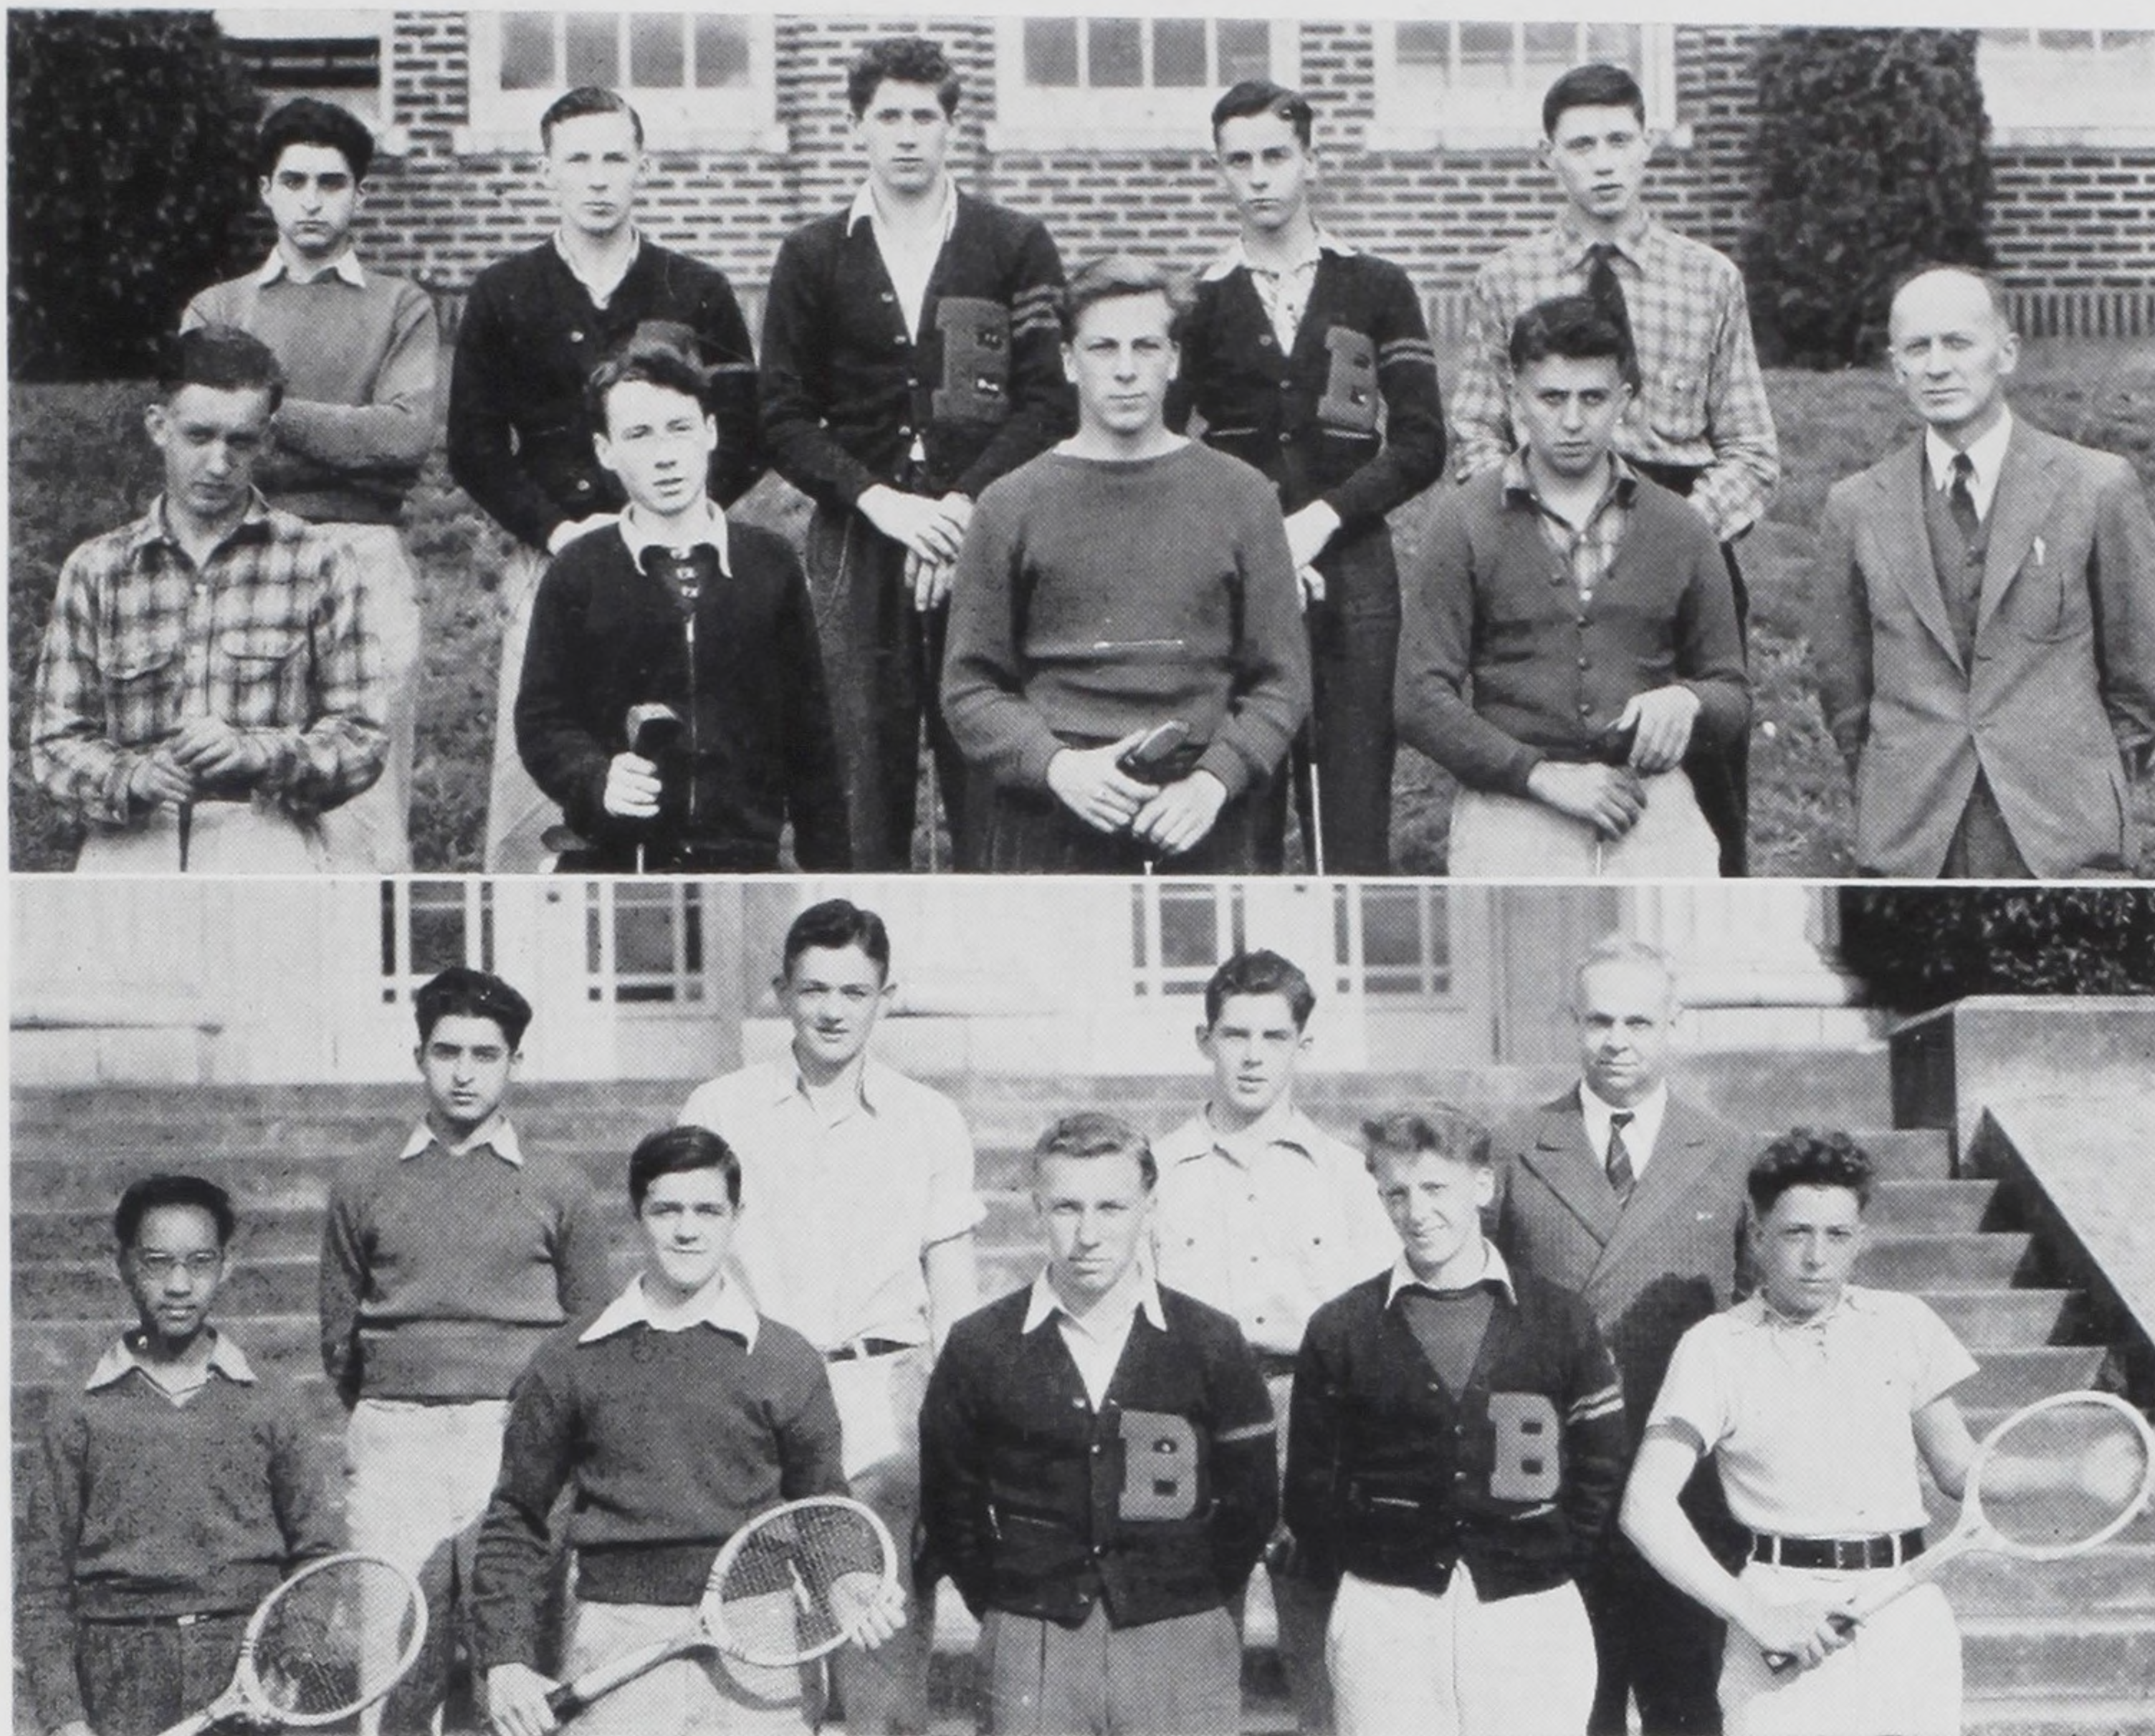

More than seventy-five per cent of the Benson squad are now playing on well known independent soccer teams.

The lettermen for the year are as follows: Kenneth Anderson, George Beil, Don Colahan, Danny Cole, Salvatore Danne, Robert Dubay, Elmer Gilchrist, William Grey, John Harrison, Richard Jaeger, Robert McCammon, Forest Mulkins, Roy Olsen, Stan Pounder, Fredrick Spitznagel, Ben Stangle, Louis Talerico, Robert Turner, Tim Williams, Howard Austin, Frank Gambert, and Walter Bennet, manager.

The season game by game score is as follows:

Jefferson 1 .....	Benson 2
Grant 1 .....	Benson 0
Franklin 0 .....	Benson 2
Roosevelt 0 .....	Benson 3
Commerce 1 .....	Benson 1
Jefferson 1 .....	Benson 1
Grant 1 .....	Benson 1
Franklin 0 .....	Benson 3
Roosevelt 0 .....	Benson 7
Commerce 0 .....	Benson 0
Reed College 1 .....	Benson 1
Reed College 0 .....	Benson 2

## GOLF

The number of turnouts for golf is fewer than any other sports, as the equipment needed is more expensive and more time is needed for practice. Most of the Tech players have made outstanding records in the past. A large percentage of the team comes from the Eastmoreland golf club. Stephens and MacKendrick are the two best golfers on the Benson team. Coach Messing, who is advising the team, is very pleased with the players' form and predicts they will be the best golf team in the city. Although fewer boys turned out for golf, those who are interested are very good as they are really sincere and will go a long way in that field. Gressel and Stephens are the only ones on the team who have played for Benson in the past. It is impossible to give the list of scores and games played as this was written before the end of the season.

## TENNIS

The Benson tennis team has been doing very well this year, although they have only two returning lettermen from last season. The only weakness in the team is in the doubles, but a little more practice will knock off the rough edges and smooth out their defaults. Up to date the weather has been a great handicap as the rains interfered with their practice. Advisor L. L. Oldright predicts that Benson will be on or near the top at the end of the season. Irving Parker has made a splendid record, winning most of his single matches. In the past Benson has turned out many fine players, including Elwood Cooke, Wayne Sabin, Bob Lloyd, and Walt Davis. It is impossible to give the scores of the matches at this time as the season is not yet finished.
